Thank you for your request. I confirm the receipt of the order. I was just wondering about the date of delivery in the document, which says 24<sup>th</sup> of February. We have not even received the samples and the analysis we perform takes two to three weeks, so the date is not realistic. Is this a problem for your processes? Also, our invoices are usually sent out after the end of the quarter in which the service has been performed (most likely begin of April in this case). In case an earlier invoice will be required, please let me know.

Kind regards,

---
