Collaboration on retinitis pigmentosa pig model

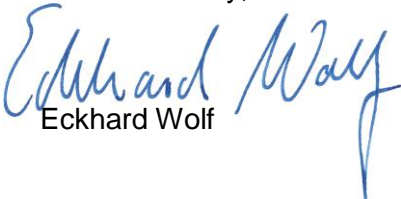

Dear Prof. Motlik,

thank you very much for your support and willingness to collaborate on the characterization of our *RHO*^{P347L} mutant pig model. According to our previous discussions, we formally place the order for the transfer of 10 pigs from the Center of Innovative Medical Models in Oberschleissheim, Germany to the PigMod Center in Libechov Czech Republic, their housing at PigMod Center for 40 days, the examination by electroretinography and optical coherence tomography of the animals under anesthesia and their final euthanization for sampling and carcass disposal.

We agree to the proposed price of 328 500 CZK (without VAT). The invoice should be addressed to:

Ludwig-Maximilians-Universität München
Gene Center
Prof. Dr. Eckhard Wolf
Feodor-Lynen-Str. 25
