Quotation#
EUQN-235362

Quoted Date	Expiry Date	Sales person	Sales person
06-02-2023	11-03-2023	Remig Arnak	Remig

#	Item	Qty	Unit price	Amount
	I. Plant mRNA sequencing			
1	Package (RNA) - TruSeq stranded mRNA - NovaSeq 6000 (custom output)	50 Sample	140.00	7,000.00
	II. Shipping			
2	Shipping - Without dry ice	1 Each	0.00	0.00
	III. Data delivery			
3	Data delivery - Macrogen server (maximum 60 Gbytes per order)	1 order	0.00	0.00

Scope of work:
- the user will provide 50 total RNA sample (at least 1ug in at least 20ul, RIN higher than 7.0, rRNA ratio at least 1.0) isolated from plant organism.
Shipping will be done using GenTegra tubes (provided by the customer)
Work to be performed:
- Input material quality and quantity check
- Library: TruSeq mRNA stranded
- Sequencing Platform: NovaSeq6000
- Configuration: 2x150bp
- Throughput: 30M total reads per sample
- Analysis: raw data
- Data delivery: download

Sub Total	7,000.00
Reverse charge of VAT (0%)	0.00
Total	**€7,000.00**

Terms of Quotation

- The quotation price is excluding VAT.
- The above quotation would be changed under various circumstances.
- The purpose of the quotation is for sole price estimation upon your requested services; therefore it relates NOT to any payment process.
- Macrogen Europe B.V. provides free delivery service for your convenience under certain conditions, but shall under no circumstances be liable for any loss, damage, expense, or delay to the shipments for any reason whatsoever when said shipments are in custody, possession, or control of third parties (transportation companies, customs, etc.).
Either a purchase order number or credit card number must be presented when placing an order.
If you have any further question on our service and others, please contact ngs@macrogen-europe.com

Terms of Service

1. The quotation #EUQN-235362 is prepared for price estimation of specific project, and price information is confidential to the parties directly involved with this project.

2. Service cost usually includes initial sample shipment to Macrogen's facility and quality checks throughout the process. Amount in final invoice may vary from initial quotation when additional services are used. e.g. nucleic acid extraction, hard disk delivery, etc.

3. Upon arrival of samples, Macrogen personnel registers clients' samples in the system and proceed with initial quality check. When main service – library preparation and sequencing– is not executed due to the client's change of mind, service cost will be calculated up to the point – shipping and QC fee – and be charged to the client. Once the client's samples pass initial QC step, Macrogen will attempt maximum twice of library preparation. When the library still fails QC step and eventually its sequencing run is not performed, Macrogen considers the cause is in the submitted sample's specificity and charge 50% of the library price.

4. Macrogen Europe B.V. provides free delivery service for your convenience under certain conditions, but shall under no circumstances be liable for any loss, damage, expense or delay to the shipments for any reason whatsoever when said shipments are in custody, possession or control of third parties (transportation companies, customs, etc.).

5. Sequencing raw data and its analysed result will be discarded 3 months after the data delivery. BCL file will be deleted before the others due to its huge size. Within the 3-month data storage period, your analysis result may be used for data quality inspection, validation, and internal training purposes for better service by Macrogen.

6. Processed sample and any unused sample such as back-up, QC failed one, etc. will be discarded 3 months after the data delivery, unless otherwise special request is made. At request, the samples can be returned at the recipient's cost. Request should be made no later than 1 month after the data delivery. For the project amount of total €15,000 or above, the shipping and handling charge can be waived.

7. Whilst we are willing to examine client queries surrounding the data, we dictate that any formal objections should be addressed within 3 months after the data delivery.

8. The service is for research purposes only, and not for clinical or diagnostic procedures.

9. Macrogen is a global research facilitator with its headquarter in Seoul, Korea and has affiliated corporation and branch offices all over the world. We reserve rights to utilise our global supply chain to meet agreed service terms.

10. For any purchases made by Macrogen due to special request from client side, all sample preparation costs will be charged regardless of the result of the experiment.

11. Terms of payment is NET 30 days, and client is subject to 10% late fee of total amount. All payments shall be without any deduction of fees, taxes, other withholding or similar taxes whatsoever. For the avoidance of doubt, client shall pay all of the aforementioned fees and taxes in addition to the cost of services/products with respect to using Macrogen's services and/or products. Further orders may not be accepted when overdue amount is considered substantial. Available payment methods are as follows:
   * Credit card: Master, VISA
   * Wire transfer to a bank account of Macrogen Europe B.V.
      Beneficiary: Macrogen Europe B.V.
      IBAN: NL36 INGB 0008 8449 96
      Bank Info: ING bank
      BIC: INGBNL2A
