The Parties have agreed to these terms and conditions of the Contract:

1. Object of the Contract

- a. The object of this Contract is to provide educational services specified below in SWEUS Timetable.
- b. Educational services are provided to the Client in exchange for payment.

2. Rights and Obligations of University

- a. The University is committed to provide educational services to the Client with all due care; the extent, location and time of these services are stipulated in terms of specific educational programs. Up to 18 participants from Client may take part in the program.

3. Rights and Obligations of Client

- a. The Client agrees to pay the full price for the education programs based on a tax document (invoice) with the maturity of fourteen (14) calendar days. The invoice shall be issued after the publication of this contract in Contract Repository (see below).
- b. The Client agrees to comply with all the organizational guidelines issued by University.

4. Price

- a. The price for the educational services is € 5904 (EUR five thousand nine hundred and four).

5. Final Provisions

- a. The creation, content and termination of the legal relationship between the Client and the University that are not covered by this Contract are governed by the Act no. 89/2012 Coll., Civil Code, as amended.
- b. This contract has been entered into in English language and is governed by the law of the Czech Republic.
- c. In the case that the Client fails to make the payment within the period hereunder, the University shall not be obliged to provide the educational services until the fulfilment of the above payment obligation and shall be entitled to withdraw from this agreement.
- d. According to the Act no. 340/2015 on the Contract Repository, University is obliged to publish the text of this contract and this contract takes effect after its publishing. The contract shall be made accessible to the general public, but personal data, signatures and bank account information shall be omitted.
- e. This contract has been entered into in four (4) counterparts, each of them valid as original, of which each of the parties shall receive two (2) counterparts.
- f. The following form an inherent part of the Contract:

Programme
18th - 21st July

Week 1 begins by a placement test and introduction to the course. Students' attention is drawn to the use of English language in academic contexts and to cultural issues. It helps students to refine their grammar, widen their vocabulary and expand their functional language. Individual sessions also offer a brief overview of academic skills in English in lectures and seminars, an opportunity to practise poster presentations and conversation with an experienced London businessman on professional issues. In writing, the sessions aim at fostering students' awareness of academic writing style and the diversity of genres they may use while at university, they also focus on descriptive, comparative or cause and effect essays as well as on argumentative writing.

22nd - 23rd July

The weekend focuses on practical English language use in different setting (Vienna). It also serves as an exploratory field trip with the aim to gain materials for presentations and writing practice (cultural and language issues in the European context).

24th - 28th July

Week II focuses on practice of speaking and writing skills based on a variety of complex language activities. In speaking, it aims at improving students' accuracy and fluency, and developing presentation skills and effective participation in discussions. In writing, the sessions offer a deeper insight into work with academic paragraphs, abstracts, or individual language structures. They aim at developing students' critical thinking and sound argumentation. This week shows academic study skills in English in their complexity and aims at encouraging students to adopt a more autonomous approach to learning.

29th - 30th July

The weekend focuses on individual preparations for final assessment of the Summer School, giving feedback and practical oriented group work based on field work within the city of Brno. Each student will participate individually and the group will then produce presentation material for student presentations being held on Monday.
