Subject: Your manuscript bbaa385: copy of your licence

To: *****

Dear *****,

Thank you for selecting your licence to publish. You can find a copy of your licence attached to this email. You can also view your licences online here.

Have you paid your licence charge?

- If not, click here, to pay your charge or to raise an invoice.
- This needs to be completed in two working days to avoid publication delay.

What happens next?

1. If you have selected an Open Access licence, pay any applicable charges in the next two working days if applicable.
2. Your article will be published online once you have checked and approved your proof. If applicable we will send you an email about paying for any colour figure or page charges.

The information below will assist you with any deposit requirements you may have (e.g. the HEFCE REF requirement).

Journal: Briefings in Bioinformatics

DOI: 10.1093/bib/bbaa385

Article: SARS-CoV-2 hot-spot mutations are significantly enriched within inverted repeats and CpG island loci

Acceptance date: 2020-11-30

Self-archiving information: The journal strongly encourages authors publishing their articles under an open access licence to deposit the version of record instead of the accepted manuscript when self-archiving. The version of record can be made available immediately on publication in accordance with the Creative Commons licence terms. Please refer to the journal's self-archiving policy or your licence agreement for terms and conditions.

Best wishes,

Subject: Briefings In Bioinformatics, Manuscript: bbaa385
To: *****

Dear *****,

Welcome to Oxford University Press. We're looking forward to publishing your paper *SARS-CoV-2 hot-spot mutations are significantly enriched within inverted repeats and CpG island loci* (DOI: bbaa385) in *Briefings In Bioinformatics*.

What you need to do now:

1. Register for an Oxford Academic account.
2. Choose your licence to publish.
 - Publishing Open Access? You may be eligible to publish Open Access using funding from your institution. Check whether your institution is listed *****and follow the instructions before signing a licence.
 - Does your research funder require a specific licence type? Check ***** (or with your research funder directly) before signing a licence.
3. If you have selected an Open Access licence, pay any applicable charges.
 - Are you eligible for a society member discount? If so, enter your membership identification when prompted after choosing your licence.

Get started *****.

What happens next:

1. In the next two weeks we will send you proofs of your paper. You will need to check and approve your proof within two working days.
2. If applicable, we will contact you about any further publication charges, which may include page and/or colour charges.

You can track the progress of your paper *****.

Any further questions?

Please visit our author support pages, or contact us at *****.

Coronavirus update: Our priority during this difficult time is to continue to publish as quickly as is feasible, and to expedite publication of any research relating to coronavirus; please bear with us if our production teams experience any unavoidable delays relating to your paper as a result. We also understand if you are less able to review proofs quickly when you receive them. Please take the time you need—you do not need to let us know in advance, however you will continue to see automated reminders periodically from our systems.

Best wishes,
Author Support Team

Subject: Briefings in Bioinformatics - Decision on BIB-20-0422.R2
To: *****

27-Nov-2020

Dear ***** ,

I am pleased to inform you that your manuscript entitled 'SARS-CoV-2 hot-spot mutations are significantly enriched within inverted repeats and CpG island loci' (BIB-20-0422.R2) has been accepted for publication in Briefings in Bioinformatics. If you have any queries regarding publication, or production queries, please contact *****

BiB has been published online-only since 2018. You will be able to access published articles and content via the Oxford Academic platform at ***** When your article is published you will be sent a toll-free link to enable easy access to your article online.

In order to publish your article, Oxford University Press requires that you complete a licence agreement online. A link to the online licensing system, and instructions on how to select and complete a licence, will be provided to you by the Production Editor at Oxford University Press in due course. Please ensure that you do this at your earliest convenience in order to avoid unnecessary delays in the publication of your manuscript. You will receive your official acceptance date from Oxford University Press once you have signed your licence to publish. (N.B. If you are a UK-based author and are looking to comply with the HEFCE policy on open access in the Research Excellence Framework, you should use the official acceptance date when depositing in your repository).

OPTIONAL OPEN ACCESS – Briefings in Bioinformatics authors can opt, at an additional charge, to make their paper freely available online to all immediately upon publication, as part of the Oxford Open initiative. You will soon receive a “Welcome” email from the Production office, containing a link to fill in your author licence form online. That form allows you to choose to be published under an Open Access model and agree to pay the relevant additional charge. You can then proceed through that site to our Author Services site. This will enable you to pay online with a credit/debit card, or request an invoice by email or post. Applicable Open Access charges can be found at ***** If you do not select the Open Access option, your paper will be published in the journal with standard subscription-based access and you will not be charged.

We should like to thank you for submitting your fine paper, and we hope to receive further manuscripts from you again in the future.

With best wishes,

On behalf *****,
Editor-in-Chief of Briefings in Bioinformatics
