II. Subject of agreement

The investigator will carry out the complex fish stock assessment of the three Biesbosch Reservoirs (De Gijster, Honderd en Dertig and Petrusplaat) in 2019 by using the following methods:

- Shore seining survey (beach seine with mesh 6 and 1.5 mm)
- Gillnet survey according to the European standard EN 14 757
- Survey of the open water and deep water fish by fry trawl, frytraps and ichthyoplankton trawl.

The netting surveys will be carried out to be fully comparable to the surveys of 2000, 2002, 2008 2014, 2015 and 2016. Any improvements of the survey design will be done with respect of conserving full results comparability with earlier data. All surveys will be carried out in accordance to the detailed budget, which is a part of this agreement.

III. Time schedule of work

The survey will be done during September 2019. The processing of the results will be done in the subsequent period, so the final report will be prepared by the end of April 2020.

IV. Price of work

The price for the survey including the separate report on each reservoir is agreed to the sum: € 87 049 (eighty-seven thousands and forty-nine Euro) exclusive of V.A.T.

V. Payment conditions

The payment is scheduled in two parts:

The first payment (half of sum, i.e. € 45.000,-) shall be transferred on the basis of a written invoice after completing the field investigations within 30 days of receiving the invoice (before end October 2019).

The second payment (half of sum, i.e. € 42.049,-) shall be transferred on the basis of a written invoice after completing and accepting the reports within 30 days of receiving the final invoice.

The payment should be sent to the account no. 5002209089/5500
