Offer

No.: 2022-30224

Your VAT no.: CZ86652052

Pos.	Item no. Description	Qty.ME	unit price	Total price
1	11010000 DOSEman Personal Radon Exposimeter/Dosimeter incl. Software RadonVision and Access-code for DOSEman Personal dosimeter for the determination of radon exposure and equivalent dose in a particularly robust metal housing. Fastest possible warning and all-clear with respect to high concentrations by alpha spectroscopy and large-area diffusion membrane. Including software and DAKKS Radon calibration.	1 unit	2.375,00	2.375,00
2	10010002 Battery charger DOSEman/ PRO/ MyRIAM in content of delivery Microprocessor controlled charger World-wide application possible due to long-range input and primary plug-set micro controller supervised charger for NiCd-/ NiMH battery packs capacity range 500-5.800 mAh fast charging (2 h!) possibility of discharging faulty cells detection trickle charging Country versions (plugs): EURO US UK Australia Tech. specs: Prim.: 100-240 V ~ 50/60 Hz Sizes: 118 x 62 x 48 mm Weight: 280g	1 unit	0,00	0,00
3	11020000 DOSEman PRO Radon daughter product dosimeter Handy and robust personal dosimeter for Radon decay products with semiconductor detector and alpha spectroscopy. Integrated sampling pump, easy filter replacement. Adjustable dose-coefficient. Up to 48 hours of battery operation. Including software and factory calibration.	1 unit	3.003,00	3.003,00
4	10010002 Battery charger DOSEman/ PRO/ MyRIAM in content of delivery Microprocessor controlled charger World-wide application possible due to long-range input and primary plug-set	1 unit	0,00	0,00
			carry-over	5.378,00
