

Annex 1

List of project activities with Kilden participation

Project activity 4: Project media exposure

Kilden will announce on its website the participation in the project. Kilden will when deemed appropriate share information in its social media channels relating to for example the workshop visit.

Project activity 5: Trip to Norway in order to focus the Research Centre in terms of its content

Two members of the Czech team will visit the Norwegian partner Kilden in Norway where Kilden will organise a workshop for them. The workshop will help the Czech team members establish the key areas for research and most efficient methods for transfer of knowledge in this area into practice. The Czech team members would like to have a chance to visit the Norwegian centre for violence and traumatic stress studies as part of their trip. As part of the trip, Kilden will help the Czech team members to network so that they can get feedback from their contacts as they take concrete steps when they establish the Research Centre.

Project activity 7: International conference

Kilden participates in this project activity through its active participation in the form of one lecture given as part of the conference. The lectures will present their work on domestic and gender-based violence with emphasis on transfer of knowledge to practice.
