Notice	This document is part of the Operational Manual of 4M MC and is governed by Change Control. Any change to this document shall follow the 4M MC Change control procedure. The content of this document might have evolved by the time you read or use this document. Please contact the 4M MC OPSCOM to check that this is the latest version before using this document.
---------------	--

1. Introduction

As soon as the PMB calculation has finished, the 4M MC Coordinator automatically sends the Market Coupling Results to all the PMBs via the Cloud.

In case of a technical problem in the PMB or a problem with the automatic sending of the Results file, the operator will apply the relevant backup solutions as described in this document.

1.1. Purpose

The purpose of this procedure is to describe the applicable backup solutions in case of a problem with the sharing of the results from the 4M MC Coordinator to all the PXs.

This procedure also describes how to handle a warning message produced by the PMB and linked to the sharing of the Results file.

1.2. Governed / Regulated by

[Redacted]

1.3. Associated procedures

- NOR_04: Calculation Process
- NOR_05: Results Sharing and Receiving
- OPE_02: Operational Calls and OPSCOM
- OPE_01: 4M MC Coordinator role Takeover
- FAL_01: Incident Committee

2. Procedure

2.1. General overview

This backup procedure must be done by PXs and Service Provider in case of a problem in sending or reception of the results.
