Dear Mr. Green :

Following your request, I have the pleasure to quote as follows:

Item	Qty.	Description	Price per piece, EUR
1.	1	Laser crystal, Yb:YAG, doping 10%, thickness 2 mm, AR/AR-coated at both 1030 nm and 940 nm, IBS coating for high damage threshold. Aperture 4,8 x 4,8 mm	1.250,00
2.	1	Crystal holder for the above crystals, made of copper (optionally Nickel plated), with TEC module with central hole, for optimal cooling. Heat dissipation through the bottom plate. Beam height: 15 mm. The crystal holder must be mounted on a heatsink for good heat dissipation. Usually, this the the base bottom plate (made of copper) of the laser head itself.	1.260,00
3.	1	TEC controller for the above TEC module, with PID-control, analog, for the above crystal holder. Input: 12 V DC/ 5 A	600,00
4.	1	Shipping and insurance EUR:	100,00

Terms: 50% - Payment in advance, by bank transfer.

50% - 14 days net, by bank transfer.

Delivery: 4-6 weeks

Account holder/Payee: ALPHALAS GmbH, Bertha-von-Suttner-Str. 5
D-37085 Goettingen, GERMANY

Bank: Sparkasse Goettingen

International Bank Account Number (IBAN): DE 55 2605 0001 0046 3028 16

Bank Identification Code (BIC): NOLADE21GOE
