

the first of these is the fact that the majority of the population is now living in urban areas. This has led to a concentration of people in a few large cities, which has in turn led to a number of problems. One of the most serious is the lack of adequate housing. In many of these cities, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children. Another problem is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use.

The second of these factors is the fact that the majority of the population is now living in rural areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.

The third of these factors is the fact that the majority of the population is now living in coastal areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.

The fourth of these factors is the fact that the majority of the population is now living in inland areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.

The fifth of these factors is the fact that the majority of the population is now living in mountainous areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.

The sixth of these factors is the fact that the majority of the population is now living in highland areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.

The seventh of these factors is the fact that the majority of the population is now living in lowland areas. This has led to a number of problems. One of the most serious is the lack of adequate services, particularly in the case of education and health care. This has led to a number of social problems, particularly in the case of crime and drug use. Another problem is the lack of adequate housing. In many of these areas, the housing is of a very poor quality and is often overcrowded. This has led to a number of health problems, particularly in the case of children.
