Schedule 3: Springer Hybrid Journals

1. Term

PART A – OPEN ACCESS PUBLISHING

2. Definitions

2.1 The following terms shall have the following meanings when used within these Product Terms, and shall apply in addition to the definitions in this License Agreement:

2.1.1 **"Acceptance Date"** means the date on which the Eligible Article has been editorially accepted for publication in a Springer Hybrid Journal.

2.1.2 **"Approval Date"** means the date on which it is confirmed, pursuant to Section 3.4.3, that an author is an Affiliated Author.

2.1.3 **"Article Processing Charge" ("APC")** means the Licensor's charge for Publishing Services rendered in connection with publishing an open access article in the applicable Springer Hybrid Journal, as specified in Schedule 1.

2.1.4 **"Content"** means, for the purposes of these Product Terms, the Continuing Access Journals.

2.1.5 **"Continuing Access Journals"** means the journals listed as Continuing Access Journals in Schedule 2. The list of Continuing Access Journals is subject to change by Licensor.

2.1.6 **"Affiliated Authors"** means authors who are teaching, and research staff employed by or otherwise accredited to the Licensee or who are students enrolled at or accredited to a Licensee. In the case of articles published by multiple authors only the author corresponding with Licensor at the time of acceptance qualifies as an Affiliated Author.

- 2.1.7 **“Eligible Authors”** means Affiliated Authors who have (i) signed one of the then current open access publishing agreements used by the publisher of the Springer Hybrid Journal to which the author is submitting an article for publication under an Open Access License; and (ii) for whom the Verifying Institution has confirmed their status as an Affiliated Author pursuant to Section 3.4.3.

Non-Standard Journals are marked accordingly in the list of Springer Hybrid Journals, but Licensor may change the designation of journals from time to time during the Term.
- 2.1.10 **“Open Access License”** means a Creative Commons license or other open access license, used for the publishing of Eligible Articles in Springer Hybrid Journals. Licensor currently offers CC BY 4.0 and CC BY-NC 4.0, subject to change at any time by Licensor.

Addition of new imprints requires mutual agreement of Licensor and Customer. Any such changes to the list of Springer Hybrid Journals by Licensor or the agreement to add new imprints can be made or agreed via email (Section 10.4 2nd sentence of the General Terms and Conditions does not apply). If, during the Term, the Licensor transitions a Springer Hybrid Journal to a fully open access publishing model, such journal shall continue to be treated as a Springer Hybrid Journal for the purposes of this License Agreement. This includes all journals that have changed their publishing model to fully open access on or after 1 January 2024 (all such flipped journals called “Flip Journals Remaining in Agreement”). For clarity, an initial list of Flip Journals Remaining in Agreement is listed in Schedule 3 (such Schedule being subject to change during the Term) and shall remain subject to the terms applicable to Springer Hybrid Journals under this Agreement.
- 2.1.12 **“Platforms”** means, for the purpose of these Product Terms, a) Licensor’s systems used to provide the Publishing Services, and b) Licensor’s websites and other content delivery systems used by Licensee and Authorized Users to access Licensor’s content pursuant to this License Agreement.

2.1.13 **“Publishing Services”** means Licensor’s services covered by the standard list price article processing charge at the relevant Springer Hybrid Journal procured by Customer for the publication of an Eligible Article. Publishing Services include a) pre-publishing services, which may include managing the publishing process, the provision of online tools for editors and authors, article review, copy-editing, typesetting and formatting, production and hosting, liaising with abstracting and indexing services, and customer services, as per the applicable workflows at the relevant journal, and identification and verification of Eligible Authors, and b) (subject to the Eligible Author agreeing to the journal publisher’s publishing terms, and subject to these Product Terms), procuring the publication of the Eligible Article in a Springer Hybrid Journal.

3.1.1 Generally, Eligible Authors will retain copyright in the Eligible Article, subject to certain exceptions (including, but not limited to, articles published in Non-Standard Journals, or if requested by the author, and/or otherwise required by law or third parties (such as funding bodies)).

3.1.2 Licensor will report to Customer the Eligible Articles on a quarterly basis. The reports shall include the following details:

- Name of journal
- Article title
- DOI of article
- Article Type (as defined in the definition of Eligible Article)
- Name of Eligible Author
- online publication date (if available)
- Acceptance Date (if available)

Licensor may change the means to provide the reports under this Section and make the reports available for download by Customer on the Platforms.

3.1.3 Article processing charges for any article submitted to Licensor from an Affiliated Author and published under an Open Access License, which is not an Eligible Article will not be charged to Customer and will be charged separately to the Affiliated Author under Licensor’s standard process.

3.1.4 If Customer defaults with respect to payment of the Fees in accordance with these Product Terms and the License Agreement, Licensor may, with respect to any articles not yet published, cease (i) the author identification process, (ii) submission to the Verifying Institution of articles of Affiliated Authors for approval according to Section 3.4.3, and (iii) publication of any Eligible Article under these Product Terms. Licensor, however, shall be free to offer to enter into separate agreements with Affiliated Authors affected by such default for publishing services subject to payment of any applicable article processing charge(s) by the relevant Affiliated Author(s). For clarity, within ten business days after Customer cures its payment default, Licensor shall recommence the activities set forth in subparagraphs (i) – (iii) above, however Licensor shall not be obliged to recommence the activities for any articles processed between cessation of activities and recommencing the activities.

- 3.1.5 Licensor undertakes to use reasonable efforts to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication and include Eligible Authors' ORCID ID in Eligible Articles. It is the Eligible Author's responsibility to provide all necessary details in respect of its ORCID ID to Licensor. This Section does not apply to Non-Standard Journals.
- 3.1.6 Upon publication of an Eligible Article, Licensor will, according to its then current practices, register the article metadata on CrossRef, subject to the following conditions: (i) Licensor has sufficient rights to perform the foregoing based on its then-current contractual relationship with CrossRef at the time of publication and (ii) CrossRef accepts the specific metadata. This Section does not apply to Non-Standard Journals.

3.2 Editorial Independence

Nothing herein contained shall oblige the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or any third party to accept or publish any article submitted to Licensor by an Eligible Author. Customer acknowledges that the selection of material to be accepted and published by Licensor or a third party in control of the publishing process is entirely at the discretion of the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or said third party. Customer waives any claim they may have against individual(s) at the relevant journal responsible for editorial decisions of the relevant journal, or said third party in the event that the individual(s) at the relevant journal responsible for editorial decisions of the relevant journal or said third party declines to publish any material (or part thereof) submitted by an Eligible Author.

3.3 Author Identification

- 3.3.1 Licensor will provide the technical means for the identification of Affiliated Authors as part of the publication process, which will be enabled by Licensor on Licensor's Platforms, as follows:
- 3.3.1.1 "Data Elements" means the following identifiers which may be used by Licensor to enable identification of Affiliated Authors as part of the publication process: (i) name of the Licensee, i.e. the legal entity name, or translations or variations thereof ("Data Element Licensee Name"), (ii) e-mail domain of the Licensee ("E-Mail Domain"), (iii) the IP address(es) of the Licensee ("IP Address"), or other identifiers used by Licensor in addition to the foregoing identifiers.
- 3.3.1.2 Affiliated Authors shall identify themselves by either selecting the Data Element Licensee Name, or by using one of the Data Elements E-Mail Domain or IP Address within the identification process.
- 3.3.1.3 This Section 3.3.1 does not apply to Non-Standard Journals. Identification of Affiliated Authors will be handled in a manual workflow between Licensor and the publisher of the Non-Standard Journal.
- 3.3.2 Source of Data Elements
- 3.3.2.1 In order for Licensor to commence providing the Publishing Services on the Commencement Date, Customer shall have provided the Data Elements set forth in Section 3.3.1.1 (i), (ii) and (iii) to Licensor no later than 6 weeks prior to the Commencement Date of these Product Terms.
- 3.3.2.2 Customer shall update Licensor with respect to any changes to such Data Elements without undue delay.

3.4 Verification

- 3.4.1 Licensors shall notify Verifying Institution by email each time an author is identified as an Affiliated Author.
- 3.4.2 Licensors shall make available to Verifying Institution all Data Elements that identified the author as an Affiliated Author (this does not apply to Non-Standard Journals).
- 3.4.3 On the basis of the Data Elements specified in Section 3.3.1.1 as provided by Licensors, Verifying Institution shall confirm or deny that the author is an Affiliated Author, within 3 business days following such notification, and in the case of confirmation, shall be deemed to have ordered the Publishing Services for the respective Eligible Article. For clarity, the Verifying Institution is required to confirm that an author is an Affiliated Author, if the conditions set forth in this License Agreement are met. In case Licensors do not receive either a confirmation or a denial within 3 business days after Licensors have notified and provided the Data Elements as specified in Section 3.3.1.1 to Verifying Institution, Licensors will send a reminder, with a 4-day grace period, which shall inform Verifying Institution that Licensors will deem the author to be an Affiliated Author and continue the publishing process, and charge the APC for such article pursuant to these Product Terms, if the set grace period expires without any declaration by Verifying Institution.

PART B – ACCESS TO CONTENT**4. Access Rights**

- 4.1 Continuing Access Journals: During the Term, Licensee shall have access to the Continuing Access Journals listed in Schedule 2: Continuing Access Journals first published during the Term. After the Term, Licensee shall have Continuing Access to the Continuing Access Journals first published during the Term, subject to all the terms and conditions of this License Agreement.
- 4.2 Backfile Access During the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Schedule 2, published beginning the later of (a) 1997 (b) the first date of publication or (c), the date on which Licensors first acquired publication rights.
- 4.3 Backfile Access to Journals that change business model to solely offering open access publication during the Term: In addition, during the Term only, Licensee will be granted access to the Content of titles listed in Schedule 2, published beginning the later of (a) 1997 (b) the first date of publication or (c), the date on which Licensors first acquired publication rights, until the last calendar year in which the title(s) were published on a hybrid basis.

5. Cessation of Publication / Transfer / Take-over / DDP

- 5.1 **Cessation of Publication of Continuing Access Journals During the Term** If Licensors cease to publish new Content for 3% or more of the Continuing Access Journals during any calendar year of the Term, whether because Licensors cease to have publishing rights or because Licensors cease to publish those Continuing Access Journals, upon Licensee's written request, Licensors will, at Licensors' sole option, offer to Licensee:
 - (1) access to additional Content not presently licensed to Licensee with an approximate value equal to or greater than the value at the date of cessation of the Content associated with the discontinued Continuing Access Journals that was to be published from the date of cessation of publication through the end of the Term, or

- (2) a credit toward any future acquisition of a Product in the same value as that mentioned in part (1) above.

The value to be applied for additional Content or a credit will be determined by Licensor in good faith, taking into account factors which may include, without limitation, number of articles, number of pages, impact factor, usage factor, and list price of the Content in question, or any other formula including any or all such factors that allows Licensor to calculate the value of the lost Content as a percentage of the Continuing Access Journals under the License.

- 5.2 **Transfer of Publishing Rights to Continuing Access Journals** If Licensor's publishing rights to a Continuing Access Journal are transferred to another publisher or entity at any time during or after the Term, Licensor will use reasonable efforts to provide Licensee with Continuing Access to the Content of that Continuing Access Journal published by Licensor during the Term, either (a) online on the Platform, (b) online on the new publisher's website, or (c) offline by providing the same on a digital storage medium. In case of (c) above, use of the Continuing Access Journal shall be subject to the terms of this License Agreement, except for Sections 4.3 and 4.4 of the General Terms and Conditions. If Licensor is unable to do any of the foregoing stipulated in this paragraph, Section 5.1 of the Product Terms for Springer Transformative Agreement will apply accordingly.
- 5.3 If Consortium Member orders the print versions of its Continuing Access Journals from Springer (whether directly or through an intermediary) in addition to the electronic access provided under this Subscription Agreement, then Consortium Member is entitled to a discount of 75% off the list price of the print version, excluding postage and handling fee ("**Deep Discounted Print**" or "DDP"). Consortium Member's (or Consortium Member's intermediary's) order must state that Consortium Member is ordering the print versions of the Continuing Access Journals under the DDP to obtain such discount. This Section only applies to the Continuing Access Journals, as set forth in Schedule 2.

Schedule 1: Payment of Fees and Invoicing for Publishing Services
1. Payment of Fees

1.1 The Fee(s) for Eligible Articles shall be paid by Customer.

1.2 APC Fund, APC / Agreed APC Rate

	Year 1	Year 2	Year 3
Publishing Fee ("APC Fund")			
APC / Agreed APC Rate			
Number of Eligible Articles ("Article Base")			

1.2.1 The APC Fund is based on a mutually agreed APC Rate ("Agreed APC Rate") and the Article Base.

1.3 An Eligible Article will be deducted from the Article Base by Licensor on the Approval Date. However, deductions may be delayed in certain cases, and the foregoing shall not limit Licensor's rights to deduct the Eligible Article at a later time, but not later than the end of the first quarter of the year following the Approval Date.

1.3.1 In case the actual number of Eligible Articles is below the Article Base ("Under-publishing"):
If, at the end of a calendar year of the Term, the actual number of Eligible Articles is less than the Article Base, Licensor will add the remaining Eligible Articles of that calendar year to the Article Base of the subsequent calendar year of the Term. For clarity, these Eligible Articles will be used first. Remaining Eligible Articles expire at the end of the Term.

1.4 Licensor shall endeavor to notify Customer 4 weeks before the Article Base will be depleted.

1.4.1 Customer may, within 14 calendar days of receipt of the notice, agree with Licensor to increase the APC Fund ("Top Up APC Fund") by a corresponding number of Eligible Articles ("Top Up Eligible Articles"), at the Agreed APC Rate per each Top Up Eligible Article. Top Up Eligible Articles will increase the Number of Eligible Articles (Article Base) for the respective calendar year. The Top Up shall include a minimum number of 54 Top Up Eligible Articles. For the avoidance of doubt, any Top Up by an individual Licensee shall not exceed [fifty percent (50%)] of the original Article Base for the respective Annual Term attributed to such Licensee, and each such Top Up by an individual Licensee shall be subject to and compliant with the applicable public procurement law.

1.4.2 Alternatively, Customer may, within 14 calendar days of receipt of the notice, notify Licensor that it wishes to pay Eligible Articles on an article-by-article basis, in which case Customer agrees to Licensor's standard list price article processing charge for the respective journal (and which for the avoidance of doubt is not the APC set forth in this Schedule 1), and Licensor will invoice such standard article processing charges on a monthly basis for any such Eligible Article. For the avoidance of doubt, any such article-by-article payments by an individual Licensee shall not exceed [fifty percent (50%)]

of the original Article Base for the respective Annual Term, and each such arrangement shall be subject to and compliant with the applicable public procurement law.

- 1.4.3 Any notification under these Sections 1.4.1 and 1.4.2 can be made via email (Section 10.4 2nd sentence of the General Terms and Conditions does not apply).
 - 1.4.4 If Customer has not agreed on a Top Up APC Fund (according to Section 1.4.1) nor notified Licensor to continue on an article-by-article basis (according to Section 1.4.2), and an Eligible Author approaches Licensor with the desire to publish an article Licensor reserves the right to publish such article, as the case may be, either on an open-access basis according to its standard list price APCs or a subscription basis provided that such Eligible Author will be obliged to cover any costs and fee associated with such publication and such publication happens outside of the scope of this Agreement without any involvement of the Customer or any of the respective Licensees.
- 1.5 The APC Fund, and the Article Base will expire at the end of the Term.

2.1.1 permit Authorized Users to access the Content for the duration and in the manner set forth in the License Agreement;

2.1.2 incorporate links on Licensee’s intranet websites to the Content in full text format on the Platforms;

2.1.3 transmit to a non-commercial library single articles, book chapters or portions thereof only for personal educational, scientific, or research purposes (“Interlibrary Loans”). Such transmission shall be reviewed and fulfilled by Licensee’s staff, and shall be made by hand, post, fax or through any secure document transmission software, so long as, in the case of any electronic transmission, the electronic file retains the relevant copyright notice. The right set out in this clause does not extend to centralized ordering facilities, such as document delivery systems, nor the distribution of copies in such quantities as to substitute for a subscription or purchase of the distributed Content. For the avoidance of doubt, such secure electronic transmission could also be fulfilled by

any system which satisfies all of the following features: 1) ensures that requesting user (researcher/scholar) is affiliated to eligible institution; 2) enables limiting number of items requested per each journal title over a given period; 3) enables limiting number of requests fulfilled by the delivering library over a given period; 4) before getting access to the delivered pdf file, the requesting scholar (who is fully identifiable) must provably declare his/her full compliance with publisher's intellectual property rights. Limitations imposed in points 1, 2 and 3 of this paragraph could be mutually agreed between Licensor and Customer in writing.

2.2 Authorized Users may solely for their personal educational, scientific, or research purposes:

2.2.1 access (including by remote access, with the exception of walk-in-users), browse, view, collate, display, search and retrieve the Content;

2.2.2 download, store on a hard drive or removable media drive, print and copy in paper and digital form single articles, chapters or other individual items of the Content;

2.2.3 use single articles, chapters or other individual items of the Content for the preparation of academic course materials with all rights notices duly presented. This includes also the right to include such course materials in both electronic and printed course packs and/or both printed and electronic course reserves, managed by Licensee. Authorized Users (with the exception of Authorized Users which are registered users of public and research libraries, and walk-in-users) may for teaching purposes only distribute such course materials to other Authorized Users.

2.2.4 To the extent permitted under applicable Licensor policies, available at <http://www.springernature.com/gp/researchers/sharedit>, transmit to a third party research collaborator, via the Springer Nature SharedIt functionality, single articles, chapters or other individual items, insubstantial amounts of the Content for personal, scholarly, educational, or scientific research purposes, but in no case for resale or commercial purposes or in a manner or magnitude that would substitute for direct access to the Content via services offered by Licensor.

3. Prohibited Uses

3.1 Neither Licensee nor Authorized Users shall:

3.1.1 remove, obscure or alter any copyright or other notices, trademarks, logos, service marks or any other proprietary rights appearing in or on the Content,

3.1.2 except as permitted by applicable law or this License Agreement, update, change, revise, adapt, modify,

translate, transform or create any derivative work of the Content, for clarity, such prohibition extends to doing any of the foregoing with the use of artificial intelligence (AI) models or systems

3.1.3 except as permitted by Section 2 or by applicable law or this License Agreement, re-distribute, reproduce, or transmit the Content by any means including electronic (e.g., via e-mail, FTP) nor post it on personal or public websites or on public networks,

3.1.4 systematically download any Content to its own or any third-party server, use routines designed to continuously and automatically search and index the Content (full text and metadata), such as web-crawling or spider programs or engage in any activity likely to burden the Platforms, except as expressly allowed in the License Agreement,

3.1.5 directly or indirectly use or assist any third party to use the Content (including without limitation any data derived from the Content) to (i) create products or services that would compete with or negatively affect Licensor or Licensor's Affiliates products or services, or (ii) for any commercial or monetary purposes including without limitation any sale, resale, loan, transfer or upload of the Content to a commercial entity's internet website, or otherwise charge a fee for access; or

3.1.6 use any part of the Content (including without limitation any data derived from the Content) to develop, train, program, improve, and/or enrich, directly or indirectly, any AI model or system which is or may be accessible by a third party (other than Licensee and Authorized Users), or permit third parties to do so. Notwithstanding the foregoing, Licensee and Authorized Users are not prohibited to use limited portions of the Content in prompts and queries in an AI system.

For clarity, any use of Content of Licensee or Authorized Users in connection with a) an AI model or system only accessible to Licensee and Authorized Users, or b) using portions of the Content in prompts or queries with a third party AI model or system are not subject of the rights granted in this License Agreement and are Licensee's or Authorized Users sole responsibility. Licensee acknowledges and accepts that Licensor extends no representations or warranties, whether express or implied, as to the legality or non-infringement of such activities as described in this section.;or

4.1 Licensor may control access to the Content through Internet Protocol ("IP") authentication or another identification method reasonably determined by Licensor.

4.2 Licensor reserves the right to monitor, investigate and analyze all available data including logfiles to detect misuse of the Content.

4.3 Where feasible, Licensor shall collect data on usage of the Content and process these according to the current version of the COUNTER Code of Practice and according to applicable privacy and data protection laws (the "Usage Data"). The Usage Data will be made available for download by a) Customer (Customer shall have access to Usage Data of all Licensees) and b) each specific Licensee to such Licensee's Usage Data, through a secure website, provided that these statistics are strictly for the Customer's and Licensee's own internal use, except for if disclosure is required by law, funding bodies or public authorities, provided that such request is mandatory under local law or rules of funding bodies, and—Licensor shall not be required to disclose any information to the Customer and/or Licensee which it is prohibited from disclosing to the Customer and/or Licensee due to any legal or regulatory constraint imposed upon it, including without limitation any applicable privacy or data protection legislation or regulations or contractual obligations. It is desirable that the Standardized Usage Statistics Harvesting Initiative (SUSHI) Protocol is available for the Customer and/or Licensee to harvest the statistics, to the extent referred in the current version of the COUNTER Code of Practice.

4.4 Licensor shall use commercially reasonable efforts to provide online access to the Content through the Platforms, subject to periodic unavailability due to (a) unexpected technical issues outside of Licensor's control, or (b) server and software maintenance ("Unavailability"); and to restore access to the Content as promptly as possible in the event of Unavailability, but in all cases no later than two (2) business days from notification (the "Grace Period"). If the Unavailability continues beyond the Grace Period, Customer shall be entitled to a pro-rata credit of any License Fees paid in advance on behalf of the affected Licensee for the affected Product. Licensor will credit the Customer with an amount calculated as follows:

$$[\text{Annual License Fee for affected Product}] \times [\text{Number of full days of Unavailability divided by 365}]$$

All of Licensor's obligations and Licensee's rights under this Section 4.4 are subject to (i) Licensee's full compliance with this License Agreement and Licensor's reasonable instructions regarding access to the Content, (ii) Licensor's receipt of prompt notification of a loss of access or interruption, specifying the circumstances in reasonable detail, including affected Licensee and Product. Further,

Licensor shall have no obligation under this Section 4.4 for any Unavailability caused in whole or in part by a Licensee or its Authorized Users, or by events described in Paragraph 10.2.

In the event that Licensor ceases to provide access to Continuing Access and/or Archive Content as a standard offering through the Platforms, Licensor may provide such Content to Licensee on physical media, or through other means, which may include, without limitation, access through the digital preservation services referred to in Section 4.5 below, to the extent Licensor's rights to the Content permit.

4.5 Licensor cooperates with a number of digital preservation services provided by e.g. CLOCKSS and Portico for the preservation of certain online products of Licensor. In the case of a triggering event set forth in Licensor's agreements with the digital preservation services, Licensee may be entitled to access the Content pursuant to such agreements. It is in Licensor's sole discretion to enter into or to continue such agreements.

4.6 Licensor reserves the right to discontinue publication or distribution of any part of the Content and to withdraw, edit, amend or retract any part of the Content to which it no longer retains the right to publish or which it reasonably believes is incorrect or may give rise to a legal claim.

4.7 Licensor retains all right, title, and interest in and to the Content, and any trademarks, patent rights, copyrights, and rights to any ideas and designs relating to the Content, the Platforms, and all software used to access the same.

4.8 Itemized Holdings/Title List: Licensor will use its commercially reasonable efforts to provide the Customer and/or Licensee (through the systems used by Licensor), with the current itemized holdings report that specifies the titles included in the Content during the current subscription term (up to the date of its request) and in computer readable format.

4.9 In the event that the Czech Republic or the European Union implements an Open Access policy during the Term of this License Agreement, Licensor may consider the possibility to enter into discussions with the Customer regarding the terms of this License Agreement, but, in any case, this shall not be considered as an obligation of the Licensor to renegotiate this License Agreement or change the terms hereby agreed.

4.10 Licensor works with various third-party scholarly platforms to enhance Authorized Users' access to certain Content. For authentication and authorization purposes only, Licensor may provide Licensee's institutional IP range and entitlements to such third party providers. Usage restrictions contained in this License Agreement apply to Authorized Users' access to and use of the Content

regardless of the platform on which the Content is accessed.

5. Rights and Obligations of Licensee

5.1 Licensee shall at all times implement current industry standard physical, administrative, and technical measures to (a) restrict access and use of the Content to Authorized Users as permitted under this License Agreement, (b) maintain the security and integrity of the Content accessible on or through Licensee's network, and (c) ensure that all Authorized Users are notified of and Licensee shall use the current industry standard measures which are used to achieve compliance of Authorized Users with the usage restrictions set forth in this License Agreement. Licensee shall terminate access for any individual who ceases to be an Authorized User for any reason. In the event that Licensor's performance of its obligations under this License Agreement requires that Licensor receive or otherwise process any personal data of Authorized Users, then Licensee shall obtain, if applicable, all necessary approvals and consent from Authorized Users for transfers of personal data to Licensor.

5.2 Licensee shall promptly inform Licensor of any breaches in security in Licensee's network or its accounts which may result in unauthorized access to the Content.

5.3 If Licensee becomes aware of any unauthorized use of the Content by an Authorized User or third party, Licensee shall immediately inform Licensor and shall take appropriate steps to ensure that such activity ceases and to prevent its recurrence, including, but not limited to, terminating access of any Authorized User accessing or using the Content in violation of this License Agreement.

6. License Fees

6.1 Customer shall pay the fees set forth in the License Agreement (the "**License Fees**"). Delayed payments shall be subject to interest charges at the interest rate of 9 % per annum of the delayed amount above the set European Central Bank Interest Rate for Main Refinancing Operations. The Customer has the right to prove that the actual damage incurred by its default is less than as set forth in the second sentence of this Section 6.1, and will then only be obliged to pay the actual damage.

6.2 All amounts payable by Customer shall be exclusive of any sales, use, withholding, value added or similar taxes, government fees or levies or other assessments. Collection and/or, remittance of such taxes to the relevant tax authority shall be the responsibility of the party who has the legal obligation to do so.

If, based on applicable law, any sales, value added or similar taxes are or become chargeable, Customer will reimburse Licensor by means of paying an amount equal to the

amount of such taxes in addition to and at the same time as paying the principal amounts. Licensor shall provide to Customer an appropriate invoice as required by law. If, based on applicable law, any withholding or similar taxes are or become chargeable, Customer is not entitled to deduct these taxes from the principal amounts. Customer shall remit these to the competent tax authority and shall provide Licensor with appropriate evidence of the remittance.

6.3 The License Fee, or any portion thereof, may be invoiced by a Licensor Affiliate, or by an agent designated by Licensor. Payment will be deemed made when received (i) by Licensor, (ii) a Licensor Affiliate, (iii) an agent designated by Licensor, or, (iv) with Licensor's prior written consent, an agent designated by Customer.

7. Term and Termination

7.1 Either Licensor or Customer may terminate the License Agreement immediately upon notice to the other party if the other party and in the case of Customer, any of the individual Licensees (but only with respect to the individual Licensee and merely to the extent relating to such Licensee), materially breaches this License Agreement and fails to cure such breach within thirty (30) days after notice from the non-breaching party specifying the breach in reasonable detail.

In the event that Licensor decides to terminate the License Agreement against an individual Licensee, Customer shall not be responsible for the portion of the License Fees related to the Content that would be provided to that Licensee in the subsequent years of the Term after termination. Following termination against an individual Licensee, Customer shall promptly provide Licensor with a certificate duly executed by one of its Directors, accompanied by all the supporting documentation, certifying the portion of the License Fees allocated to that Licensee for the subsequent years of the Term after termination. In such event, Licensor will recalculate the License Fees accordingly.

In the event of early termination in the case of breach by Licensor, the Customer shall be entitled to a pro-rata refund of the paid License Fee for the remaining period of the License Agreement from the date of termination.
