Taunusstein, 13. February 2024

Quotation: 698-01-097951

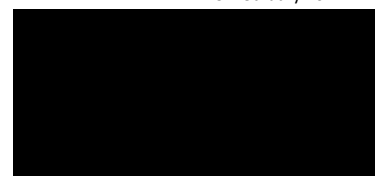

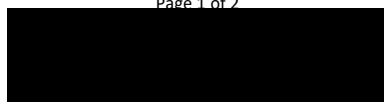

Pos	Qty	Item	Description	Price
10	(1)	PN05562-S		€ 14,200.00
			High temperature heating facility (HTSH1C) upgrade package	
			The high temperature sample heating facility (HTSH) allows samples to be continuously heated up to 1670 K by means of radiation.	
			The sample acceptor is made from molybdenum. The maximum filament power is 270 W (11 A; 24,5V). The sample and one side of the filament are grounded. A thermocouple type K is fitted for temperature measurement. The upgrade package contains a pre-assembled heater facility, ready to be mounted to a manipulator with primary rotation (D = 9.5 mm). Material for internal wiring, feedthrough and heater power cable are included. The direct heating brush is also included. Please specify orientation of heater brush upon order.	
			A power supply is not included in this offer.	
20	(1)	FREIGHT		€ 80.00
			Freight cost flat rate	
Subtotal net				€ 14,280.00
