Institute shall remain primarily responsible to Esri for compliance with the terms and conditions of this Agreement by Authorized Users. Use of the Deliverables for commercial or profit-generating activities or private gain is an express violation of the Agreement, entitling Esri to all remedies available in equity or at law as well as payment in full for commercial license fees.

ARTICLE 3—SCOPE OF USE

3.1 Additional Permitted Uses. The following additional Permitted Uses are hereby granted:

- a. Institute may copy and Deploy the Deliverables listed in Table A-1 up to the license quantities specified in Table A-2 solely for Research Use.
- b. Institute may copy and Deploy the Deliverables listed in Table A-3 up to the license quantities specified in Table A-4 solely for Administrative Use.
- c. Institute may permit Authorized Users to use the Deliverables on a personally owned device in any geographic location where it is not prohibited by the then-current applicable US government export laws and regulations (currently the following: Iran, Sudan, North Korea, Syria, Cuba, and the Crimea region in the Ukraine), solely for Research Use in accordance with the terms of this Agreement.
- d. Institute may demonstrate the functionality of the Deliverables to its government and commercial sponsors.

3.2 Additional Use Restrictions. The following additional use restrictions apply to the Deliverables:

- a. Institute shall not allow Authorized Users to use the Deliverables for any commercial or profit-generating activities.
- b. Institute shall not use or permit Authorized Users to use the Deliverables in violation of the Export Compliance provision of the Master Agreement, which includes authorizing use, access, or transfer to denied parties, entities, or individuals on any US government sanctioned lists.
- c. Institute shall not Deploy the Deliverables to its government, commercial sponsors, or prime contractor.
- d. Except where permitted herein, Customer shall not transfer, redistribute, or assign Deliverables to any third party without the prior written permission of Esri. Notwithstanding, Value-Added Applications that permit anonymous use may be used by third parties provided that no Named User credential is assigned to the third party and/or no Deliverable is installed on a computer owned by a third party.

ARTICLE 4—MAINTENANCE

4.1 Maintenance. Maintenance is included in the Annual Fee. Deliverables will receive maintenance provided that standard maintenance is available for each item. Maintenance includes benefits specified in the then-current Distributor Technical Support policy as modified in this Section 4.1.

a. Tier 1 Support Provided to Institute

- (1) The Tier 1 Help Desk will provide Tier 1 Support to Customer.
- (2) The Tier 1 Help Desk will use analysts fully trained in the Deliverables they are supporting.
- (3) At a minimum, Tier 1 Support will include activities that assist the user in resolving how-to and operational questions as well as questions on installation and troubleshooting procedures.
- (4) Tier 1 Support analysts will be the initial points of contact for all questions and Cases. Tier 1 Support analysts shall obtain a full description of each reported Case and the system configuration from Institute. This may include obtaining any customizations, code samples, or data involved in the Case. The analyst may also use any other information and databases that may be developed to satisfactorily resolve Cases.
- (5) If the Tier 1 Help Desk cannot resolve a Case, an authorized Tier 1 Help Desk individual may contact Distributor for Tier 2 Support. The Tier 1 Help Desk shall provide support in such a way as to minimize repeat calls and make solutions available to Institute.
- (6) Institute may assign named Tier 1 Help Desk individuals up to the quantity listed in Appendix A. These individuals will be the only individuals (callers) authorized to contact Distributor directly for Tier 2 Support.

b. Tier 2 Support Provided by Distributor

- (1) Distributor shall log the calls received from Tier 1 Help Desk individuals.

- (2) Distributor shall review all information collected by and received from Tier 1 Help Desk individuals including preliminary documented troubleshooting provided by Tier 1 Help Desk when Tier 2 Support is required.
- (3) Distributor may request that Tier 1 Help Desk individuals provide verification of information, additional information, or answers to additional questions to supplement any preliminary information gathering or troubleshooting performed by Tier 1 Help Desk.
- (4) Distributor shall attempt to resolve Case submitted by Tier 1 Help Desk by assisting Tier 1 Help Desk individuals and not Institute.
- (5) When a Case is resolved, Distributor shall communicate the information to Tier 1 Help Desk individuals.
- (6) Esri may, at its sole discretion, make patches, hot fixes, or updates available for downloading from Distributor's or Esri's website or, if requested, deliver them on media.

ARTICLE 5—ORDERING, DELIVERY, AND ADMINISTRATIVE PROCEDURES

5.1 Purchase Orders and Delivery

- a. Distributor does not require Institute to issue purchase orders and will invoice Institute upon the Effective Date of this Agreement and subsequently on each contract anniversary date during the Agreement term. Institute may submit purchase orders in accordance with its own process requirements. If Institute issues purchase orders, then Institute will submit its initial purchase order upon execution of the Agreement and any subsequent purchase order at least thirty (30) days before the anniversary date. Invoices will be due and payable within thirty (30) days of receipt of invoice.
- b. Distributor will provide Authorization Codes that enable Institute to download, operate, or provide access to Deliverables. Delivery of updates/new versions of Deliverables will be made in the same manner.
- c. Institute may purchase additional backup media sets at the prices in effect at the time of purchase. All shipments of media will be shipped Ex Works (INCOTERMS 2000) from Redlands, California, to Distributor. Distributor will then ship to Institute's shipping address as listed in Appendix B. Delivery or receipt of tangible media could cause prior and future license fees to be subject to taxes. Institute acknowledges that Distributor has a right to invoice for, and Institute agrees to pay, any such sales or use tax associated with receipt of tangible media.
- d. Institute shall pay all value-added, sales, use, or other taxes; duties; customs; shipping; insurance; or other fees or withholding currently or subsequently imposed on all receipt and use of Deliverables under this Agreement. However, if Institute is exempt from such taxes, duties, fees, withholding, or other charges, Institute shall provide Distributor with evidence of exemption from such charges.

5.2 Future Updates. Esri and Distributor may update the list of Deliverables in Appendix A by making new or updated Products available to Institute as Esri incorporates new or updated Products into the standard research institute program. Institute acknowledgment is not required to activate the modifications. Authorized Users' use of new or updated Deliverables is subject to the Master Agreement and the terms and conditions herein. Esri reserves the right to modify or remove Deliverables upon reasonable written notice to Primary Contact should Esri commitments to third parties regarding licensed third-party technology included in Esri products require a unit-based royalty fee or prohibit Deployment or restrict redistribution rights to Esri customers. All other updates to the Research Institute Enterprise Agreement Terms and Conditions will be provided by written amendment to this Agreement.

5.3 Esri User Conference. Institute will receive registrations to the Esri User Conference in the quantities listed in Appendix A. Third parties may not represent Institute at the Esri User Conference.

ARTICLE 6—TERM AND TERMINATION

6.1 Term. This Agreement is an annual Term License. The Term License will commence upon payment of the Annual Fee and remain in effect for one (1) year, unless terminated earlier as described below. Thereafter, contingent upon Institute remaining qualified as a nonprofit research institute, the Agreement will automatically renew upon Institute's payment of the Annual Fee, provided that payment is made prior to expiration of the current

Term. Institute's payment of the Annual Fee constitutes acceptance of any new terms and conditions applicable to the Deliverables.

6.2 Termination. Institute may terminate this Agreement at any time for its convenience. In the event this Agreement is terminated by either party, Institute will not be entitled to a refund of the entire or partial amount of the Annual Fee paid. Either party may terminate this Agreement for a material breach by the other party. The breaching party will be given a period of thirty (30) days from the date of written notice to cure any material breach. Upon termination of this Agreement by Esri for a material breach (including Institute's failure to pay the Annual Fee), or by Institute for convenience, all licenses Deployed will also terminate. Institute shall (i) cease access and use of Online Services and clear Online Services client-side data cache and (ii) uninstall, remove, and destroy all whole or partial copies in any form including modified copies of the Deployed Deliverables (except upon prior written approval by Esri, such approval not to be unreasonably withheld, Institute may retain a copy for archive purposes only). Institute shall represent in writing to Esri or Distributor that all copies have been destroyed. Institute may continue to use Rolled-In Products following termination of this Agreement subject to compliance with the Master Agreement, with the exception of termination for Institute's material breach.

ARTICLE 7—INSTITUTE'S RESPONSIBILITIES

In consideration of the grant of the discount on standard license and technical support fees, Institute agrees to do the following:

- a. Appoint a Primary Contact.
- b. Appoint Tier 1 Help Desk individuals as specified herein.
- c. Where appropriate, encourage the use of geographic information system (GIS) technology among Authorized Users.
