1. Introduction

The Nomination Process (Hub and Cross-border Nomination) for the Core internal borders and for the other TSO CS interconnectors starts as soon as the Market Coupling Results are available for the Core NEMOs, TSOs and CCPs and when the Rights Documents have been created by the Core TSO CS.

The Rights document file will be transferred from TSO CS to the CID system, CCP / Shipping Agent System and the TSOs Back-End Systems.

CCP/Shipping Agent Systems are in charge of submitting the Local Hub and Scheduled Exchanges (Cross-border) Nominations to the TSOs Scheduling Systems.
