Milníky v projektu NAPCORE

Níže uvedené milníky jsou výňatkem z grantové dohody, aktualizované podle pracovního plánu na rok 2022. Milníky podléhají rozhodnutím vedení projektu NAPCORE a mohou být v průběhu řešení projektu měněny s ohledem na obsah i na termín realizace.

PS3: silniční doprava, interoperabilita a architektura NAP [WG2]

Následující text obsahuje seznam kontrolovatelných výstupů PS za jednotlivé pracovní balíčky projektu NAPCORE:
- WG3: obsah a dostupnost dat v NAP,
- WG4.1: standardizace DATEX II a
- WG4.4: standardizace metadat.
- dále se prostřednictvím pracovních balíčků WG4.1 a WG4.4 podílí na celkové harmonizaci standardizace v nadřazeném pracovním balíčku WG4

Working Group 2 "Interoperability and level of service of NAPs"

The Working Group 2 aims at defining minimum conditions and coordination efforts for the development and evolution of the NAPs in order to enhance the compatibility and interoperability of the features (access, management, look & feel etc.). This Working Group will also enhance the harmonisation of the levels of service of the NAPs, take account of the existing architecture of the NAPs in the Member States and maintain and develop common NAP architecture while building upon the existing investments. Best practice demonstrators, i.e. with higher levels of interoperability and improved levels of service of NAPs as they exist in Member States, will be described and developed in this WG with input from the project partners.
