Country of origin: Germany

We provide the High Voltage DC Power Supply Model EVO 10000-200 serial number 374713950 to Czech Metrology Institute, Okružní 31, 63800 Brno, Czech Republic for 14 calendar days for a trial free of charge. During this time CMI can decide to buy this instrument or to send it back to Power4Test GmbH, Grünwalder Weg 13a, 82008 Unterhaching, Germany.

In case of a return shipment, the original packaging must be used and the transport costs including a transport insurance from Brno to Unterhaching will be covered by CMI.

Please handle the instrument with care. Please read the operating instructions before you switch on the instrument.

We are happy to support CMI on the phone +49-89-95890293 or via email support@power4test.com and we hope that the quality of the instrument and our support will convince you to accept this offer.
