Příjemce je povinen tyto prostředky vrátit do 15 dnů od ukončení smlouvy bezhotovostním převodem na účet poskytovatele uvedený ve výpovědi. Pokud dotace ještě nebyla převedena na účet příjemce, má poskytovatel právo dotaci neposkytnout.

Poskytovatel je oprávněn si vyžádat dodatečné podklady, pokud z dodaných podkladů nebude tato skutečnost vyplývat.
3. V případě, že poskytovatel žádosti vyhoví, spraví o tom bez zbytečného odkladu příjemce po projednání v příslušném orgánu poskytovatele a uzavře dodatek ke smlouvě, který bude obsahovat popis a důvod jeho uzavření s ohledem na přeměnu příjemce.
4. V případě, že žádosti poskytovatel nevyhoví, bezodkladně o tom spraví příjemce po projednání v příslušném orgánu poskytovatele. V takovém případě má příjemce povinnost vrátit doposud vyplacenou dotaci nebo její část způsobem a ve lhůtě, které stanoví ve výzvě poskytovatel.
5. V případě, že je příjemce příspěvkovou organizací jiného územního samosprávného celku, je povinen při sloučení, splynutí či rozdělení postupovat obdobně podle odstavce 1

6. Each PP shall ensure that the following project and financial management conditions are fulfilled:
 - a. To timely start as well as to implement the part(s) of the project for which it is responsible in due time and in compliance with the approved application form ensuring, in quantitative and qualitative terms, the delivery of its planned project activities, outputs and results;
 - b. To appoint a local coordinator for the part(s) of the project for which it is responsible and to give the appointed coordinator the authority to represent the partner in the project so that to ensure a sound project management;
 - c. To immediately notify the LP of any event that could lead to a temporary or permanent discontinuation or any other deviation of the part(s) of the approved project for which the PP is responsible;
 - d. To provide experts or bodies authorised by the Interreg CENTRAL EUROPE Programme carrying out project evaluations and/or studies with any document or information requested for evaluation purpose. Information might be provided also through surveys and/or interviews;
 - e. To promptly react to any request made by the MA/JS through the LP;
 - f. That expenditure reported to the LP has been incurred for the purpose of implementing the project and correspond to the activities described in the latest version of the approved application form;
 - g. That in case one or more output and result targets, as set in the latest approved version of the application form, are not successfully reached, adequate corrective measures are put in place to ensure the project performance as well as to minimise the impact at programme level (e.g. adaptation of the project to the changed situation) following the procedures specified in the programme implementation manual;
 - h. To immediately inform the LP if costs are reduced or any of the disbursement conditions ceases to be fulfilled, or circumstances arise which entitle the MA to reduce payment or to demand repayment of the subsidy wholly or in part;
 - i. To install a separate accounting system for the settlement of the project and safeguard that the eligible costs as well as the received subsidies can be clearly identified.
7. In the circumstance that any of the PPs is in the situation of undertaking in difficulty, within the meaning of point 24 (in conjunction with point 20) of the "Guidelines on State aid for rescuing and restructuring non-financial undertakings in difficulty" (Communication from the Commission No. 2014/C 249/01 of 31.07.2014), the concerned PP is to immediately inform the LP that shall in turn immediately inform the MA/JS;

§ 7

Project steering committee

1. For a sound implementation and management of the project, a steering committee shall be set up in line with provisions of the programme implementation manual.

2. The steering committee is the decision-making body of the project and it shall be composed by representatives of the LP and all PPs duly authorised to represent the respective LP and PP institutions. It shall be chaired by the LP and it shall meet on a regular basis. Associated partners shall be invited to take part in the steering committee in an advisory capacity. External key stakeholders may also be invited to take part to one or more meetings in an observer/advisory capacity. Working language of the SCOM is English.
3. The steering committee shall at least:
 - a. be responsible for monitoring and validating the implementation of the project and the achievement of the planned results as in the approved application form;
 - b. perform the financial monitoring of the project implementation and to decide on any budget changes as in § 11 of this agreement;
 - c. monitor and manage deviations of the project implementation;
 - d. decide on project modifications (e.g. partnership, budget, activities, and duration) if needed;
 - e. be responsible for the settlement of any disputes within the partnership (as stipulated in § 22 of this agreement);
4. Further aspects, including the creation of sub-groups or task forces, may be set out in the rules of procedure of the steering committee:
 - a. The Steering Committee Procedures (D.M.1.3) represents the functioning procedures of the project's steering committee. It can be updated during the project implementation but any change has to be approved by the committee itself.
 - b. The LP convenes the SCOM once per reporting period. The LP informs the SCOM at least 15 working days before the date proposed for the meeting by e-mail, together with the proposed agenda (drawn up by him/her) and all information about the issues to be discussed. If any urgent issues arise to be addressed urgently, the SCOM may be convened by the LP even with a shorter notice. In case of special circumstances the SCOM can take place also online.
 - c. Each partner has to nominate one representative plus a substitute; the steering committee member should actively take part in the decision-making process and has the power to commit the PP to the decisions taken. Participation in the SCOM meetings is mandatory for all financing partners and any absence from meetings needs to be duly justified in advance to the LP (who then is in charge of communicating it to all the SCOM Members at the beginning of the meeting).
 - d. The SCOM will be chaired by the coordinator (LP) or his/her substitute (the SCOM Chairperson). The SCOM Chairperson shall be responsible for the proper functioning of the SCOM and shall perform SCOM Chairperson's duties (e.g. declares the opening and closing of each meeting, directs the discussion, rules on points of order, accords the right to speak, announces the decisions and summarizes them at the end of the meeting, etc.).
 - e. The steering committee is legally convened when the majority (50% of the members +1, 6 from 10 partners) of SCOM members are present or represented. Each partner can nominate another partner as representative for a singular meeting, however, votes cannot be transferred to partners. The LP has to be present in any case.

f. Each PP shall have one (1) vote. For decisions affecting the whole partnership, consensus shall always be sought after. When consensus cannot be reached, decisions shall be taken by majority of Steering Committee members. In case of even vote, the LP shall have a casting vote. Any decision pertaining to or affecting the rights of a given PP may not be taken without prior notifying that PP and without obtaining its consent.

g. Any decision to be taken by the steering committee may also be taken (i) in meetings via tele/web-conference if all members have been invited to take part in the meeting and/or via email if all members have been duly notified; (ii) without convening a meeting if the LP circulates to all members of the steering committee a document (either in written or electronic form) for their approval. Such a document shall include a reasonable deadline for the response.

h. The LP shall send the minutes of the SCOM meeting reporting the decisions taken to the other members of the SCOM for comments not later than 10 working days after the date of the meeting. If no written objections are raised from SCOM representatives within 10 working days after the minutes are received, they are considered to be approved. If written objections are raised, the LP shall revise the minutes accordingly, decide on the final version and send it to the members of the SCOM. In this last case, the final version is approved by the members of the SCOM in the following meeting of the SCOM according to the above mentioned rules (see point e.).

h. The creation of sub-groups or task forces has to be approved by the committee and codified by an upgrade of the D.M.1.3

i. In case of dispute between PPs, presumption of good faith from all Parties will be privileged. Should a dispute arise between the partners, the affected parties will endeavour to find a solution on an amicable way. In cases where the disputes cannot be solved by the partners, nor by the intervention of the LP, then they are referred to the SCOM in order to reach a settlement, following the above set procedures.

§ 8

Financial management and accounting principles

In line with § 6 of this agreement, each PP is responsible towards the LP for guaranteeing a sound financial management of its budget as indicated in the latest version of the approved application form, and pledges to release its part of the co-funding. To this purpose, a separate accounting system must be set in place.

§ 9

Reporting and requests for payment

1. Each PP may only request, via the LP, payments of the contribution from the European Regional Development Fund (hereinafter referred to as ERDF) by providing proof of progress of its respective part(s) of the project towards the achievement of the outputs and results as set in the approved application form, in compliance with the principle of sound financial management (as determined by the principles of economy, efficiency and effectiveness) and by demonstrating the utility derived from

any purchases. To this purpose, each PP commits to providing the LP with complete and accurate information needed to draw up and submit progress and final reports and, where possible, the main outputs and deliverables obtained in line with the approved application form. The reporting periods, spending targets and reporting deadlines are laid down in the overview table annexed to the subsidy contract.

2. In addition, in order to allow the LP to submit to the MA payment requests, enclosed to the progress reports every PP shall submit to the LP its certificates confirming the eligibility of expenditure, following verifications performed according to § 10.
3. In order to meet the deadlines mentioned in § 9.1, each PP commits itself to deliver to the LP the necessary information and documents 30 working days before the deadline set in the subsidy contract for submitting the concerned progress report.
4. Requests for postponement of the reporting deadline may be granted only in exceptional and duly justified cases. They shall be asked by the LP to the MA via the JS at the latest one week prior to the due deadline.
5. In line with § 11.6 of the subsidy contract, the LP shall confirm that the expenditure reported by each PP has been incurred by the PP for the purpose of implementing the project, that it corresponds to the activities laid down in the approved application form and that it has been verified by its national controller.
6. If the LP casts doubts on the project relevance of any expenditure items claimed by a PP, the LP shall clarify the issue with the concerned PP with the aim of finding an agreement on the expenditure to be claimed and the corresponding activities to be reported as project-relevant. In the case that such agreement cannot be found, the procedure as stated in the implementation manual will be followed.
7. Payments not requested in time and in full or non in compliance with the payment schedule as indicated in the overview table of reporting targets and deadlines annexed to the subsidy contract may be lost. In case of decommitment of funds § 18.4 applies.
8. In order to proceed with the analysis of progress and final reports, each PP must provide additional information if the LP or the MA/JS deem that necessary. Additional information requested by the MA/JS are to be collected and sent by the LP within the demanded time frame.
9. The MA reserves the right not to accept - in part or in full - certificates of expenditure as described in § 10 of this agreement, in line with provisions of § 6.4 of the subsidy contract.
10. Following the approval of the progress report by the MA/JS and the respective ERDF funds have been transferred to the LP account, the LP shall forward the respective ERDF share to each PP without any delay and in full to their bank accounts as indicated in Annex 3. Bank accounts shall be whenever possible specific for the project and shall provide for registration in Euro (EUR; €) of total expenses (expenditure) and of the return (income) related to the project. Changes of the account number shall be duly notified to the LP.
11. The maximum acceptable delay for transferring the ERDF to the PPs is of 30 working days. In exceptional and duly justified cases, LPs which are public authorities may benefit from an extension of the aforementioned deadline in order to comply with internal administrative procedures in transferring public funds. In case of unjustified delays in the transfer of ERDF funds to the PPs which are imputable to the LP, the PPs may claim interest rates which the LP shall exclude from the approved project budget.
12. The LP shall provide all PPs with copies of any report and documentation submitted to the MA/JS and keep the PPs informed about all relevant communication with MA or JS, in line with § 11.8 of the subsidy contract.

13. Details on the contents of the reports on the verification of expenditure, on the reimbursement of funds and on the related procedural rules are laid out in the programme implementation manual, the contents of which each PP accepts.
14. As laid out in the SC, the reimbursement of the ERDF related to the eligible expenditure incurred within this project is subject to the condition that savings made from projects approved in the previous calls become available. In case this condition will not occur, the reimbursement might not be made, might be made only in part and/or might occur at a later stage according to the availability of funds. In that case the MA might terminate the SC. In that case the PPs will support the LP to find a prior agreement with the MA on a well-organized project closure. This includes e.g. a definition of milestones to be achieved for payment of remaining funds, if applicable, and the necessary amendment of the Application Form and the amendment of the SC and the PA. In any case, the LP will duly notify the PPs. Should the project be terminated due to those circumstances, PPs cannot make any claims against the LP. The reduction of funds will be distributed among the LP and PPs in accordance with their involvement in activities.

§ 10

Verification of expenditure

1. Each progress report submitted by the LP to the MA via the JS must be accompanied by certificates confirming the eligibility of expenditure included in the report by the LP and the PPs. Certificates of expenditure must be issued by national controllers as referred to in Article 23 (4) of Regulation 1299/2013 according to the system set up by each Member State and in compliance with the requirements set by the legal framework listed in §1 of the subsidy contract. Certificates of expenditure shall be accompanied by the compulsory elements presented in the programme implementation manual (i.e., the control report and checklist). The project partners shall deliver all necessary documents in order to enable the LP to fulfil its obligations. To this end, the partnership may agree on internal rules and delivery procedures.
2. National controllers will base their work on the rules provided by each Member State and the requirements set in the respective EC Regulations and in the programme implementation manual.
3. PPs from countries having set a decentralised control system ensure that controllers were selected in accordance with the system set up by each Member State and they meet the requirements of qualification and independence presented in the programme implementation manual. Furthermore, these PPs acknowledge that the MA reserves the right, after agreement with the national responsible institution, to require that the controller directly selected by a PP is replaced if considerations, which were unknown when the subsidy contract was signed, cast doubts on the controller's independence or professional standards.
4. Each PP is to notify to the LP on its national controllers that, in accordance with the system set up by each Member State, shall carry out the verification of the expenditure of the PP. National controllers are identified in the supplementary information section of the programme electronic monitoring system.
5. Any change of control authority/institution or name of controller(s) shall be duly notified to the LP who has subsequently to notify the MA via the JS.
6. The LP shall be entitled to rely on the certification results of the national controllers of the PPs and is therefore not obliged to verify the expenditures of the PPs.

§ 11

Project changes

1. Changes in budget allocations per budget lines, work packages and partner as well as changes in activities/outputs and project duration are allowed as long as the maximum amount of funding awarded is not exceeded, if provisions related to State aid discipline are respected and if they follow the conditions and procedures as set out in the implementation manual.
2. With regard specifically to budget changes, each PP may only apply changes in its approved budget if they comply with the flexibility rules stated in the programme implementation manual and if prior approval from the LP or the programme bodies has been provided, as appropriate. To this purpose, each PP shall timely inform the LP on any request of revision of its budget in respect to its original commitment. Budget shifts are calculated on a PP level, meaning 20% budget flexibility for internal shifts is granted to PPs, with the exception of overspending.
3. The contribution of the LP and each PP are clearly defined in the approved application form. Changes in the project partnership require the approval of the programme bodies as outlined in the programme implementation manual.
4. In case of changes in the partnership, this partnership agreement shall be amended accordingly and signed by the LP and the PPs, including the new PP if applicable.

§ 12

Publicity, communication and branding

1. The LP and the PPs shall ensure adequate promotion of the project both towards potential beneficiaries of the project results and towards the general public.
2. Unless the MA requests otherwise, each PP shall ensure that any notice or publication made by the project, including presentations at conferences or seminars, shall point out that the project was implemented through financial assistance from ERDF funds and the Interreg CE Programme as required by Annex XII to Regulation (EU) 1313/2013. All information, communication and branding measures of the project shall be carried out in accordance with the aforementioned rules, the latest version of the approved application form, the programme implementation manual and any other guidelines issued by the programme on the matter. The LP shall provide the PPs with relevant documents and any programme guidelines.
3. The LP must ensure that all the PPs and itself respect the additional branding requirements as laid down in the programme implementation manual which forms an integral part of this agreement.
4. Each PP shall ensure that any notice or publication relating to the project made in any form and by any means, including the Internet, states that it only reflects the author's view and that the programme authorities are not liable for any use that may be made of the information contained therein.
5. All PPs also takes the full responsibility for the content of any notice, publication and marketing product provided to the MA which has been developed by the PPs or third parties on behalf of the PPs. The PPs are liable in case a third party claims compensation for damages (e.g. because of an infringement of intellectual property rights). The PPs will indemnify the LP in case the LP suffers any damage because of the content of the publicity and information material.
6. Each PP shall comply with all publicity, communication and branding obligations (e.g. on the use of the programme logo, information requirements, organisation of events etc.) as further specified in the programme implementation manual.

7. The LP and each PP authorise the programme authorities to publish, in any and by any means, the following information:
 - a. the name of the LP and its PPs;
 - b. the project name;
 - c. the summary of the project activities;
 - d. the objectives of the project and the subsidy;
 - e. the project start and end dates;
 - f. the ERDF funding and the total eligible cost of the project;
 - g. the geographical location of the project implementation;
 - h. abstracts of the progress reports and final report;
 - i. whether and how the project has previously been publicised.
8. The MA is entitled to furthermore use these data for information and communication purposes as listed in Annex XII of Regulation (EU) No 1303/2013.
9. The MA on behalf of the MC and of other programme promoters at national level is entitled to use the outputs of the project in order to guarantee a wide spreading of the project deliverables and outputs and to make them available to the public. All PPs agree that the outputs are forwarded by the MA to other programme authorities as well as the Member States taking part in the programme to use this material to showcase how the subsidy is used. For the purpose of meeting the objectives as set out in § 9.1 of this agreement, each PP shall provide evidence of the deliverables and outputs produced as further specified in the implementation manual.
10. Any communication campaign, media appearance or other publicity of the project shall be communicated to the MA/JS for potential website updates or showcases.

§ 13

Assignment, legal succession

1. PPs in exceptional cases and in well-founded circumstances are allowed to assign their duties and rights under this agreement only after prior written consent of the programme bodies and in compliance with the procedure specified in the programme implementation manual.
2. Where according to national laws the legal personality does not change and where all assets of a PP are taken over so that a deterioration of the financial capacity of the acquiring institution is not to be expected (i.e. in cases of universal succession) prior consent by the programme bodies is not necessary. However, the concerned PP shall submit in due time to the MA/JS via the LP related information together with all documents that are necessary to analyse the legal case. If the MA/JS comes to the conclusion the conditions as stated above are not fulfilled (e.g. in cases of a singular succession), the LP will be informed that a partner change procedure as stated in § 13.1 has to be initiated.
3. In case of assignment or any form of legal succession of any PP, the PP concerned is obliged to assign all rights and obligations and all project related documents to each and any assignee or legal successor. Related reports to the MA/JS as requested in the programme documents have to be forwarded by the LP.
4. In case § 13.1 applies, the present agreement shall be amended accordingly.

§ 14

Cooperation with third parties and outsourcing

1. In the event of outsourcing, the PPs must obey community, national and programme rules on public procurement and shall remain the sole responsible parties towards the LP and, through the LP, to the MA concerning compliance with their obligations by virtue of the conditions set forth in this agreement including its annexes.
2. In case of financial involvement of associated partners, this must not enter in conflict with public procurement rules. Expenditure incurred by the associated partners shall be finally borne by any of the PPs or by the LP in order to be considered as eligible and on condition that this is allowed by national or programme rules.

§ 15

Liability

1. According to § 10 of the subsidy contract, the LP bears the overall financial and legal responsibility for the project and for the PPs towards the MA and third parties.
2. Within the partnership, each party to this agreement shall be liable to the other parties and shall indemnify and hold harmless such other party for and against any liabilities, damages and costs resulting from the non-compliance of its duties and obligations as set forth in this agreement and its annexes or of other legal norms. Eventual repayment of undue funds by the PPs to the LP, for which the LP is liable towards the MA is ruled in § 18 of the present agreement.
3. The LP shall assume sole liability towards third parties, including liability for damage or injury of any kind sustained by them while the project is being carried out as stipulated in § 10.11 of the subsidy contract. The LP is entitled to subrogate against the PP that caused the damage. The PP causing damage shall be liable to the LP therefore.
4. The parties to this agreement accept that the MA cannot be under any circumstances or for any reason whatsoever held liable for damage or injury sustained by the staff or property of the LP or any PP while the project is being carried out. No claims can be accepted by the MA for compensation or increases in payment in connection with such damage or injury.
5. No party shall be held liable for not complying with obligations ensuing from this agreement in case of force majeure as described in § 24 of this agreement.

§ 16

Non-fulfilment of obligations

1. Each PP is obliged to promptly inform the LP and provide all necessary details should there be events that could jeopardise the implementation of the project.
2. Each PP is directly and exclusively responsible towards the LP and the other PPs for the due implementation of its part(s) to the project as described in the approved application form as well as for the proper fulfilment of its obligations as set out in this agreement. Should a PP not fulfil its obligations under this agreement in due time, the LP shall admonish the PP to fulfil such obligations within reasonable deadlines set by the LP. The LP shall make any effort in resolving the difficulties, including seeking the assistance of the MA/JS. Should the non-fulfilment continue, the LP may decide

to exclude the PP concerned from the project prior approval of the other PPs. The MA and JS shall be immediately informed of such an intended decision.

3. The excluded PP is obliged to refund to the LP any programme funds received for which it cannot prove that, on the day of exclusion, ERDF received for the project was used for activities carried out, and deliverables/outputs obtained, for the benefit of the project and that such activities and deliverables/outputs can be used for the further implementation of the project. The excluded PP is liable to compensate any damage to the LP and the remaining PPs due to its exclusion.
4. The excluded PP has to keep documents for audit purposes according to what stated in § 6.3 of this agreement.
5. The LP and all PPs herewith oblige themselves to compensate each other for those damages that may result from intentional or gross negligence, non-performance or mal-performance of any of their obligations under the present agreement.
6. In case of non-fulfilment of PP obligations having financial consequences for the funding of the project as a whole, the LP may demand compensation from the responsible PP to cover the sum involved.

§ 17

Financial controls, audits

1. The European Commission, the European Anti-Fraud Office (OLAF), the European Court of Auditors (ECA) and, within their responsibility, the auditing bodies of the participating EU Member States or other national public auditing bodies as well as the Programme Audit Authority, the MA and the JS are entitled to audit the proper use of funds by the LP or by its PPs or to arrange for such an audit to be carried out by authorised persons. The LP and PPs will be notified in due time about any audit to be carried out on their expenditure.
2. Each PP undertakes all the necessary actions to comply with the fundamental requirements indicated in this agreement, the subsidy contract, the applicable laws and programme documents (application and implementation manuals), which are an integral part of this agreement, to provide for comprehensive documentation on compliance with those norms and the accessibility to this documentation in line with § 6.4.
Besides the obligations with regard to reporting and information each PP particularly:
 - a. Keeps all documents and data required for controls and audits safely and orderly;
 - b. Makes all necessary arrangements to ensure that any audit, notified by a duly authorised institution as indicated in § 17.1 can be carried out smoothly; and
 - c. Provides any requested information to these institutions about the project and gives access to their business premises, provides and gives access to all the information and documents supporting the audit trail as requested in the European Structural and Investment Funds Regulations, delegated and implementing acts and the programme implementation manual.
3. Each PP shall promptly inform the LP about any audits that have been carried out by the bodies mentioned in § 17.1 of this agreement.
4. If, as a result of the controls and audits any expenditure is considered non eligible according to the regulatory framework as in § 1 of the subsidy contract, the procedure described in § 18 and 9.9 of this agreement shall apply.

§ 18

Withdrawal or recovery of unduly paid-out funds, decommitment of funds

1. Should the MA in accordance with the provisions of the subsidy contract, the implementation manual and § 9.9 of this agreement, demand the repayment of subsidy already transferred to the LP, every PP is obliged to transfer its portion of undue paid out amount to the LP in compliance with Article 27(2) of Regulation (EU) No 1299/2013. The LP shall, without delay, forward the letter by which the MA has asserted the repayment claim and notify every PP of the amount repayable. Alternatively and when possible, the repayment amount will be offset against the next payment of the MA to the LP or, where applicable, remaining payments can be suspended. In case repayment is deemed as necessary, this repayment is due within one month following the date of the letter by which the MA asserts the repayment claim to the LP. The LP shall be entitled to set an internal deadline to the concerned PPs in order to meet the MA requests. The amount repayable shall be subject to interest according to § 13.3 of the subsidy contract. Further provisions of the subsidy contract shall apply by analogy.
2. In case the PP does not repay the LP the irregular amounts by the deadline specified in the recovery letter, the LP informs the MA without delay. In duly justified cases, the MA informs the Member State, on whose territory the PP concerned is located in order to recover the unduly paid amounts from this Member State. Therefore, the respective Member State is entitled to claim the unduly paid funds that have been reimbursed to the MA from the PP.
3. In case that no PP can be held responsible for the request for repayment, the amount to be repaid shall be apportioned between all PPs pro rata to their project budget share.
4. Bank charges incurred by the repayment of amounts due to the MA via the LP shall be borne entirely by the concerned PPs.
5. If decommitment of funds apply in compliance with § 9.7 and provisions of the programme implementation manual, the PPs herewith agree that the deduction shall be imputed to those PPs that have contributed to the decommitment of funds unless a different decision is taken by the MC. Deduction of funds shall be done in a way not to jeopardise future involvement of PPs and implementation of activities.

§ 19

Ownership - Use of outputs

1. Ownership, title and industrial and intellectual property rights in the results of the project and the reports and other documents relating to it shall, depending on the applicable national law, vest in the LP and/or its PPs.
2. Where several members of the partnership (LP and/or PPs) have jointly carried out work generating outputs and where their respective share of the work cannot be ascertained, they shall have joint ownership on it/them.
3. In case of joint ownership, the following provisions shall apply:

Where Results are generated from work carried out jointly by two or more Parties and where their respective share of the work cannot be ascertained, the Parties shall have joint ownership of this work. The joint owners shall, within a six (6) month period as from the date of the generation of such Results, establish a written separate joint ownership agreement regarding at least the allocation of ownership and terms of exercising, protecting, disseminating, the division of related costs and exploiting such jointly owned Results on a case by case basis.

In absence of such an agreement and as far as all applicable rules and the basic principles related to competition law as well as the principles of equal treatment and transparency within the meaning of the funding regulations and ensuring that there will be no undue advantage:

- Results shall be jointly owned in equal and undivided shares/interests
- each of the joint owners shall be entitled to use their jointly owned Results for noncommercial research and teaching activities on a royalty-free basis, and without requiring the prior consent of the other joint owner(s), whereas non-commercial research activities means use for academic/teaching/scientific purposes, or mere internal use, and
 - includes use in further (funded or unfunded) cooperative funded projects. However where such use leads to a grant of further user rights to others (e.g. project partners) for royalty bearing or other activities leading to monetary benefits, such further user rights shall not be included in the category of non-commercial research activities under this bullet point, and
 - excludes use in contract research (= rendering a research service against payment to a customer, using the joint Result), even when the charge is mere cost reimbursement without profit;
 - excludes use of results for royalty bearing activities (such as licensing) or other activities leading to monetary benefits (e.g. use in developing, creating or marketing a product or process or creating and providing a service or use in standardisation activities);
- each of the joint owners shall be entitled to otherwise use and exploit the jointly owned Results or to grant non-exclusive licenses to third parties (without any right to sub-license), if the other joint owners are given:
 - (a) at least 45 calendar days advance notice; and
 - (b) Fair and Reasonable compensation.

Other joint owner are only entitled to appeal against the planned and announced using, exploitation or licensing, if there are objectively justified reasons. If such objections are raised, the above described using or exploitation of or licensing to third parties is not allowed. By using and exploiting the results all PPs shall take care that third parties benefitting from the Results maintain their high quality.

These provisions shall be in line with § 26.7 of this Agreement.

4. The ownership of outputs having the character of investments in infrastructure or productive investments realised within the project must remain with the concerned LP and/or PPs according to the timeframe as well as under the conditions set in Article 71 of Regulation (EU) No 1303/2013. Should any of the conditions set by the mentioned Regulation not be met at a certain point of time, the MA/JS

must be immediately informed by the concerned LP or PP. The MA will recover the unduly paid ERDF contribution in proportion to the period for which the requirements have not been fulfilled.

5. Each PP shall respect all applicable rules and the basic principles related to competition law as well as the principles of equal treatment and transparency within the meaning of the funding regulations and it ensures that no undue advantage, i.e. the granting of any advantage that would undermine the basic principles and political objectives of the funding regime, is given to anybody. Outputs and results, especially studies and analyses, produced during project implementation are made available to the general public free of charge and can be used by all interested persons and organizations in the same way and under the same conditions as by the LP or its PPs.
6. The MA reserves the right to use the outputs and results for information and communication actions in respect of the programme. In case there are pre-existing intellectual and industrial property rights which are made available to the project, these are fully respected.
7. Any income generated by the intellectual property rights must be managed in compliance with the applicable EU, national and programme rules on-revenues and State aid.

§ 20

Revenues

1. Earnings generated during the project implementation through the sales of products and merchandise, participation fees or any other provisions of services against payment must be deducted from the amount of costs incurred by the project in line with Art 61 of Regulation 1303/2013 and stipulations in the programme implementation manual.
2. The LP and each PP are responsible for keeping account and documenting all revenues generated, following project activities, for control purposes.

§ 21

Confidentiality

1. Although the nature of the implementation of the project is public, information exchanged in the context of its implementation between the LP and the PPs, the PPs themselves or the MA/JS shall be confidential.
2. The LP and the PPs commit to taking measures to ensure that all their respective staff members involved in the project respect the confidential nature of this information and do not disseminate it, pass it on to third parties or use it without prior written consent of the LP and the PP institution that provided the information.

§ 22

Disputes between partners

1. In case of dispute between the LP and its PPs or among PPs, presumption of good faith from all parties will be privileged.
2. Should a dispute arise between the LP and its PPs or among PPs, the affected parties will endeavour to find a solution on an amicable way. Disputes will be referred to the project steering committee in order to reach a settlement.

Award of subsidy

1. Based on the application of the LP in its latest version and the supplementing/amending documents in their latest version (altogether hereinafter referred to as "application documents"), in accordance with the decision of the Monitoring Committee of the programme (hereinafter referred to as MC), dated 04-12-2019 (and possible amending decisions) an earmarked subsidy is awarded to the LP for the project CE1683, Central European Rural Social Innovation-Implementing Central European Rural Social Innovation Lab Caravans to build skills and capacities in social innovation, social entrepreneurship and circular economy from funds of the CENTRAL EUROPE CP.

	Maximum ERDF of funding awarded	Approved Total Partner Co-financing	Approved TOTAL ELIGIBLE BUDGET ¹	Grant rate of the funding
Sub-total for PPs inside the programme area	994.730,92 Euro (€)	222.088,96 Euro (€)	1.216.819,88 Euro (€)	81,75 %
Sub-total for PPs outside the programme area	0,00 Euro (€)	0,00 Euro (€)	0,00 Euro (€)	0,00 %
Total	994.730,92 Euro (€)	222.088,96 Euro (€)	1.216.819,88 Euro (€)	81,75 %

2. Grant rate of the funding is understood as being the percentage rate which results from dividing the funding awarded from the programme (ERDF funding) by the CENTRAL EUROPE eligible budget of the project (ERDF funding + national co-financing by CENTRAL EUROPE Member States). The grant rate can change in the course of the implementation of the project. However the maximum amount of ERDF contribution as approved by the MC cannot be exceeded.

The grant rate for the project is up to 80% of the eligible costs for partners located in the Federal Republic of Austria, the Federal Republic of Germany and Italy and up to 85% of the eligible costs for partners located in the Republic of Croatia, the Czech Republic, the Republic of Hungary, the Republic of Poland, the Slovak Republic and the Republic of Slovenia.

§ 3

Terms of funding

1. The subsidy is awarded exclusively for the project as it is described in the latest version of the application documents in accordance with the conditions set out by the MC. The application form and its annexes as approved by the MC form an integral part of this contract.

2. Disbursement of the subsidy is subject to the condition that the European Commission makes the funds available to the extent described above and that all applicable EU and national rules are observed by the Partnership. In case of non-availability of funds the MA cannot be deemed responsible for late or missing payments.

3. If the European Commission fails to make the funds available due to reasons that are outside of the sphere of influence of the programme, the MA is entitled to terminate this contract and any claim by the LP or the PPs against the MA for whatever reason is excluded. In such a case the LP will be duly notified by the MA and guided on the respective steps to be taken.

4. The reimbursement of the ERDF related to the eligible expenditure incurred within the project is subject to the condition that savings made from projects approved in previous calls become available. In case this condition will not occur, the reimbursement might not be made, might be made only in part and/or might occur at a later stage according to the availability of funds.

1. If the required funds in total will not become available, the MA is entitled to terminate this contract and any claim by the LP against the MA for whatever reason is excluded. In such a case the LP will be duly notified by the MA accordingly.
2. If due to the non-availability of funds only part of the amount as indicated in § 2.1 can be granted, the parties to this contract will use their best efforts to find a prior agreement on a well-organized project closure. This includes e.g. a definition of milestones to be achieved for payment of remaining funds, if applicable, and the necessary revision of the Application Form and amendment of the Subsidy Contract. Also in such a case, the LP will be duly notified by the MA

5. The LP accepts the subsidy and undertakes to carry out the project under its own responsibility as laid out in the European Structural and Investment Funds Regulations, delegated and implementing acts or the programme rules based thereon.

6. Should it become evident that the project will not spend the maximum amount of ERDF-co-financing awarded to it by the MC, the MC may decide to reduce the award accordingly following the procedure as specified in the programme Implementation Manual.

7. Disbursement of the subsidy is subject to the condition that this subsidy contract is signed by the parties to this contract.

8. In case one or more output and result targets, as set in the latest approved version of the application form, are not successfully reached, corrective measures may be put in place to ensure the project performance as well as to minimise the impact at programme level (e.g. adaptation of the project to the changed situation) following the procedures specified in the programme Implementation Manual.

9. In case a project fails to respect the contractual arrangements on timeliness, budget absorption and achievement of outputs and results, as defined in the latest approved version of the application form, the programme may also reduce the ERDF allocated to the project or, if necessary, stop the project by terminating the subsidy contract.

§ 4

Duration of the project and the contract

1. The project has a duration as provided for in the latest version of the approved application form.

2. Administrative duties of the LP and PPs related to the closure of the project will take place over a period of three months after the project end date specified in the latest version of the approved application form and unless differently agreed by the MA. Further specifications on project closure are laid out in the programme Implementation Manual.

3. Without prejudice to the provision concerning the implementation of the project and the eligibility of expenditure as well as to the rules governing State aid, this contract expires in accordance with obligations on availability of documents as defined in Article 140 of Regulation (EU) No 1303/2013.

§ 5

Eligibility of costs

1. Costs which qualify for a subsidy pursuant to § 2.1 of this contract shall exclusively consist of eligible costs as listed in the approved application form. The eligibility of costs for ERDF co-funding is regulated in the European Structural and Investment Funds Regulations (Article 6 and Art. 65 to 70 of Regulation (EU) No 1303/2013, Article 18 of Regulation (EU) No 1299/2013), the Commission Delegated Regulation (EU) No 481/2014 as well as in the programme's eligibility rules as included in the programme Implementation Manual based thereon. All programme rules are published on the programme website.

2. The LP undertakes to carefully analyse and obey those eligibility rules and principles and to contractually forward this obligation to its project partners.

3. The non-compliance with the relevant rules could lead the programme authorities to take corrective measures and exclude from the project budget ineligible expenditure.

§ 6

Request for payments and paying out of the Subsidy

1. The LP may only request payments of the ERDF contribution on behalf of the project by providing proof of progress of the project towards the achievement of the outputs and results as set in the approved application form, in compliance with the principle of sound financial management (as determined by the principles of economy, efficiency and effectiveness) and by demonstrating the utility derived from any purchases. To this purpose the LP has to present periodic progress reports and a final report to the MA via the Joint Secretariat (hereinafter referred to as JS) as described in § 7 of this document and the Implementation Manual.

2. Payment of costs claimed together with the above mentioned reports is made subject to the provision that the payment of the amount is due according to the schedule as mentioned in § 7.1 of this document and that the European Commission has paid corresponding amounts beforehand.

3. Furthermore, payment of funds is subject to the condition that the legality and regularity of activities underlying the expenditure declared can be sufficiently demonstrated as stipulated in the European Structural and Investment Funds Regulations, Delegated and Implementing Acts or the Programme rules based thereon and that all supporting documents and certificates necessary for the assessment of the MA/JS are submitted in due time.

4. The MA reserves the right not to accept – in part or in full – certificates of expenditure as described in § 8 of this contract if due to the results of its own checks and/or controls or audits

performed by another authority such a certificate or the facts stated therein prove to be incorrect or if the underlying activities are not in line with the legal framework as set out in § 1 of this document. In such a case, the MA will either reduce the claimed certified amount, demand repayment of funds already paid out unduly or set them off against the next payment claim submitted by the LP, if possible. In compliance with Article 132 of Regulation (EU) 1303/2013, payments to the project can be suspended partially or in full in cases of suspicion of an irregularity. The MA or Certifying Authority (hereinafter referred to as CA) ² is entitled to withhold any ERDF payment to a particular beneficiary (LP or PP) or the project as a whole until all unclear issues related to the implementation, management and reporting are clarified.

5. The MA, through the JS, may request relevant information at any time. That information must be supplied by the LP within the demanded time frame. The LP will also provide information and/or requested documents to other programme authorities, courts of auditors or other control institutions acting within their respective sphere of responsibility.

6. In case of observations and/or reservations raised during the programme designation process as provided for in Art. 123 of Regulation (EU) No 1303/2013, delays in the said procedure, or in case of system errors detected within audits, the MA and CA also have the right to temporarily withhold payments. Payment suspension(s) shall be lifted as soon as observations and/or reservations raised by the relevant bodies have been withdrawn.

7. The CA ensures that the LP receives payments of the approved contribution from the programme in time and in full. No deduction, retention or further specific charges which would reduce the amount of the payment shall be made, without prejudice of provisions as above in this article. Opposite, the ERDF contribution paid by the CA shall not exceed the share of ERDF resulting from the eligible amount validated by each responsible control authority in compliance with § 8 of this document.

8. The disbursement of funds by the CA is subject to the provision by the LP of at least the following information ³ : identification of national controllers (as referred to in § 8) of partners claiming costs, bank account of the LP, location of project documents at the premises of the LP and each PP, evidence of the occurred signature of the partnership agreement (as set out in § 10 of this document).

9. The funds will be disbursed in Euro (EUR; €) only. Any exchange rate risk will be borne by the LP. The subsidy will be transferred to the account as indicated by the LP in the supplementary information section of the application form. Whenever possible, this account should be of specific project use.

10. By paying out the subsidy according to this contract the MA fulfils its obligations resulting from the present contract.

11. In accordance with Article 13 (3) of Regulation (EU) No 1299/2013) the LP shall ensure that the PPs receive the total amount of their respective share of the ERDF as quickly as possible and in full. No amount shall be deducted or withheld and no specific charge or other charge with equivalent effect shall be levied that would reduce that amount for the PPs.

12. Payments not requested in time and in full or non in compliance with the payment schedule as indicated in § 7.1 and the overview table of reporting targets and deadlines annexed to this contract may be lost.

§ 7

Reporting

1. In order to demonstrate the progress of the project implementation as described in § 6.1 of this document the LP has to present periodic progress reports and a final report to the MA via the JS according to the timeframe indicated in the overview table of reporting targets and deadlines annexed to this contract. Changes of these periods require prior approval of the MA. Further details on the reporting procedures are specified in the programme Implementation Manual.
2. Each periodic progress report consists of an activity part and a financial part.
3. The final report is to be sent to the MA via JS at the latest three month after the project end date as mentioned in § 4 of this document and the overview table of reporting targets and deadlines annexed to this contract.
4. Further details on the contents of the reports and procedural rules are laid out in the Implementation Manual, the contents of which the LP accepts and contractually forwards to its PPs.

§ 8

Validation of Expenditure

1. Each progress report submitted by the LP to the MA via the JS must be accompanied by certificates confirming the eligibility of expenditure, both at the LP and the PPs level, issued by national controllers as referred to in Article 23 (4) of Regulation 1299/2013 according to the system set up by each Member State and in compliance with the requirements set by the legal framework listed in §1 of this contract.
2. In cases of LP and PPs from countries having set a decentralised control system, the MA reserves the right, after agreement with the national responsible institution, to require that the controller directly selected by the LP or PPs is replaced if considerations, which were unknown when the contract was signed, cast doubts on the controller's independence or professional standards.
3. The LP notifies the MA, via the supplementary information section of the application form, the persons or institutions performing the control activities and ensures that they were selected in accordance with the system set up by each Member State and meet the requirements of qualification and independence presented in the programme Implementation Manual. In case a controller cannot be named before signing the subsidy contract the information has to be provided in the supplementary information section of the application form that forms part of the contractual relationship. Details about the notification procedure are laid out in the Implementation Manual, which the LP accepts and contractually forwards to its PPs.
4. Changes of address, changes of account number and changes of control authority/institution or name of controller(s) have to be duly notified following the procedure laid out in the Implementation Manual. Should the MA have any objections to the notified changes it may – after prior discussion with the national responsible institution – ask for replacement of the controller or the institution nominated.

§ 9

Changes in Project

1. Changes in budget allocations per budget lines, work packages and partner as well as changes in activities/outputs and project duration are allowed as long as the maximum amount of funding awarded is not exceeded, if provisions related to State aid discipline are respected and if they follow the conditions and procedures as set out in the Implementation Manual.
2. In the application documents the contribution of the LP and each PP are clearly defined. Changes in the project partnership require the prior approval of the relevant programme bodies as outlined in the Implementation Manual. However, once approved, they are valid retrospectively starting from the date when a written request was submitted to the JS.

§ 10

Representation of Project Partners, Lead Partner Liability

1. "Project Partners" are the organisations listed as such in the latest approved version of the application form. Only expenditure incurred and paid by the PPs are eligible for ERDF co-financing, with the exception of expenditure calculated as lump sums or on a flat rate basis.
2. The LP guarantees that it is entitled to represent the partners participating in the project and that it has established a partnership agreement according to Article 13 (2) of Regulation (EU) No 1299/2013, holding as a minimum content at least the rules as set in the template of partnership agreement provided by the programme. The allocation of tasks, mutual responsibilities and obligations among the LP and the PPs are specified in this partnership agreement.
3. The LP guarantees that the partnership agreement as a whole provides also for a clear division, in line with the application documents, of the mutual responsibilities between all partners and of the obligation of each PP to assume responsibility in the event of any irregularity or incorrectness in the expenditure which has been declared.
4. The signature of the partnership agreement shall be demonstrated at the latest within three month after the entering in to force of the subsidy contract as laid out in the Implementation Manual. The MA reserves the right to check the partnership agreement in order to verify that it has been signed and that it is in conformity with the minimum requirements as mentioned in § 10 (2) of this document.
5. The LP guarantees furthermore that it has complied with the legal framework according to § 1 of this contract and with all the relevant legal and other requirements under the law which applies to it and to the PPs and their activities and that all necessary approvals (e.g. building permissions, environmental impact assessment statements) have been obtained. The LP is obliged to contractually forward § 1 of this contract in its entirety to the PPs and to include all obligations as set out in this document into the partnership agreement.
6. The LP shall provide the PPs with all information and documents needed for a sound and legally correct project implementation including requirements related to communication and publicity.
7. In accordance with Article 13 (2) of Regulation (EU) No 1299/2013, the LP bears the overall financial and legal responsibility for the entire project and for the PPs. It will be held liable if

obligations as laid out in this contract or in applicable European Union's or national laws are not fulfilled by the project partnership.

8. The LP is furthermore liable towards the MA for ensuring that all PPs fulfil their obligations. It is liable towards the MA for infringements by the PPs of obligations under this contract in the same way as for its own conduct.

9. If the MA demands repayment of subsidy funds in accordance with this contract, the LP is liable towards the MA for the total amount of those funds. The LP is entitled to ask repayment from its PPs as stipulated in Article 27 (2) of Regulation (EU) No 1299/2013.

10. The MA cannot under any circumstances or for any reason whatsoever be held liable for damage or injury sustained by the staff or property of the LP or one of its PPs while the project is being carried out. The MA can therefore not accept any claim for compensation or increases in payment in connection with such damage or injury.

11. The LP shall assume sole liability towards third parties, including liability for damage or injury of any kind sustained by them while the project is being carried out. The LP shall discharge the MA of all liability associated with any claim or action brought as a result of an infringement of rules or regulations by the LP or one of its PPs, or as a result of violation of a third party's rights.

§ 11

Project and Financial Management

1. The LP ensures a professional management of the project.
2. The LP lays down the arrangements for its relation with the other partners participating in the project in a partnership agreement as mentioned in § 10 of this contract.
3. In compliance with Article 65 (11) of Regulation (EU) No 1303/2013 the LP ensures that expenditure items included in requests for reimbursement do not receive support from the same or any other EU Programme, EU fund or Union instrument.
4. The LP coordinates the start and implementation of the project according to the time schedule as indicated in this contract and the work plan included in the application form.
5. The LP shall install a separate accounting system or an adequate accounting code set in place specifically for the project and shall safeguard that the eligible costs as well as the received subsidies can be clearly identified.
6. In line with Article 13 (2) lit. c and d of Regulation (EU) No 1299/2013 the LP ensures that the expenditure made by the PPs has been controlled to verify that it has been used for the purpose of implementing the project and corresponds to the activities agreed between the LP and PPs as set out in the project application form.
7. The LP is responsible for ensuring the implementation of the entire project in observation of the rules and procedures set in the programme Implementation Manual (e.g. with regard to monitoring the project physical and financial progress, recording and storing of documents, written requests for project changes, implementation of information and publicity measures etc.) and for ensuring that the PPs are made aware of their obligations.

8. The LP informs the MA and JS immediately about all circumstances that delay, hinder or make impossible the realisation of the project as well as all circumstances that mean a change of the disbursement conditions and frameworks as laid down in this contract (e.g. loss of a project partner, making use of additional subsidies) or circumstances which oblige the MA to reduce payment or demand repayment of the subsidy wholly or in part.

9. The LP provides the MA and JS with any information requested without delay.

10. The LP implements the project in accordance with European Union's and national legislation as well as in line with the programme requirements, e.g. on public procurement and state aid, and ensures that also that the PPs respect these rules.

11. The LP provides data for the programme electronic monitoring system in compliance with this contract and according to the MA and JS instructions.

12. If possible, the LP submits with the respective progress report the main outputs and deliverables as stated in the application form and following the procedures set in the programme Implementation Manual. One specimen of each developed material shall be stored at the LP's or PP's premises for control and audit purposes.

13. The LP seeks the guidance from the JS where necessary and participates in transnational seminars organised by the programme.

14. The LP invites the MA/JS to participate in project Steering Committee meetings as an observer and sends minutes of these meetings to the MA/JS.

15. The LP supports the programme in its information, communication and evaluation activities (e.g. joins project exhibitions, submits texts for programme website and publications).

16. In accordance with the provisions of the Regulation (EU) 2016/679 (General Data Protection Regulation) in its valid version the MA is entitled to process personal data of the LP and all PPs, which are contained in the project application form and which are acquired in the organs and authorized representatives of the following bodies and authorities: national control bodies and bodies and authorities involved in audits carried out for the programme, European Commission, auditing bodies of the European Union and the City of Vienna, the federal Ministry of Finance of the Republic of Austria or any other institution responsible for conducting audits or controls according to European Union's or national laws. In addition, the MA is entitled to process such data and to share them with other programmes in order to implement their tasks linked to European anti-corruption policy and to make such data available to bodies and authorities for evaluation and monitoring purposes.

17. Furthermore, the LP agrees on behalf of all PPs, that the names and addresses of all project partners, the purpose and the amount of the subsidy may be used by the programme bodies in the framework of information and communication measures concerning the programme as well as reporting to the European Commission.

18. In accordance with Articles 56 and 57 of Regulation (EU) 1303/2013 the LP and all PPs undertake to provide experts or bodies authorised by the Interreg CENTRAL EUROPE Programme carrying out project evaluations and/or studies with any document or information requested for the evaluation purpose. Information might be provided by the LP and PPs also through surveys and/or interviews.

19. As security for any obligations of the LP and the PPs undertaken in connection with the subsidy and/or this subsidy contract, the LP has already provided a financial guarantee by

BANK AUSTRIA

for a guarantee amount of EUR 262,350.51

the duration of which is until 30.04.2023 (hereinafter referred to as Guarantee Termination Date).

20. If for whatever reason the LP fails to provide the final report within the timeframe set out in § 7 and the overview table of reporting targets and deadlines annexed to this contract, the LP shall - in case the final report cannot be approved at the latest 3 months before the Guarantee Termination Date - provide a new or extended guarantee for the same amount as in the initial guarantee for a period ending one year after the finalization of the approval process of the final report. The MA will inform the LP about the new or extended period. The extended or new period shall be reasonably determined by the MA on the basis of the expected delay of the project final report approval.

21. Similarly, the LP shall provide a new guarantee for the same amount if 3 months before the Guarantee Termination Date an audit in accordance with § 12 is still pending. The duration of this extended or new guarantee shall be reasonably determined by the MA on the basis of the expected duration of the audit plus a reasonable safety margin. If for whatever reason the audit should still be pending at the end of this extended period, the LP shall replace the guarantee with an extended guarantee accordingly.

22. In case of failure by the LP to comply with the obligation to provide an extended or new guarantee set out in the above paragraphs, the MA may in its sole discretion decide to fully or partially draw on the guarantee and request payment by the guarantor. The MA is as well entitled, in whole or in part, to terminate this contract and to demand repayment of subsidy (see § 18 of this contract).

23. If during the project duration it becomes apparent that the subsidy will not be granted in the maximum amount provided for in § 2.1, and provided that this is not the result of a failure of the LP or any of the PPs to comply with their obligations in connection with the subsidy and/or this subsidy contract, the MA may, on request of the LP, allow the LP to replace the existing guarantee with a guarantee for a lower amount. Such permission should not be unreasonably withheld by the MA. In case the maximum LP subsidy amount is increased, the LP shall also be obliged to provide an increased guarantee in accordance with the provisions of the amended subsidy contract.

§ 12

Financial Controls, Audits

1. The European Commission, the European Anti-Fraud Office (OLAF), the European Court of Auditors (ECA) and, within their responsibility, the auditing bodies of the participating EU Member States or other national public auditing bodies as well as the Programme Audit Authority, the MA or CA and the JS are entitled to audit the proper use of funds by the LP or by its PPs or to arrange for such an audit to be carried out by authorised persons. The LP and PPs will be notified in due time about any audit to be carried out on their expenditure.

2. The LP undertakes all the necessary actions to comply with the fundamental requirements indicated in this contract, the applicable laws and programme documents (Application and

Implementation Manuals), which are an integral part of this contract, to provide for comprehensive documentation on compliance with those norms and the accessibility to this documentation. Besides the obligations with regard to reporting and information the LP particularly:

a) keeps all documents and data required for controls and audits safely and orderly as further specified in § 11 of this contract;

b) makes all necessary arrangements to ensure that any audit, notified by a duly authorized institution as indicated in § 12.1 can be carried out smoothly and

c) provides any requested information to these institutions about the project and gives access to their business premises, provides and gives access to all the information and documents supporting the audit trail as requested in the European Structural and Investment Funds Regulations, Delegated and Implementing Acts and the programme Implementation Manual.

3. The LP shall promptly inform the JS about any audits that have been carried out by the bodies mentioned in § 12.1 of this contract.

4. If, as a result of the controls and audits any expenditure is considered non eligible according to the regulatory framework as in § 1 of this contract, the procedure described in § 13 and § 6 (4) of this contract shall apply.

§ 13

Withdrawal or recovery of unduly paid-out funds

1. In case the MA or CA discover (e.g. during the day-to-day management or during on-site checks) any unduly paid out funds, e.g. due to administrative errors or irregularities, a breach of contract or infringement of the legal provisions as laid out in § 1 of this document, or in case the MA is notified of such cases, the MA or CA shall, if necessary in consultation with the respective MS concerned and by informing the MC, demand from the LP repayment of the subsidy in whole or in part.

2. The LP shall ensure that, if applicable, the concerned PP repays the LP any amounts unduly paid in accordance with the Partnership Agreement and the Implementation Manual. The amount to be repaid can be withdrawn from the next payment to the LP or, where applicable, remaining payments can be suspended. In case of closed projects, the LP is obliged to transfer the unduly paid-out funds to the MA. The repayment amount is due within one month following the date of receiving the letter by which the MA asserts the repayment claim; the due date will be stated explicitly in the order for recovery. In case of e-mail correspondence the relevant date shall be the date of sending the e-mail, regardless of the date of receiving any mails sent additionally in hardcopy version. If the letter is sent in a hardcopy version only, it is assumed that the mail is received three days after the date on which the mail was posted.

3. Any delay in effecting repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of the late interest applied to the amount to be recovered will be calculated in accordance with Article 147 of Regulation (EC) No 1303/2013.

4. In case factors behind the recovery procedure show violation of the Subsidy Contract (see § 18 of this contract) the MA will consider the termination of the contract as last resort. In any case the partnership will be heard before taking a final decision on the termination of the contract.

§ 14

Publicity, communication and branding

1. Unless the MA requests otherwise, any notice or publication made by the project including presentations at conferences or seminars, shall point out that the present project was implemented through financial assistance from ERDF funds of the CENTRAL EUROPE CP as required by Annex XII to Regulation (EU) 1313/2013. All information, communication and branding measures of the project shall be carried out in accordance with the aforementioned rules, the latest version of the approved Application Form, the programme Implementation Manual and any other guidelines issued by the programme on the matter. The LP shall take care that the PPs comply with these requirements and provide them with relevant documents and any programme guidelines.
2. Any notice or publication relating to the project made in any form and by any means, including the Internet, must state that it only reflects the author's view and that the programme authorities are not liable for any use that may be made of the information contained therein.
3. The LP also takes the full responsibility for the content of any notice, publication and marketing product provided to the MA which has been developed by the LP, any of the project partners or third parties on behalf of the LP or the project partners. The LP is liable in case a third party claims compensation for damages (e.g. because of an infringement of intellectual property rights). The LP will indemnify the MA in case the MA suffers any damage because of the content of the publicity and information material.
4. The LP shall ensure that the project partnership complies with all publicity, communication and branding obligations (e.g. on the use of the programme logo, information requirements, organization of events etc.) as further specified in the programme Implementation Manual.
5. The Programme Authorities shall be authorized to publish, in any and by any means, the following information:
 - a) the name of the LP and its partners
 - b) contact data of project representatives
 - c) the project name
 - d) the summary of the project activities
 - e) the objectives of the project and the subsidy
 - f) the project start and end dates
 - g) the ERDF funding and the total eligible cost of the project
 - h) the geographical location of the project implementation
 - i) Abstracts of the progress reports and final report
 - j) whether and how the project has previously been publicised

6. The MA is entitled to furthermore use these data for information and communication purposes as listed in Annex XII of Regulation (EU) No 1303/2013, cited in § 1 of this contract.

7. The MA on behalf of the MC and of other programme promoters at national level is entitled to use the outputs of the project in order to guarantee a wide spreading of the project deliverables and outputs and to make them available to the public. The LP agrees that the outputs are forwarded by the MA to other programme authorities as well as the Member States taking part in the programme to use this material to showcase how the subsidy is used.

For the purpose of meeting the objectives as set out in § 6 of this contract the LP has to provide evidence of the deliverables and outputs produced as further specified in the Implementation Manual.

8. Any communication campaign, media appearance or other publicity of the project shall be communicated to the MA/JS for potential website updates or showcases.

§ 15

Ownership – Use of outputs

1. Ownership, title and industrial and intellectual property rights in the results of the project and the reports and other documents relating to it shall, depending on the applicable national law and/or the Partnership Agreement, vest in the LP and/or its PPs. The partnership is entitled to establish the property rights of the products deriving from the project.

2. The ownership of outputs having the character of investments in infrastructure or productive investments realised within the project must remain with the concerned LP and/or PPs according to the timeframe as well as under the conditions set in Article 71 of Regulation (EU) No 1303/2013. Should any of the conditions set by the mentioned Regulation not be met at a certain point of time, the MA/JS must be immediately informed by the concerned LP or PP. The MA will recover the unduly paid ERDF contribution in proportion to the period for which the requirements have not been fulfilled.

3. The LP respects all applicable rules and the basic principles related to competition law as well as the principles of equal treatment and transparency within the meaning of the funding regulations and it ensures that no undue advantage, i.e. the granting of any advantage that would undermine the basic principles and political objectives of the funding regime, is given to anybody. Outputs and results, especially studies and analyses, produced during project implementation are made available to the general public free of charge and can be used by all interested persons and organizations in the same way and under the same conditions as by the LP or its PPs.

4. The MA reserves the right to use the outputs and results for information and communication actions in respect of the programme. In case there are pre-existing intellectual and industrial property rights which are made available to the project, these are fully respected.

5. Any income generated by the intellectual property rights must be managed in compliance with the applicable EU, national and programme rules on-revenues and state aid.

§ 16

Revenues

Earnings generated during the project implementation through the sales of products and merchandise, participation fees or any other provisions of services against payment must be deducted from the amount of costs incurred by the project in line with Art 61 of Regulation 1303/2013 and stipulations in the programme Implementation Manual. The LP undertakes to contractually forward these stipulations to its project partners

§ 17

Assignment, legal succession

1. The MA is entitled at any time to assign its rights under this contract. In case of assignment the MA will inform the LP without delay.
2. The LP is in exceptional cases and in well-founded circumstances allowed to assign its duties and rights under this contract only after prior written consent of the MA and the MC. The procedure will be further specified in the Implementation Manual.
3. Where according to national laws the legal personality does not change and where all assets of the LP or a PP are taken over so that a deterioration of the financial capacity of the acquiring institution is not to be expected (i.e. in cases of universal succession) prior consent by the MC is not necessary. The LP, however, will submit related information together with all documents that are necessary to analyse the legal case in due time to the MA/JS. If the MA/JS comes to the conclusion the conditions as stated above are not fulfilled (e.g. in cases of a singular succession), the LP will be informed that a partner change procedure as stated in § 17 (2) has to be initiated.
4. In case of assignment or any form of legal succession of a LP or PP the LP or PP concerned is obliged to assign all rights and obligations and all project related documents to each and any assignee or legal successor. Related reports to the MA/JS as requested in the programme documents have to be forwarded by the LP.

§ 18

- g) the LP has failed to submit required reports (e.g. the progress reports according to the overview table of reporting targets and deadlines annexed to this contract) or proofs, or to supply necessary information provided that the LP has received a written reminder setting an adequate deadline and explicitly specifying the legal consequences of a failure to comply with requirements and has failed to comply with this deadline;

- r) the LP has failed to fulfil any other conditions or requirements for assistance stipulated in this contract and the provisions it is based on, notably if these conditions or requirements are meant to guarantee the successful achievement of the programme objectives;

2. Prior to or instead of terminating the contract as provided for in this article, the MA may suspend payments as a precautionary measure, without prior notice. This measure shall be lifted as soon as the reasons for such measures cease to apply or requested proof can be furnished.
3. If the MA exercises its right of termination and the LP is demanded full or partial repayment of amounts already paid, the LP is obliged to transfer the repayment amount to the MA. The repayment amount is due within one month following the date of the letter by which the MA asserts the repayment claim; the due date will be stated explicitly in the order for recovery.
4. If a LP or PP fails to return unduly paid funds in another project funded by the Interreg CENTRAL EUROPE CP, the MA has the right to withdraw the corresponding ERDF from any open payment in this project.
5. If the MA exercises its right of termination, offsetting by the LP is excluded unless its claim is undisputed or recognised by declaratory judgement.
6. If the MA exercises its right of termination and the LP is demanded full or partial repayment of amounts already paid. Any delay in effecting repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of the late interest applied to the amount to be recovered will be calculated in accordance with Article 147 of Regulation (EC) No. 1303/2013.
7. After termination of this contract, the LP's obligations (inter alia §§ 11, 12, 13, 18, 21) and liabilities remain.
8. Bank charges incurred by the repayment of amounts due to the MA shall be borne entirely by the LP.
9. If any of the circumstances indicated in the aforementioned point 1 of this paragraph occur before the full amount of subsidy has been paid to the LP, payments may be discontinued and there shall be no claims to payment of the remaining amount.
10. As laid out in § 3.3, the MA is entitled to terminate this contract if the European Commission fails to make the funds available due to reasons that are outside of the sphere of influence of the programme.
11. Any further legal claims shall remain unaffected by the above provisions.

§ 19

Force majeure

1. Force majeure shall mean any unforeseeable and exceptional event affecting the fulfilment of any obligation under this subsidy contract, which is beyond the control of the LP and PPs and cannot be overcome despite their reasonable endeavours (e.g. substantial changes due to changes in political or financial terms) Any default of a product or service or delays in making them available for the purpose of performing this contract and affecting the project performance, including, for instance, anomalies in the functioning or performance of product or services, labour disputes, strikes or financial difficulties do not constitute force majeure.
