Ing Jakub Papírník, Prof. Luděk Matyska, Doc. Vít Vondrák,

This letter summarizes the software products that The MathWorks is providing to **e-INFRA CZ** research infrastructure that comprises of three national e-infrastructures: **CESNET, CERIT-SC, and IT4Innovations** and the terms of its limited authorized use. The following table summarizes the licenses being provided that are to be used in support of hosting MATLAB and/or MATLAB Parallel Server that work solely with MathWorks Hosted License Manager on e-INFRA CZ systems and are subject to the terms and conditions contained in *The MathWorks, Inc. Software License Agreement* that accompanies the software.

| | Approved Use | MathWorks Programs | Platform | License Option | License Manager | Capacity |
|---|---|---|---|---|---|---|
| 1 | See definition of *Approved Use* below | MATLAB (only R2012b forward) | All | Individual (Login Named User), Concurrent (2 seats) | MathWorks Hosted License Manager only | 1 user |
| 2 | See definition of *Approved Use* below | MATLAB Parallel Server (only R2012b forward) | All | Concurrent | MathWorks Hosted License Manager only | 32 workers |
| 3 | See definition of *Approved Use* below | 5G Toolbox | All | Individual (Login Named User), Concurrent (2 seats) | MathWorks Hosted License Manager only | 1 user |

The Programs licensed hereunder ("MathWorks Programs") may only be used for the *Approved Use* defined below, and for no other purpose without the prior written consent of an authorized representative of The MathWorks.

This License is and always shall be interpreted as a fixed term contract and not an indefinite duration contract. The Initial Term of this License expires on December 31, 2024, unless renewed by mutual, written agreement of The MathWorks and you. This License is subject to immediate termination by The MathWorks should you or your authorized users utilize the License in a manner inconsistent with the *Approved Use* or *The MathWorks, Inc. Software License Agreement* terms, the determination of which shall be at the sole and absolute discretion of The MathWorks.

For purposes of this License, "Approved Use" means the use of the Programs by you solely for the purpose of creating, testing and maintaining the infrastructure on e-INFRA CZ systems necessary to allow third parties who are Licensees (within the meaning of the MathWorks Software License Agreement) to access the MathWorks Programs strictly under the terms of the MathWorks Software License Agreement that governs their use of the MathWorks Programs in the cloud, and under no other license arrangement with you or any other third party. For the avoidance of doubt, you shall not otherwise make use of the MathWorks Programs, and shall only make use of the Programs with MathWorks Hosted License Manager. Notwithstanding the terms of the Software License Agreement, Approved Use does not include the right to use the products to deploy an application to a third party, including any of your affiliates. In the event of any inconsistency between the terms of this letter and the Software License Agreement, the terms of this letter shall apply.

In addition, you agree that it will not export, re-export, resell, transfer or otherwise dispose of the MathWorks programs contrary to the U.S. Export Administration Regulations except as specifically authorized by the U.S. Export Administration Regulations (15 CFR parts 730-774), or by prior written approval of the Bureau of Industry and Security and/or The MathWorks.

To confirm your agreement to the terms stated above, please sign where indicated below and return a hard copy to Gandharv Kashinath at the address below.

Re: Additional Sponsored Concurrent licenses of MATLAB and MATLAB Parallel Server for **e-INFRA CZ** research infrastructure that comprises of three national e-infrastructures: **CESNET, CERIT-SC, and IT4Innovations**

Dear Ing Jakub Papírník, Prof. Luděk Matyska, Doc. Vít Vondrák,

This letter provides you with the details of the authorization we are granting to **e-INFRA CZ** ("Licensee") with respect to the **Sponsored, Concurrent licenses** as listed in Schedule A, which are being provided **in addition to those licenses** listed in the hosting provider agreement. For purposes of this letter, capitalized terms not defined herein shall have the same meaning ascribed to them in The MathWorks, Inc. Software License Agreement (the "SLA") and the Program Offering Guide that accompany the delivery of the software Programs.

In addition to the definition of Approved Use in your hosting provider agreement, the Licensee may avail of the Sponsored Concurrent Licenses mentioned in Schedule A to install and use the Programs specified on VSC Research Center systems or other academic computing resources controlled by Licensee solely for the purpose of setting up MATLAB and MATLAB Parallel Server on High Performance Computing (HPC) clusters. These additional licenses can be used by any individual who has been granted access to HPC resources by Licensee for the purpose of performing **software administration, teaching or noncommercial academic research** subject to the terms and conditions defined as "Data Center Use" contained in The MathWorks, Inc. Program Offering Guide that accompanies the software.

The downloading and use of any Programs by any individual on the individual's Computer or any other Computer not controlled by the Licensee is expressly prohibited.

This authorization shall expire when the hosting provider agreement does unless this authorization is terminated sooner if the license terms are breached.
