Regarding both articles

Lead Time: currently available in stock in UK

A freight time of 3-8 working days is added to the stated delivery date (2-3 weeks for TR, CI and CY countries). Freight charges include delivery to a location outside the building that is easily accessible for the truck. They do not include unloading the items from the truck, bringing them into the building and installation. If there is no truck loading ramp on the building side, a forklift truck with a suitable load capacity and lifting height is required for unloading, which is the responsibility of the customer. Should the delivery date be delayed from your point of view, please inform us at least 10 days before the agreed delivery date. Otherwise, we reserve the right to charge you storage costs in an appropriate amount.
