FINANCIAL PROPOSAL

This financial proposal is prepared for Baluo Application Centre. This offer is prepared excluding any taxes of government fees that may occur during the cooperation.

| No. | Description | Unit | Quantity | Unit price (excl. Taxes) | Discount, % | AMOUNT (excl. Taxes) |
|---|--|-------|----------|--------------------------|-------------|----------------------|
| 1. Services delivered by EchoTech Ltd. | | | | | | |
| 1.1 | Development of position quality checking/comparison against accelometre measurements. The mechanism will discard the coordinates, if the difference is more than the set threshold value in m/s ² | hours | 15 | 50.00 | | 750.00 |
| 1.2 | Development of a mechanism that groups all movement data into four directions regarding to the athlete body orientation. The four movement directions relative to athlete orientation: forward, backward, right and left direction. | hours | 15 | 50.00 | | 750.00 |
| 1.3 | Development of data export to csv that contains all raw recorded coordinates and data after filtering. Filtering in two stages: 1. More than set threshold of CLR value from received coordinate from RTLS, 2. More difference in set threshold comparing location data acceleration and accelometre sensor measured acceleration. | hours | 10 | 50.00 | | 500.00 |
| 1.4 | Development of a new report, that displays data in each segment for each athlete, grouping results in movement direction sequence. | hours | 10 | 50.00 | | 500.00 |
| 1.5 | RTLS server reinstall on site in Olomouc, AC Baluo. Tasks include installation of Nvidia Quadro P2000 GPU, reinstallation of the OS, reinstall of RTLS server, reinstall of EchoSports aggregator, system calibration. If the access has been granted, adding of existing cameras to EchoSports system. | pcs. | 1 | 3 334.50 | 40% | 2 000.70 |
| 1.6 | Tag firmware upgrade and tag sensor calibration. | pcs. | 20 | 20.00 | | 400.00 |
| TOTAL, EUR | | | | | | 4 900.70 |

The financial proposal is representing development cost of new functionality within EchoSports platform and on site tasks related to the RTLS server upgrade and tag software updates. **The proposal is valid till 31.03.2020.**
