Editor comments

We have carefully reviewed your work and the feedback from the referees, and therefore, I am pleased to inform you that your manuscript has been accepted for Publication. Congratulations to all the authors!

Licence to Publish and Article Processing Charge

As the corresponding author of an accepted manuscript, your next steps will be to complete an Open Access Licence to publish on behalf of all authors, confirm your institutional affiliation, and arrange payment of your article-processing charge (APC). You will shortly receive an email with more information.

Checking the proofs

Prior to publication, our production team will check the format of your manuscript to ensure that it conforms to the standards of the journal. They will be in touch shortly to request any necessary changes, or to confirm that none are needed.

Once we've prepared your paper for publication, you will receive a proof. At this stage, for the main text, only errors that have been introduced during the production process, or those that directly compromise the scientific integrity of the paper, may be corrected.

Please make sure that only one author communicates with us and that only one set of corrections is returned. As the corresponding (or nominated) author, you are responsible for the accuracy of all content, including spelling of names and current affiliations.

To ensure prompt publication, your proofs should be returned within two working days.

Publication policies

Acceptance of your manuscript is conditional on all authors agreeing to our publication policies at:

<https://www.biomedcentral.com/getpublished/editorial-policies>

Please note that we operate a transparent peer review process, where we publish reviewers' reports with the article, together with any responses that you may have made to reviewers or the handling Editor.
