represented for the purposes of signature of the Specific agreement by the President, Mr Marek ROJÍČEK,

The parties referred to above

HAVE AGREED

To the Specific agreement and the following annexes:

Annex I Description of the *action*

Annex II Estimated budget

Annex III Declaration on the estimated costs

ARTICLE 1 – SUBJECT MATTER OF THE SPECIFIC AGREEMENT

The Specific agreement is concluded in the context of the partnership established between the parties. It is drawn up in accordance with the relevant terms of Framework partnership agreement No *ECFIN/012/2021* signed between the Commission and the partner on *15/04/2021* ("the Framework agreement").

The Commission has decided to award a grant ("specific grant for an action"), under the terms and conditions set out in the Specific agreement and the Framework agreement, for *the action* entitled **Business and Consumer surveys** for the following surveys: *construction, industry, retail trade and services* ("the action") in Czech Republic as described in Annex I.

By signing the Specific agreement, the partner accepts the grant and agrees to implement the action in accordance with the terms and conditions of the Specific agreement and the Framework agreement, acting on its own responsibility.

ARTICLE 2 – ENTRY INTO FORCE AND IMPLEMENTATION PERIOD OF THE SPECIFIC AGREEMENT

- **2.1** The Specific agreement enters into force on the date on which the last party signs.
- **2.2** The *action* runs for **12 months** starting on **1 May 2021.**

ARTICLE 3 – MAXIMUM AMOUNT AND FORM OF GRANT

3.1 The maximum amount of the grant is 57,205.12 EUR, allocated per survey as follows:

Construction survey: maximum 12,909.57 EUR
Industry survey: maximum 27,092.18 EUR
Retail survey: maximum 4,736.77 EUR
Services survey: maximum 12,466.60 EUR

- **3.2** The grant is defined **per survey** under the action and takes the form of:
 - (a) **The reimbursement of the following percentage** of the eligible costs, per survey of the action ("reimbursement of eligible costs"), which are estimated as follows:

Construction survey: 50.00 % on total estimated eligible costs of 25,819.15 EUR Industry survey: 50.00 % on total estimated eligible costs of 54,184.36 EUR Services survey: 50.00 % on total estimated eligible costs of 9,473.55 EUR 50.00 % on total estimated eligible costs of 24,933.21 EUR

and which are

- (i) 1. actually incurred ("reimbursement of actual costs") for the following categories of administrative costs for the partner:
 - travelling costs and subsistence allowances
 - printing, translating, mailing, telephone, fax and other communication costs
 - costs for materials (paper, envelopes and toners)
 - fees for IT software and data
 - certain other costs not covered above if they are necessary and specific to the project activities and contribute to the final result

not applicable

- **2. actually incurred** ("reimbursement of actual costs") for the following categories of costs for the partner:
 - not applicable
- (ii) declared on the basis of an *amount per unit* as indicated in Annex III ("reimbursement of **unit costs**") for the following categories of costs for the partner:
 - staff costs based on average daily rate per pay grade
- (iii) reimbursement of lump sum costs: not applicable
- (iv) 1. declared on the basis of a **flat rate** for the following **categories of administrative costs** ("reimbursement of flat-rate costs") for the partner:
 - travelling costs and subsistence allowances
 - printing, translating, mailing, telephone, fax and other communication costs
 - costs for materials (paper, envelopes and toners)
 - fees for IT software and data
 - certain other costs not covered above if they are necessary and specific to the project activities and contribute to the final result.

These costs are declared on the basis of the following flat-rate of the related eligible *direct staff costs*, for the following survey(s) as indicated in Annex II:

| Construction survey – flat rate | 0.77 % |
|---------------------------------|--------|
| Industry survey – flat rate | 0.87 % |
| Retail survey – flat rate | 0.90 % |
| Services survey – flat rate | 0.75 % |

- 2. for **indirect costs**, declared on the basis of a **flat rate of 7%** of the eligible *direct* costs for the related survey *excluding* the costs for *subcontracting* ("reimbursement of flat-rate costs"), for the partner.
- (v) reimbursement of costs declared on the basis of the partner's usual cost accounting practices: not applicable
- (b) unit contribution: not applicable
- (c) lump sum contribution: not applicable
- (d) flat-rate contribution: not applicable
- (e) Financing not linked to costs: not applicable.

ARTICLE 4 REPORTING, REQUEST FOR PAYMENTS AND SUPPORTING DOCUMENTS

4.1 Reporting periods

There is a sole reporting period from 1st May 2021 to the end of the period set out in Article 2.2.

4.2 Requests for second pre-financing payments and supporting documents

Not applicable.

4.3 Request for interim payment and supporting documents

Not applicable.

4.4 Request for payment of the balance and supporting documents

The partner must submit a request for payment of the balance within 60 calendar days following the end of the last reporting period.

This request must be accompanied by the following documents:

(a) a final report on implementation of the *action* ('final technical report'), drawn up in accordance with Annex IV of the Framework agreement, containing:

- (i) the information needed to justify the eligible costs declared or the contribution requested;
- (ii) information on *subcontracting* as referred to in Article II.11.1(d)(ii) of the Framework agreement;

The final technical report should be accompanied by a copy of the questionnaire(s) in original language, including any written instructions given to respondents interviewed and an overview of the sample size (nominal and effective, i.e. in terms of completed interviews) over the action's duration. The questionnaires must include all harmonised questions (monthly, quarterly and semi-annual, if applicable).

- (b) a final financial statement ('final financial statement') *per survey*. The final financial statement must include a consolidated statement and a breakdown of the amounts claimed by the partner and its affiliated entities.

 The final financial statement must be drawn up in accordance with the structure of the estimated budget set out in Annex II of the Specific agreement and in accordance with Annex V of the Framework agreement and detail the amounts for each of the forms of grant set out in Article 3.2 for the reporting period. It must also indicate the revenue generated by the action referred to in Article II.25.3 of the Framework agreement for the
- (c) a declaration on the final reported costs, drawn up in accordance with Annex IX of the Framework agreement, stating that:

partner and its affiliated entities other non-profit organisation;

- (i) the information provided in the request for payment of the balance is full, reliable and true:
- (ii) the costs incurred can be considered eligible in accordance with the Framework agreement and the Specific agreement and that the request for payment is substantiated by adequate supporting documents that can be produced in the context of the checks or audits described in Article II.27 of the Framework agreement;
- (iii) all the revenues generated by the *action* referred to in Article II.25.3 of the Framework agreement have been declared for the partner and its affiliated entities other than non-profit organisations.

4.5 Currency for requests for payment and financial statements and conversion into euro

Requests for payment and financial statements must be drafted in euros. The detailed list of actually incurred costs (see art. 3.2(a)(i)) must be drawn up in local currency and in euro. Unit costs in art. 3.2(a)(ii) and flat rate in art. 3.2(a)(iv) are fixed and shall not be further converted.

The partner and affiliated entities with general accounts in a currency other than the euro must convert costs incurred in another currency into euros at the average of the daily exchange rates published in the C series of the *Official Journal of the European Union* (available at http://www.ecb.europa.eu/stats/exchange/eurofxref/html/index.en.html), determined over the corresponding reporting period.

If no daily euro exchange rate is published in the *Official Journal of the European Union* for the currency in question, conversion must be made at the average of the monthly accounting rates established by the Commission and published on its website (http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm), determined over the corresponding reporting period.

The partner and affiliated entities with general accounts in euros must convert costs incurred in another currency into euros in accordance with their usual accounting practices.

4.6 Language of requests for payments, technical reports and financial statements

All requests for payments, technical reports and financial statements must be submitted in English.

ARTICLE 5 — PAYMENTS AND PAYMENT ARRANGEMENTS

5.1 Payments to be made

The Commission must make the following payments to the partner:

- one pre-financing payment;
- one payment of the balance, on the basis of the request for payment of the balance referred to in Article 4.4.

5.2 Pre-financing payment

The aim of the pre-financing is to provide the partner with a float. The pre-financing remains the property of the Union until it is cleared against interim payments or, if it is not cleared against interim payments, until the payment of the balance.

The Commission must make the **pre-financing payment of EUR 22,882.05**, 40% of the total maximum amount specified in Article 3.1, to the partner within 30 calendar days from the entry into force of the Specific agreement.

5.3 Interim payments

Not applicable

5.4 Payment of the balance

The payment of the balance reimburses or covers the remaining part of the eligible costs and contributions *per survey* for the implementation of the *action*.

If the total amount of earlier payments is greater than the final amount of the grant determined in accordance with Article II.25 of the Framework agreement, the payment of the balance takes the form of a recovery as provided for by Article II.26 of the Framework agreement.

If the total amount of earlier payments is lower than the final amount of the grant determined in accordance with Article II.25 of the Framework agreement, the Commission must pay the balance

within 90 calendar days from when it receives the documents referred to in Article 4.4, except if Article II.24.1 or II.24.2 of the Framework agreement apply.

Payment is subject to the approval of the request for payment of the balance and of the accompanying documents. Their approval does not imply recognition of the compliance, authenticity, completeness or correctness of their content.

The Commission determines the amount due as the balance by deducting the total amount of prefinancing and interim payments (if any) already made from the final amount of the grant determined in accordance with Article II.25 of the Framework agreement.

The amount to be paid may, however, be offset, without the partner's consent, against any other amount owed by the partner to the Commission or to an executive agency (under the EU or Euratom budget), up to the *maximum amount of the grant*.

5.5 Notification of amounts due

The Commission must send a *formal notification* to the partner:

- (a) informing it of the amount due; and
- (b) specifying whether the notification concerns a further pre-financing payment, an interim payment or the payment of the balance.

For the payment of the balance, the Commission must also specify the final amount of the grant determined in accordance with Article II.25 of the Framework agreement.

5.6 Interest on late payment

If the Commission does not pay within the time limits for payment, the partner is entitled to late-payment interest at the rate applied by the European Central Bank for its main refinancing operations in euros ('the reference rate'), plus three and a half points. The reference rate is the rate in force on the first day of the month in which the time limit for payment expires, as published in the C series of the *Official Journal of the European Union*.

Late-payment interest is not due if the partner is a Member State of the Union (including regional and local government authorities and other public bodies acting in the name of and on behalf of the Member State for the purpose of the Framework agreement and the Specific agreement).

If the Commission suspends the time limit for payment as provided for in Article II.24.2 of the Framework agreement or if it suspends payments as provided for in Article II.24.1 of the Framework agreement, these actions may not be considered as cases of late payment.

Late-payment interest covers the period running from the day following the due date for payment, up to and including the date of actual payment as established in Article 5.8. The Commission does not consider payable interest when determining the final amount of grant within the meaning of Article II.25 of the Framework agreement.

As an exception to the first subparagraph, if the calculated interest is lower than or equal to EUR 200, it must be paid to the partner only if the partner requests it within two months of receiving late payment.

ARTICLE 8 – ADDITIONAL PROVISIONS ON USE OF THE RESULTS (INCLUDING INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS)

In accordance with Article II.9.3 of the Framework agreement, whereby the Union acquires rights to use the results of the *action*, these results may be exploited using any of the following modes:

- (a) distribution to the public in hard copies, in electronic or digital format, on the internet including social networks as a downloadable or non-downloadable file;
- (b) communication through press information services;
- (c) inclusion in widely accessible databases or indexes, such as via 'open access' or 'open data' portals, or similar repositories, whether freely accessible or accessible only upon subscription;
- (d) Edit or re-write in another way the results of the *action*, including shortening, summarising, modifying the content, correcting technical errors in the content;
- (e) cut, insert meta-data, legends or other graphic, or word elements in the results of the *action*;
- (f) extract a part (e.g. audio or video files) of, divide into parts or compile the results of the *action*; not applicable;
- (g) prepare derivative works of the results of the action;
- (h) translate, the results of the action in:
 - [English], [French], [German]
 - [all official languages of EU]
 - [languages of candidate countries]
 - [list other languages as appropriate]] not applicable;

5.7 Currency for payments

The Commission must make payments in euros.

5.8 Date of payment

Payments by the Commission are considered to have been carried out on the date when they are debited to its account.

5.9 Costs of payment transfers

Costs of the payment transfers are borne as follows:

- (a) the Commission bears the costs of transfer charged by its bank;
- (b) the partner bears the costs of transfer charged by its bank;
- (c) the party causing a repetition of a transfer bears all costs of repeated transfers.

5.10 Payments to the partner

The Commission must make payments to the partner.

Payments to the partner discharge the Commission from its payment obligation.

DESCRIPTION OF THE ACTION ON THE BUSINESS AND CONSUMER SURVEYS

1. WORK PROGRAMME, TIMING, TRANSMISSION OF RESULTS

1.1. The **beneficiary** shall carry out the surveys in the country/ies mentioned in Article 1 of the specific grant agreement according to the timing set out under point 1.2.

The **beneficiary** shall use for these surveys the questionnaires set out in this annex. The included questions shall precede any other questions which the **beneficiary** may pose on the same occasion. Mixing harmonised questions with additional questions on related concepts that might alter respondents' understanding of the harmonised questions shall be avoided.

1.2. Timing

- 1.2.1. Industry, Construction, Retail trade, Services and Consumer surveys are to be carried out on a monthly basis as follows:
 - The beneficiary will do the fieldwork in the first two to three weeks of the month "t" (t = month during which the data are collected).
 - The beneficiary will do the calculations required and will send the results labelled as "results of month t" to the Commission in accordance with the following calendar; the deadline is generally five working days before the end of the month for the business surveys and seven working days before the end of the month for the consumer survey:

| The data collected | Time: | Industry | Consumer survey |
|--------------------|-------|------------------------|----------------------|
| during:1 | | Construction | only |
| | | Retail trade or | |
| | | Service surveys | |
| May, 2021 | 12:00 | Tuesday, 25 May | Friday, 21 May |
| June, 2021 | 12:00 | Thursday, 24 June | Tuesday, 22 June |
| July, 2021 | 12:00 | Monday, 26 July | Thursday, 22 July |
| August, 2021 | 12:00 | Wednesday, 25 August | Monday, 23 August |
| | 12:00 | | Wednesday, 22 |
| September, 2021 | | Friday, 24 September | September |
| October, 2021 | 12:00 | Monday, 25 October | Thursday, 21 October |
| November, 2021 | 12:00 | Wednesday, 24 November | Monday, 22 November |
| December, 2021 | 12:00 | Tuesday, 4 January | Tuesday, 21 December |
| January, 2022 | 12:00 | Tuesday, 25 January | Friday, 21 January |
| February, 2022 | 12:00 | Tuesday, 22 February | Friday, 18 February |
| March, 2022 | 12:00 | Friday, 25 March | Wednesday, 23 March |
| April, 2022 | 12:00 | Monday, 25 April | Thursday, 21 April |

The quarterly questions must be included in the questionnaires in January, April, July and October.

1

As a general rule, data should be e-mailed to the Commission at least 5 working days (7 working days in case of consumer survey) before the end of the current month (except for the December business survey results which can be delivered by 3 January).

The **bi-annual questions** must be included in the questionnaires in March or April, and October or November, and the results must be e-mailed to the Commission with the other results for April and November, respectively.

1.3. Transmission of results

1.3.1. For the **Consumer** survey:

The **beneficiary** will provide the Commission with two sets of data on a monthly basis:

The first data set will contain the summarised results of the survey. The results obtained for each question will be broken down by category of respondents according to the nomenclature attached to the consumer questionnaire in this annex and expressed as percentages of replies, except for the numerical questions on price trends (all figures with at least 1 decimal).

The second set of data will contain the complete set of individual answers including the weight for each person (microdata).

1.3.2. For the Industry, Construction, Retail trade and Services surveys:

The **beneficiary** will provide the Commission with one set of data for each survey carried out. The results obtained for each question will be broken down according to the nomenclature² attached to the questionnaires in this annex and expressed as percentages of replies, except for the numerical questions, i.e. assured months of production, capacity utilisation, percentage change in investment, etc. (all figures with at least 1 decimal).

The monthly results will also contain information about the population, frame, sample and response rates, including a breakdown by subsector.

For the questions on factors limiting production in industry ("business activity" in the service sector and "building activity" in the construction sector) respondents can choose more than one factor. Aggregate results per factor (in %) shall be calculated by summing the number of firms choosing a particular factor (taking into account firms' weights). Results shall be sent without adjusting, i.e. factor scores can add up to more than 100%.

For the question on the investment structure (in the Oct/Nov industry and services surveys), if respondents tick more than one category, each "tick" shall be divided by the number of ticks a firm gave. If quantitative percentage shares of investment categories are asked for in the national version of the questionnaire, the beneficiary shall make sure that the sum of the shares adds up to 100% (both at the individual and the aggregate levels).

1.3.3. The transmission of the results to the Commission is currently by way of templated excel files to be sent by email every month. The file templates as well as information on alternative file formats and transmission methods are available from the Commission by email to

The results must be sent in the requested format and according to the layout and specifications set out by the Commission. In case of transmission of files by email, the following electronic addresses must be used.

| Results for surveys of Consumers : |

² The NACE classification of economic activities is currently under review to reflect changes in economic structures and organisations as well as technological developments. The new structure is expected to be finalised in 2024 and rolled out in official statistics in 2025-2027. The breakdown of the survey results by activities might need to be adjusted in this process, to ensure comparability with official statistical data.

2. PUBLICATION AND USE OF DATA COLLECTED THROUGH THE ACTION

The Commission has the right to make free use of the results of the surveys, including the dissemination of the results through the Commission's portal, as well as to disseminate the results to third parties for the following categories of data³:

- a) Economic Sentiment Indicator and Employment Expectations Indicator at country level (seasonally adjusted (SA)),
- b) Confidence Indicators at country level for:
- Industry, Construction, Services:
 - total (both not seasonally adjusted (NSA) and SA)
 - sectoral breakdowns by activities, down to the level of divisions (SA)
- Retail trade:
 - total (both NSA and SA)
 - sectoral breakdowns by activities, down to the level of ad-hoc groupings defined in section 5.2 (SA)
- Consumers:
 - total (both NSA and SA),
 - subcategories: income, occupation, education, age, sex (SA)
- c) Balances (or percentage values where applicable) at country level for all harmonised questions for:
- Industry, Construction, Services:
 - total (both NSA and SA)
 - sectoral breakdowns by activities, down to the level of divisions (both NSA and SA)
- Retail trade:
 - total (both NSA and SA)
 - sectoral breakdowns by activities, down to the level of ad-hoc groupings defined in section 5.2 (both NSA and SA)
- Consumers:
 - total (both NSA and SA),
 - subcategories: income, occupation, education, age, sex (both NSA and SA)
- d) Detailed results (percentages per reply categories) at country level for:
- Industry: total (NSA)
- Construction: total (NSA)
- Retail trade: total (NSA)
- Services: total (NSA)
- Consumers:
 - total (NSA) (all questions)
 - subcategories: income, occupation, education, age, sex (NSA) (questions 5 and 6 only)

Required steps and methodologies would be discussed with the BCS partner institutes at future annual meetings with the Commission.

³ Art. 9. SGA & Art. II.9.3 FPA

All survey data provided within the programme can be used for economic analysis and research by the Commission and the derived results and findings may be included or referred to in the publications of the Commission.

The Commission can make available the set of consumers' individual answers including the weight for each person (microdata, or individual replies, in fully anonymised form, as contained in the second worksheet of the data transmission files) to third persons on request, for research purposes only and based on a project description, indicating the participants, and an agreement not to share data with third persons, in particular not for commercial purposes.

The Commission may, in the future, and after consultation of the beneficiaries collecting the data, decide to release currently unpublished data.

The beneficiary will acknowledge the participation in the Joint Harmonised European Union Programme of Business and Consumer Surveys, as well as the co-funding from the European Commission, whenever survey results are published.⁴

| 2019 f express of the lower | for the entire staff of seed in full-time eq unit costs calculati than the average un | or each pay grade are calculated on the basis of the total annual direct staff costs incurred during the reference year of the pay grade. The total annual direct staff costs are divided by the staff employed during the reference year uivalents (FTE) belonging to the respective pay grade and by 215 annual working days. It follows from the nature ion that the actual unit costs (daily rates) of individual employees involved in the survey programme might be nit costs of the given pay grade. The calculation method as well as the values of unit costs (average daily rates) for ted in the Form 10 can be retrospectively verified using data from the CZSO's internal HCM and payroll system. |
| 3. | Average rate per Please explain the | r deliverable: e methodology you used to calculate the average rate per deliverable. |

| N/A | | |
| 6. | How do you estin | ring days allocated to the survey-related costs: nate the number of working days allocated to the survey programme (do you use a time-recording system, ring key, historical data)? |

The internal time-recording system enables to record the time spent on the EU BCS part of the survey programme and the time spent on the processing of the questions that are not part of the EU BCS questionnaire. It, however, does not enable to record the time spent on the individual surveys. Therefore, the time spent on the individual surveys is estimated as follows: First, the total burden of all business tendency surveys is calculated as the sum of the burden of the individual surveys. The burden of the individual surveys is calculated as the product of the number of questions, frequency/periodicity (monthly, quarterly, biannual) and the extent of the sample. Then the weights of the individual surveys is calculated as the ratio of the burden of each individual surveys and the total burden. The weights determine the allocation of time spent by each employee on the individual surveys, according to the nature of their work

Time-recording system:

7. Please also let us know if the timesheets record separately the time spent on the specific survey programme and the other activities of your institution.

A time recording system is used to defferentiate the time spent on the survey programme and on other activities of the CZSO.

8. Number of deliverables:

Please explain how you estimate the number of deliverables.

N/A

9.

EU-related ratio on staff costs:

This ratio needs to be applied to your estimates if your survey programme contains additional questions which are not part of the harmonised EU BCS questionnaire. Please explain for each harmonised survey (industry, services, building, etc.) which ratio you applied and how you calculated it (e.g. based on the number of harmonised EU BCS questions in relation to the total number of questions in your questionnaire, use of historical data,...). In case there are no other questions in the questionnaire than the harmonised EU BCS questions, please clearly state it here.

For all harmonised surveys we applied the one common EU-related ratio calculated as the number of EU BCS questions in all the surveys multiplied by the frequency/periodicity (monthly, quarterly, biannual) divided by the total number of questions in all the questionnaires multiplied by the frequency/periodicity. The EU-related ratios differ from one survey to another. As all business tendency surveys are considered as one survey rather than several individual surveys, one common EU-related ratio (60%) - calculated as the average EU-related ratio - was reported, in line with the previous practice, in the form 9 - Estimated budget. An EU-related ratio of 80% is used for the manager and one of the researchers responsible for the administration of the grant programme. Although this ratio does not correspond to the methodology given in the "Guidelines for the financial management of grant agreement" for calculating the EU BCS ratio, the two staff members spend, for objective reasons, more time on the harmonised part of the surveys.

10. Please confirm that the staff costs are in line with the usual policy on remuneration of your institution.

Staff cost are in line with the usual policy on remuneration of the CZSO.

ADMINISTRATIVE COSTS:

Survey-related costs:

Please explain how you estimate the administrative costs related to the survey programme (e.g. real incurred costs from reference year, costs for the survey programme in relation to the total costs for all activities managed by your department related to a reference year). Please also indicate the reference year.

The administrative costs include

- the postale charges (some respondents still prefer this way of communication with the CZSO);
- costs for printing (paper, envelopes, tonners);
- costs for travel and subsistence allowances (one emloyee involved in the survey programme works from the Regional Office of the CZSO in Jihlava).

The BCS ratio relating to the administrative costs is calculated on the basis of the number of questions surveyed within and beyond the scope of the survey programme, number of respondents and periodicity of the questions concerned.

The administrative costs were estimated on the basis of information available in the internal accounting system relating to previous years.

EU-related ratio on administrative costs:

12.

This ratio needs to be applied to your estimates if your survey programme contains additional questions which are not part of the harmonised EU BCS questionnaire. Please explain for each harmonised survey (industry, services, building, etc.) which ratio you applied and how you calculated it (e.g. based on the number of harmonised EU BCS questions in relation to the total number of questions in your questionnaire, use of historical data,...). In case there are no other questions in the questionnaire than the harmonised EU BCS questions, please clearly state it here.

see the answer to the previuos question

DISTRIBUTION OF ALL COSTS AMONG THE SURVEYS

13. If applicable, please explain how you distribute the costs among the different harmonised surveys for which you receive a grant.

The distribution of the estimated costs among the surveys concerned is based on information on the sample sizes, the number of harmonised monthly questions, the number of harmonised quarterly questions and the number of harmonised questions in the investment survey.

GENERAL QUESTION ON ACCOUNTING PRACTICES

14. Please give a short description of the accounting practices of your organisation

The CZSO's accounting is kept in the JASU CS Economic Information System (EIS JASU), which fully enables bookkeeping in accordance with the law, decrees, the Czech Accounting Standards and other regulations (e.g. internal directives). Costs related to projects financed from the funds can be identified by the contract number. Each project is assigned a specific internal number, the "contract number", after the contract has been signed. The contract number is indicated for each expenditure related to the project. According to the contract number, all the expenses referring to the project concerned can be traced in EIS JASU. The project manager is responsible for the expenses related to the given project. Internal regulations stipulate that expenses submitted for recognition must be approved by the project manager. The head of the financial accounting department is responsible for accounting and making the payment by bank transfer.
