SPRINGER NATURE

Dear Dr. Petr Adámek

We're delighted that your article has been accepted for publication:
'The Gaze of Schizophrenia Patients Captured by Bottom-up Saliency'

You now need to:

- Provide details to help us check whether your article processing charge (APC) is covered by your institution or a journal partner.
- Read and accept your publishing agreement.
- Make a payment if the APC is not covered.

If you have been given an APC waiver or discount this will be taken into account.

Continue with publishing your article:

Dear Mr Adámek,

I am very pleased to inform you that your manuscript, "The Gaze of Schizophrenia Patients Captured by Bottom-up Saliency," has now been accepted for publication in *Schizophrenia*.

PLEASE READ THE FOLLOWING CAREFULLY

Licence to Publish and Article-processing charges

In 5-10 days you will receive an email with a link to choose the grant of rights necessary for publishing your paper and – if applicable – to provide payment information for your article-processing charge (APC), either via credit card or by requesting an invoice.

Please note that you will not receive your proofs until these steps are completed. In order to avoid any delays, please ensure that you have emails from Springer Nature whitelisted in your mail system. We will not be able to move forward until these forms are received.

If you have any questions about our publishing options, costs, Open Access requirements, or our legal forms, please contact ASJournals@springernature.com

Prior to typesetting, we may make minor changes to enhance clarity and conform to the journal's style. We would; therefore, ask you to examine the proofs carefully to ensure that the sense of your text has not been inadvertently altered in any way.

Content Sharing

By choosing an open-access journal for your research, you are ensuring that your article can be freely accessed by anyone immediately on publication.

As part of the Springer Nature SharedIt initiative, a stable, shortened URL will be available to you on publication. As your article is open access, readers will be able to download and print the PDF and access the full-text HTML as usual. The link has additional benefits over uploading or emailing a static PDF of your article. As readers will be directed to your article on the journal website, all of the views of your article will be captured on your article metrics page on the journal website, enabling a fuller picture of the impact and reach of your research. You can also take advantage of annotation functionality, so you can add comments and annotations to your article before you share it, aiding collaboration.

As soon as your article is published, you can generate your shareable link by entering the DOI of your article [here](#).

Thank you very much for submitting your work to *Schizophrenia*.

Yours sincerely,

Robin Emsley, MD
Editor
Schizophrenia
