1. Introduction

This procedure describes the process of transforming information received from the central XBID system (ref. XBID_JOINT_NOR_02) into nominations by the TSO Post-Coupling Systems on behalf of the shipping agent and/or CCP and/or Explicit Market Participants. Nomination on behalf in the context of this procedure can only be implemented by TSOs, not third parties. It is a local decision of TSOs to implement this procedure Nomination on behalf or XBID_JOINT_NOR_03 – Nomination.¹

Depending on the type of allocation (explicit and/or implicit) and the nomination solution (on behalf or direct for every type of nominations) that is in place, each TSO decides for which type of nominations this process is needed. Table 1 of XBID_JOINT_NOR_02 lists the arrangements in place for each interconnector.

Process-wise, a distinction is made between **ex-ante** nominations and **ex-post** nominations. Depending on the local market rules, some nominations are mandatory ex-ante, and other can be ex-post. In general the process of nomination on behalf is only applied for ex-ante nominations.

¹ An overview of TSOs allowing for Nomination on behalf can be found in Table 1 of XBID_JOINT_NOR_03 - Nomination.

Please note:

- Capitalized terms used in the operational XBID procedures have the meaning set forth in Exhibit 1 of the Intraday Operations Agreement (IDOA).
- Wherever reference is made to the roles of “Shipping Agent”, “CCP” or “Market Participant” the actual party involved is the “Scheduling Agent” of the relevant party.

-

1.1. Summary

This procedure describes the process of translating information received from the central XBID system into nominations by the TSO Post-Coupling Systems on behalf of the shipping agent and /or CCP and/or Explicit Market Participants.

1.2. Governed / Regulated by

- Local BRP contract
- Intraday Operations Agreement
- Bilateral Agreements
- High Level Architecture (HLA)
- High Level Business Process (HLBP)

1.3. Tools and Communication protocols

Tools

- TSOs Post-Coupling Systems
- Systems of the Scheduling Agent of the Shipping Agent/ Scheduling Agent of the CCP/ Scheduling Agent of the Explicit Market Participant

Communication protocols (if applicable)

1.4. Associated procedures

Preceding procedures:

XBID_JOINT_NOR_02: Distribution of allocation information Subsequent procedures:

- Local TSO procedures on Scheduled Exchange Verification

Other associated procedures and rules:

- XBID_JOINT_NOR_03: Nomination
- XBID_JOINT_OTH_02: Internal and External Communications

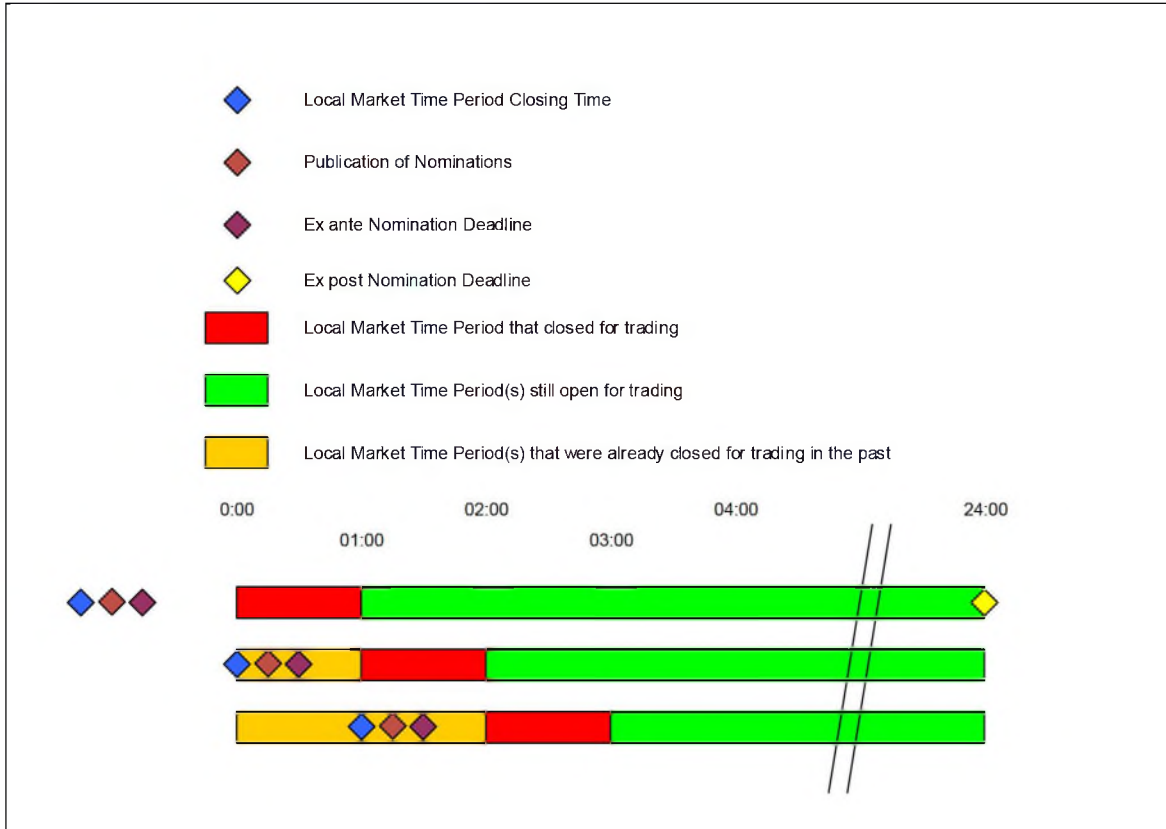

- XBID_JOINT_FAL_01: Incident Management
- XBID_JOINT_EXC_01: Closing and re-opening of an interconnector

2. Procedure

2.1. Preconditions to start

Required files from the XBID system are successfully received (XBN, XBR, HNS, HNT, CTS).

2.2. General overview

For illustrative reasons hourly resolutions are shown in the figure.
