Subject: Scientific Reports: Decision letter for SREP-23-03245A

To: <xxxxxxxxxxxxxxxxxxxxxxxxxxxx>

Dear Professor xxxxxxxxxxxx,

We are delighted to accept your manuscript entitled "Transcranial Direct Current Stimulation (tDCS) in the Treatment of Neuropsychiatric Symptoms of Long COVID" for publication in Scientific Reports, a journal of the Nature Research family. Thank you for choosing to publish your work with us.

Licence to Publish and Article-processing charges

- In the coming days the corresponding author will receive an email with a link to complete the grant of rights necessary for publishing your work and – if applicable – to provide payment information for your article-processing charge (APC), either via credit card or by requesting an invoice.

If needed, our Author Services team will be in touch regarding any additional information that may be required.

Please note that you will not receive your proofs until these steps are completed. In order to avoid any delays, please ensure that you have emails from Springer Nature whitelisted in your mail system.

- Please see our [FAQs page](#) for further information about article processing charges.

After we've prepared your paper for publication, you will receive an electronic proof for checking. At that point, please check the author list and affiliations to ensure that they are correct. For the main text, only errors that have been introduced during the production process or those that directly compromise the scientific integrity of the paper may be corrected at this stage. Please ensure that only one author communicates with us and that only one set of corrections is returned using the e-proofing tool. The corresponding (or nominated) author is responsible on behalf of all co-authors for the accuracy of all content, including spelling of names and current affiliations.

To ensure prompt publication, your proofs should be returned within two working days; please contact SciRep.Production@nature.com immediately if you wish to nominate a contributing author to receive the proofs on your behalf.

Acceptance of your manuscript is conditional on all authors' agreement with our publication policies (see <https://www.nature.com/srep/journal-policies/editorial-policies>). At this stage, you may wish to make your institution's press office aware of the forthcoming publication, if

you wish to bring your work to the media's attention, so that they can start preparing any publicity. Please note that the paper is still under embargo until it is published in the journal. Further details of our embargo policy can be found here <http://www.nature.com/authors/policies/embargo.html>.

Publication is typically within one to two weeks of the proofs being returned. Please note there will be no further correspondence about your publication date. When your article is published, you will receive a notification email. **If you are planning an embargoed press release or require a specific publication date, please contact SciRep.Production@springernature.com when you receive the proofs and we will endeavour to accommodate your request.**

Your article will be open for online commenting on the Scientific Reports website. You may use the report facility if you see any comments which you consider inappropriate, and of course, you can contribute to discussions yourself. If you wish to track comments on your article, please register for this service by visiting the 'Comments' section in the full text (HTML) version of your paper.

****A form to order reprints of your article is available at <http://www.nature.com/reprints/author-reprints.html>. To obtain the special author reprint rate, orders must be made within a month of the publication date. After that, reprints are charged at the normal (commercial) rate.****

We look forward to publishing your article.

Best regards,

Sayed Hasnain
Editorial Board Member
Scientific Reports

Editorial Board Member comments:

One of the Reviewer Dr. Chitra Sarkar's earlier decision was to reject this manuscript which I think had more to do based on standard Nature-journal criteria, including perceived importance and significance. The other Reviewer Dr. Anirban Basu recommended a major revision and now his decision is to accept the revised version. I have gone through the modifications carried out by the Authors in the revised manuscript and also the authors response to the comments of the reviewers. In my view, Authors have comprehensively revised this manuscript addressing all comments of the reviewers. All other explanations provided by the Authors to the query of the reviewers are quite satisfactory.

I recommend acceptance of the revised version of this manuscript.
