Perpetual emaPD & Maintenance

according to your request from 6/17/2024 we would like to make you the following offer:

1 Task

The ema Software Suite (emaSWS) combines 3D-technology with modern planning methods and offers solutions for holistic, virtual production planning and workplace design including simulation and process evaluation.

The main modules ema Plant Designer (emaPD) and ema Work Designer (emaWD) can be used independently or in combination.

The emaPD is the main module for integrated production and material flow planning including material flow simulation. The module enables the simple, fast and precise planning and evaluation of production processes with the aim of developing lean and highly efficient production. emaPD offers the best of the worlds of simulation and value stream mapping and delivers reliable results on the utilization of workstations including bottleneck analysis, on manufacturing costs, throughput times and critical paths, on buffer areas as well as on production areas and material flows. Regardless of whether workshop, series, island or flow production is to be planned, the corresponding functionalities for material flow and layout planning as well as for cost accounting are available.

The emaWD provides the functionality for the virtual workplace design and process planning of production processes in detail. The software enables the planning, evaluation and 3D simulation of human work in the context of the digital factory in order to simulate and evaluate selected scenarios or complex end-to-end production scenarios with human participation.

With the digital human model and the behavior- and process-editor, workplaces and production processes can be designed in detail, manual activities and HRC system processes can be visualized and complete manufacturing and assembly processes can be simulated in 3D. In combination with the integrated analysis and evaluation of time and ergonomics with reference to standard performance (e.g.: MTM-UAS and EAWS), valid and plausible planning results for secured processes are created.

2 Price / Scope

Pos.	Quantity	Services	Unit price in EUR	Total price in EUR
1		Perpetual emaPD Education The first annual maintenance is included in the purchase price of the software. Duration: 01.07.2024 - 30.06.2025		1.500,00
2		Annual Maintenance emaPD Education Duration: 01.07.2025 - 30.06.2028		810,00
Total amount (net) in EUR				2.310,00
plus 0.00% Value-added tax				0,00
Total amount (gross) in EUR				2.310,00

3 Service conditions

The right to use the software is limited to the area of the European Economic Area (EEA). Utilization outside EEA requires an additional agreement

The software is only approved for non-commercial use in teaching and research. Utilization in commercial projects requires additional licenses.

The software is made available by download.

The provision of ema license keys requires the customer administrator to get in touch with our support (support@imk-ema.com). The support will then guide you through the further installation process.

Invoicing takes place directly after receipt of the order or at the start of the license term.

4 Terms of payment

All prices are in Euro plus the currently valid statutory value added tax and are payable 10 days net after receipt of the invoice without discount.

We point out that the purchase of the software can lead to the collection of withholding tax in the buyer's country. This needs to be examined separately.

This is a miscellaneous service. The tax liability is shifting to the end customer (Reverse-Charge-method).

5 General information

Part of the offer are our General Terms and Conditions (GTC) for Software and the End-User License Agreement (EULA) for ema Software Suite.

The documents are available at: <https://imk-ema.com/terms-and-conditions.html>

Our offer is subject to confirmation and to the terms of contract. Any claims for compensating, damages of any kind that have not been caused deliberately are excluded.

The general liability based on ordinary negligence is limited to 1.0 Mio. Euro per case and 2.0 Mio. Euro for all cases per year.

We shall adhere to the present offer until 12/31/2024.

We kindly ask you to send your Purchase Order to sales@imk-ic.com.

Please do not hesitate to contact us at any time if you have further questions.

Best regards,

Coordinator research projects and ema Education
