RE: Approval of pilot actions

Project: PGI05866 RFC

Dear Marketa,

We are pleased to inform you that, following the written procedure, the Interreg Europe monitoring committee has approved on 2nd June 2021 the request for pilot action submitted by the RFC project PGI05866 as presented in the attached annex. The pilot action is an additional activity to the project activities described in the application form with the control number e86c14b46a5d4aebaafac717c6775102 in the programme online system iOLF (which is annex 1 of the subsidy contract). The current approved total project budget included in this application form amounts to:

Total ERDF:	1,260,922.30 EUR
Total Norwegian funding:	0
Total Interreg Europe project budget:	1,483,438.00 EUR

Only if the underspending after three progress reports will not be sufficient to cover the budget of the pilot action as described in attached annex, the approved total project budget included in this application form will be increased.

The approval of the pilot action is done under the condition that:

- A request for change to formally integrate the pilot action in the application form in line with the information and budget provided in the approved request for pilot action (annex attached) is carried out before the end of the fourth reporting period (i.e. before 31/08/2022).
- An updated partner declaration is provided for any partner increasing its budget in the revised application form.

This letter forms annex 2 of the subsidy contract. We wish you all the best for the continuation of your project.

Yours sincerely,

Erwin Siweris - Programme Director
