Acquisition of RIMRPO analytical software for sustainable pest and disease management in fruit and viticulture

The system is to be used to connect 15 meteorological stations. The possibility of meteorological forecasts (other than data from the stations themselves) will be used if available.

Subscription (all models): 15 x 185 EUR = 2775 EUR

Meteoblue (optional): 15 x 50 EUR = 750 EUR

TOTAL: 3525 EUR

This is VAT excluded project

Paid by invoice. Please put reference number of this order to the invoice. Also include banking details necessary for payment in EUR. Thank you.

Mgr. Zbyněk Wojkowski
Head of the Project Department
