In the event the Licensee is listed in Appendix B, all and any provisions related to Participating Institutions shall be without any limitation applicable also to the Licensee.

The Licensee shall be entitled to grant the necessary authorization or sublicense to Participating Institutions.

In consideration of the mutual promises contained herein and other good and valuable considerations, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Subject of the Agreement, Content of Licensed Materials; Grant of License

- 1.1 **Statement.** The Distributor hereby guarantees that it has all the authority, competence and license to grant a license to the Licensed Materials to the Licensee as defined in this Agreement.
- 1.2 **Subject of the Agreement.** The subject of this Agreement is to define the conditions of cooperation and the rights and duties of the contracting Parties while providing the Licensed Materials to the Licensee and the Participating Institutions as are defined in this Agreement.
- 1.3 **Licensed Materials.** The materials ("**Licensed Materials**") that are the subject of this Agreement are set forth in Appendix A.
- 1.4 **Grant of License.** The Distributor hereby grants to the Licensee a non-exclusive, non-transferable (except the following sublicenses to the Participating Institutions), system-wide perpetual right, or if perpetual is not objectively possible under applicable law then to the maximum extent permissible under applicable law (regardless whether in form of a license or a sublicense), to use the Licensed Materials pursuant to this Agreement and also as further specified in Appendix A, limited to the territory of the Czech Republic. The Licensee is entitled to grant the sublicenses to the Participating Institutions. The Distributor entitles the Licensee to access and use the Licensed Materials to the Authorized Users (which are defined in Section 4.1 of this Agreement) of the Participating Institutions (which are listed in the Appendix B) in accordance with the terms of this Agreement.
- 1.5 **Ownership of Intellectual Property.** Nothing in this Agreement shall be interpreted to transfer ownership of any copyright, trademarks, service marks from the Distributor or its suppliers to the Licensee or the Authorized Users.

2. Delivery & Access

- 2.1 The Distributor will provide the Licensed Materials to the Licensee and to the Participating Institutions in the following manner:

Network Access. The Licensed Materials will be stored at one or more Publisher's locations in digital form accessible by telecommunication links between such locations and authorized locations of the Licensee and the Participating Institutions.

3. Fees

- 3.1 **Fees and Payment.** The Licensee shall pay the Distributor a fee for the license concerning the Licensed Materials pursuant to the terms set forth in Appendix A ("Fee"). All Fees are due and payable by the Licensee by 15 May of the respective calendar year, unless otherwise stipulated in Appendix A.
- 3.2 **Incomplete Payment.** The Licensee may cover the invoice partially if a Participating Institution did not provide its financial contribution in time. In the event of such incomplete payment, the Licensee will notify the Distributor in writing of the intended difference no less than ten (10) days prior to the due date. In such case the Licensee is not in delay with the payment and the Distributor or the Publisher may suspend the IP addresses of such Participating Institution until the Fee is completely paid.
- 3.3 **Change of number of Participating Institutions listed in Appendix B.** In case any Participating Institution shall lose its status as a Participating Institution or in case any Potential Participating Institution and/or new scientific (or similar) institution shall reveal its intent to become a Participating Institution, the Distributor shall enter into negotiations with the Licensee to amend this Agreement and to renegotiate the amount of the Fee.

4. Authorized Use of Licensed Materials

- 4.1 **Authorized Users.** "Authorized Users" are:
- (a) Persons affiliated with the Participating Institutions. Full and part-time employees, faculty, staff and students of the Participating Institutions, and registered users in case of public research libraries, in-site or remotely using secure authentication system implemented by the Licensee or Participating Institutions. For the Participating Institutions, see Appendix B.
 - (b) Walk-ins. Patrons not affiliated with the Participating Institutions who are physically present at the Participating Institutions' site(s) ("**Walk-ins**").
- 4.2 **Access by and Authentication of Authorized Users.** Authorized Users of the Participating Institutions shall be granted access to the Licensed Materials pursuant to the following:
- (a) IP Addresses. Authorized Users shall be identified and authenticated by the use of Internet Protocol ("**IP**") addresses provided by the Licensee to the Distributor. The use of proxy servers is authorized as long as any proxy server IP addresses provided limit remote or off-campus access to the Authorized Users. Authorized IP Addresses are listed in Appendix C. An updated list will be sent to the Distributor on an annual or as-needed basis without the need to amend this Agreement. Alternatively, if the Publisher is utilizing its own and/or third-party system for IP range change notification (such as e.g. IP Registry), then an updated list may be sent via such system instead. The Distributor shall ensure

that the Publisher shall use reasonable efforts to cooperate with the Participating Institutions in the implementation of new authentication protocols and procedures (such as Shibboleth) as they are developed during the term of this Agreement. Both the Licensee and the Distributor will provide cooperation to coordinate or facilitate this process but they will not be liable for correct implementation of such authentication protocols and procedures (which remain the full responsibility of the Publisher and the respective Participating Institution).

- (b) Distributor or Publisher - Administered Authentication. Where the Distributor or the Publisher provides alternative methods of access and authentication beyond the Licensee-administered methods described herein, e.g. by allowing users to establish a personal login from an on-campus IP address (thereby enabling access via username and password when logging in to a vendor website) or device authentication, which affiliates the device or application by use of a token, cookie, or vendor-managed proxy prefix, neither the Licensee nor any Participating Institution will be responsible or liable for claims of breach or validity of such use..
- (c) Personally Identifiable Information (Personal Data) of Authorized Users. The Licensee, the Distributor and the Publisher together and individually acknowledge and agree that the Licensee neither transfers nor provides any personally identifiable information (personal data) of the Authorized Users to the Distributor. Access to the Licensed Materials is primarily granted via IP Addresses pursuant to Section 4.2(a) of this Agreement which prevent any identification of the Authorized User. In case of the Distributor or the Publisher - Administered Authentication pursuant to Section 4.2(b) of this Agreement, the Distributor and the Publisher are required to ensure lawful processing of any personally identifiable information (personal data). This does not preclude the Licensee to hand over the contact details of the Participating Institutions' contact persons or other personal data where the Licensee has a valid legal basis therefor.

4.3 **Authorized Uses.** The Participating Institutions and the Authorized Users may make all use of the Licensed Materials as is consistent with Czech Republic copyright law and these licensing conditions ("**Authorized Uses**"). In addition, the Licensed Materials may be used for purposes of research, education or other non-commercial use as particularly follows:

The Distributor shall provide to the Licensee upon request, or the Licensee may independently create, one (1) copy of the entire set of the Licensed Materials to be maintained as a backup copy. In the event that this Agreement is terminated, or the Publisher no longer offers the Licensed Materials online, the Licensee and Participating Institutions may use the backup copy to exercise their rights under Section 12 (*Perpetual Rights*) of this Agreement. Distributor shall charge Licensee for the postage and time spent fulfilling any request made under this clause.
- (f) Caching. The Participating Institutions and the Authorized Users may make local digital copies of the Licensed Materials in order to ensure efficient use by Authorized Users by appropriate browser or other software. For the avoidance of doubt, the cached copy is not a derivative work.
- (g) Classroom Use. The Participating Institutions and the Authorized Users may distribute single copies of individual articles or items of the Licensed Materials in print or electronic form to the Authorized Users. For the avoidance of doubt, classroom handouts shall include the distribution of a copy for teaching purposes to all individual Authorized Users in a class at Authorized Sites (Appendix B).
- (h) Collections of Information. The Participating Institutions and the Authorized Users shall be permitted to extract or use information contained in the Licensed Materials for educational, scientific, or research purposes, including extraction and manipulation of information for the purpose of illustration, explanation, example, comment, criticism, teaching, research, or analysis.
- (i) Course Packs (Print and Electronic). The Participating Institutions and the Authorized Users may use a reasonable portion of the Licensed Materials in the preparation of course packs or other educational materials ("**Course Packs**").
- (j) Course Reserves (Print and Electronic). The Participating Institutions and the Authorized Users may use a reasonable portion of the Licensed Materials for use in connection with specific courses of instruction offered by the Licensee and/or the Participating Institutions.
- (k) Electronic Links. The Participating Institutions and the Authorized Users may provide hyperlinks from the Licensee's, the Participating Institutions' and the Authorized Users' web page(s) or web site(s) to individual units of content within the Licensed Materials.
- (l) Scholarly Sharing. On an ad hoc basis, the Authorized Users may transmit to a third party, in hard copy or electronically, minimal, insubstantial amounts of the Licensed Materials for personal use or scholarly, educational, or scientific research or professional use in the nature of collaboration, comment, or scholarly

exchange of ideas but in no case for resale or commercial purposes or in a manner that would substitute for direct access to the Licensed Materials via services offered by the Distributor and/or the Publisher.

- (m) Text and Data Mining. The Authorized Users may use the Licensed Materials to perform and engage in text and/or data mining activities for academic research, scholarship, and other educational purposes and may utilize and share the results of text and/or data mining in their scholarly work and make the results available for use by others, so long as the purpose is not to create a product for use by third parties that would substitute for the Licensed Materials. The Distributor and the Publisher will, upon receipt of a written request, cooperate with the Licensee and the Authorized Users as reasonably necessary in making the Licensed Materials available in a manner and form most useful to the Authorized User. The Distributor shall provide to Licensee, upon request, copies of the Licensed Materials for text and data mining purposes without any extra fees.
- (n) Interlibrary Loan. Using electronic, paper, or intermediated means, the Participating Institutions at their discretion may fulfill occasional requests from other institutions, a practice commonly called Interlibrary Loan ("ILL"). The Distributor agrees and ensures that the Publisher will agree that the electronic form of the Licensed Materials may be used as a source for the ILL whereby articles and/or chapters can be printed and these print copies can be delivered via postal mail, fax, or fax-based service to fulfill ILL requests from an academic, research or other non-commercial library. Requests received from for-profit companies will not be honored. An ILL through secure electronic transmission, as demonstrated by the ARIEL, is permitted. Files transmitted in this manner must carry copyright notices and comply with the copyright laws of Czech Republic.
- (o) Bibliographic Citations. The Participating Institutions and the Authorized Users may use, with appropriate credit given, figures, tables, and brief excerpts from the Licensed Materials in the Authorized Users' own scientific, scholarly, and educational works. For the avoidance of doubt, the Participating Institutions and the Authorized Users may use citation and abstract information in faculty profiling systems, in lists of publications on faculty and institutional web pages, and to create bibliographies, and store a single copy of an individual document being part of the Licensed Materials, including within secure personal bibliographic reference/citation management systems.

4.4 **No Diminution of Rights.** Nothing in this Agreement, including but not limited to the Authorized Uses, shall be interpreted to diminish the rights and privileges of the Participating Institutions or the Authorized Users with respect to any of the Licensed Materials, including exceptions or limitations to the exclusive rights of copyright owners. In the event that any content included in the Licensed Materials is in the public domain or has been issued under a Creative Commons or other open license, neither the Distributor nor the Publisher shall place access, use or other restrictions on that content beyond those found in the open license, where applicable.

4.5 **Scope of Authorized Use and Access to Licensed Materials.**

Unlimited Access. Subject to the terms of this Agreement, the Participating Institutions and their Authorized Users shall have unlimited and simultaneous user access to the Licensed Materials.

5. Specific Restrictions on Use of Licensed Materials

6. Mutual Performance Obligations

- 6.1 **Notification and Cure of Unauthorized Use.** In the event the Licensee and/or any of the Participating Institutions has notice of an unauthorized use of the Licensed Materials and cannot promptly remedy it, the Licensee or the Participating Institution shall promptly notify the Distributor or the Publisher. - 6.2 In the case of unauthorized use, the Distributor or the Publisher may temporarily suspend such offending individual Authorized User's access to the Licensed Materials (e.g. by blocking an individual user's IP address), provided that the Distributor without significant delay notifies, or shall ensure that the Publisher immediately notifies the Licensee and the respective Participating Institution of any such suspension, including the reason for the block and any supporting details. Such

temporary suspensions will be of the shortest possible duration and the maximally limited extent sufficient to terminate the alleged unauthorized activity and prevent its resumption. In the event that such suspension lasts longer than the shortest period necessary to prevent such unauthorized use, the Distributor is obliged to reimburse the Licensee the respective pro rata part of the Fee (calculated with respect to the actual number of excessively suspended Authorized Users) for the period of duration of such excessive suspension. Any excessive suspension of access to the Licensed Materials can shall be subject to Section 11 of this Agreement, including the cure period.

Licensee's and/or the Participating Institutions' **Discovery Service System(s)** for indexing and discovery purposes. The Distributor shall make reasonable effort to provide the Licensee's and/or the Participating Institutions' discovery service vendors on an ongoing basis the citation and complete descriptive metadata (including all subject headings, abstracts, and keywords) and full-text content necessary to facilitate optimal discovery and accessibility of the content for the benefit of the Participating Institutions and the Authorized Users. - 7.6 **Online Terms and Conditions.** In the event that the Publisher requires the Authorized Users to agree to additional terms relating to the use of the Licensed Materials (commonly referred to as "**click-through**" or "**clickwrap**" licenses), or otherwise attempts to impose terms on the Authorized Users through online terms and conditions invoked by the mere use or viewing of the Licensed Materials, such terms shall not materially differ from the provisions of this Agreement and violation of these additional terms by the Authorized Users will not be considered as breach of this Agreement but merely and exclusively as breach of these additional terms. In the event of any conflict between the click-through terms or on-line terms and condition and this Agreement, the terms of this Agreement shall prevail. The Distributor or the Publisher alone shall be liable and responsible for any personal data processing that occurs with respect to these additional online terms and conditions as either the Distributor or the Publisher determines the scope and purpose of such personal data processing. For the avoidance of doubt, the Authorized Users are not a party to this Agreement.

Any archival and perpetual access rights that have been granted shall be honored, whether the Publisher is acting as the transferring or acquiring party. If the Publisher is transferring any portion of the Licensed Materials to another party, the

Distributor shall ensure that the Publisher will use reasonable efforts to assign all rights and obligations to the assignee. If the Publisher is acquiring works that become subject to this Agreement, the Distributor shall ensure that the Publisher will use reasonable efforts to acquire the rights to perform under this Agreement, including but not limited to perpetual access rights. The Distributor agrees to use reasonable efforts to communicate with the party from which it is acquiring works to exchange such relevant payment and rights information. For journal titles, the Distributor shall use reasonable efforts to ensure that the Publisher will comply with the NISO Transfer Code of Practice.¹

Where applicable, the Distributor shall ensure that the Publisher will cooperate with the Licensee and the Participating Institutions to identify and correct content errors or omissions, and when necessary, the Distributor shall ensure that the Publisher shall use reasonable efforts to ensure that the online content: (1) is at least as complete as the print and other physical format versions of the Licensed Materials; and (2) represents complete, accurate, and timely replications of the corresponding content contained within the print and other physical format versions of such Materials.
- 7.15 In order to facilitate the assessment of completeness of content, the Distributor shall use reasonable efforts to ensure that the Publisher will provide upon the Licensee's request a report of the content in the Licensed Materials at the title, issue, chapter, or item level. The Distributor shall ensure that the Publisher will disclose to the Licensee content known or found to be missing from the Licensed Materials, including but not limited to images, pages, issues, and chapters.
- 7.16 If the online content is a digitized version of the print content and differs from the print or other physical format versions of the Licensed Materials so as to be substantially less useful to the Licensee, the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.

When such changes, modifications, or migrations occur, the Distributor shall use reasonable efforts to ensure that the Publisher will give prior written notice of any such changes to the Licensee as soon as is practicable, but in no event less than sixty (60) days in advance of modification. - 7.18 **Withdrawal of Licensed Materials.** The Publisher reserves the right to withdraw from the Licensed Materials any item or part of an item for which it no longer retains the right to publish, or which it has reasonable grounds to believe infringes copyright or is defamatory, obscene, unlawful, or otherwise objectionable. The Distributor shall use reasonable efforts to ensure that the Publisher will give notice of the withdrawal to the Licensee as soon as is practicable, but in no event less than thirty (30) days in advance of withdrawal, specifying the item or items to be withdrawn. Such a notice may also be given directly by the Publisher to the Licensee.

If any such withdrawal renders the Licensed Materials substantially less useful to the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to the termination provisions in Section 11 of this Agreement.
- 7.20 **Itemized Holdings/Title List.** Prior to the beginning of every calendar year, the Distributor or the Publisher will provide the Licensee with the current itemized holdings report that specifies the titles included in the Licensed Materials for the next Subscription. The Distributor will use reasonable efforts to update itemized holdings reports as soon as is practicable when the holdings information changes, and will provide this information in a timely manner to the Licensee on request. This information may also be provided by means of a Publisher's website. If the Licensed Materials include content covered by the NISO Knowledge Bases And Related Tools (KBART) Recommended Practice,² the Distributor or the Publisher will use reasonable efforts to provide itemized holdings lists for the Licensed Materials in a KBART-compliant format, including a column/field for dates (YYYY-MM) of additions.
- 7.21 **Usage Statistics.** The Distributor shall use reasonable efforts to ensure that the Publisher will provide access to both composite system-wide use data and itemized data to the Licensee for the Participating Institutions, on a monthly basis. The statistics shall meet or exceed the most recent project Counting Online Usage of NeTworked Electronic Resources ("COUNTER") Code of Practice Release,³ including but not limited to its provisions on customer confidentiality. The Distributor and Publisher shall not provide usage statistics of any Participating Institution in any form to any third party with the exception of the Licensee without the Participating Institution's written authorization, unless the third party owns rights in the Licensed Materials. In all cases, the disclosure of such data shall fully protect the anonymity of individual users and the confidentiality of their searches, and will comply with all applicable privacy laws. The Distributor shall not disclose or sell to other parties usage data or information about the Licensee, any Participating Institution or the Authorized Users without the Licensee's and/or their Participating Institution's written permission or as required by law.

If the Distributor or the Publisher is compelled by law or court order to disclose personally identifiable information (personal data) of the Authorized Users or patterns of use, the Distributor shall provide the Licensee with adequate written notice as soon as is practicable, so that the Licensee, the Participating Institution or the Authorized Users may seek protective orders or other remedies. The Distributor or the Publisher will notify the Licensee and Authorized Users as soon as is practicable if the Distributor's or Publisher's systems are breached and the confidentiality of personally identifiable information (personal data) is compromised.

7.24 **Notice of the Use of Digital Rights Management Technology.** In the event that the Publisher utilizes or implements any type of digital rights management (**DRM**) technology to control the access to or usage of the Licensed Materials, the Distributor will provide or shall ensure that the Publisher will provide the Licensee with a description of the technical specifications of the DRM and how it impacts access to or usage of the Licensed Materials. In no event may such Digital Rights Management technology be used in such a way as to limit the usage rights of the Participating Institution or any Authorized User as specified in this Agreement or under applicable law. If the use of DRM renders the Licensed Materials substantially less useful to the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.

7.25 **Use of Digital Watermarking Technology.** In the event that the Publisher utilizes any type of watermarking technology for any element of the Licensed Materials, the Distributor shall use reasonable efforts to ensure that the Publisher agrees that the watermarks may not reduce the readability of the content or degrade image quality. These watermarks shall not contain user-related information, including but not limited to an account number, IP address, and usernames. If digital watermarking

technology is implemented, the Distributor will notify or shall ensure that the Publisher will notify the Licensee at least thirty (30) days in advance of implementation, and provide the technical specifications for the technology used. If the use of the watermarking technology renders the Licensed Materials substantially less useful to the Licensee, the Participating Institutions or their Authorized Users, the Licensee may seek to terminate this Agreement for breach pursuant to Section 11 of this Agreement.

- 7.27 **Branding.** If reasonably possible, the Distributor will make reasonable efforts to ensure that the Publisher will allow the Licensee and the Participating Institutions to brand the Publisher's platform with the name of the Licensee and/or the Participating Institutions' Sites at the Licensee's or the Participating Institutions' own discretion.
- 7.28 **MARC Records.** When applicable to the Licensed Materials, at the Licensee's request, the Distributor shall provide or shall ensure that the Publisher will provide full OCLC-quality batched sets of MARC records incorporating Licensee specifications at no additional cost by the date of the execution of this License Agreement. Updates to existing records and new title records, matching the schedule of release and delivery of new publications, will be provided on a mutually agreed-upon schedule and in a format that renders them useful to the Licensee and/or the Participating Institutions. Such records may be provided by means of the Publisher's online service.
- 7.29 **Open Access Option.** The Distributor undertakes and shall ensure that the Publisher will also undertake to keep the Licensee informed of any alternative business models during the term of this Agreement, including but not limited to models taking into account both journal subscriptions and Article Processing Charges for Open Access publishing in so-called hybrid journals. Should the Licensee agree to switch to any such alternative business model, the Parties will formalize the new business model in a separate agreement signed by both parties.
- 7.30 The Distributor recognizes and acknowledges that a new Directive on Copyright in the Digital Single Market has been adopted by the European Union which implements direct statutory authorizations of research organizations to open access and to employ data mining techniques to materials to which they have lawful access. The Distributor shall ensure that all Publisher's obligations outlined in this Appendix shall be fulfilled.

Definitions:

„Article Publishing Charge (APC)“ shall mean: the charge levied by the Distributor on the acceptance of an article for publication in an SAGE Choice (Hybrid) or Gold Open Access Journal.

„Offered Title“ – Eligible Gold Open Access journals or Sage Choice journals (HYBRID) from the subscribed package.

“Eligible Corresponding Authors” shall mean: teaching and research staff employed by or otherwise accredited to the Participating Institution as well as students enrolled or accredited to the Participating Institution who are also the corresponding author of an article published in an Offered Title.

Submission rights will be granted only to journals in the package subscribed by the relevant Participating Institution.

In case of articles published by multiple authors, only the corresponding author will be the Eligible Corresponding Author.

Licensee acknowledges that for the purpose of exercising APC discounts set in Appendix A it is not permitted to change the corresponding author of an article after peer review from an in-eligible author to one accredited to the Participating Institution to qualify as eligible. Publisher understands that neither Licensee nor Participating Institution have any legal means to prevent such requests from authors. Whether such request will be exceptionally fulfilled is entirely at the discretion of Publisher.

Authors are only Eligible Corresponding Authors once they have signed the then current open access publishing agreement with Publisher.

“Eligible Articles (Hybrid)” shall mean: Articles with an Eligible Corresponding Author verified by the Participating Institution or Licensee as detailed in Sections 1 and 2 below

and entered into Publisher's production system, for a Hybrid Journal that is part of the Licensed Materials for Hybrid Open Access Publishing (as detailed in Appendix B – Participating Institutions and subscribed collections; and Appendix D – Title List) and are classified as "Article". "Article" includes but not limited to: Original Research Papers, Review Papers, Brief Communications, Short Reports, Case Reports.

Articles entering (Acceptance date) Publisher's production system after 1st January 2023 and during the term of this agreement.

Articles published as part of commercially sponsored supplements, errata, book reviews, editorials, published abstracts, call for papers, news items or similar are excluded from this service.

Articles already in the Publisher production system at commencement of this agreement (articles being accepted before the commencement of this agreement); articles entering (being accepted) the Publisher production system outside the term of this agreement are excluded from this service.

"Hybrid Journal" shall mean a journal title in which articles that are not Open Access Articles are published in the same issue as Open Access Articles.

"Open Access Article" shall mean articles or other published content that is accessible or submitted on the basis that it will be accessible on an open access basis.

Open Access Publishing Rights

Publisher agrees to publish the Eligible Articles (Hybrid) as Open Access Material in accordance with the provisions of this Agreement.

The Licensee agrees to inform Participating Institutions that this Licence is in place and that the Eligible Articles (Hybrid) of the Participating Institutions' Eligible Corresponding Authors can be made Open Access Material on acceptance in the Hybrid Journals listed in Appendix D.

The Licensee shall make best effort to ensure that Participating Institutions shall ensure that Eligible Corresponding Authors shall identify themselves as being eligible in the course of Publisher's publishing workflow as specified in section Open Access Workflow of this Appendix.

The Licensee shall ensure that Publisher is provided with accurate and up to date information for use in identifying Eligible Corresponding Authors as specified in section Open Access Workflow of this Appendix.

All parties acknowledge that while the Licensee has financial obligations toward Publisher, that the Licensee is in no way involved with the editorial process.

Nothing herein contained shall oblige Publisher to publish any article submitted to Publisher by an Eligible Corresponding Author. The Licensee acknowledges that the selection of material to be published on the Publisher Platform is entirely at the discretion of Publisher. The Licensee waives any claim it may have against Publisher in the event that Publisher refuses or declines to publish any material (or part thereof) submitted by an Eligible Corresponding Author.

1. Workflow: Eligible Corresponding Author identification

- a) During the submission of the article, the submitting author is responsible for correctly identifying the Institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation Publisher provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match.
- b) In the event of no match being found, Publisher will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain.
- c) Publisher will use this match to identify an Eligible Corresponding Author as an Authorised User of the Customer using RinggoldID matches.
- d) The Licensee shall make best effort to assist Publisher in updating the list of applicable Ringgold IDs for Publisher to use in matching. The Licensee shall make best effort to ensure the list of applicable RingGold IDs covers only affiliations where all authors at the affiliation are also teaching and research staff employed by or otherwise accredited to the Licensee as well as students enrolled or accredited to the Licensee.
- e) The Licensee is responsible for providing and updating the list of applicable email domains for Publisher to use in matching.

- e) Transacting author digitally signs the Open Access license.
- f) If the Transacting author rejects Open Access publishing of the Eligible Article, the Eligible Article will be published in a traditional subscription only format, not as Open Access.

- g) If a Transacting author does not respond to the Publisher offer of Open Access publishing, a reminder will be sent by the Publisher to all authors after 7 days.
