### 8.1. Ownership of Results

Results are owned by the Party that generates them.

### 8.2 Joint ownership

8.2.1 In case of joint ownership of Results developed in the Project jointly by two or more Parties and it is not possible to separate such Results for the purpose of applying for, obtaining and/or maintaining the relevant patent protection or any other intellectual property right, the Parties shall have joint ownership of such Results.

8.2.2 The joint owners shall use their best efforts to establish, within a six (6) month period as from the date of the generation of such Results, a written separate joint ownership agreement regarding the allocation of ownership and terms of exercising, protecting, the division of related costs and exploiting such jointly owned Results on a case by case basis.

The joint ownership agreement shall as a minimum include:

- i) a detailed definition of the relevant Results having joint ownership
- ii) a description of which of the joint owners shall have the operative responsibility for protecting and managing the jointly owned Results (hereinafter named IP Manager), including a clear description of the IP Manager's Power of Attorney; in case of a disagreement, the owner with the largest ownership stake shall take the lead.
- iii) a detailed description of how the jointly owned Result shall be protected, defended, managed and Used.

where no joint ownership agreement has yet been concluded:

- i) each of the joint owners shall be entitled to Use their jointly owned Results on a royalty-free basis, and without requiring the prior consent of the other joint owner(s), however only for carrying out non-commercial R&D projects alone or with third parties, including for permitting the said third parties to use such Results if required to carry out their own tasks in the above-mentioned projects,

### **8.3 Transfer of Results**

8.3.1 Each Party may transfer ownership of its own Results. It shall however ensure that its obligations under the Partnership Agreement and the Project Contract also apply to the new owner and that this owner has the obligation to pass them on in any subsequent transfer.

8.3.2 It may identify specific third parties it intends to transfer the ownership of its Results to in Attachment (4) to the Partnership Agreement. The other Parties hereby waive their right to prior notice and their right to object to a transfer to listed third parties.

8.3.3 The transferring Party shall, however, at the time of the transfer, inform the other Parties of such transfer and shall ensure that the rights of the other Parties will not be affected by such transfer.

Any addition to Attachment (5) after signature of this Agreement requires a decision of the Steering Committee.

8.3.5 The obligations above apply only for as long as other Parties still have -or still may request- Access Rights to the Results.

### **8.4 Dissemination**

For the avoidance of doubt, nothing in this Section has impact on the confidentiality obligations set out in Section 10.

#### **8.4.1 Dissemination of own Results**

Prior notice of any planned publication shall be given to the other Parties at least 45 calendar days before the publication. Any objection to the planned publication shall be made in writing to the Project Promoter and to the Party or Parties proposing the dissemination within 30 calendar

days after receipt of the notice. If no objection is made within the time limit stated above, the publication is permitted.

8.4.1.2 An objection is justified if

- (a) the objecting Party's legitimate academic or commercial interests in relation to the Results or Background would be significantly harmed; or
- (b) the protection of the objecting Party's Results or Background would be adversely affected.

The objection has to include a precise request for necessary modifications.

8.4.1.3 If an objection has been raised the involved Parties shall discuss how to overcome the justified grounds for the objection on a timely basis (for example by amendment to the planned publication and/or by protecting information before publication) and the objecting Party shall not unreasonably continue the opposition if appropriate actions are performed following the discussion.

The objecting Party can request a publication delay of not more than 90 calendar days from the time it raises such an objection. After 90 calendar days the publication is permitted.

8.4.2 Dissemination of another Party's unpublished Results or Background

A Party shall not include in any dissemination activity another Party's Results or Background without obtaining the owning Party's prior written approval, unless they are already published.

8.4.4 Use of names, logos or trademarks

Nothing in the Partnership Agreement shall be construed as conferring rights to use in advertising, publicity or otherwise the name of the Parties or any of their logos or trademarks without their prior written approval.

8.4.5 Open Access to scientific publications

8.4.5.1. Each Party shall ensure open access (free of charge, online access for any user) to all peer-reviewed scientific publications relating to its Results.

In particular:

- (a) as soon as possible and at the latest on publication, deposit a machine-readable electronic copy of the published version or final peer-reviewed manuscript accepted for publication in a repository for scientific publications.

Moreover, the Parties must aim to deposit at the same time the research data needed to validate the results presented in the deposited scientific publications.

- (b) ensure open access to the deposited publication — via the repository — at the latest:
  - (i) on publication, if an electronic version is available for free via the publisher, or
  - (ii) within six months of publication (twelve months for publications in the social sciences and humanities) in any other case.
- (c) ensure open access — via the repository — to the bibliographic metadata that identify the deposited publication, which must include a persistent identifier.

8.4.5.2 All Parties shall ensure that they or the authors retain sufficient intellectual property rights to comply with their open access requirements.

8.4.5.3 All Parties shall establish a Data Management Plan and shall ensure a responsible management of research data in line with the principles 'Findability', 'Accessibility', 'Interoperability' and 'Reusability' (FAIR).

Open access to the digital research data generated in the project shall be ensured in line with the principle 'as open as possible, as closed as necessary'. Open access to such research data shall be the general rule, but the Steering Committee may decide to apply exceptions if justified, taking into consideration the legitimate interests of the Parties, the project objectives and any other constraints, such as data protection rules, security rules or intellectual property rights. In this case, the data management plan must contain the reasons for not giving access.

Unless such exceptions apply, all Parties shall

- (a) deposit in a research data repository and take measures to make it possible for third parties to access, mine, exploit, reproduce and disseminate — free of charge for any user — the following:
  - (i) the data, including associated metadata, needed to validate the results presented in scientific publications as soon as possible;
  - (ii) other data, including associated metadata, as specified in the data management plan;
- (b) provide information — via the repository — about tools and instruments at the disposal of the Parties and necessary for validating the results (and — where possible — provide the tools and instruments themselves).

## Section 9: Access Rights

### 9.1 Background included

9.1.1 In Attachment 1, the Parties have identified and agreed on the Background for the Project and have also, where relevant, informed each other that Access to specific Background is subject to legal restrictions or limits.

Anything not identified in Attachment 1 shall not be the object of Access Right obligations regarding Background.

9.1.2 Any Party may add further own Background to Attachment 1 during the Project by written notice to the other Parties. However, approval of the Steering Committee is needed should a Party wish to modify or withdraw its Background in Attachment 1.

### 9.2 General Principles

9.2.1 Each Party shall implement its tasks in accordance with the Project Plan and shall bear sole responsibility for ensuring that its acts within the Project do not knowingly infringe third party property rights.

9.2.2 As provided in the Project Contract, all Parties shall inform the other Parties as soon as possible of any limitation to the granting of Access Rights to Background or of any other restriction which might substantially affect the granting of Access Rights (e.g. the use of open source code software in the Project).

9.2.3 If the Steering Committee considers that the restrictions have such impact, which is not foreseen in the Project Plan, it may decide to update the Project Plan accordingly.

9.2.4 Any Access Rights granted expressly exclude any rights to sub-licence unless expressly stated otherwise.

Access Rights shall be free of any administrative transfer costs.

Access Rights are granted on a non-exclusive basis, if not otherwise agreed in writing by all the Parties according to the Project Contract.

9.2.5 Results and Background shall be used only for the purposes for which Access Rights to it have been granted.

9.2.6 All requests for Access Rights shall be made in writing.

The granting of Access Rights may be made conditional on the acceptance of specific conditions aimed at ensuring that these rights will be used only for the intended purpose and that appropriate confidentiality obligations are in place.

9.2.7 The requesting Party must show that the Access Rights are Needed.

### 9.3 Access Rights for implementation

Access Rights to Results and Background Needed for the performance of the own work of a Party under this Project shall be granted on a royalty-free basis, unless otherwise agreed for Background in Attachment 1.

### 9.4 Access Rights for Exploitation

9.4.1 Access Rights to Results if Needed for Exploitation of a Party's own Results shall be granted on Fair and Reasonable conditions.

Access rights to Results for internal research activities shall be granted on a royalty-free basis.

9.4.2 Access Rights to Background if Needed for Exploitation of a Party's own Results shall be granted on Fair and Reasonable conditions.

9.4.3 A request for Access Rights may be made up to twelve months after the end of the Project or, in the case of Art. 9.6.2.1.2, after the termination of the requesting Party's participation in the Project.

9.4.4 Affiliated Entities have Access Rights to this Partnership Agreement to the extent the Party affiliated with such Affiliates has itself such Access Rights.

Such Access Rights must be requested by the Affiliated Entity from the Party that holds the Background or Results. Alternatively, the Party granting the Access Rights may individually agree with the Party requesting the Access Rights to have the Access Rights include the right to sublicense to the latter's Affiliated Entities [listed in Attachment 4]. Access Rights to Affiliated Entities shall be granted on Fair and Reasonable Conditions and upon written bilateral agreement.

Affiliated Entities which obtain Access Rights in return fulfil all confidentiality and other obligations accepted by the Parties under this Consortium Agreement as if such Affiliated Entities were Parties.

Access Rights may be refused to Affiliated Entities if such granting is contrary to the legitimate interests of the Party which owns the Background or the Results.

Access Rights granted to any Affiliated Entity are subject to the continuation of the Access Rights of the Party to which it is Affiliated and shall automatically terminate upon termination of the Access Rights granted to such Party.

Upon cessation of the status as an Affiliated Entity, any Access Rights granted to such former Affiliated Entity shall lapse.

Further arrangements with Affiliated Entities may be negotiated in separate agreements

## 9.5 Additional Access Rights

For the avoidance of doubt any grant of Access Rights not covered by the Partnership Agreement shall be at the absolute discretion of the owning Party and subject to such terms and conditions as may be agreed between the owning and receiving Parties.

##### 9.6.2.1.2 Non-defaulting Party

A non-defaulting Party leaving voluntarily and with the other Parties' consent shall have Access Rights to the Results developed until the date of the termination of its participation.

It may request Access Rights within the period of time specified in Art. 9.4.3.

#### 9.6.2.2 Access Rights to be granted by any leaving Party

Any Party leaving the Project shall continue to grant Access Rights pursuant to the Project Contract and the Partnership Agreement as if it had remained a Party for the whole duration of the Project.

## 9.7 Specific Provisions for Access Rights to Software

For the avoidance of doubt, the general provisions for Access Rights provided for in this Section 9 are applicable also to Software.

Parties' Access Rights to Software do not include any right to receive source code or object code ported to a certain hardware platform or any right to receive respective Software documentation in any particular form or detail, but only as available from the Party granting the Access Rights.

## Section 10: Non-disclosure of information

10.2 The Recipients hereby undertake in addition and without prejudice to any commitment of non-disclosure under the Project Contract, for a period of 5 years after the end of the Project:

- not to use Confidential Information otherwise than for the purpose for which it was disclosed;
- not to disclose Confidential Information to any third party without the prior written consent by the Disclosing Party;

If needed for the recording of ongoing obligations, the Recipients may however request to keep a copy for archival purposes only.

10.3 The Recipients shall be responsible for the fulfillment of the above obligations on the part of their employees or third parties involved in the Project and shall ensure that they remain so obliged, as far as legally possible, during and after the end of the Project and/or after the termination of the contractual relationship with the employee or third party.

10.4 The above shall not apply for disclosure or use of Confidential Information, if and in so far as the Recipient can show that:

- the Confidential Information becomes publicly available by means other than a breach of the Recipient’s confidentiality obligations;
- the Disclosing Party subsequently informs the Recipient that the Confidential Information is no longer confidential;
- the Confidential Information is communicated to the Recipient without any obligation of confidence by a third party who is in lawful possession thereof and under no obligation of confidence to the Disclosing Party;
- the disclosure or communication of the Confidential Information is foreseen by provisions of the Project Contract;

10.7 If any Party becomes aware that it will be required, or is likely to be required, to disclose Confidential Information in order to comply with applicable laws or regulations or with a court or administrative order, it shall, to the extent it is lawfully able to do so, prior to any such disclosure

- notify the Disclosing Party, and
- comply with the Disclosing Party's reasonable instructions to protect the confidentiality of the information.

10.8 The confidentiality obligations under the Partnership Agreement and the Project Contract shall not prevent the communication of Confidential Information to the Programme Operator.
