

TECHNICAL CONDITIONS – required**The name of the technology / equipment: Players tracking technology****Description of the technology:**

Tracking system usable for outdoor activities.

Producer/ Manufacturer	Statsports Group Limited
Model - type/product name	Apex Pro Series
Basic parameters / characteristics:	
NUMBER OF UNITS – 22	
60 vests	
Hardware:	
UNIT specifications: <ul style="list-style-type: none">- GPS 18Hz or more- 3D Accelerometer 100Hz or more- 3D Gyroscope 100Hz or more- 3D Magnetometer 10Hz or more- Bluetooth connectivity	
Minimum 2 antennas for real-time monitoring (live tracking) – based on radio technology	
Minimum 2 docking stations	
Software:	
2 unlimited software licenses – desktop version (is not time limited, is not limited for a certain device or user, possibility to use licences on one or more devices at one time; updates are free of charge)	
2 unlimited access to App	
Cloud based database	
Primary metrics: <ul style="list-style-type: none">- Total distance- Speed (max, actual, average)- Sprint distance- Accelerations/Decelerations- Player load- Heat map- Heart rate integrity	
Additional requirements:	
Contracting authority requests delivery of new, unused or unrepaired devices.	

	fill supplier within tender
