Quote No: EUHK2019091903LY

Date Issued: 19th September 2019

Validity: 30 days

Research Unit for Rare Diseases  
 First Faculty of Medicine, Charles University  
 Ke Karlovu 2, Praha 2, 12808, Prague,  
 Czech Republic  
 Tel: 00420 224 967 139

We are pleased to quote the following:

Promotion price is only valid for sample shipment or PO sent before 30th September, 2019.

Project	No.	Part Number/ Description	Qty.	Unit Price (USD)	Line Total (USD)
29 samples human whole exome sequencing (IlluminaPE150 Q30≥80%)	1	Human WES (exome capture & library preparation & sequencing, 6 G raw data/sample, fastq format)	29	299	8671
	2	Q3 Promotion	29	-50	-1450
	3	Data Transfer via Amazon cloud	1	53	53
		<b>Total</b>		<b>7274 USD</b>	

**Technical Terms:**

1. Overview of Service

Species Name	<i>Homo sapiens</i>
Sample Type	Purified genomic DNA Sample from fresh tissues/ blood/FFPE
Sample Number	29
Exome Capture	Agilent SureSelect Human All Exon V6
Bioinformatics	Data quality control
Turnaround Time	30 working days starting after we receive the library preparation confirmation from client

2. Sample Requirements

We highly recommend that you send your nucleic acid samples dissolved in ddH<sub>2</sub>O or TE buffer. For samples dissolved in ethanol or lyophilized, additional extraction fee would be charged.

Sample Type	Remarks	Amount (Qubit)	Volume	Concentration	Purity
Genomic DNA from Fresh Tissues/blood	Strongly Recommended	≥0.8 μg	≥20 μL	≥20 ng/μL	No degradation/impure or RNA contamination/extra fragments/abnormal color
	Required	≥0.4 μg			

Note:

- 1 When processed "at risk", it will be subject to billing regardless of data quality. The turnaround time could be extend depending on circumstance.
- 2 If samples pass the Quality Control from Novogene, the library preparation will be performed without extra confirmation. If you disagree with that, please tell us before sample shipment.

### 3. Bioinformatics Analysis

Data Quality Control: filtering reads containing adapter or with low quality.

To order, please send us your purchase order and obtain the Sample Submission Form from us.

**Quotation terms:**

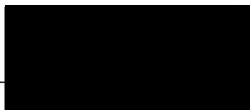

Ruqiang Li  

1. The quotation does not contain the freight charges for samples sent to Novogene.
2. The final quantity and concentration of samples will follow the detection results by Novogene.
3. The price includes sample quality control, exome capture, library construction, library quality control, sequencing and standard bioinformatics analysis.
4. All remaining samples will be destroyed by Novogene 90 days after data delivery and Novogene will not be responsible for the return of unused samples.

5. All data will be deleted by Novogene 90 days after shipment to the customer. Please contact your Novogene representative for the associated costs to retain data beyond the 90 day period.
6. A purchase order (PO) or payment will be needed to get the project started.
7. Novogene considers the receipt of client samples or client PO as an acknowledgement and acceptance of the terms and conditions of this quote. Upon Novogene's receipt of client samples or client PO, client agrees to pay the entire amount of each invoice issued by Novogene within 30 days from the date of the invoice. The invoice will be issued based on the services rendered according to this quote close to project completion.
8. Price information is CONFIDENTIAL to the parties directly involved with this project.
9. Novogene reserves the right to re-quote this project if the scope of the project changes, in which event Novogene will not be required to perform the project unless both parties agree on the terms of the revised quotation.
10. The service provided is for research purposes only, not for clinical or diagnostic use.

**I agree with the contents of quotation listed above.**
