

**DODATEK Č. 3
KE SMLouvĚ O DÍLO
č. U - 245 - 00 / 23**

uzavřené dne 24. 11. 2023

v souladu s ustanoveními § 2586 an. zákona č. 89/2012 Sb., občanského zákoníku

Armádní Servisní, příspěvková organizace

se sídlem: Podbabská 1589/1, 160 00, Praha 6 - Dejvice

zastoupena: Ing. Martinem Lehkým, ředitelem

IČO: 60460580

DIČ: CZ60460580

zapsaná v obchodním rejstříku vedeném u Městského soudu v Praze pod sp. zn. Pr 1342

bankovní spojení: [REDACTED]

číslo účtu: [REDACTED]

ID datové schránky: dugmkm6

zástupce ve věcech technických: [REDACTED]

[REDACTED]

na straně jedné jako objednatel

(dále jako „objednatel“)

a

NEPRO stavební a.s.

IČ: 27342093

DIČ: CZ27342093

se sídlem: Ve Žlíbku 1621/104, 193 00 Praha 9 - Horní Počernice

zapsaná v obchodním rejstříku vedeném Městským soudem v Praze, B 25201

bankovní spojení: [REDACTED]

číslo účtu: [REDACTED]

zástupce ve věcech smluvních: [REDACTED]

zástupce ve věcech technických: [REDACTED]

na straně druhé jako zhotovitel

(dále jako „zhotovitel“)

(objednatel a zhotovitel dále společně též jako „smluvní strany“ nebo každý samostatně též jako „smluvní strana“)

Smluvní strany se dohodly, v souladu s ustanovením čl. 19 Společná ustanovení odst. 19.3 na uzavření tohoto dodatku č. 2 ke smlouvě o dílo (dále jen „smlouva“) na realizaci akce „**Moravská Třebová – budova ul. Jevíčská [REDACTED] – rekonstrukce**“ uzavřené mezi výše uvedenými smluvními stranami dne 24. 11. 2023 ve znění dodatku č. 1 ze dne 12. 3. 2024 a dodatku č. 2 ze dne 15. 8. 2024. Tímto dodatkem č. 3 se smlouva mění následujícím způsobem:

1. V článku 3 Doba plnění v odstavci 3.1 se stávající znění ruší a nahrazuje se novým zněním následovně:

Zhotovitel zahájí práce na realizaci předmětu díla po podpisu této smlouvy a po převzetí staveniště. Objednatel se zavazuje, že předá staveniště zhotoviteli na základě písemné výzvy objednatele k zahájení stavebních prací a k převzetí staveniště zhotovitelem, adresované zástupci zhotovitele. Předání staveniště proběhne nejpozději do pěti pracovních dní ode dne doručení výzvy objednatele k zahájení stavebních prací a k předání staveniště zhotoviteli. Zhotovitel se zavazuje zahájit dílo do pěti pracovních dnů od data předání staveniště objednatelem a převzetí staveniště zhotovitelem. Celé dílo řádně provést, ukončit a předat 26. 10. 2024 (dílčí limitní termín); kolaudační souhlas s užíváním díla zhotovitel zajistí ve lhůtě 45 kalendářních dní ode dne řádného dokončení díla bez kolaudace, tj. 10. 12. 2024 (finální limitní termín).

2. V článku 5 Cena za dílo, platební podmínky v odstavci 5.1 se stávající znění ruší a nahrazuje se novým zněním následovně:

5.1 Smluvní strany se dohodly na této celkové výši ceny za dílo:

a. Celková cena bez DPH **67 201 617,41 Kč** (slovy: šedesát sedm milionů dvě stě jedna tisíc šest set sedmnáct korun českých čtyřicet jeden haléřů)

b. DPH 15 % v roce 2023 ve výši **593 914,50 Kč** (slovy: pět set devadesát tři tisíc devět set čtrnáct korun českých padesát haléřů)

DPH 12 % v roce 2024 ve výši **7 589 062,49 Kč** (slovy: sedm milionů pět set osmdesát devět tisíc šedesát dva korun českých čtyřicet devět haléřů)

DPH celkem v letech 2023-2024 ve výši **8 182 976,99 Kč** (slovy: osm milionů jedno sto osmdesát dva tisíc devět set sedmdesát šest korun českých devadesát devět haléřů)

c. Celková cena včetně DPH ve výši **75 384 594,40 Kč** (slovy: sedmdesát pět milionů tři sta osmdesát čtyři tisíc pět set devadesát čtyři korun českých čtyřicet haléřů)

(dále též „Cena za provedení díla“)

3. V článku 20 Závěrečná ustanovení se v odstavci 20.4 mění příloha č. 2 „Podrobný harmonogram výstavby“ a nahrazuje se novým zněním. Toto nové znění je součástí tohoto dodatku a nedílnou přílohou č. 3 této smlouvy.

4. Článek 20 Závěrečná ustanovení, odstavec 20.4. se doplňuje o:

Přílohu č. 9: Oznámení změny a změnový list č. 15–29 vč. rozpočtu a fotodokumentace.

Ostatní ustanovení smlouvy o dílo se dodatkem č. 3 nemění.

Dodatek č. 3 je vyhotoven v elektronické podobě v jednom vyhotovení v českém jazyce s elektronickými podpisy obou smluvních stran v souladu se zákonem č. 297/2016 Sb., o službách vytvářejících důvěru pro elektronické transakce, ve znění pozdějších předpisů.

Smluvní strany prohlašují, že dodatek č. 3 uzavírají po vzájemné dohodě, na základě jejich pravé a svobodné vůle, určitě, vážně a srozumitelně, a nikoliv v omylu. Smluvní strany si smlouvu přečetly a s jejím obsahem souhlasí a na důkaz toho připojují své podpisy.

Dodatek č. 3 nabývá platnosti dnem podpisu oběma smluvními stranami a účinnosti dnem uveřejnění v registru smluv v souladu s § 6 odst. 1 zákona č. 340/2015 Sb., o registru smluv. Zhotovitel bere na vědomí, že uveřejnění v tomto registru zajistí objednatel.

Ing. Martin Lehký
Ředitel organizace

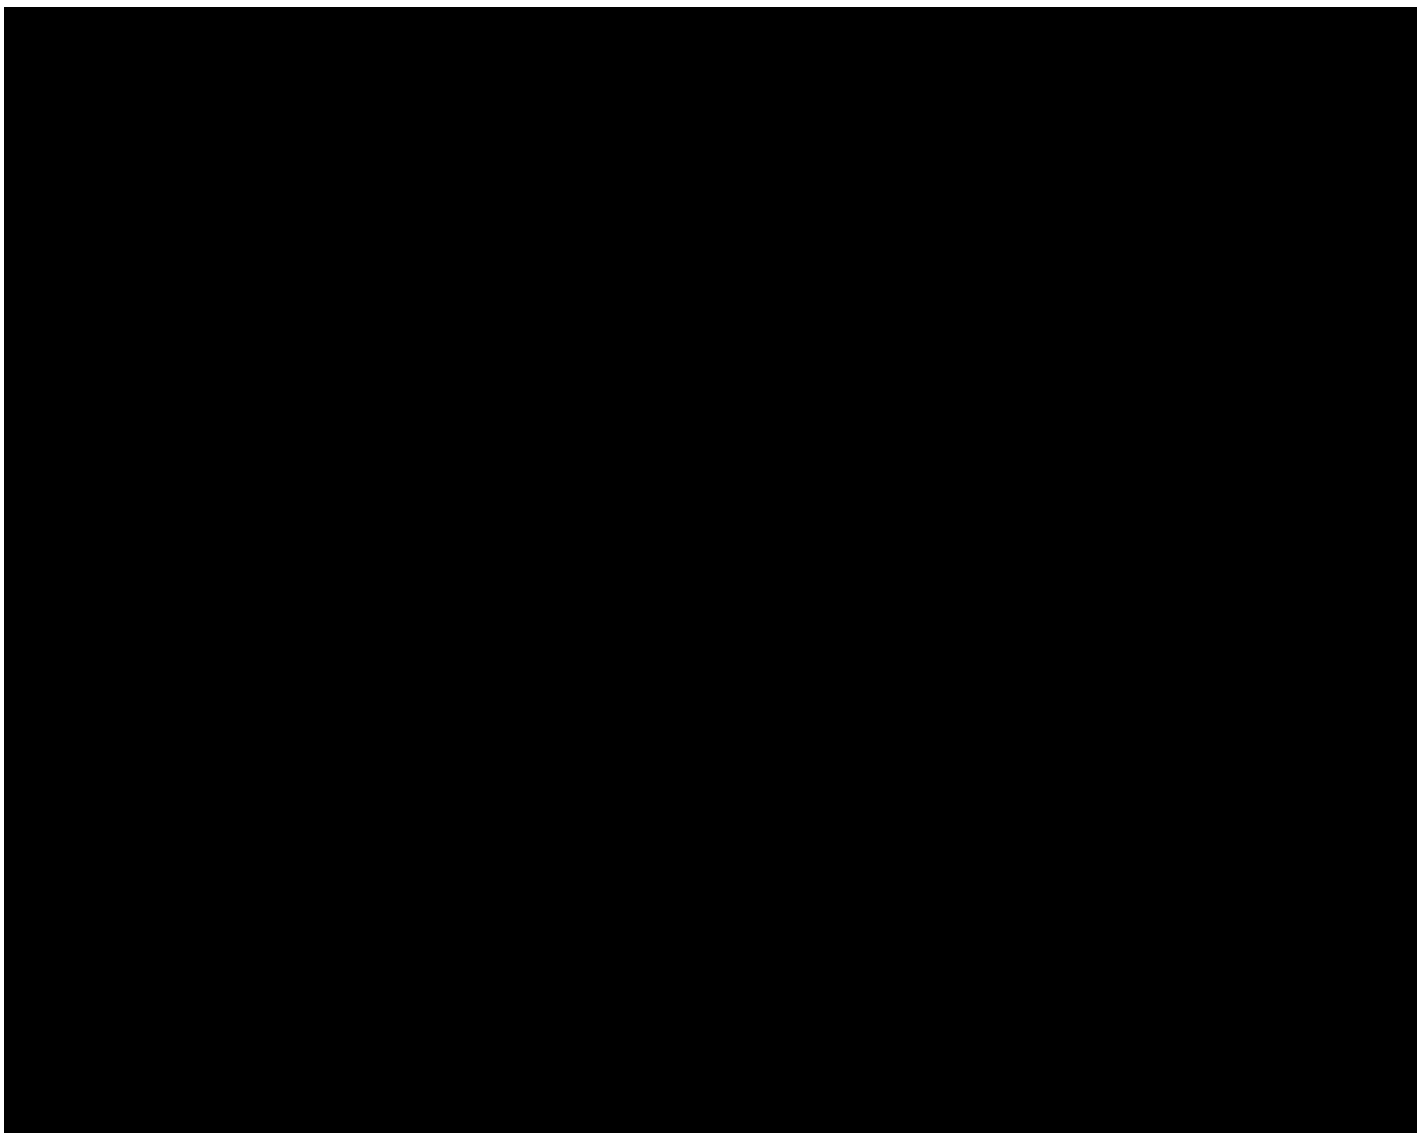

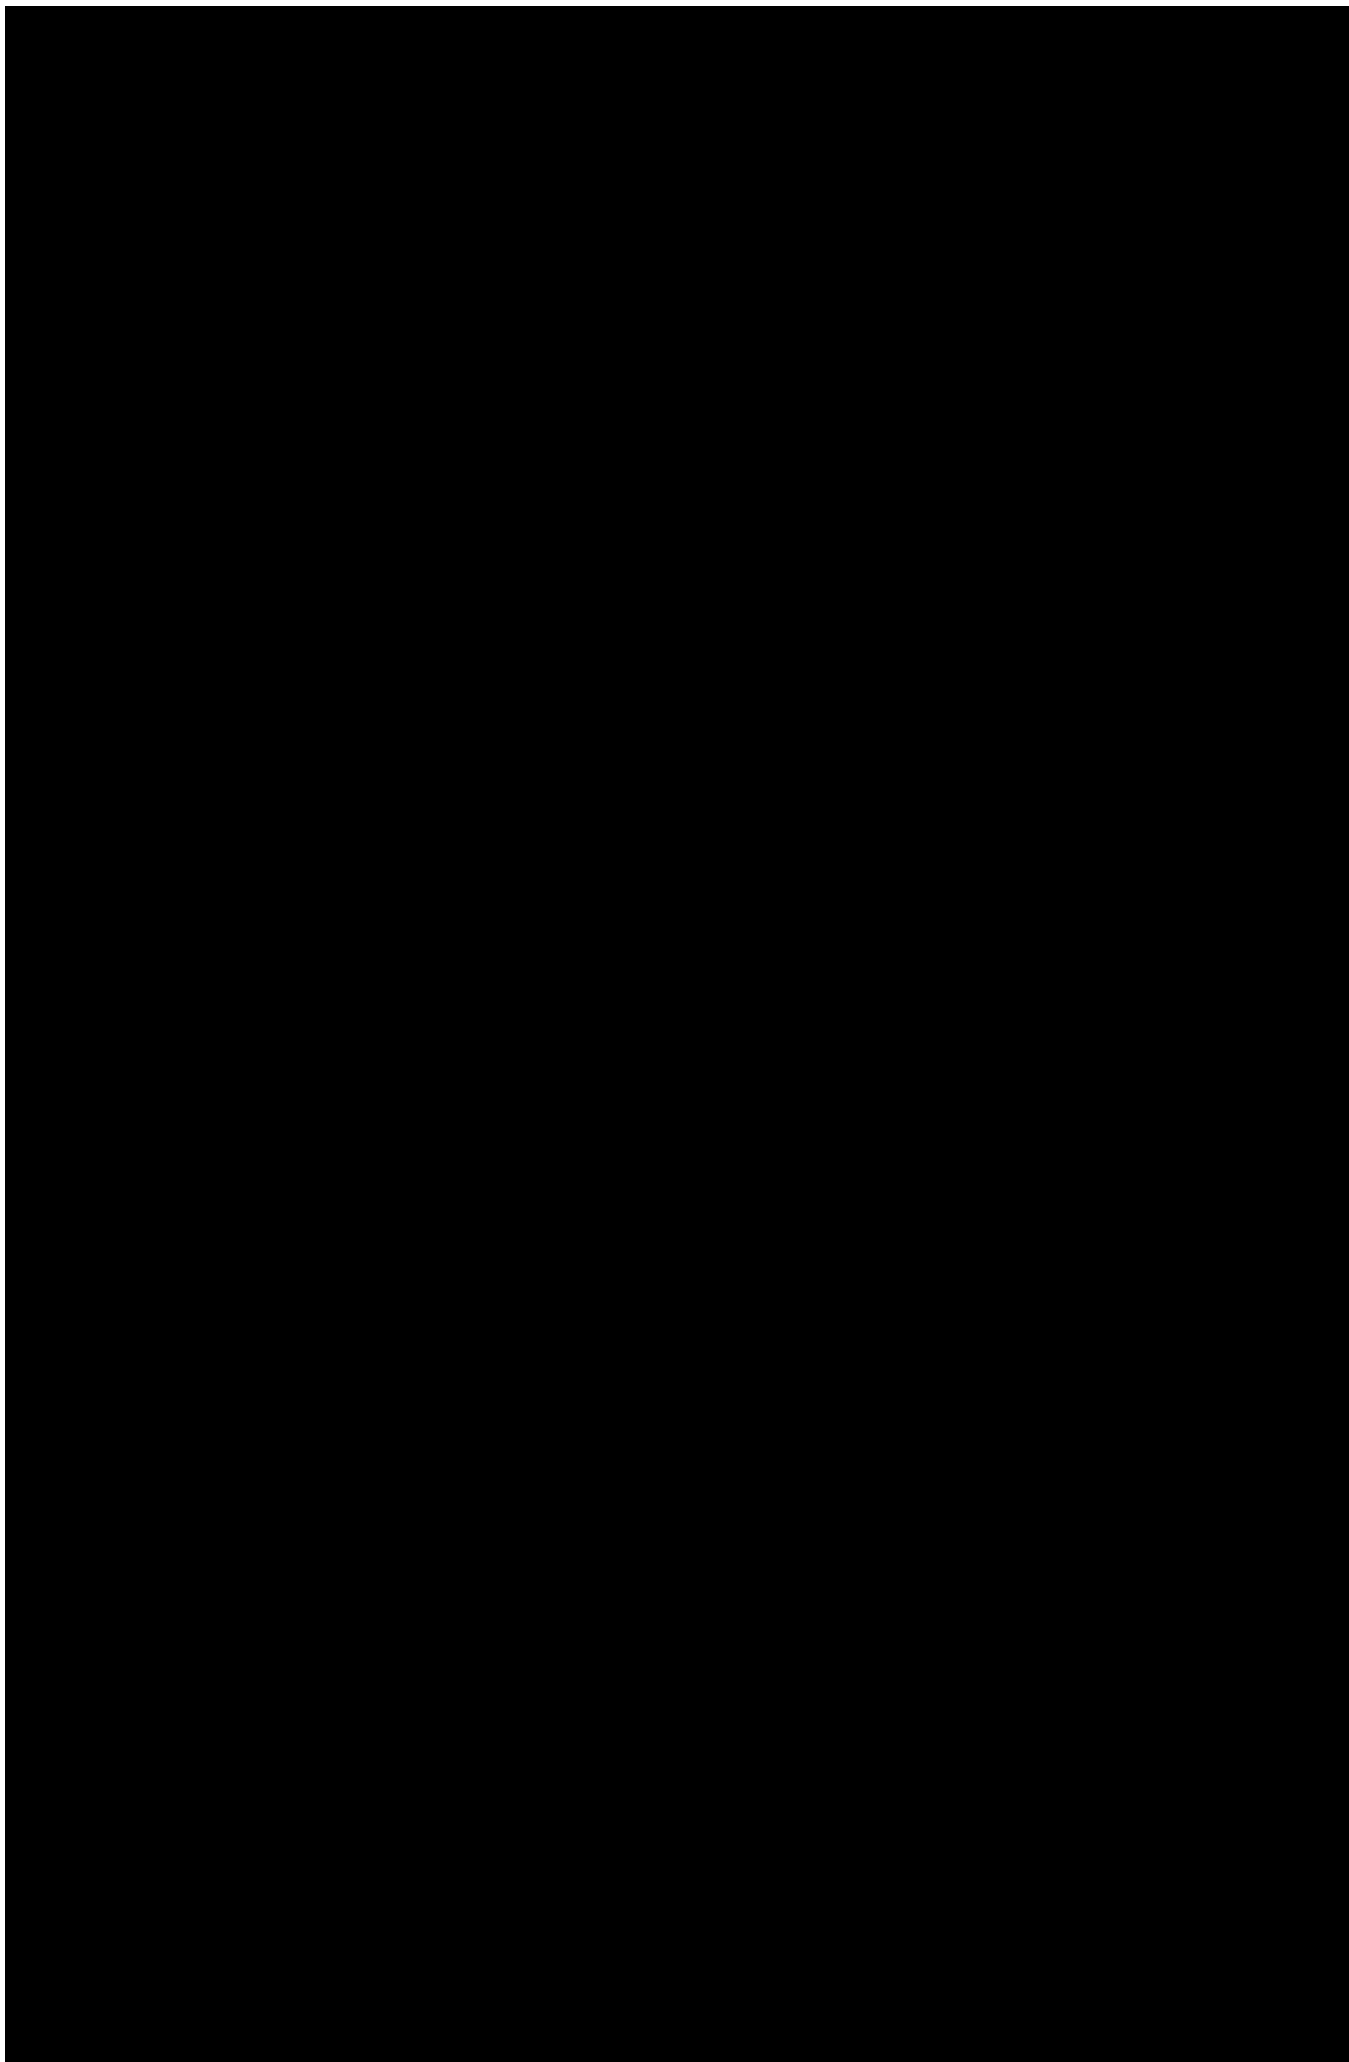

místopředseda představenstva

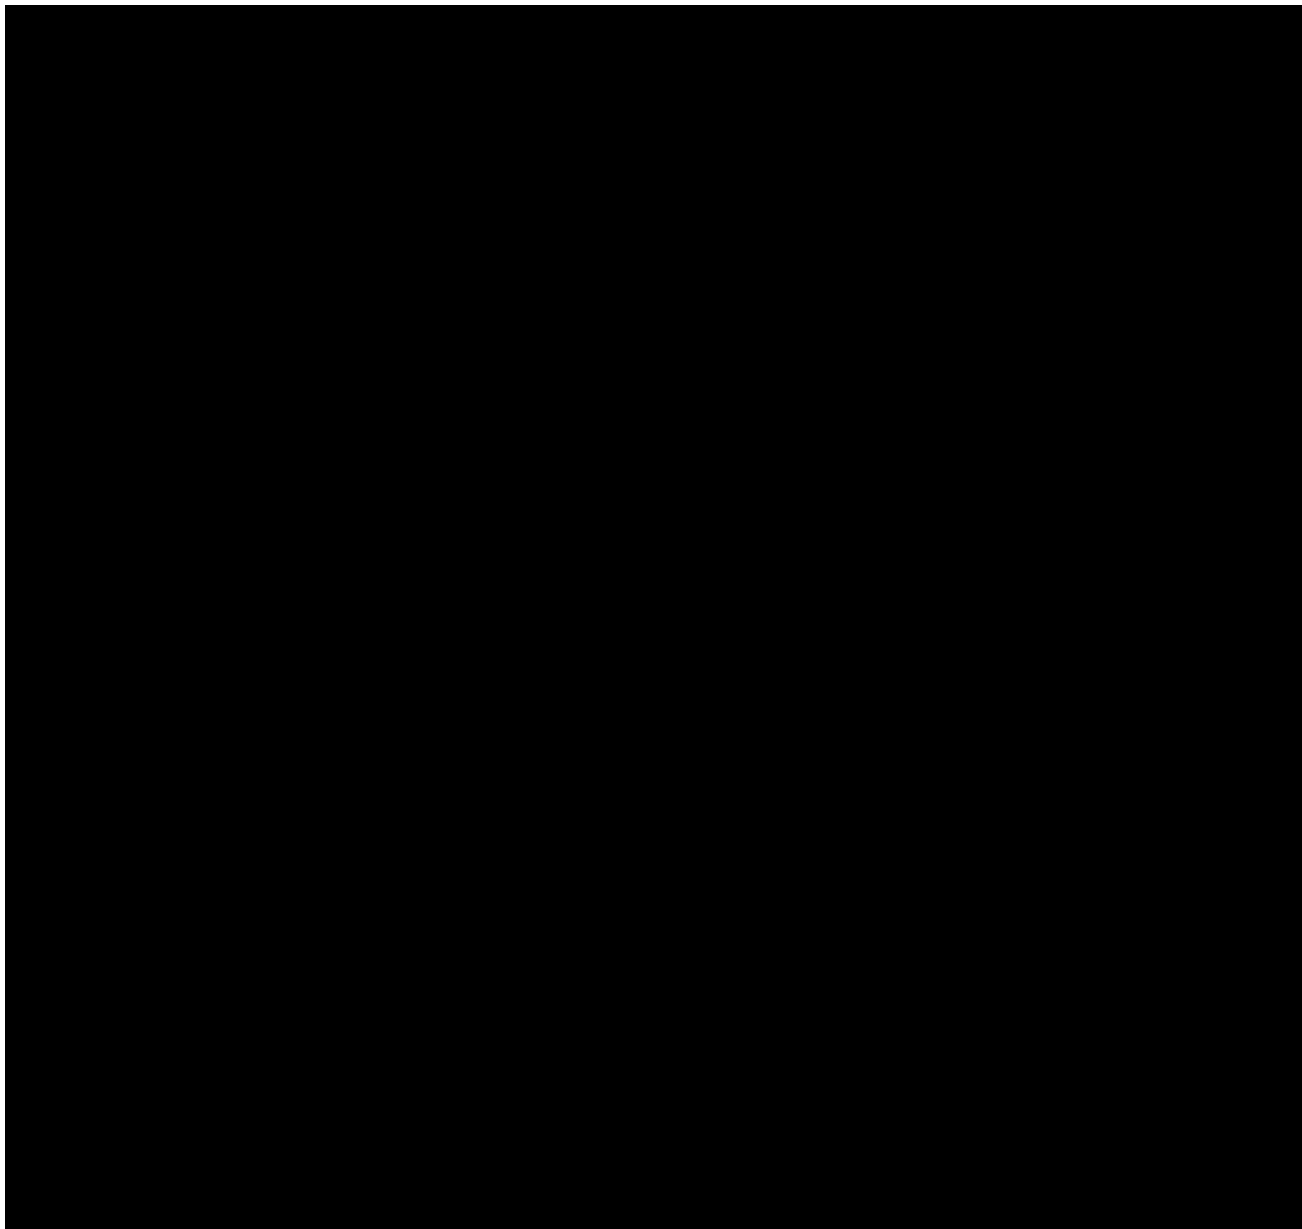

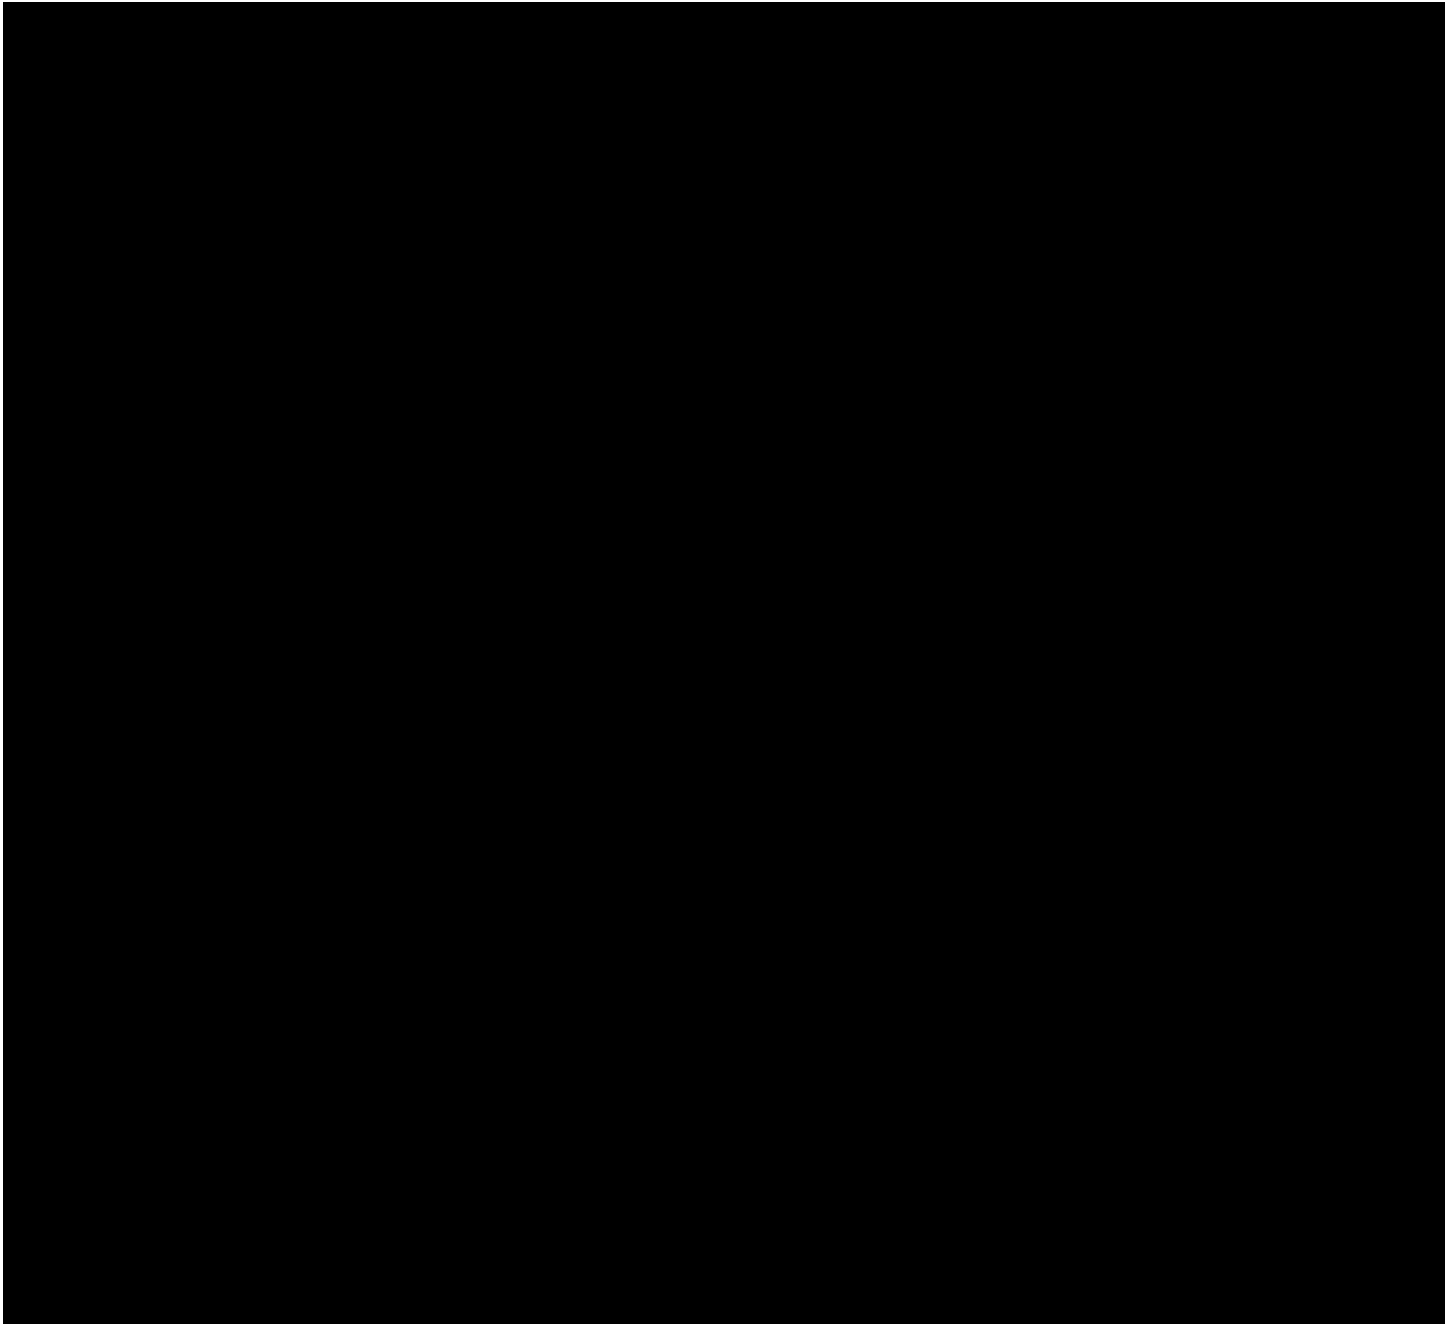

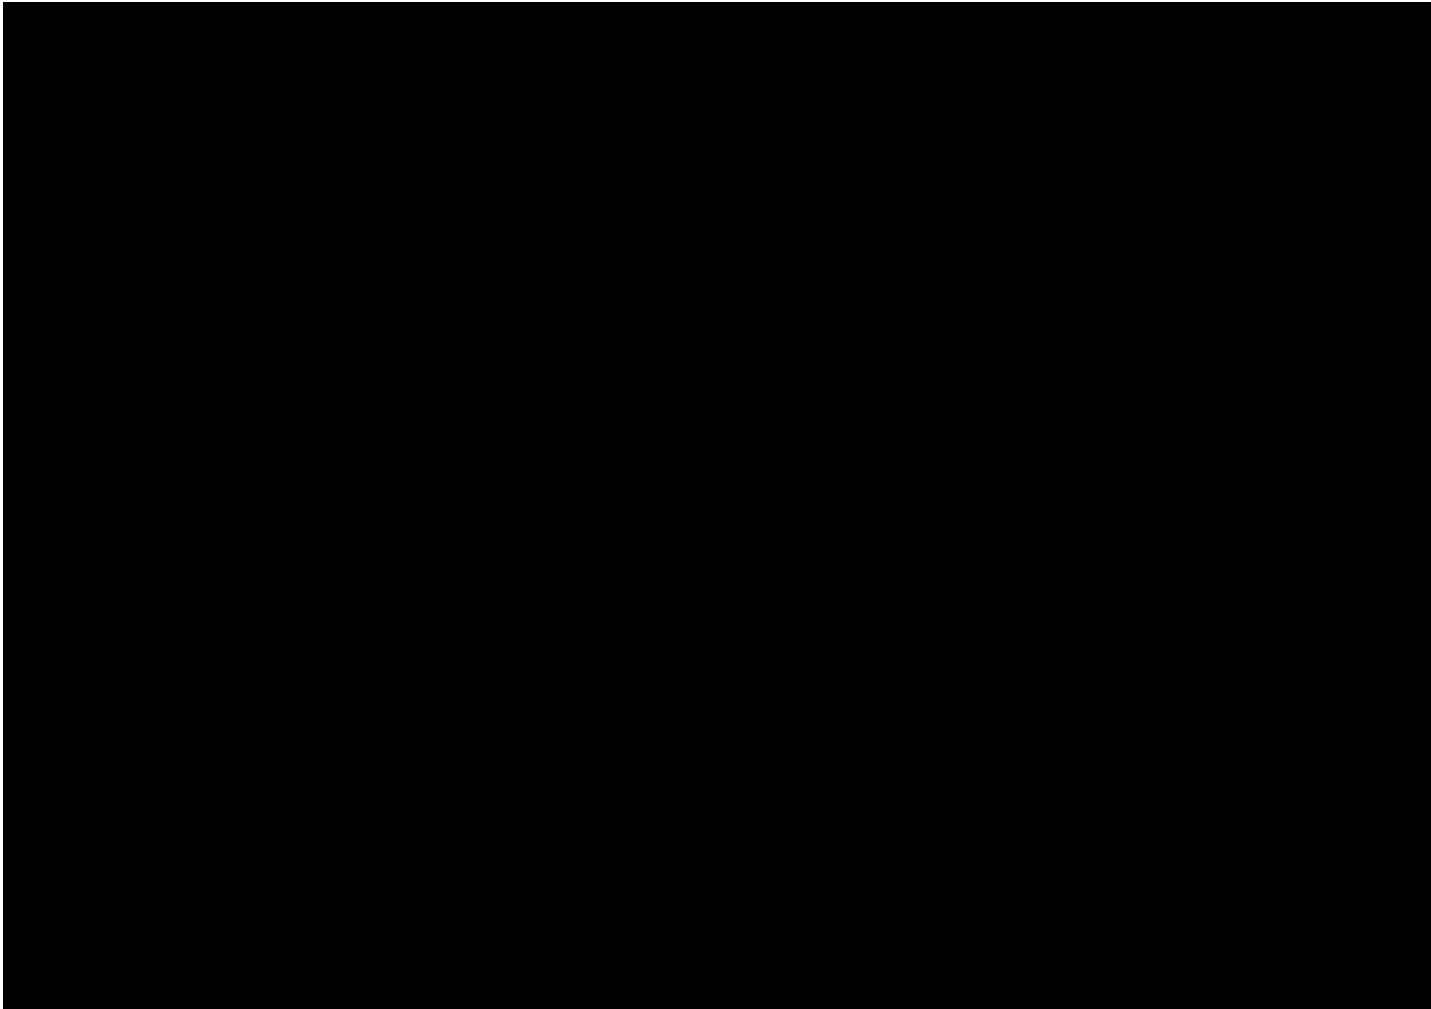

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office of National Statistics 2000). The number of people aged 65 and over is projected to increase to 16.5 million by 2020, and the number of people aged 75 and over to 8.5 million (Office of National Statistics 2000).

There is a growing awareness of the need to address the needs of older people in the UK. The Department of Health (2000) has published a strategy for older people, which sets out a vision for a society in which older people are able to live independently and actively, and to participate in the life of their communities. The strategy also sets out a number of key objectives, including: to improve the health and well-being of older people; to support older people to live independently; to promote social inclusion for older people; and to ensure that older people are able to participate in the life of their communities.

One of the key objectives of the strategy is to improve the health and well-being of older people. This involves a number of measures, including: to promote healthy living; to prevent illness and disability; to provide early diagnosis and treatment; to provide rehabilitation services; and to provide end-of-life care. The strategy also sets out a number of key objectives for the health and social care system, including: to improve the quality of care; to ensure that care is person-centred; to ensure that care is accessible; and to ensure that care is sustainable.

The strategy also sets out a number of key objectives for the social care system, including: to improve the quality of care; to ensure that care is person-centred; to ensure that care is accessible; and to ensure that care is sustainable. The strategy also sets out a number of key objectives for the housing system, including: to improve the quality of housing; to ensure that housing is accessible; and to ensure that housing is sustainable.

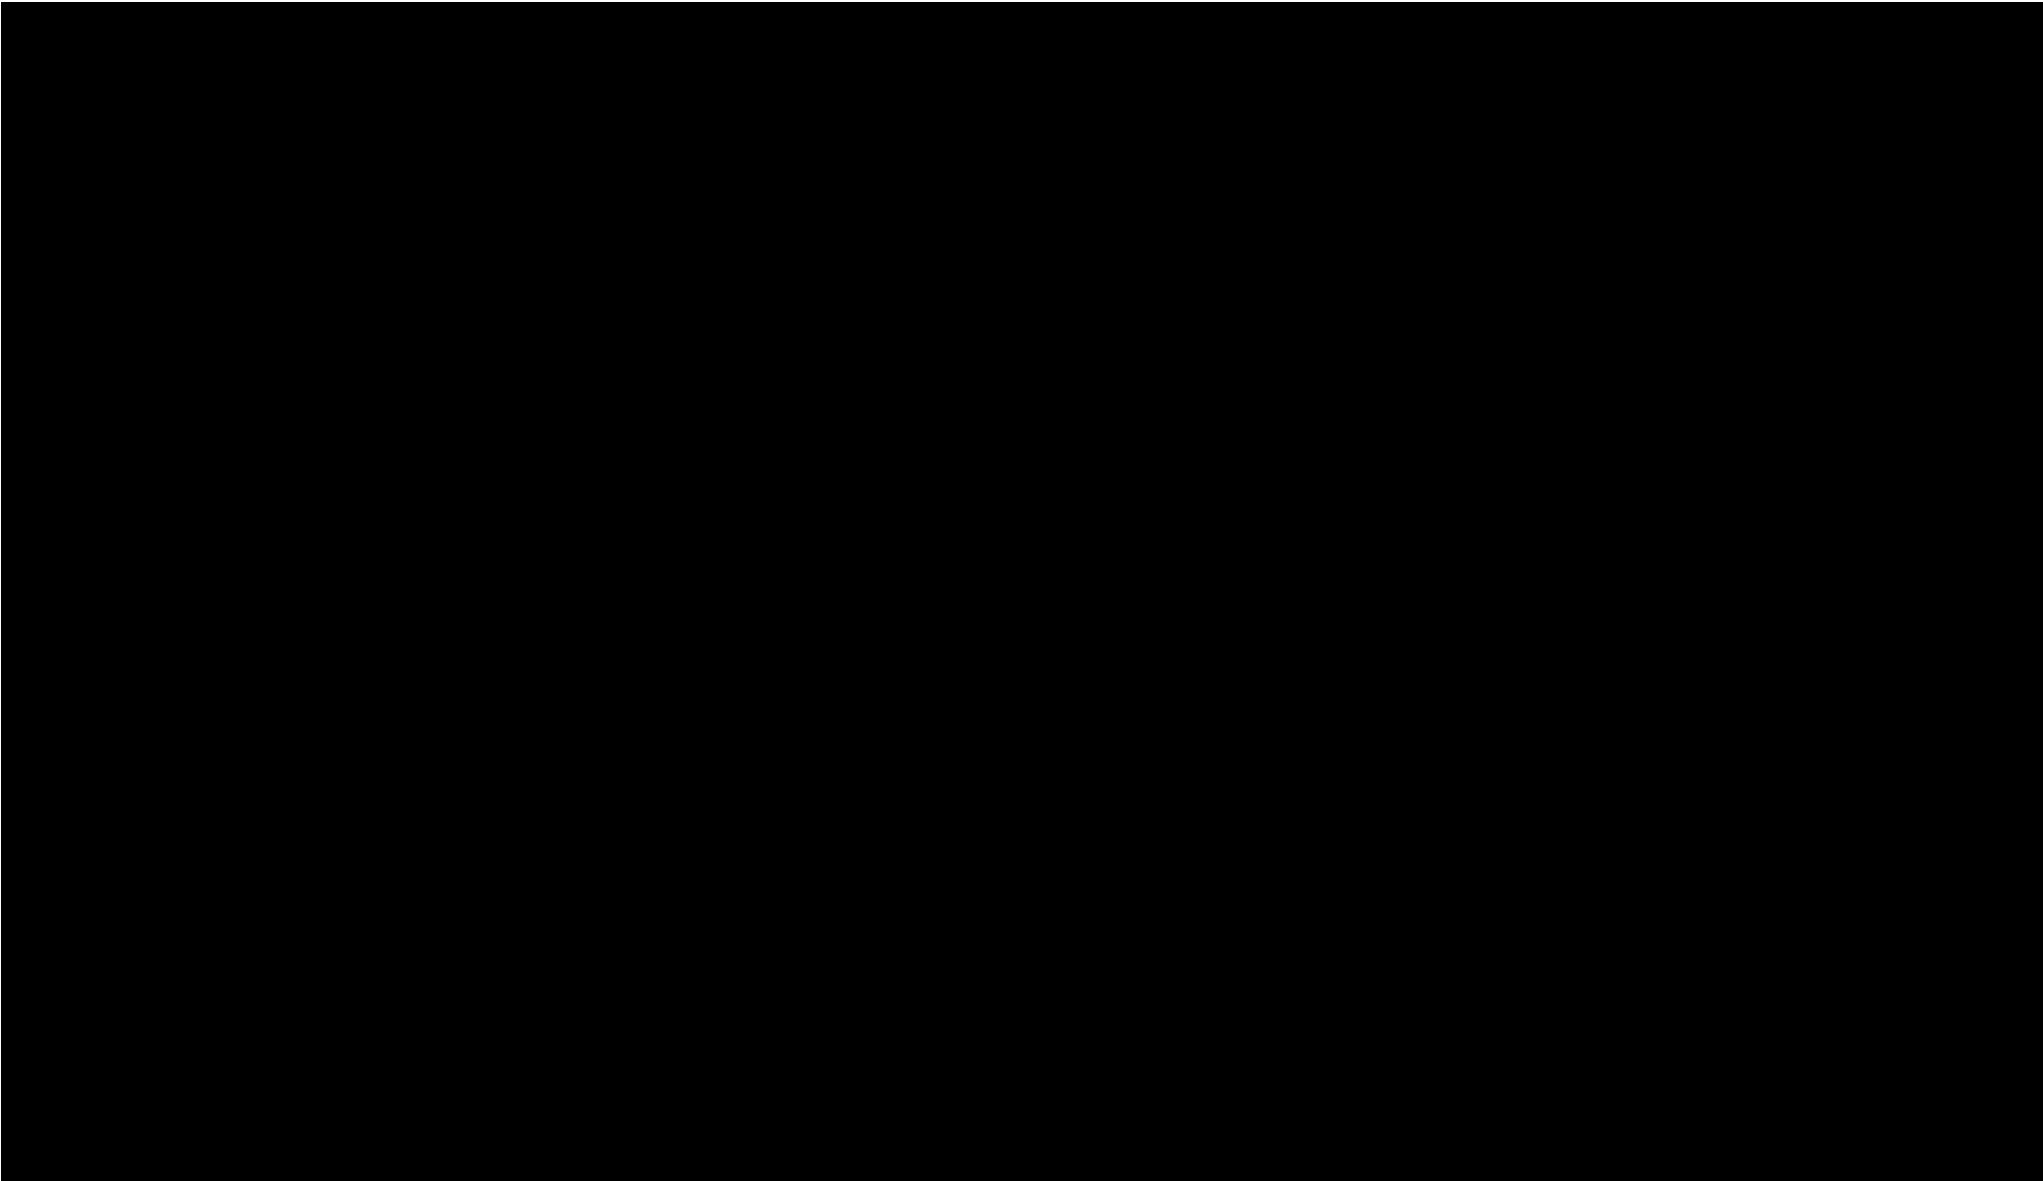

The strategy also sets out a number of key objectives for the transport system, including: to improve the quality of transport; to ensure that transport is accessible; and to ensure that transport is sustainable. The strategy also sets out a number of key objectives for the environment, including: to improve the quality of the environment; to ensure that the environment is accessible; and to ensure that the environment is sustainable.

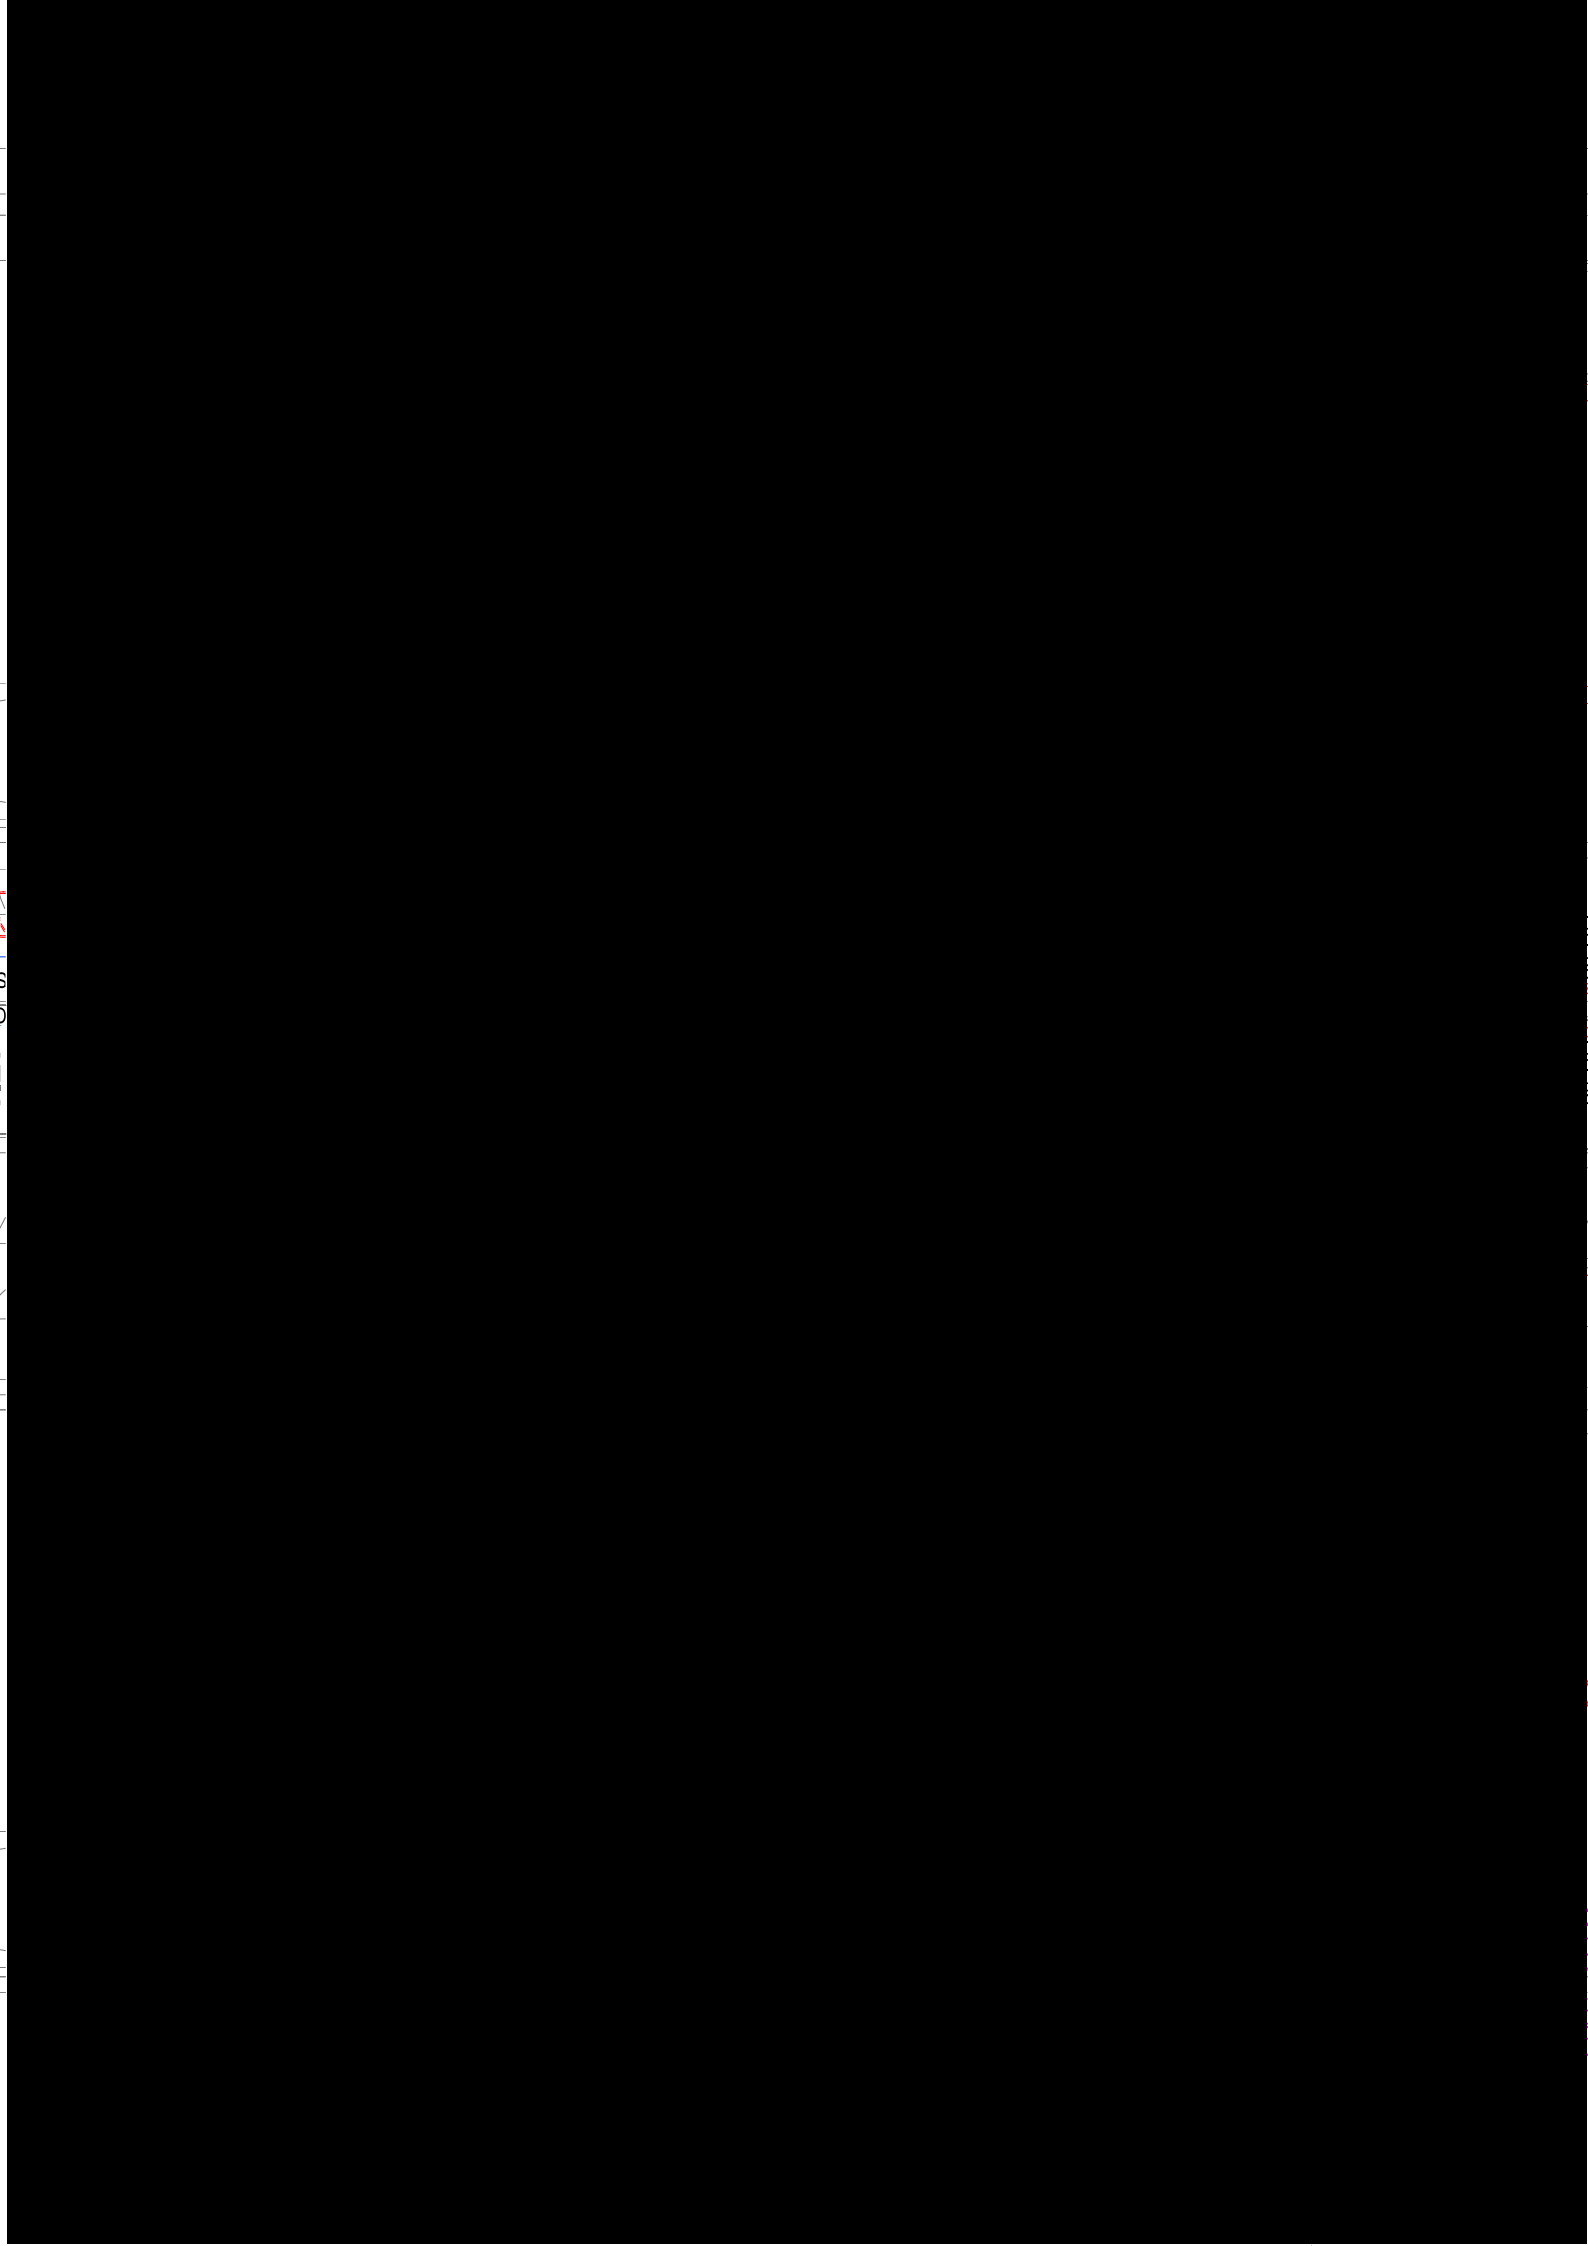

The strategy also sets out a number of key objectives for the education system, including: to improve the quality of education; to ensure that education is accessible; and to ensure that education is sustainable. The strategy also sets out a number of key objectives for the culture and leisure system, including: to improve the quality of culture and leisure; to ensure that culture and leisure is accessible; and to ensure that culture and leisure is sustainable.

The strategy also sets out a number of key objectives for the justice system, including: to improve the quality of justice; to ensure that justice is accessible; and to ensure that justice is sustainable. The strategy also sets out a number of key objectives for the international system, including: to improve the quality of international relations; to ensure that international relations are accessible; and to ensure that international relations are sustainable.

The strategy also sets out a number of key objectives for the economy, including: to improve the quality of the economy; to ensure that the economy is accessible; and to ensure that the economy is sustainable. The strategy also sets out a number of key objectives for the environment, including: to improve the quality of the environment; to ensure that the environment is accessible; and to ensure that the environment is sustainable.

The strategy also sets out a number of key objectives for the education system, including: to improve the quality of education; to ensure that education is accessible; and to ensure that education is sustainable. The strategy also sets out a number of key objectives for the culture and leisure system, including: to improve the quality of culture and leisure; to ensure that culture and leisure is accessible; and to ensure that culture and leisure is sustainable.

The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The next section describes the methodology used in the study, including the data sources and the statistical techniques employed. The results of the study are then presented, followed by a discussion of the findings and their implications. Finally, the paper concludes with a summary of the main points and suggestions for future research.

The research was conducted using a quantitative approach, with data collected from a large sample of participants. The results show a significant positive correlation between the variables studied, indicating that the research objectives have been achieved. The findings have important implications for the field and suggest areas for further investigation.

In conclusion, the study has provided valuable insights into the relationship between the variables under investigation. The results support the hypotheses and contribute to the existing body of knowledge on the topic. Future research should continue to explore these findings and build upon the current study's contributions.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector and to ensure that the public sector is able to deliver the best possible value for money. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These initiatives have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

The Health Service Act 1999 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

The Health Service Act 2001 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

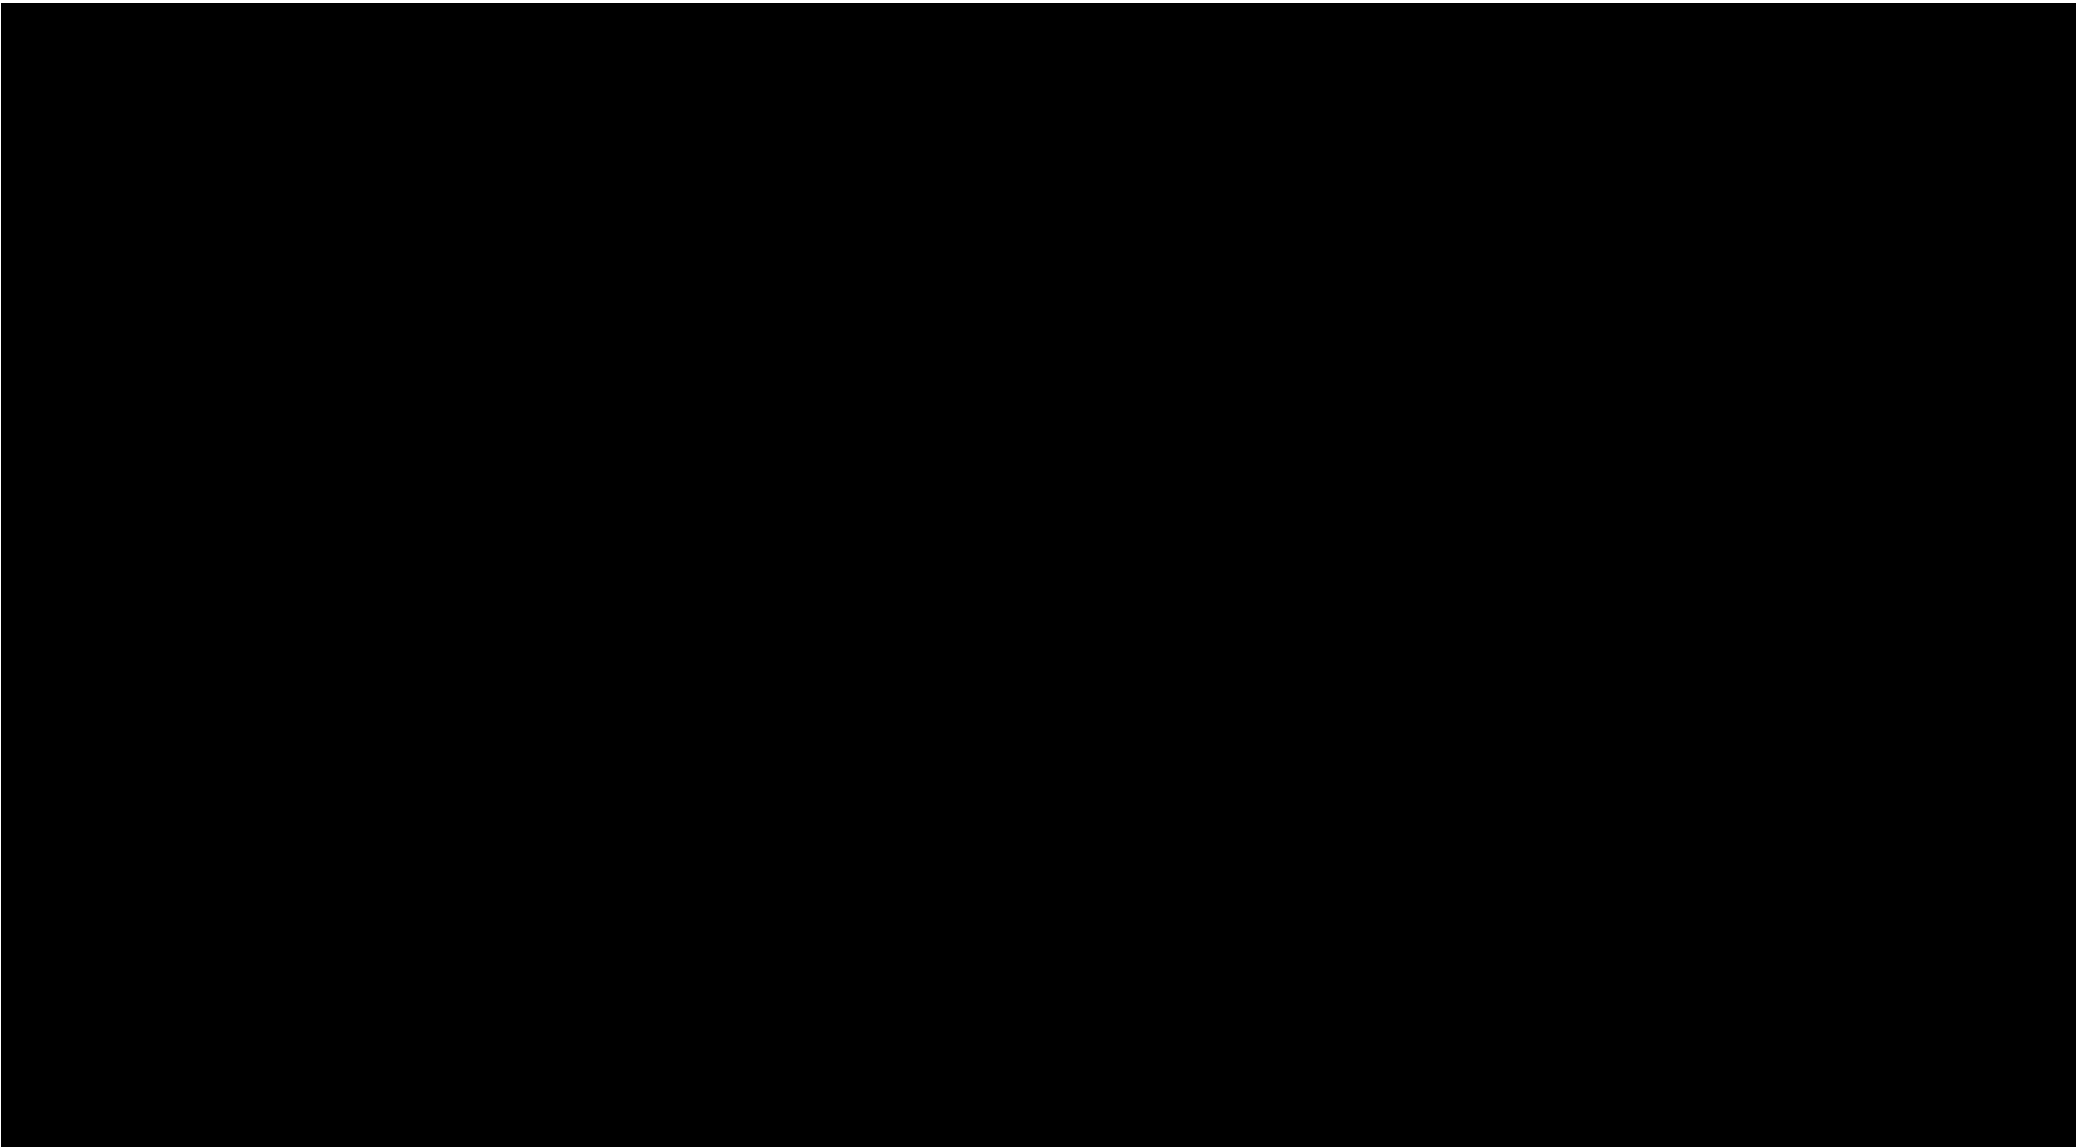

The Health Service Act 2004 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

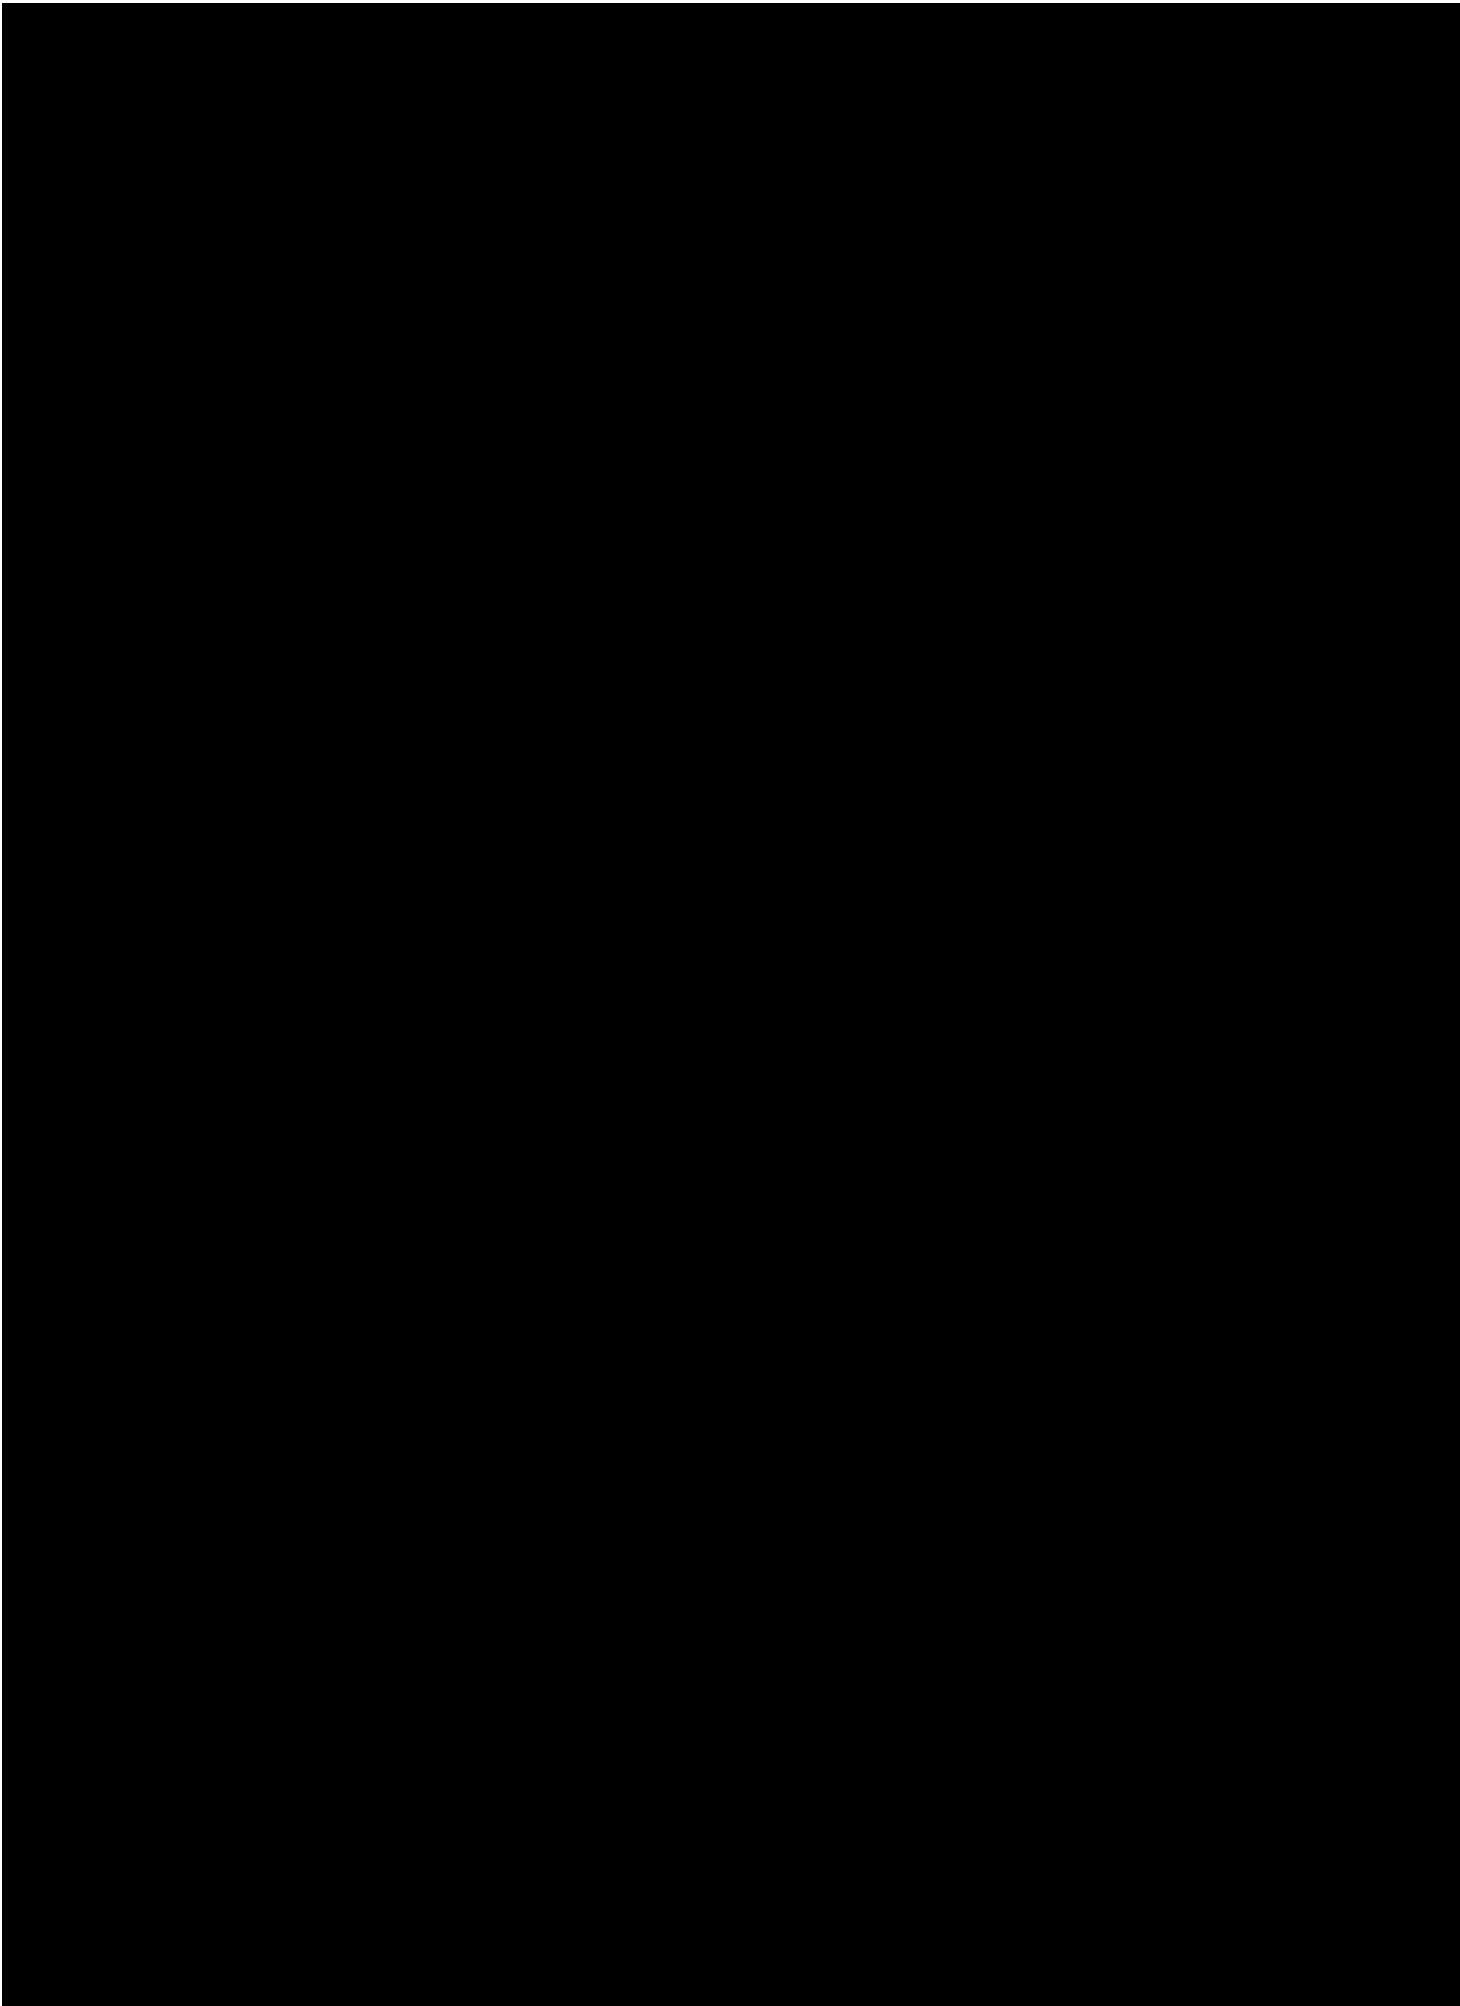

The Health Service Act 2004 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

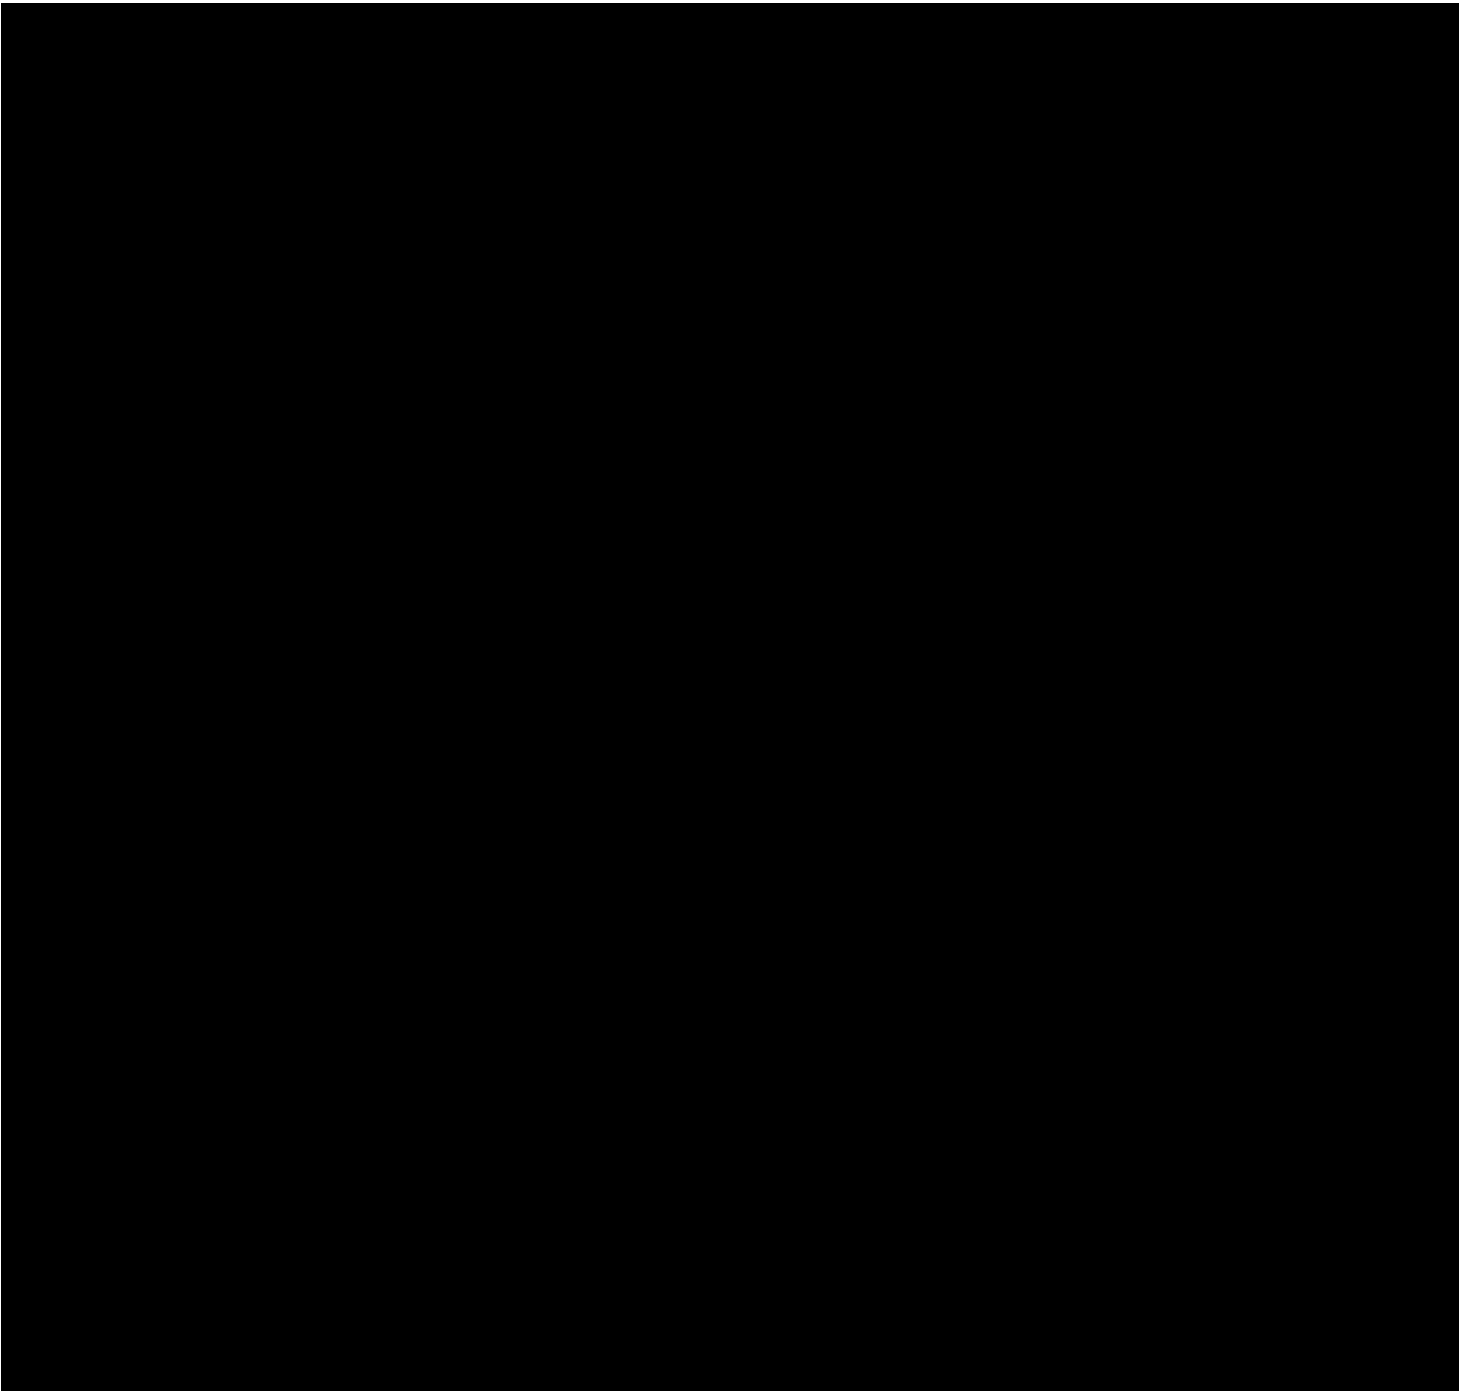

The Health Service Act 2004 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

The Health Service Act 2004 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

The Health Service Act 2004 introduced a number of changes to the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004. These changes have led to a number of changes in the way the public sector is organised and managed, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1 million (Office for National Statistics 2000). The number of people aged 65 and over is projected to increase to 6.5 million by 2020, and the number of people aged 75 and over to 3.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the health and social care needs of the ageing population. The Department of Health (2000) has set out a strategy for the NHS to meet the needs of the ageing population. The strategy is based on three main principles: (1) to ensure that the NHS is able to meet the needs of the ageing population; (2) to ensure that the NHS is able to provide a high quality of care; and (3) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population.

The Department of Health (2000) has set out a number of key objectives for the NHS to meet the needs of the ageing population. These objectives are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

The Department of Health (2000) has also set out a number of key actions for the NHS to meet the needs of the ageing population. These actions are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

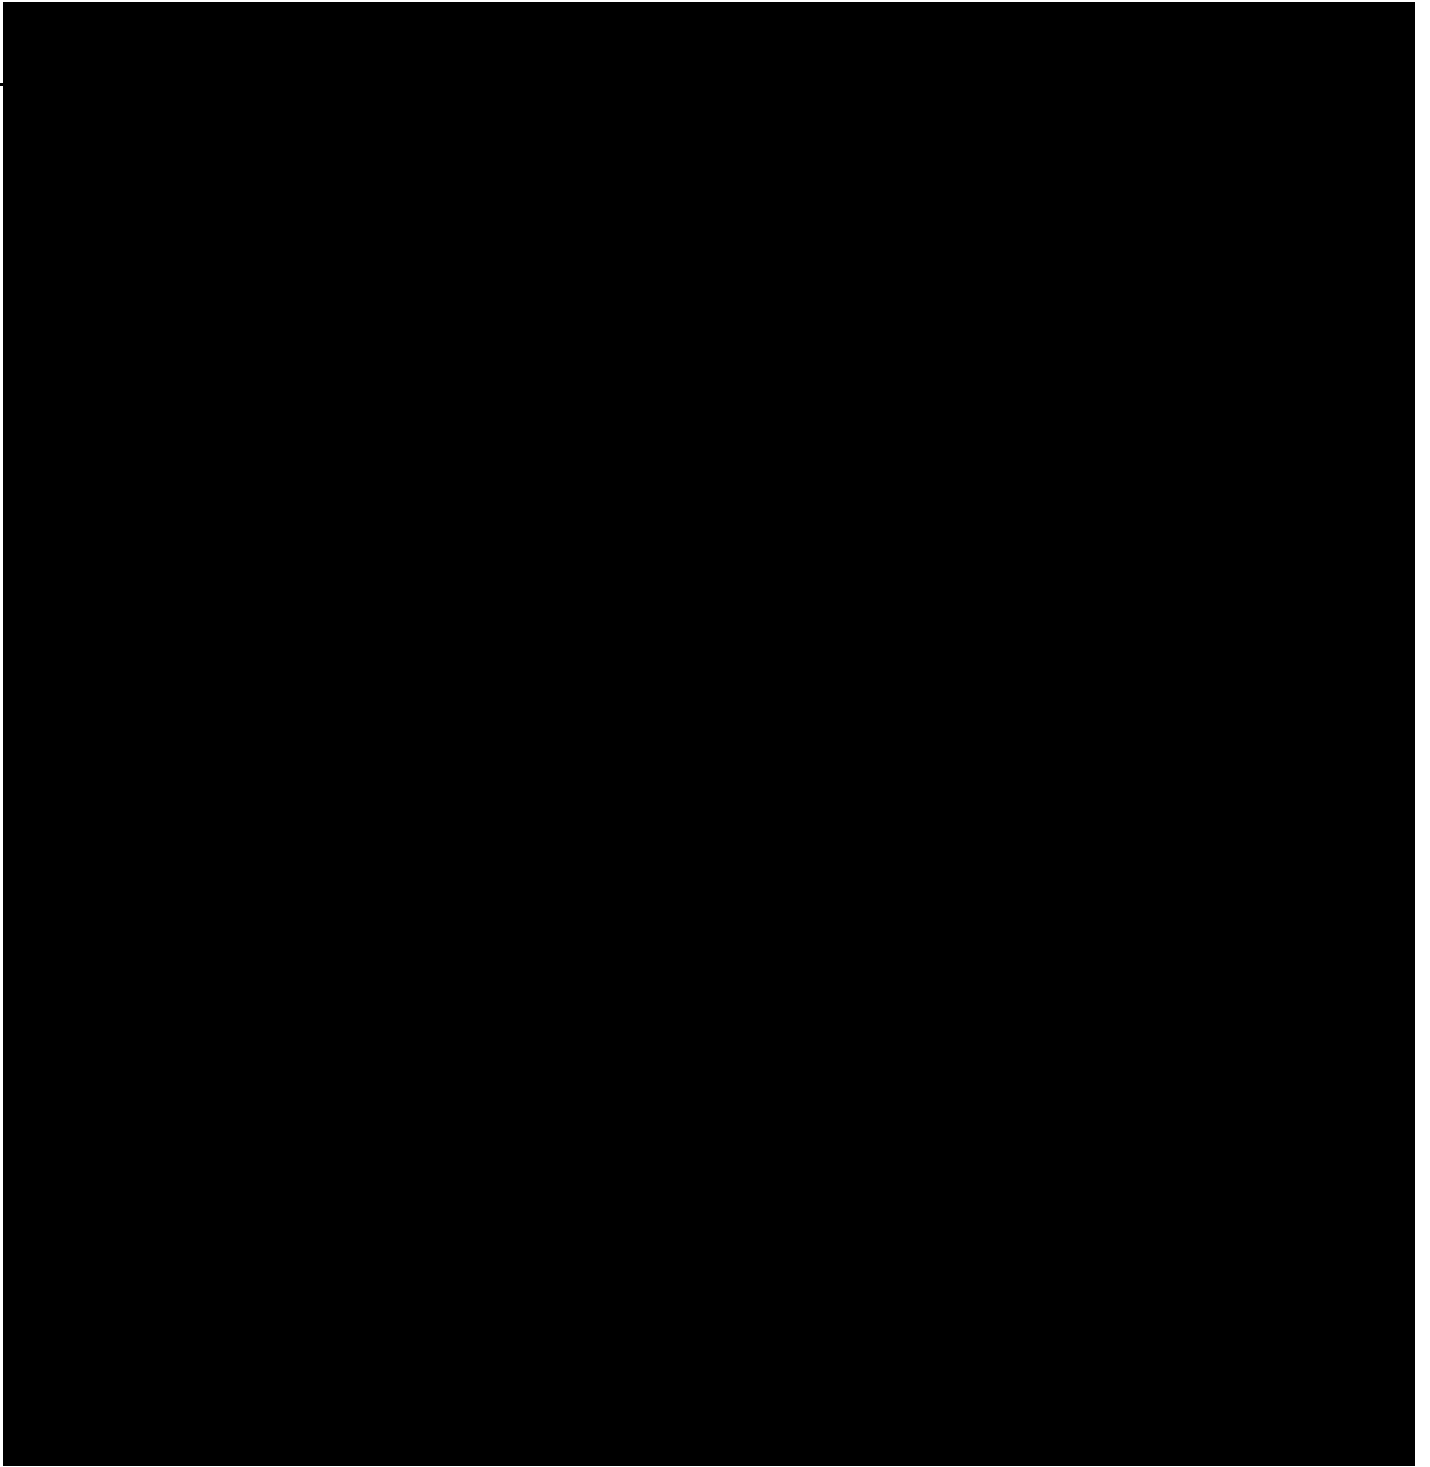

The Department of Health (2000) has also set out a number of key challenges for the NHS to meet the needs of the ageing population. These challenges are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

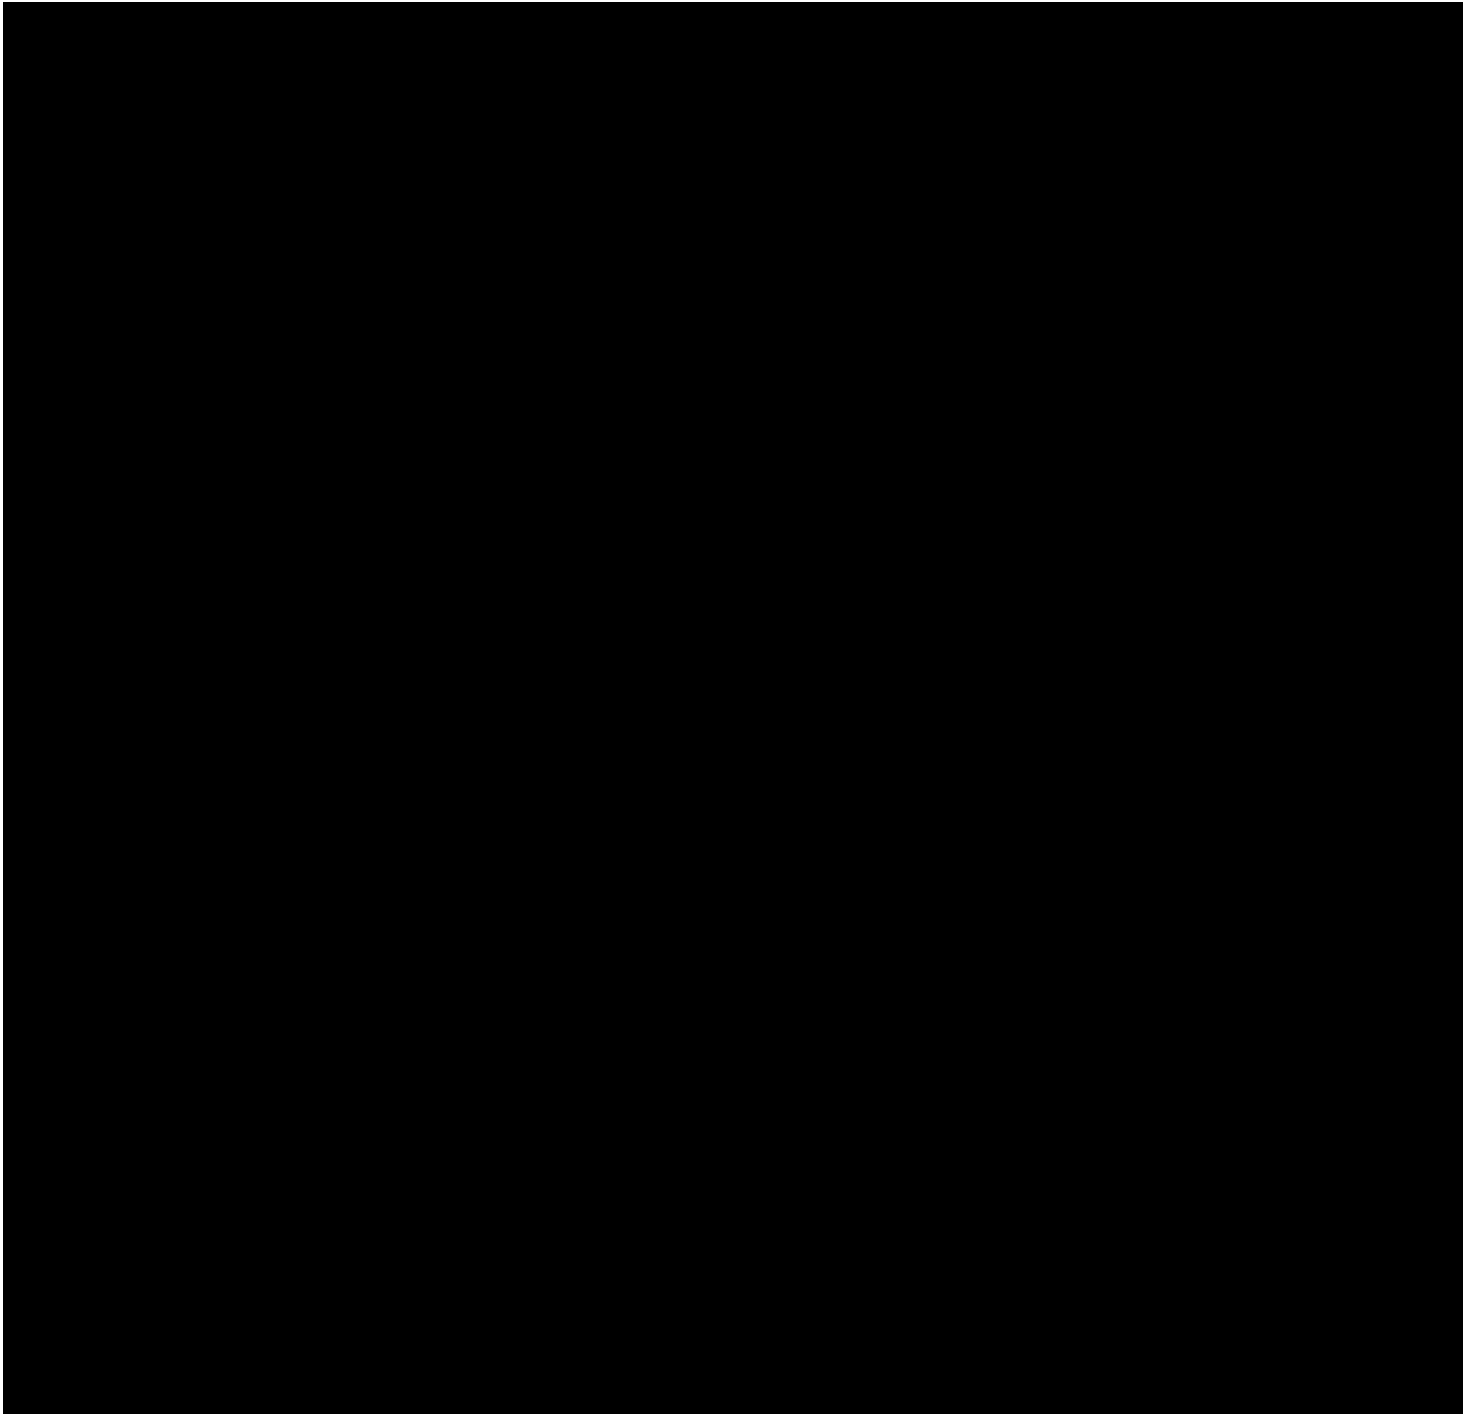

The Department of Health (2000) has also set out a number of key opportunities for the NHS to meet the needs of the ageing population. These opportunities are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

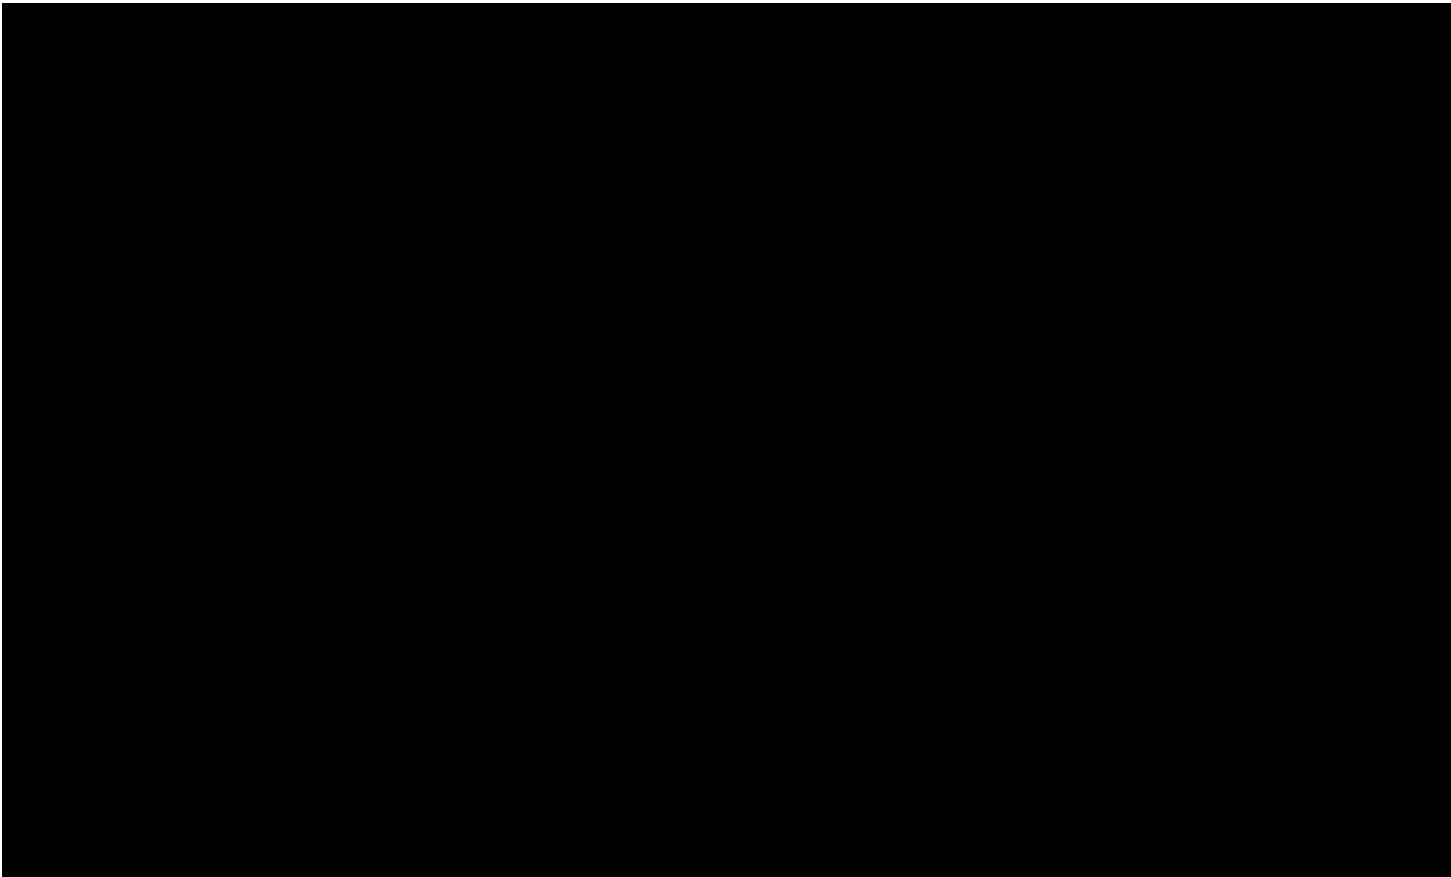

The Department of Health (2000) has also set out a number of key risks for the NHS to meet the needs of the ageing population. These risks are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

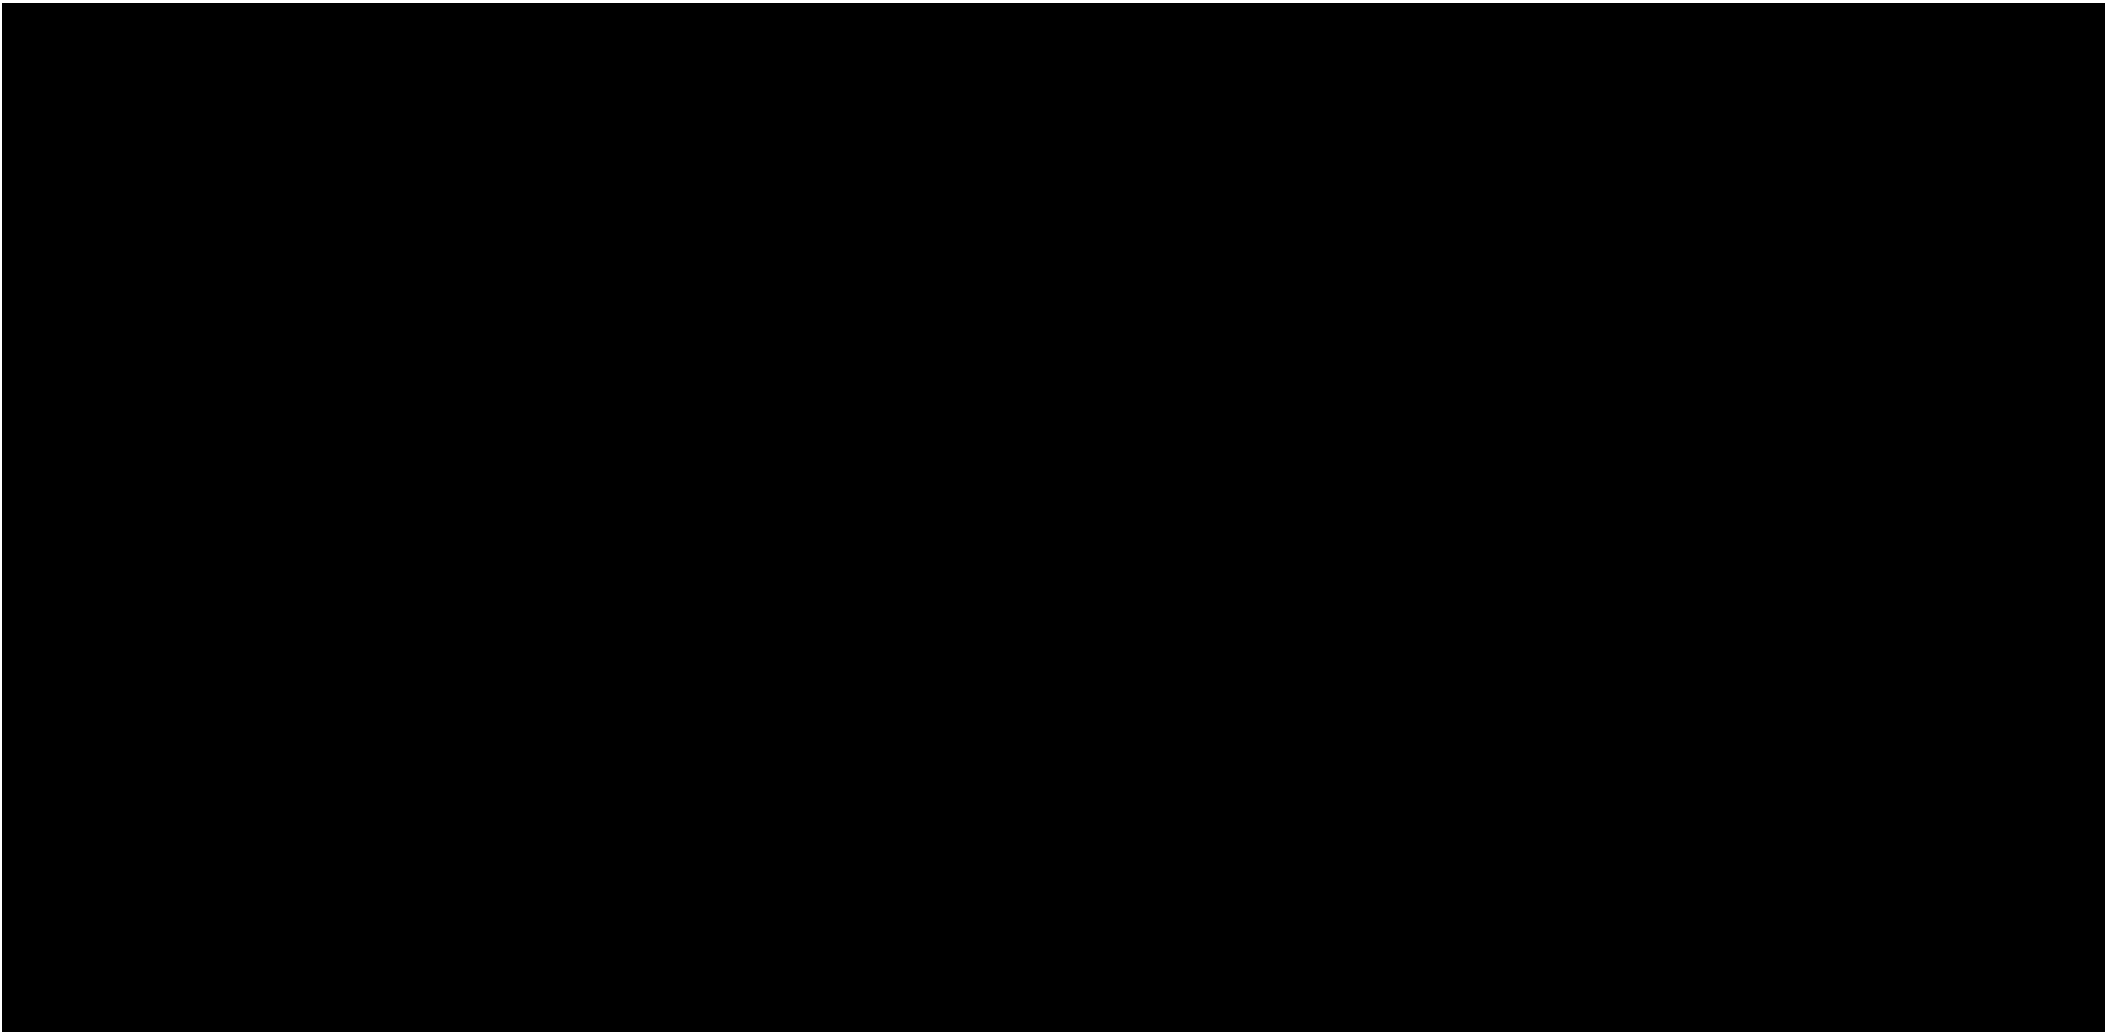

The Department of Health (2000) has also set out a number of key lessons for the NHS to meet the needs of the ageing population. These lessons are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

The Department of Health (2000) has also set out a number of key conclusions for the NHS to meet the needs of the ageing population. These conclusions are: (1) to ensure that the NHS is able to provide a high quality of care; (2) to ensure that the NHS is able to provide a range of services that meet the needs of the ageing population; (3) to ensure that the NHS is able to provide a high level of patient safety; and (4) to ensure that the NHS is able to provide a high level of patient satisfaction.

Úvod

Jedná se o kompletní rekonstrukci stávajícího objektu, změnu užívání některých prostor a instalace elektrické požární signalizace. Řešená rekonstrukce bude provedena změnou dispozice vnitřních prostorů objektu, rekonstrukce stávajících rozvodů, výměna stávajících výplní za nové, výměna podlah a podhledů za nové. V rámci rekonstrukce nebude zasahováno do nosné konstrukce objektu. Původní požárně bezpečnostní řešení se nedochovalo. Stávající objekt není rozdělen do požárních úseků.

Požárně bezpečnostní řešení je zpracováno v souladu s § 31 vyhlášky č. 23/2008 Sb., o technických podmínkách požární ochrany staveb, ve znění pozdějších předpisů. Vzhledem k rozsahu stavby je požárně bezpečnostní řešení přiměřeně omezeno v souladu s § 41 odst. 4 vyhlášky č. 246/2001 Sb., o stanovení podmínek požární bezpečnosti a výkonu státního požárního dozoru (vyhláška o požární prevenci), ve znění pozdějších předpisů.

a) Seznam použitých podkladů pro zpracování¹

b) Stručný popis stavby z hlediska stavebních konstrukcí, navržené změny a účelu užití

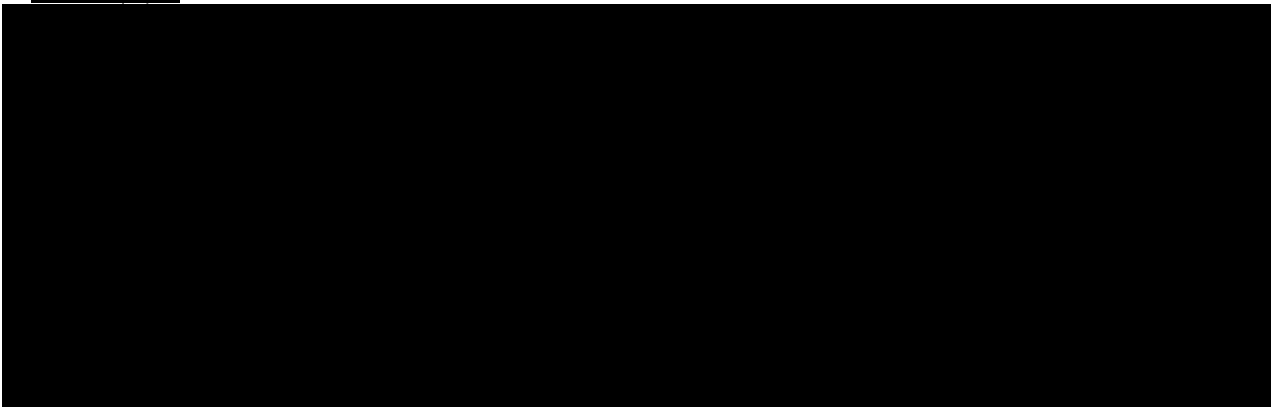

Objekt má čtyři nadzemní podlaží a je nepodsklepený. Řešená rekonstrukce bude provedena ve vnitřních prostorech. Objekt bude i po rekonstrukci využíván jako ubytovna. Vlivem dispozičních změn dojde k navýšení počtu ubytovaných osob.

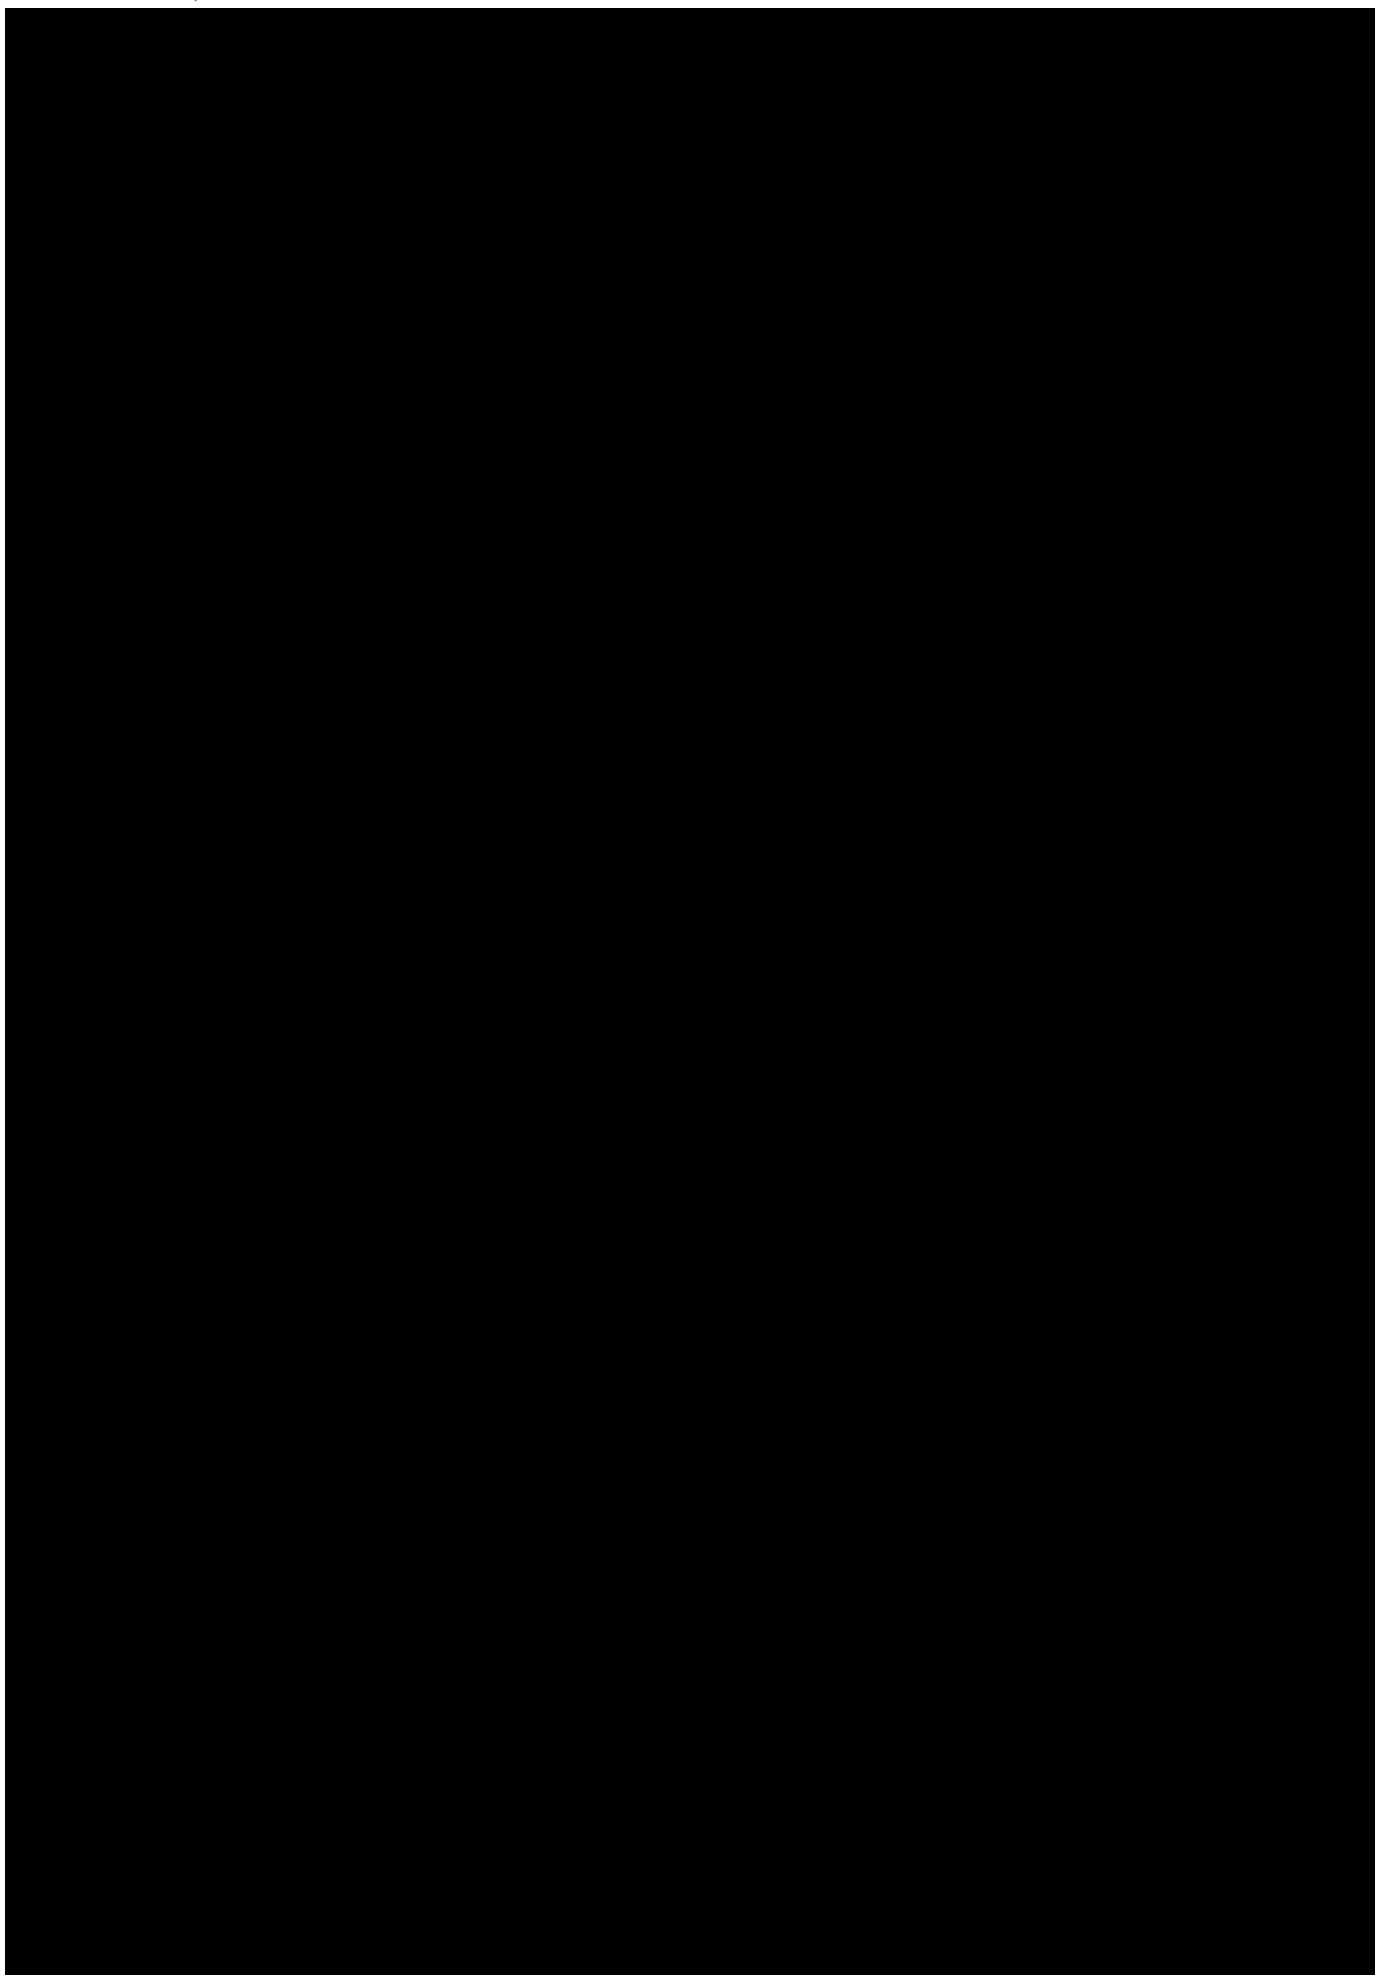

Ve všech prostorech stávajícího objektu bude **na žádost investora nově instalováno EPS**. V rámci instalace EPS bude ústředna EPS umístěna v samostatném požárním úseku.

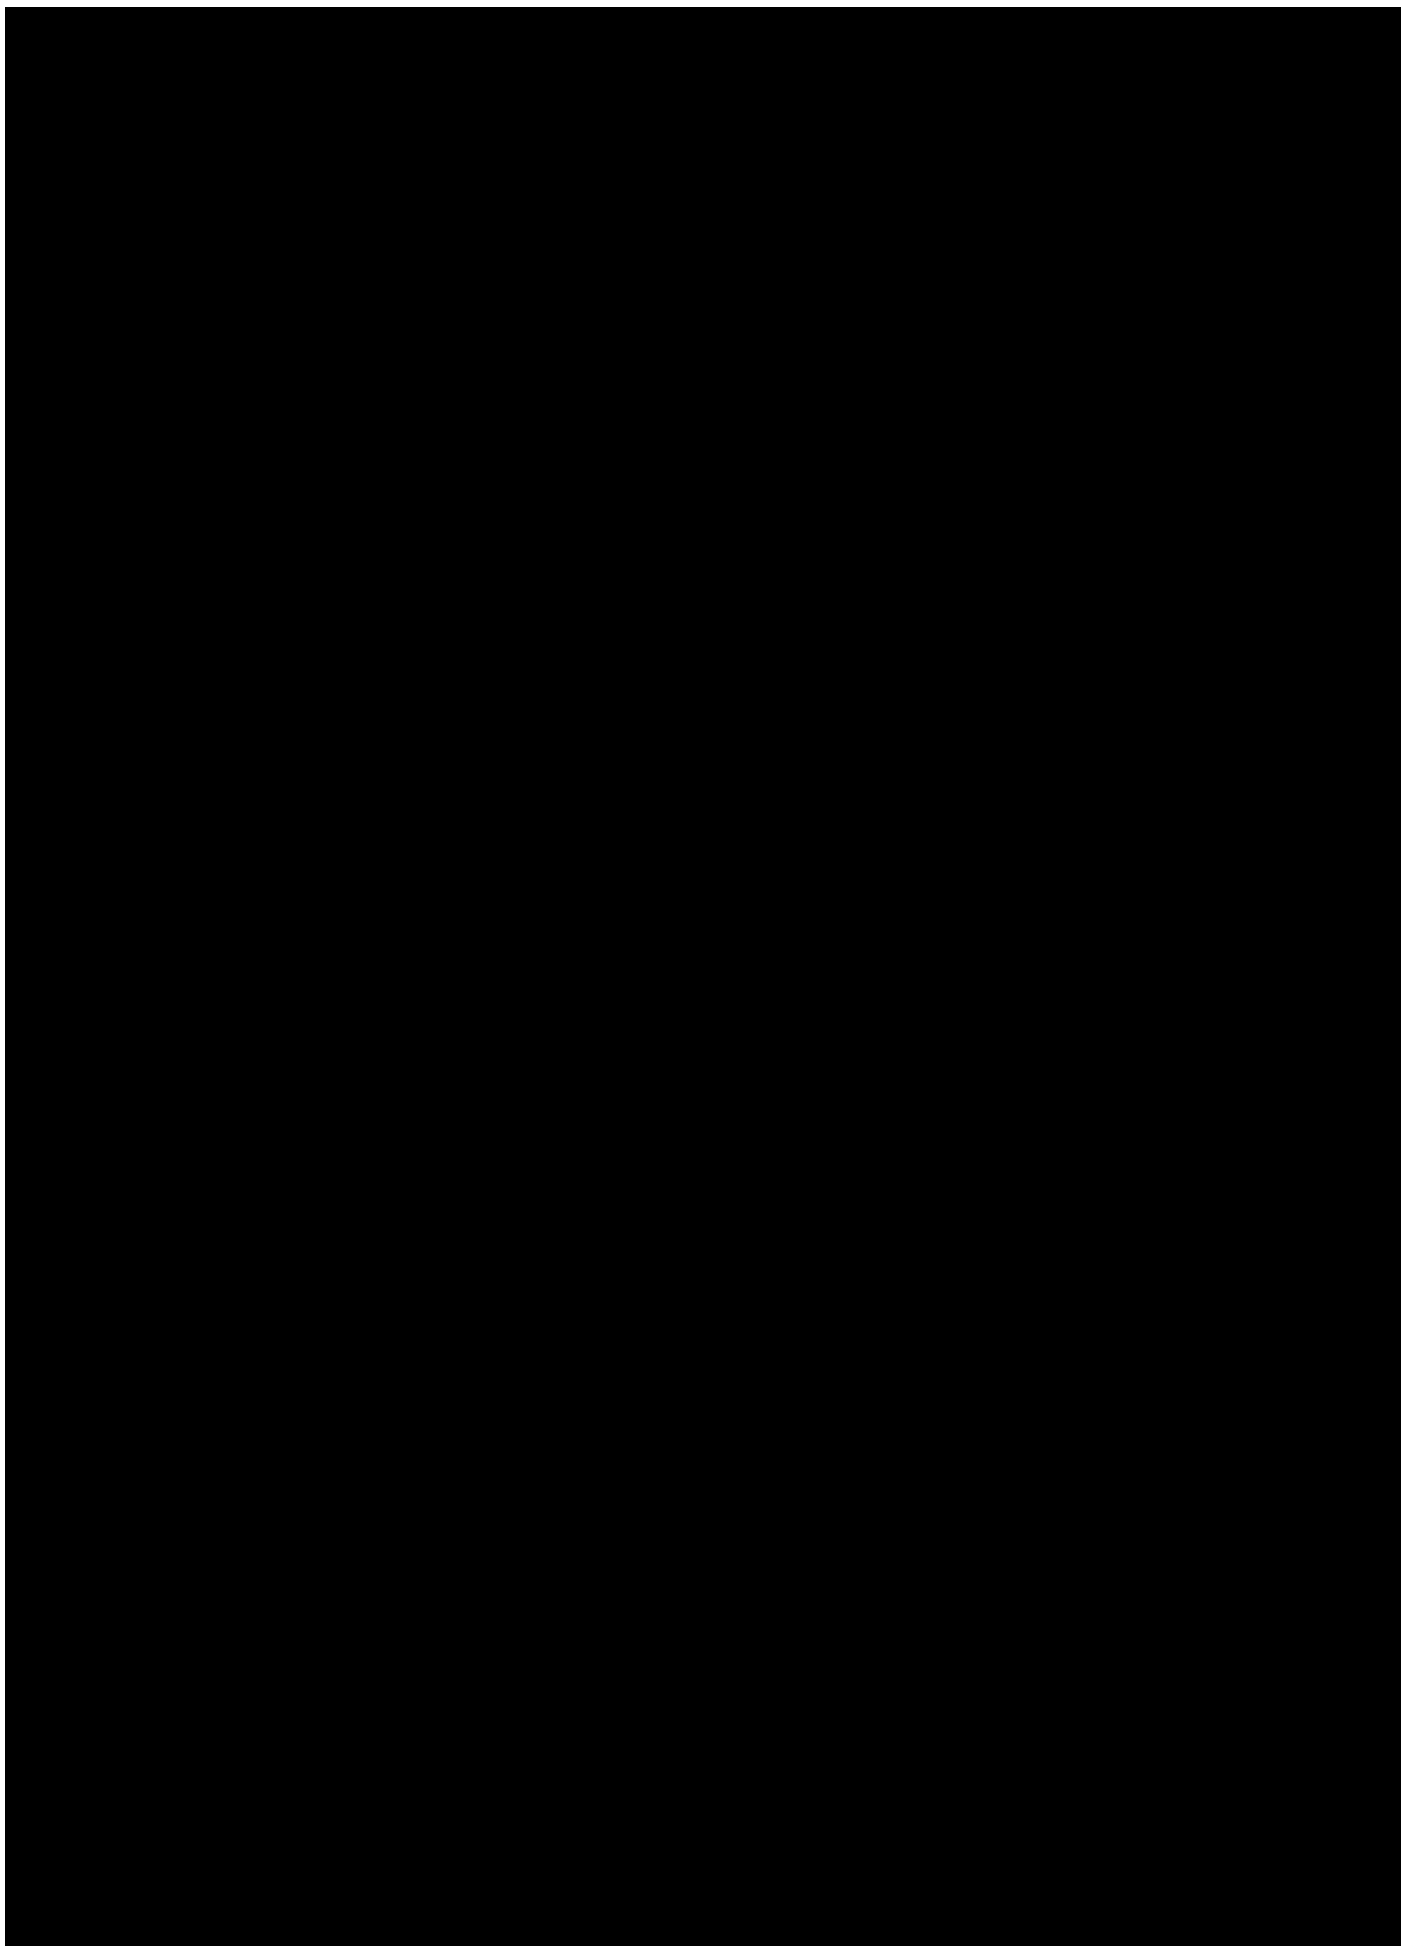

Na střeše objektu bude nově umístěny fotovoltaické panely pro potřeby sluneční energie, technologie FVE včetně bateriového systému budou navrženy v nově vytvořeném samostatném požárním úseku (m.č. 1.22, elektro).

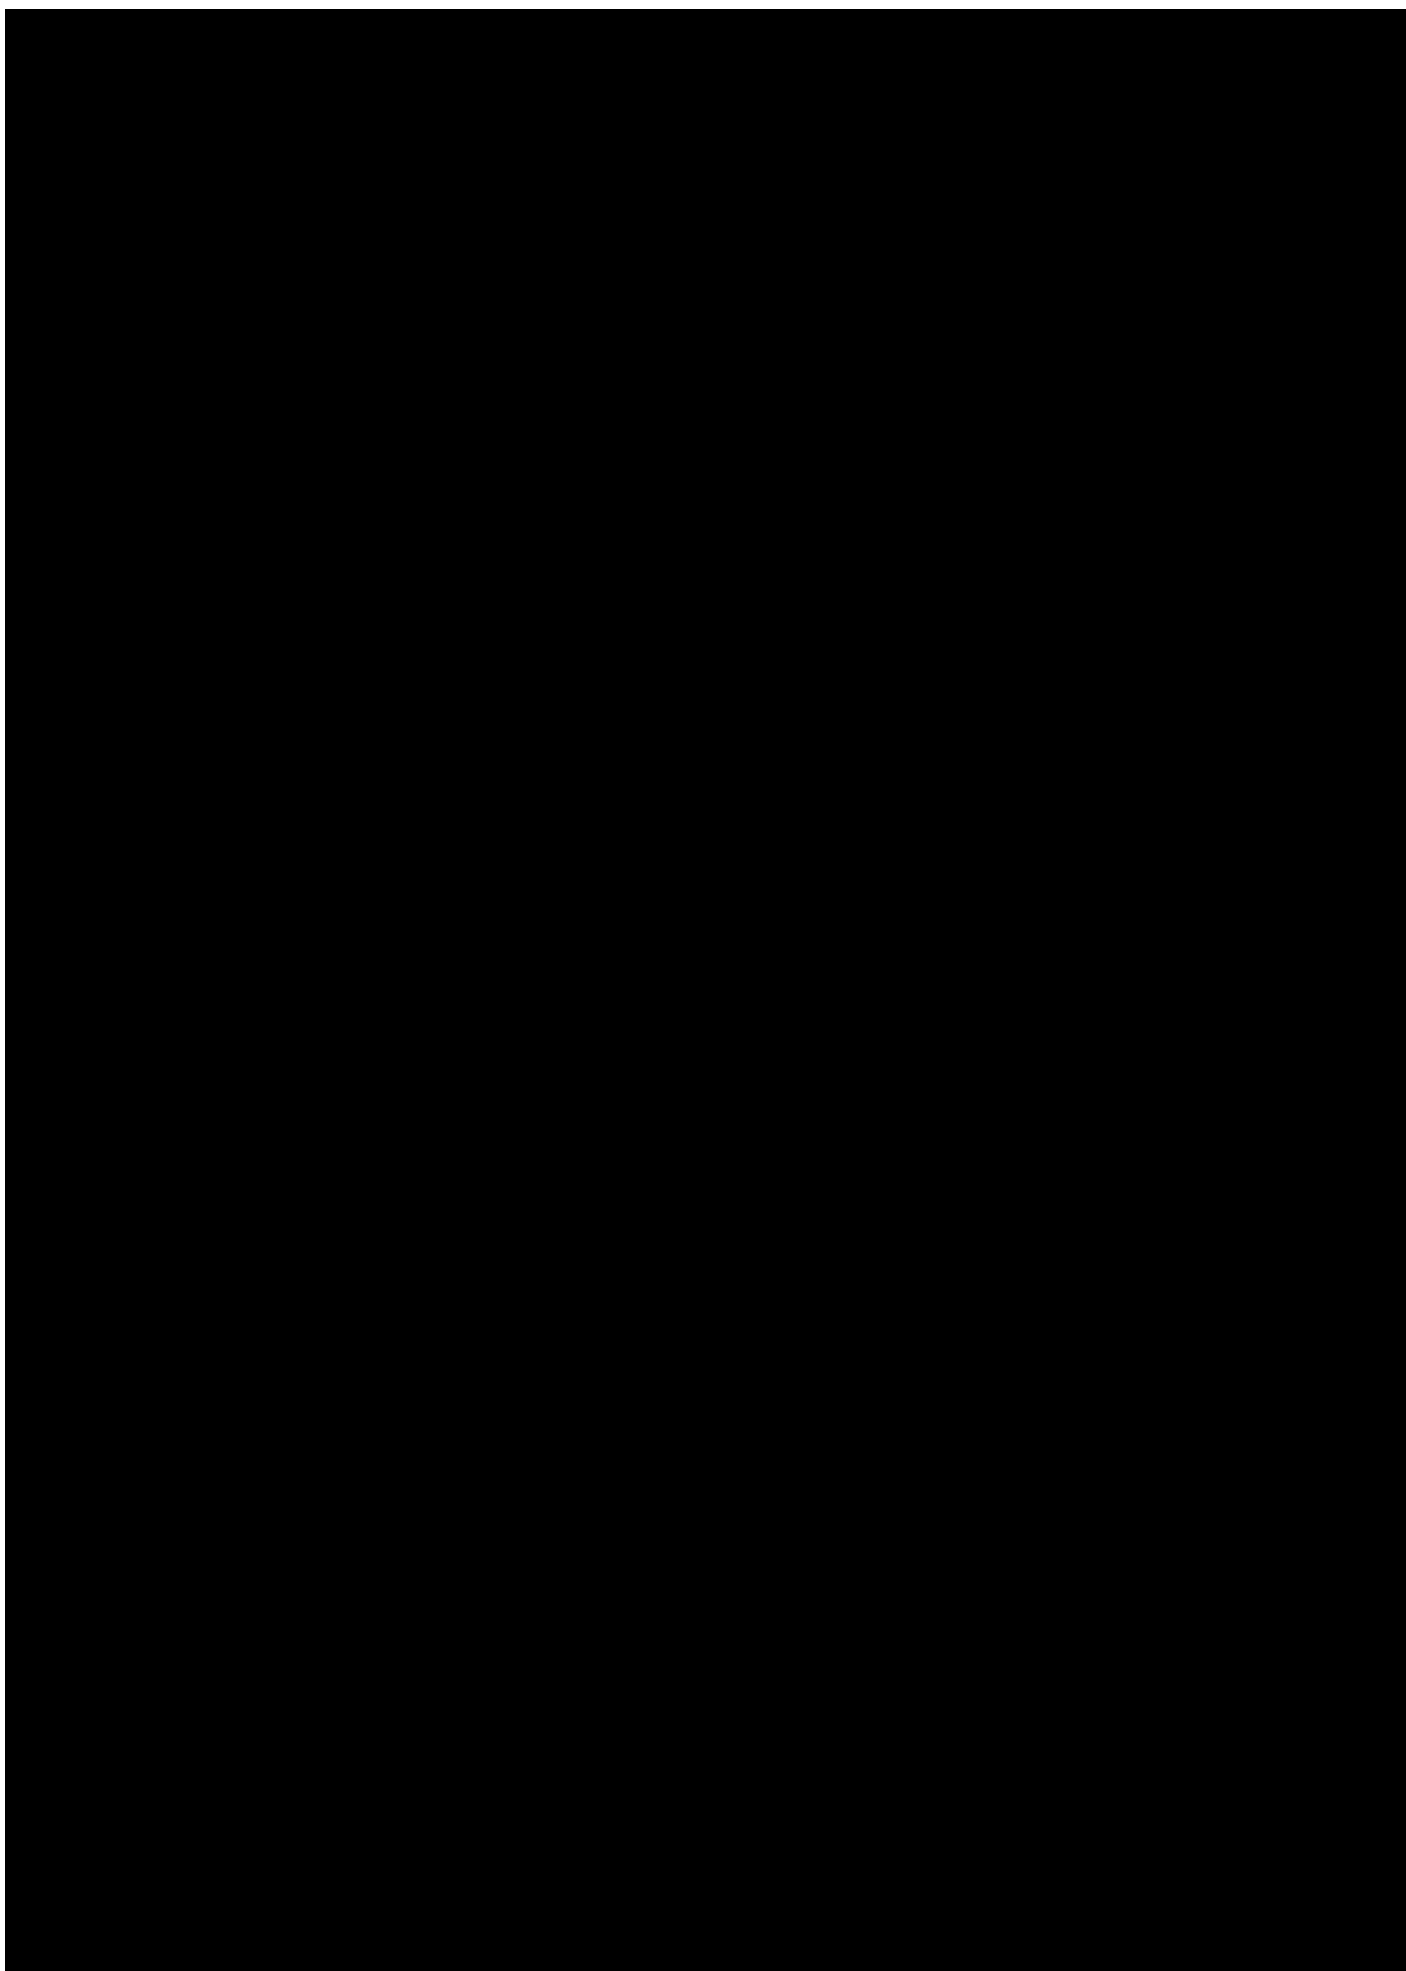

V rámci rekonstrukce je navržena rekonstrukce výtahu. Jedná se o provozní výtah, který není určen pro přepravu osob.

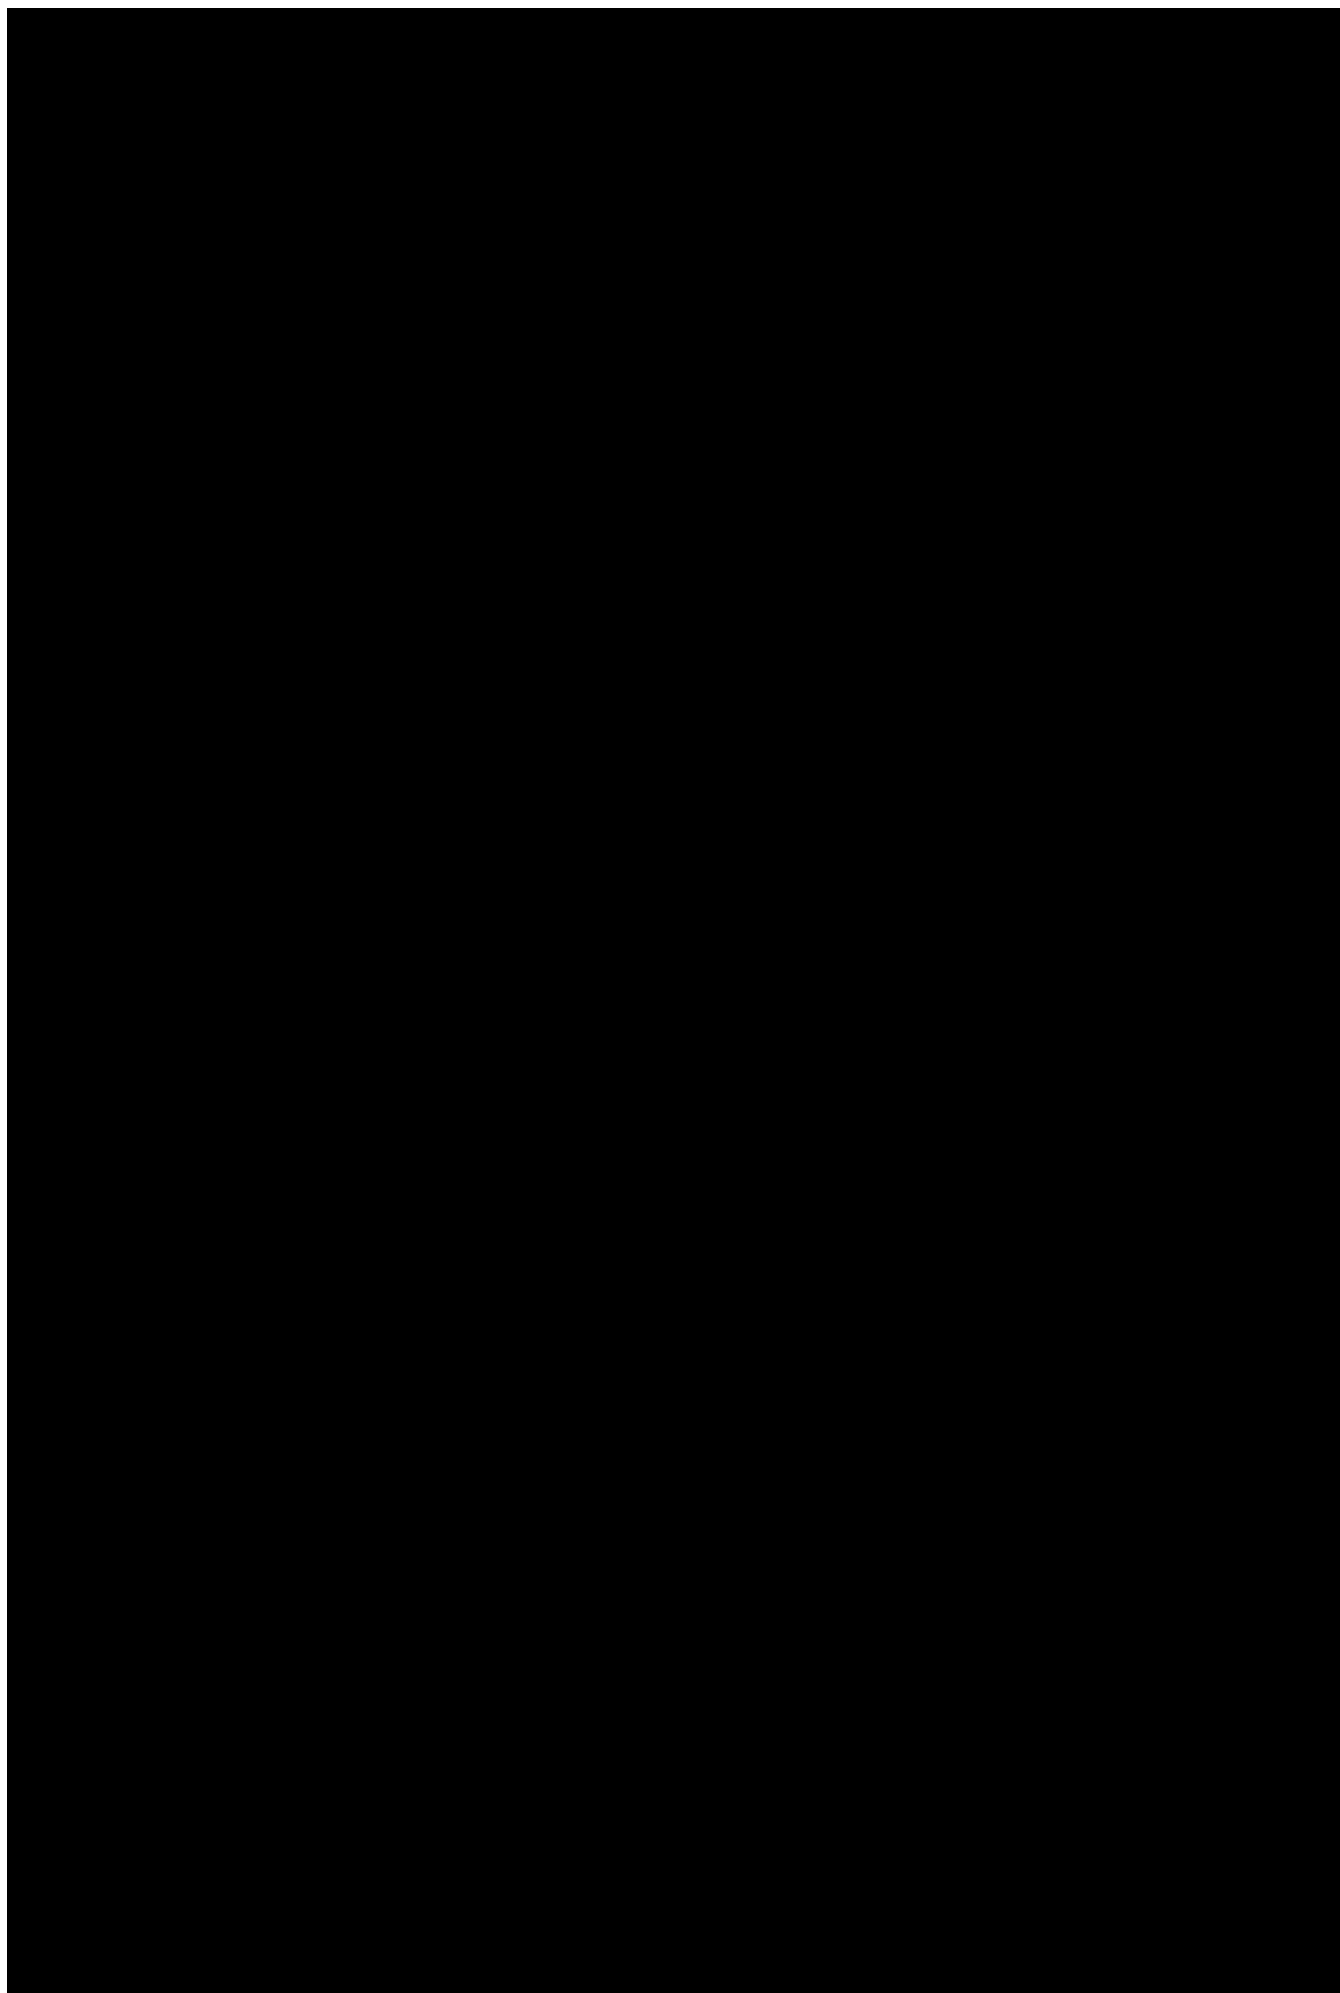

Základní popis:

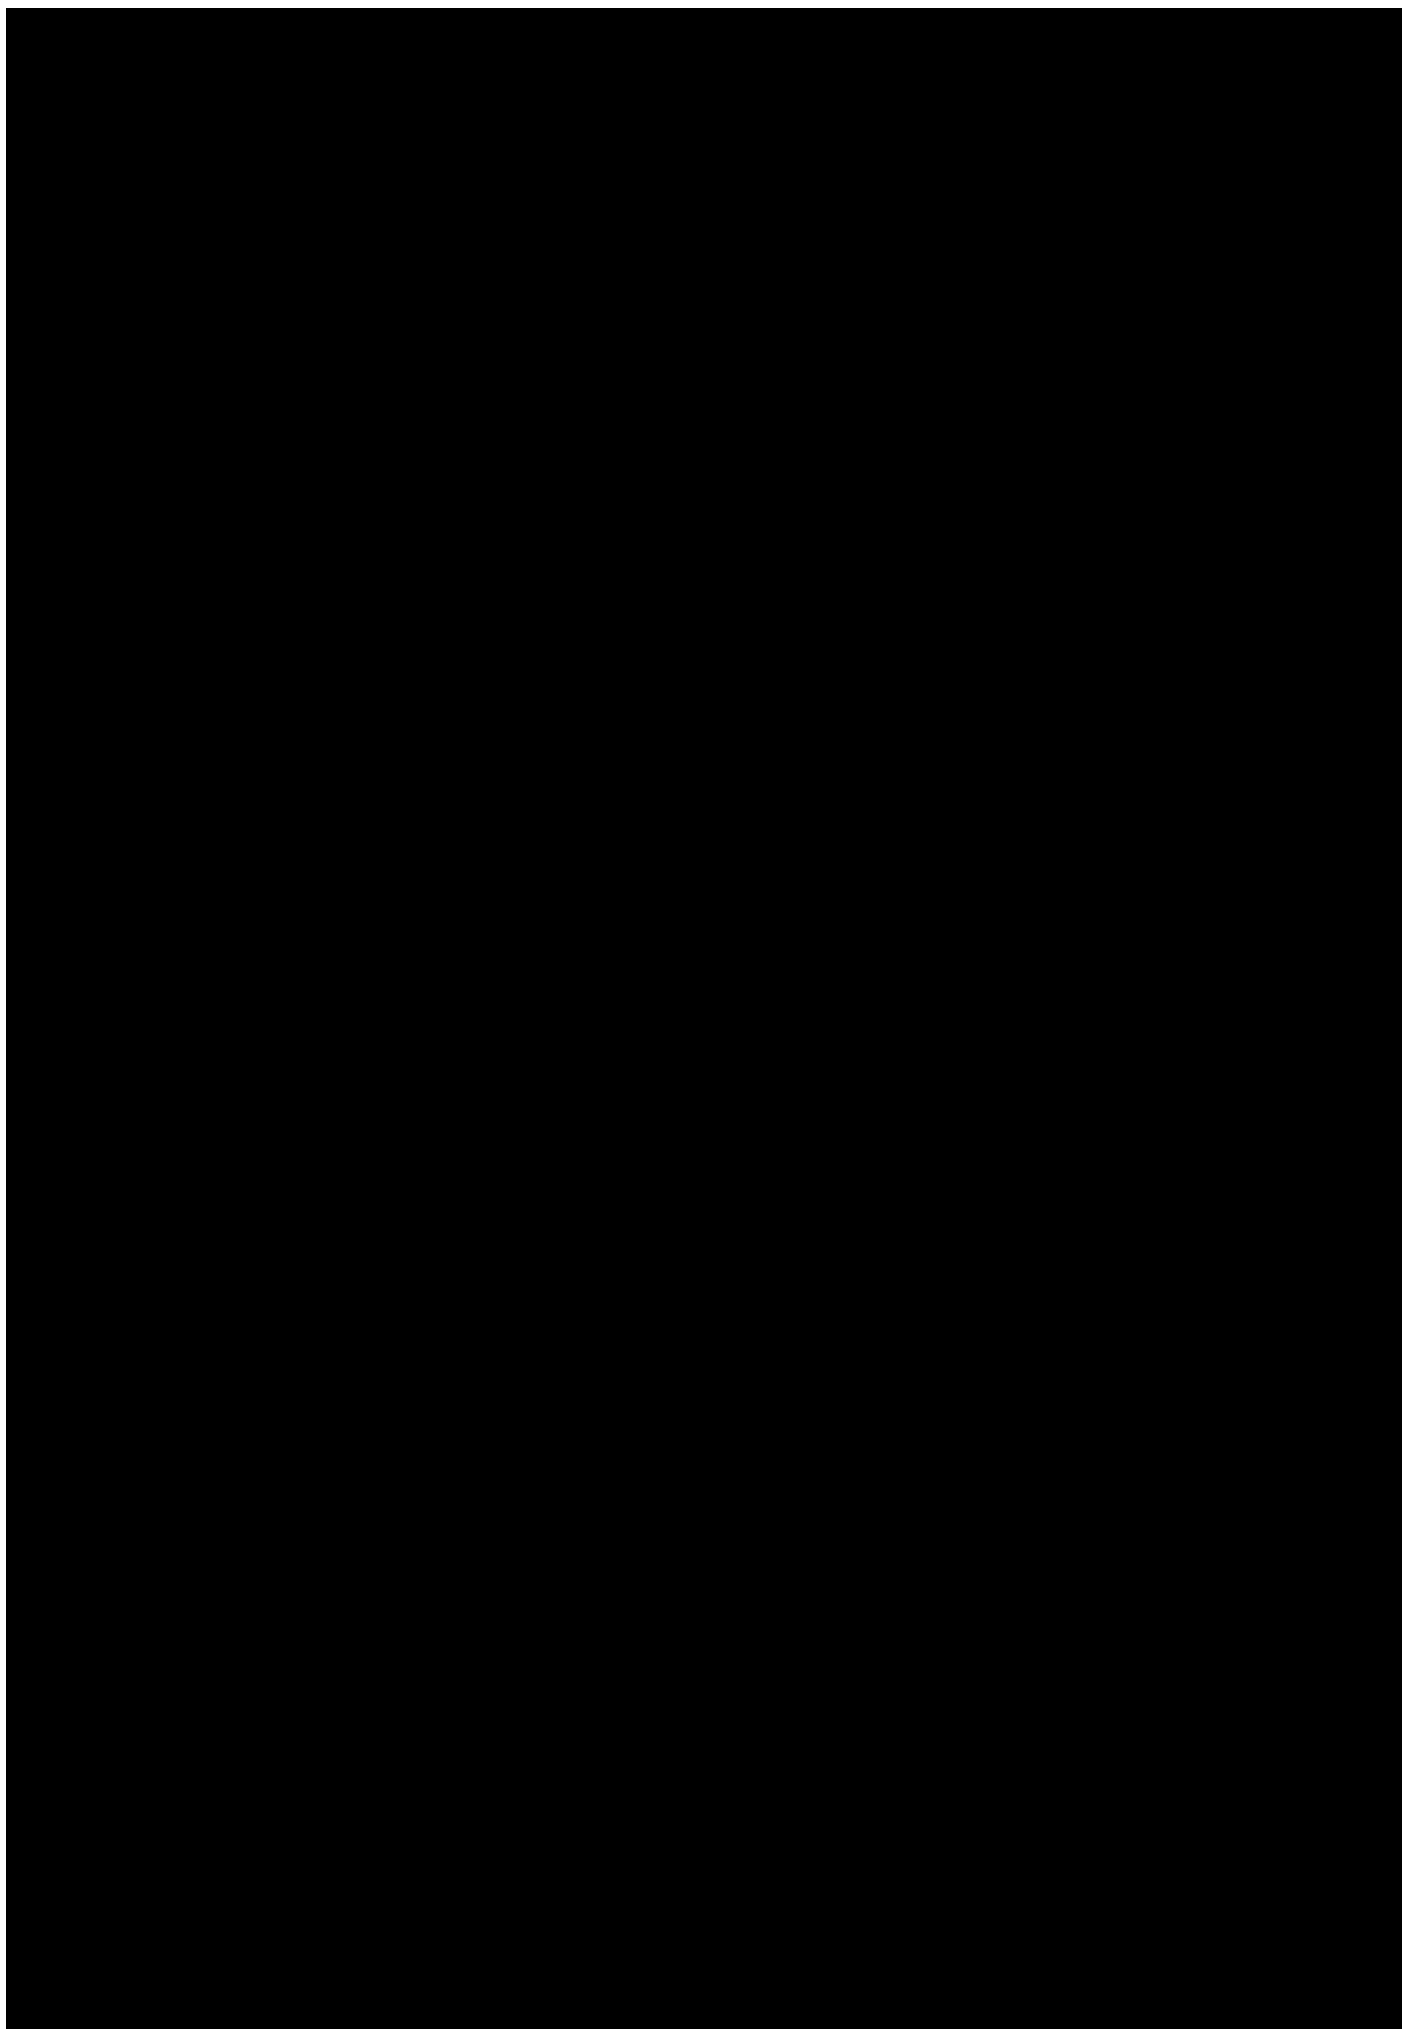

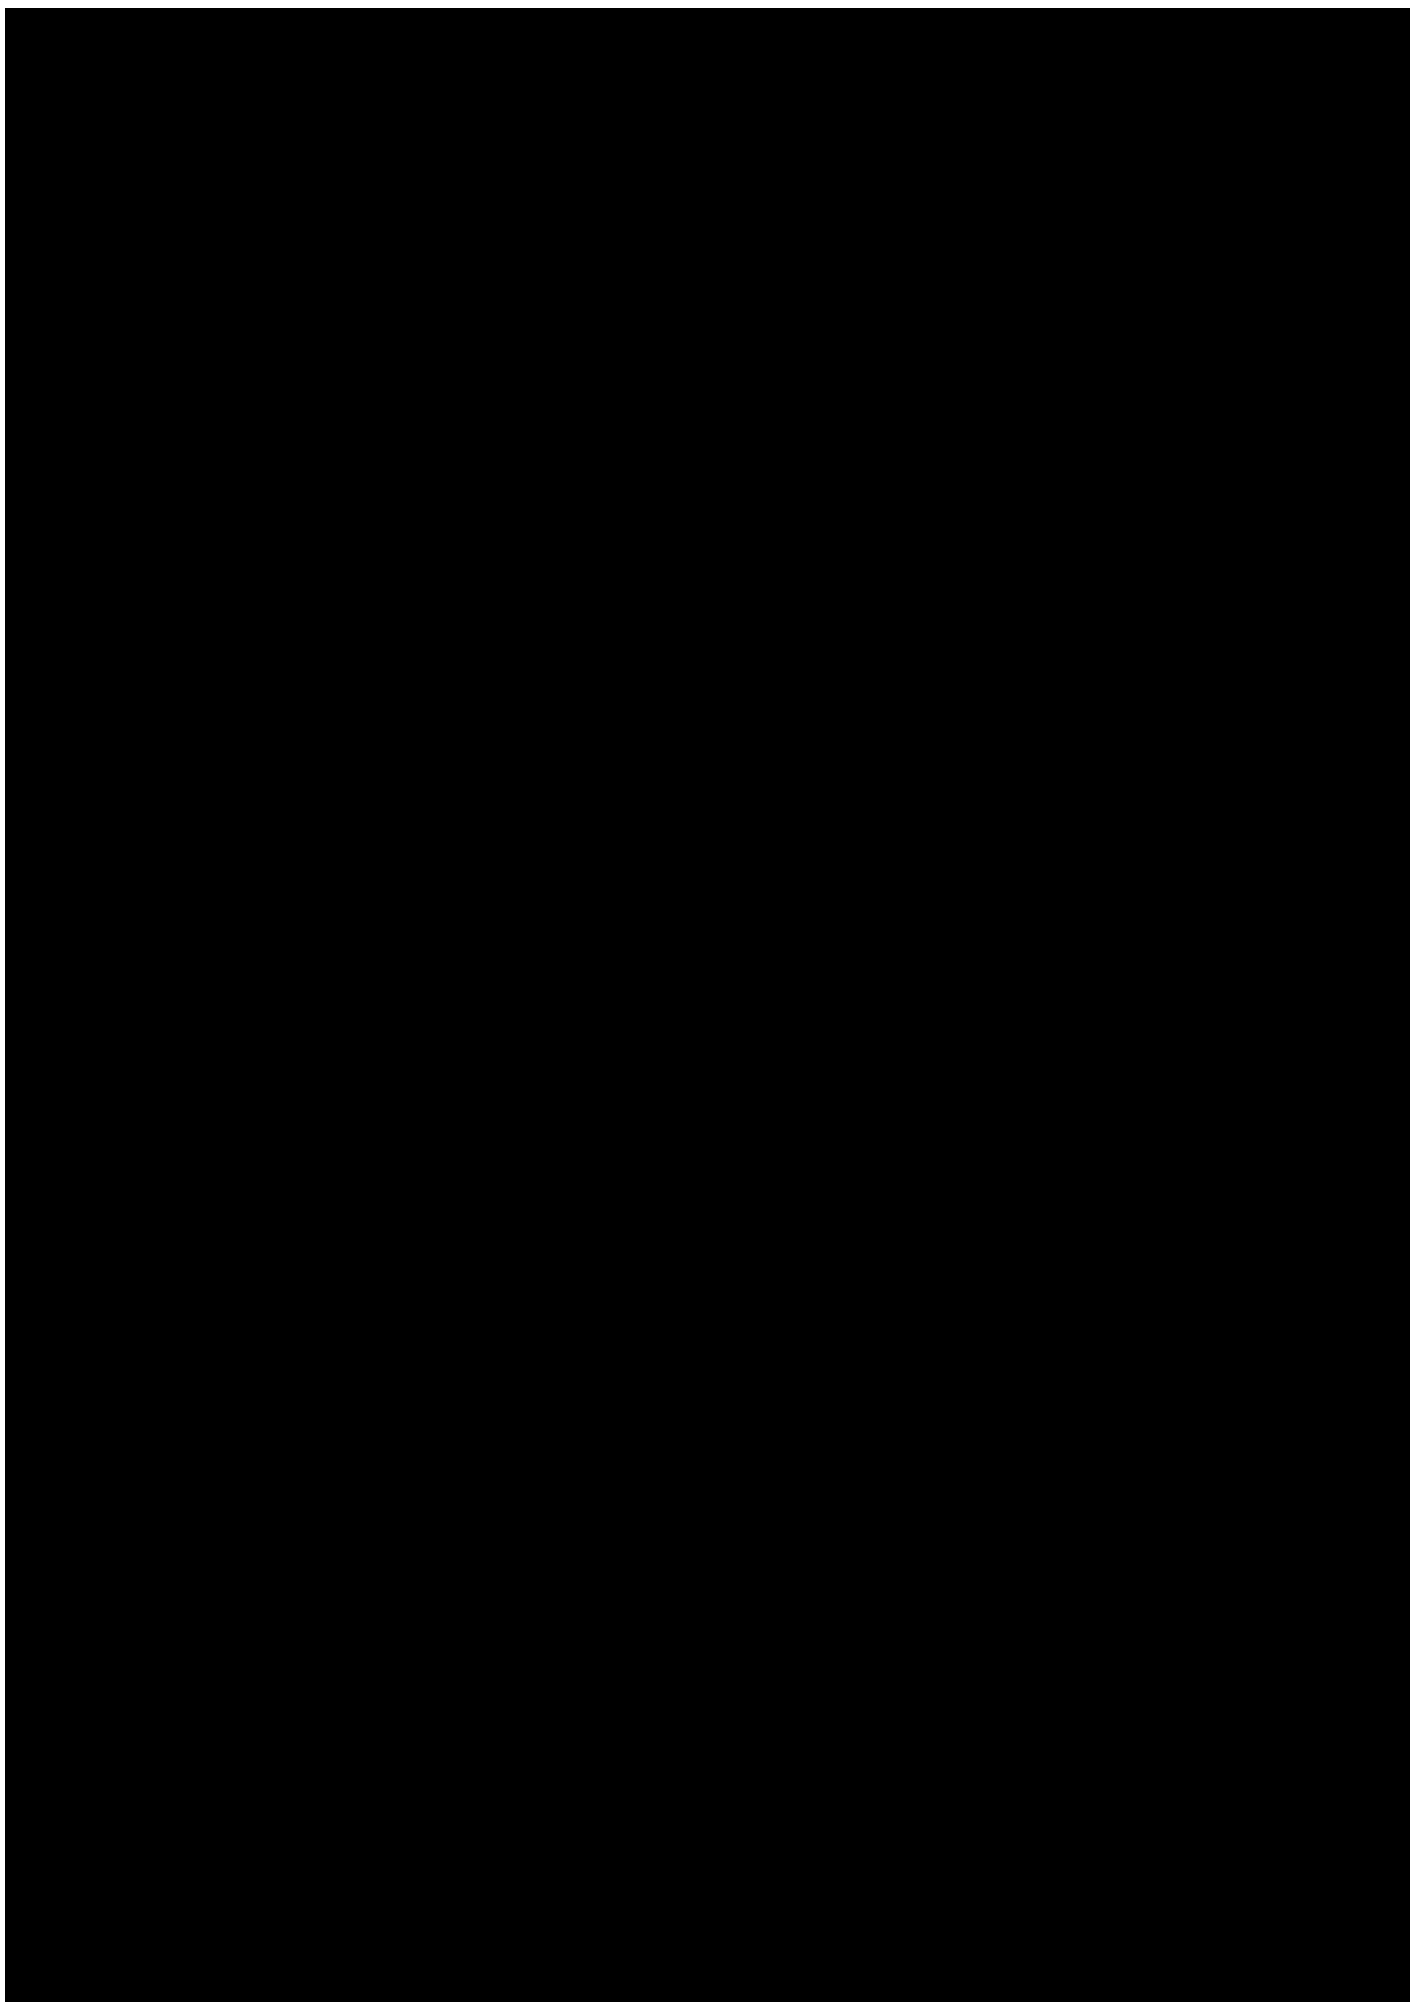

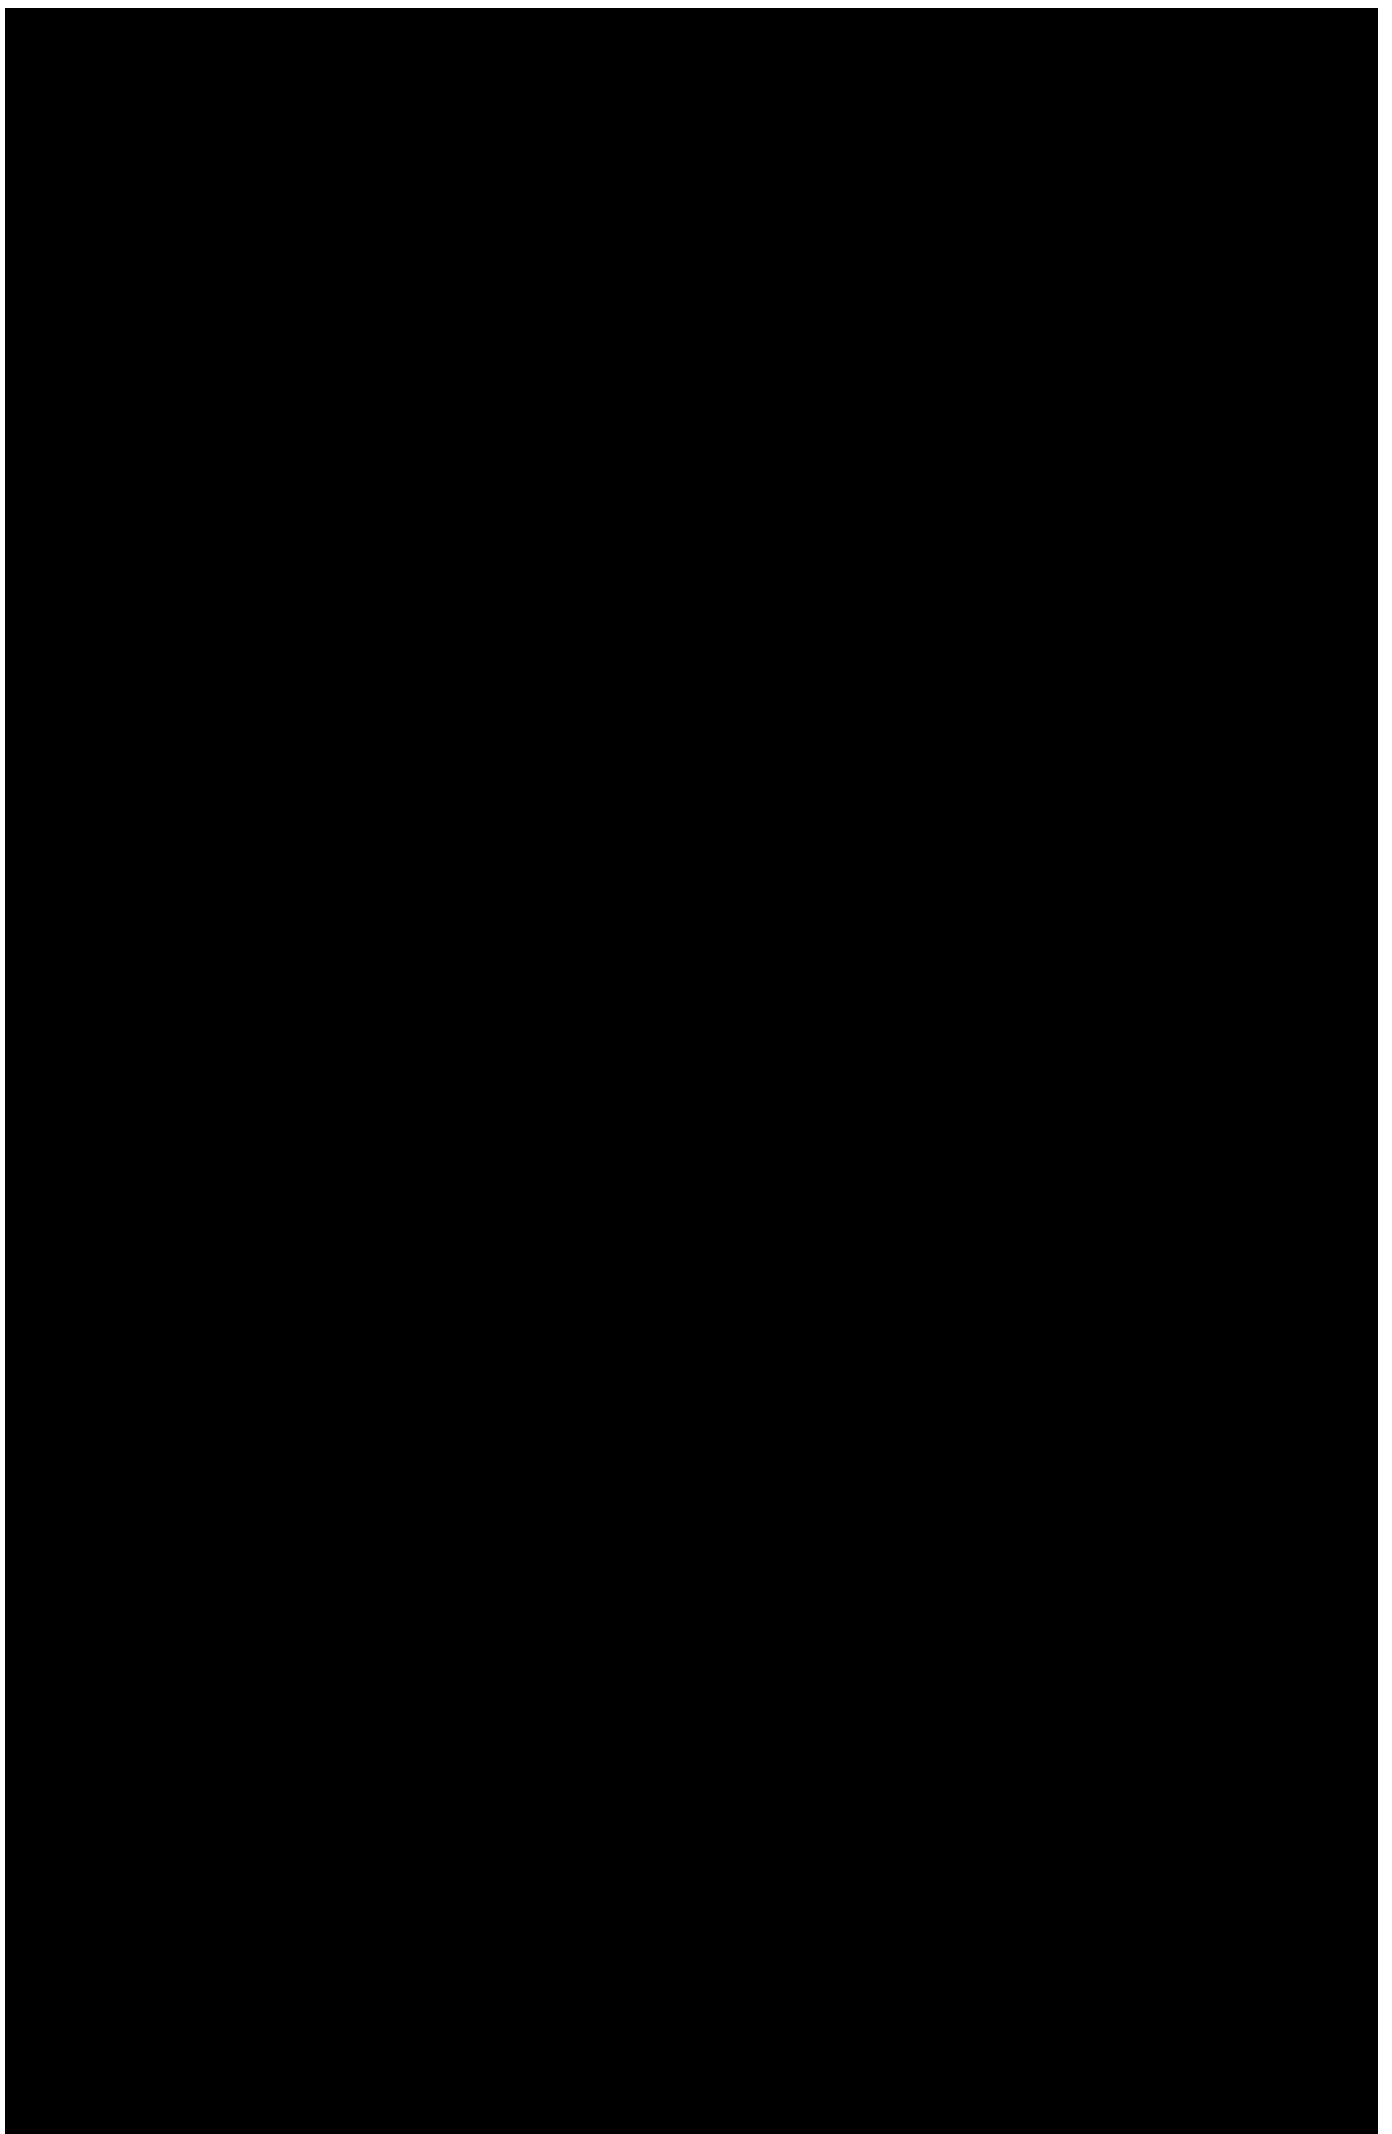

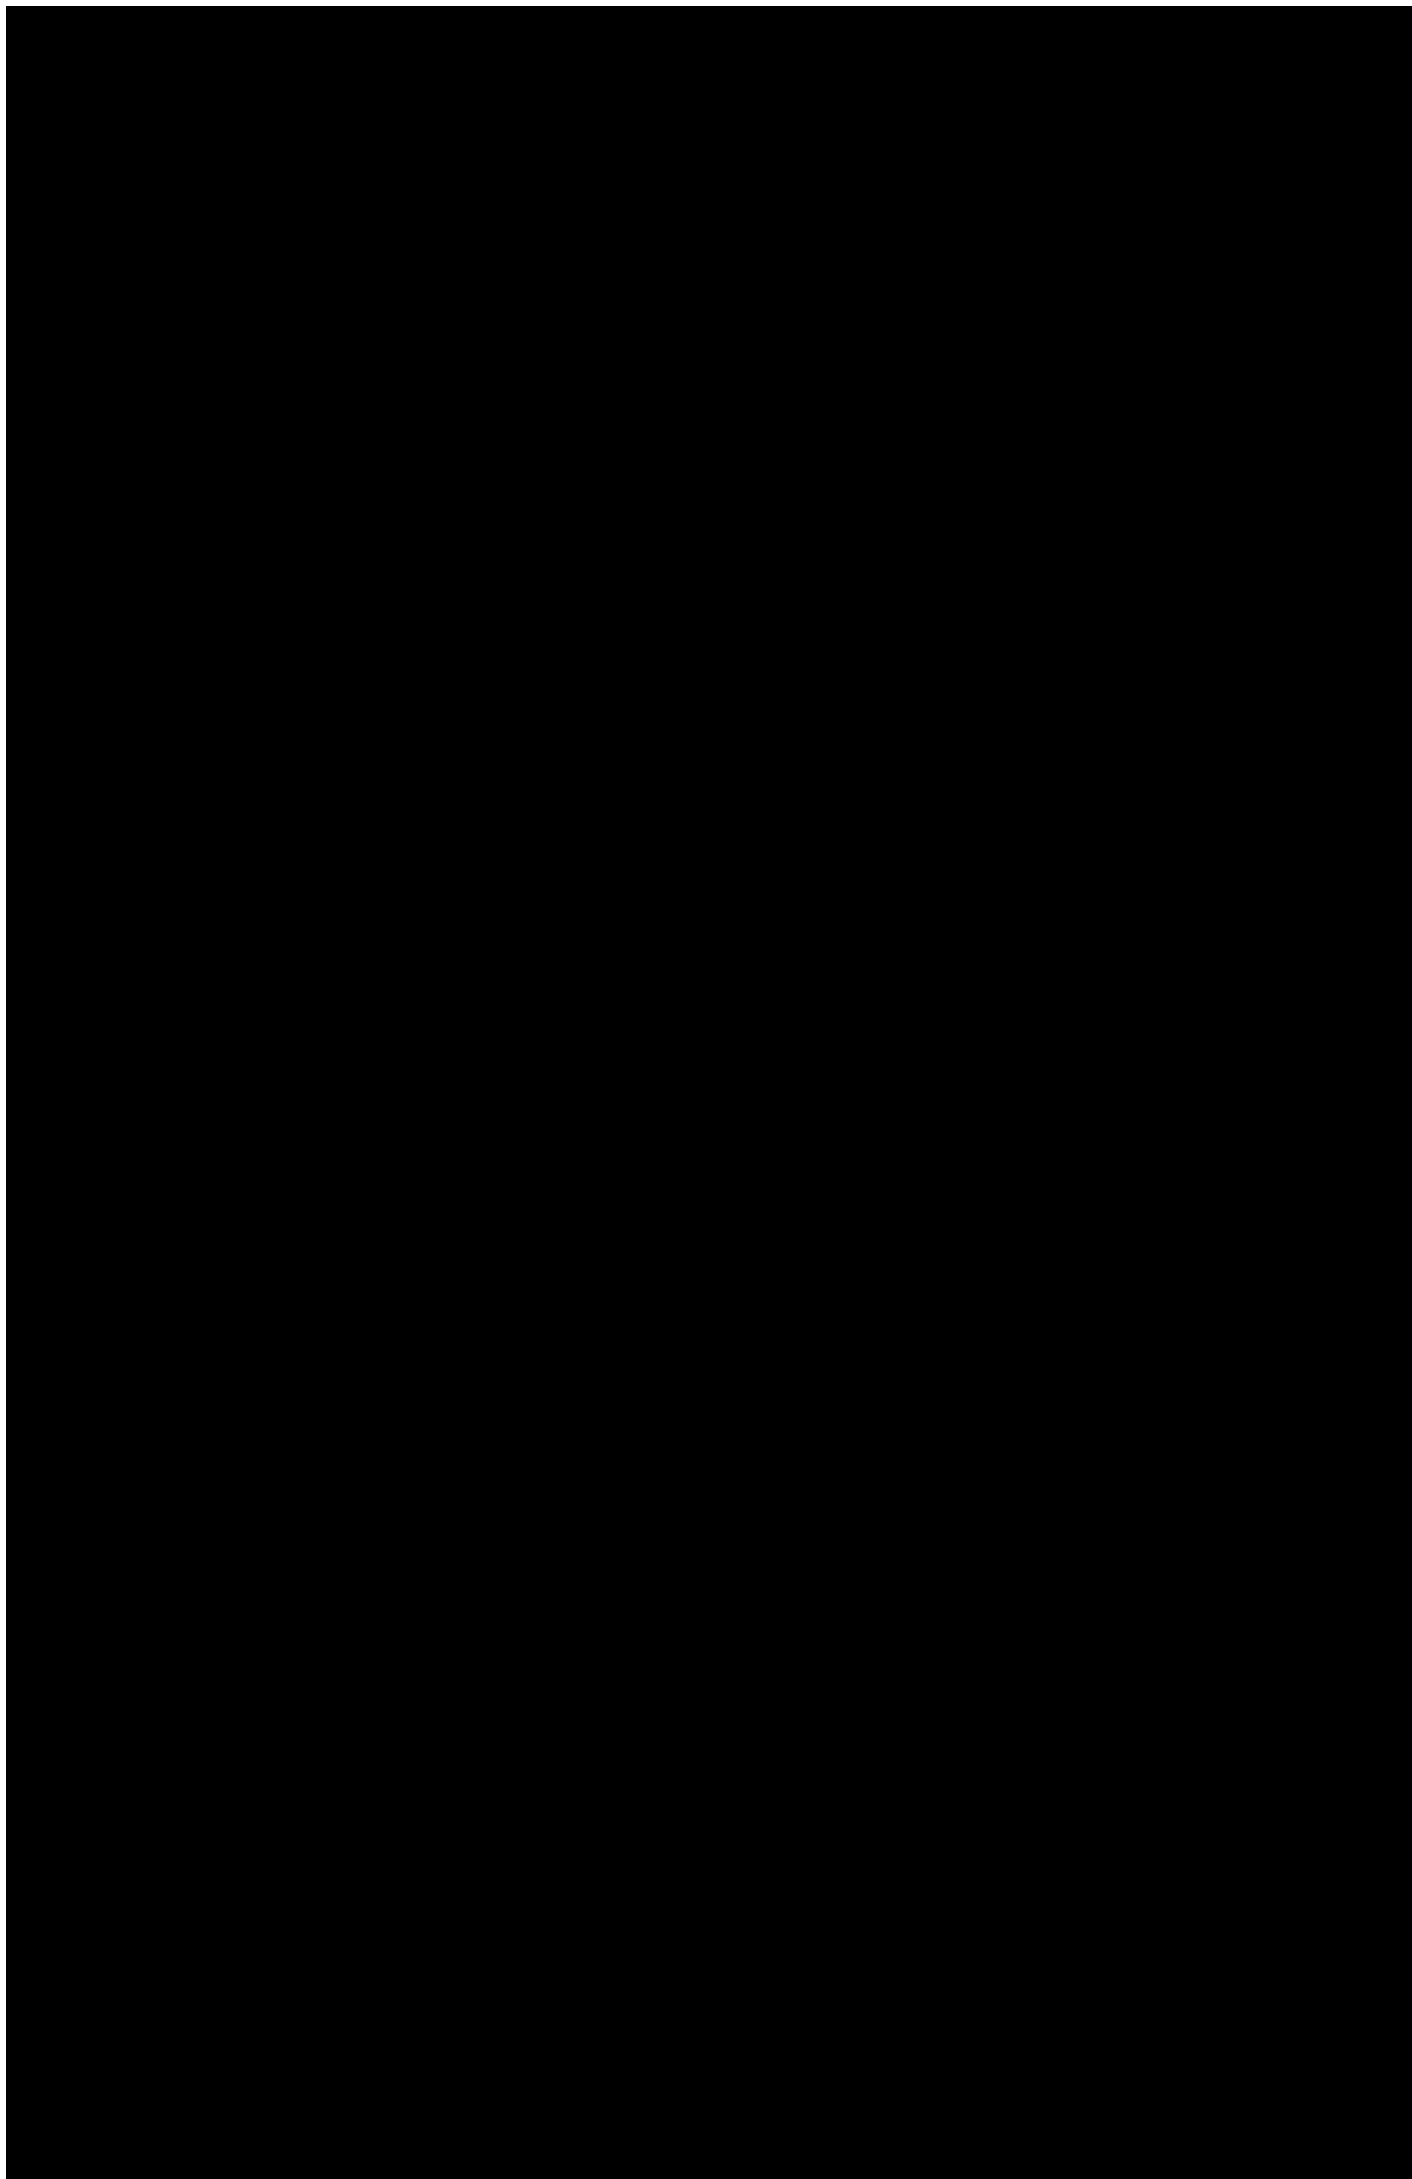

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1998. The public sector has become a major employer in the UK, and its growth has been a key factor in the overall growth of the economy.

The public sector has also become a major provider of social services, and its growth has been a key factor in the overall growth of the economy. The public sector has become a major provider of social services, and its growth has been a key factor in the overall growth of the economy.

The public sector has also become a major provider of social services, and its growth has been a key factor in the overall growth of the economy. The public sector has become a major provider of social services, and its growth has been a key factor in the overall growth of the economy.

[The following text is a dense, handwritten manuscript, likely a letter or a journal entry. It is written in a cursive script and covers the majority of the page. The text is mostly illegible due to the quality of the scan and the handwriting. It appears to be a personal communication, possibly discussing a journey or a specific event. There are several lines of text, with some words and phrases being more legible than others. The overall tone seems to be reflective or descriptive.]

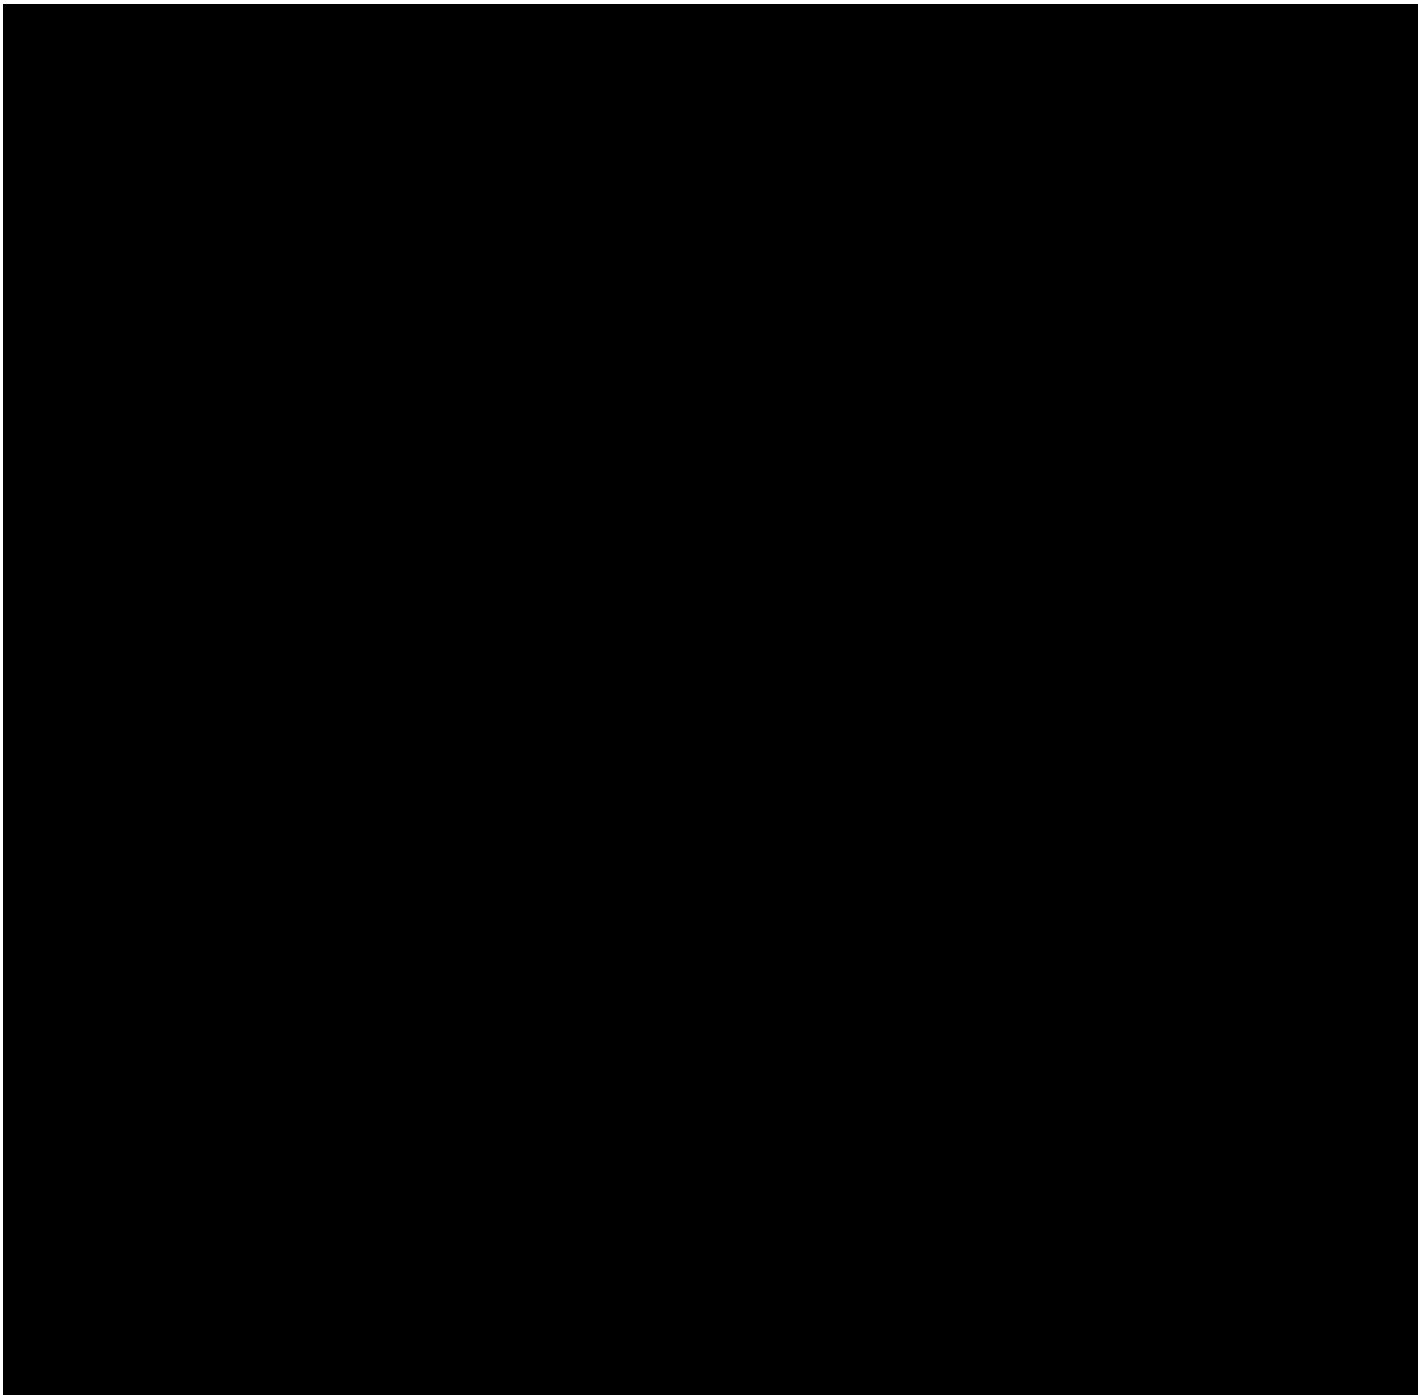

[The following text is a dense, handwritten manuscript, likely a letter or a page from a book. It is written in a cursive script and is mostly illegible due to the quality of the scan. The text appears to be a continuous paragraph or a series of connected sentences. The handwriting is fluid and somewhat slanted. There are some words that are more legible than others, but the overall content cannot be accurately transcribed. The text is written in dark ink on a light-colored paper. The margins are narrow, and the text fills most of the page area.]

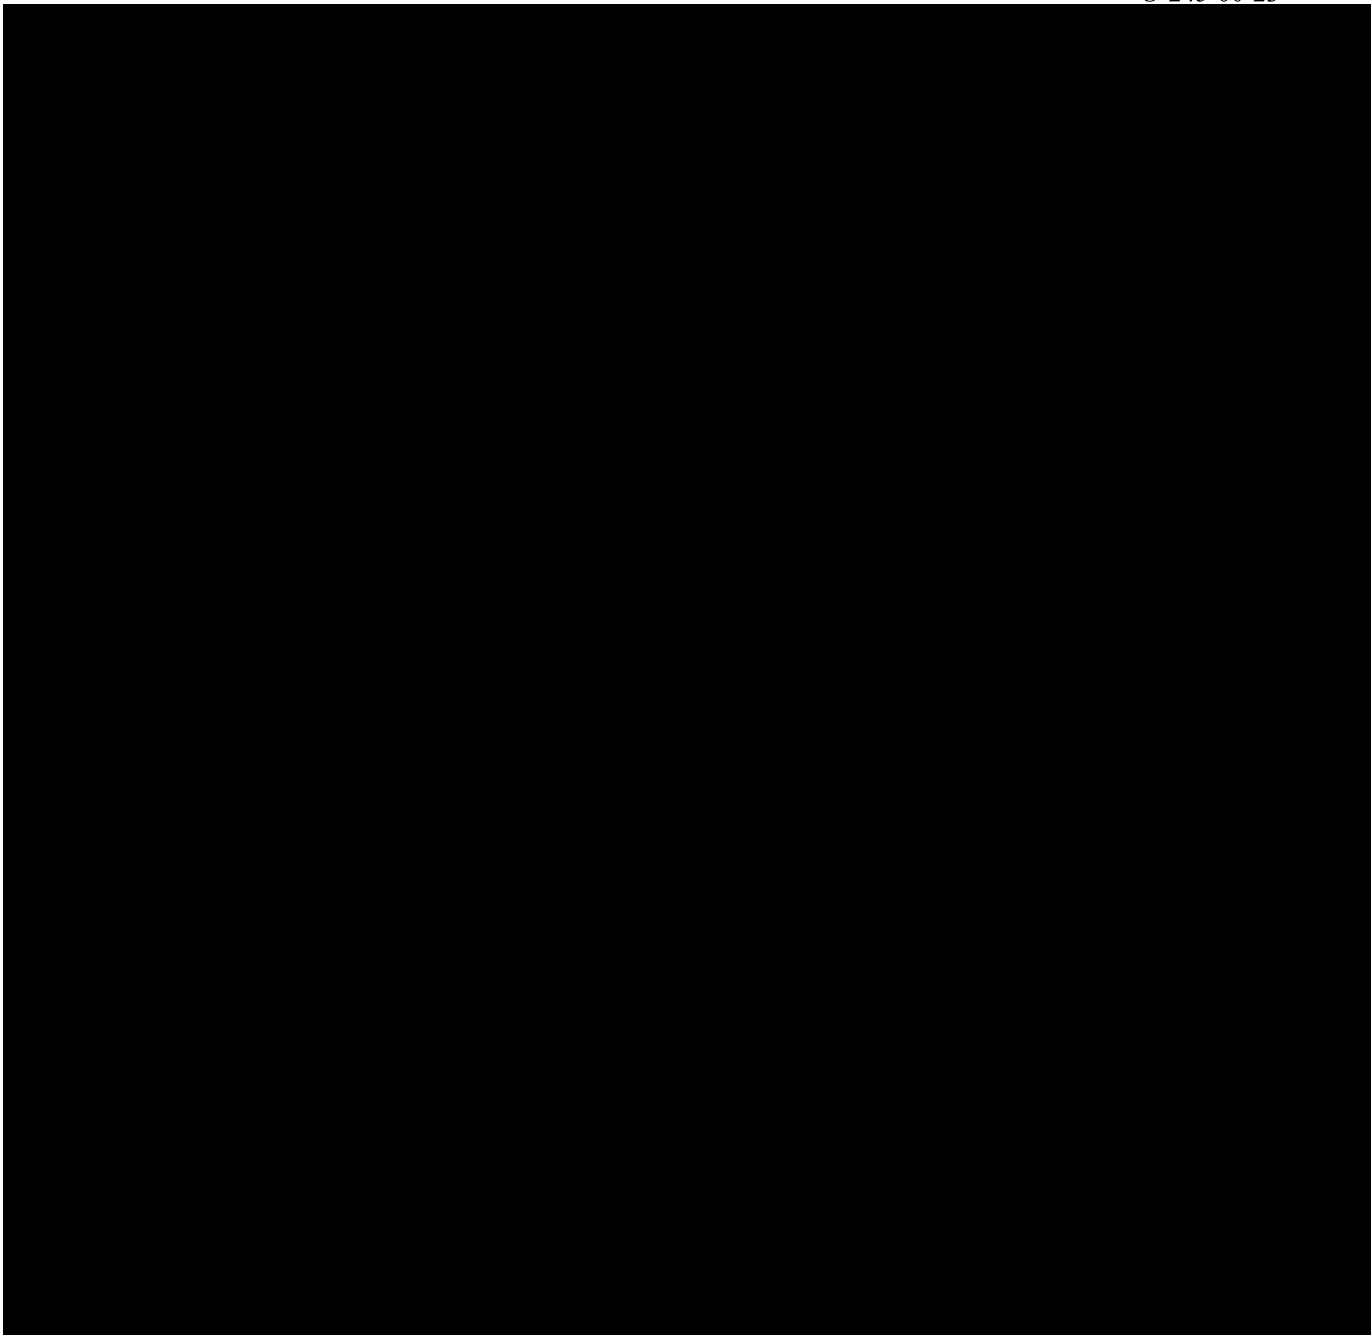

[The following text is a dense, continuous block of text, likely a scan of a document page. It appears to be a mix of English and possibly some non-English characters, but the overall structure suggests a single paragraph or a series of lines of text. Due to the low resolution and potential noise in the scan, the specific words and punctuation are difficult to discern accurately. The text is organized into several lines, with some lines appearing to have indentation or bullet points, though the details are obscured.]

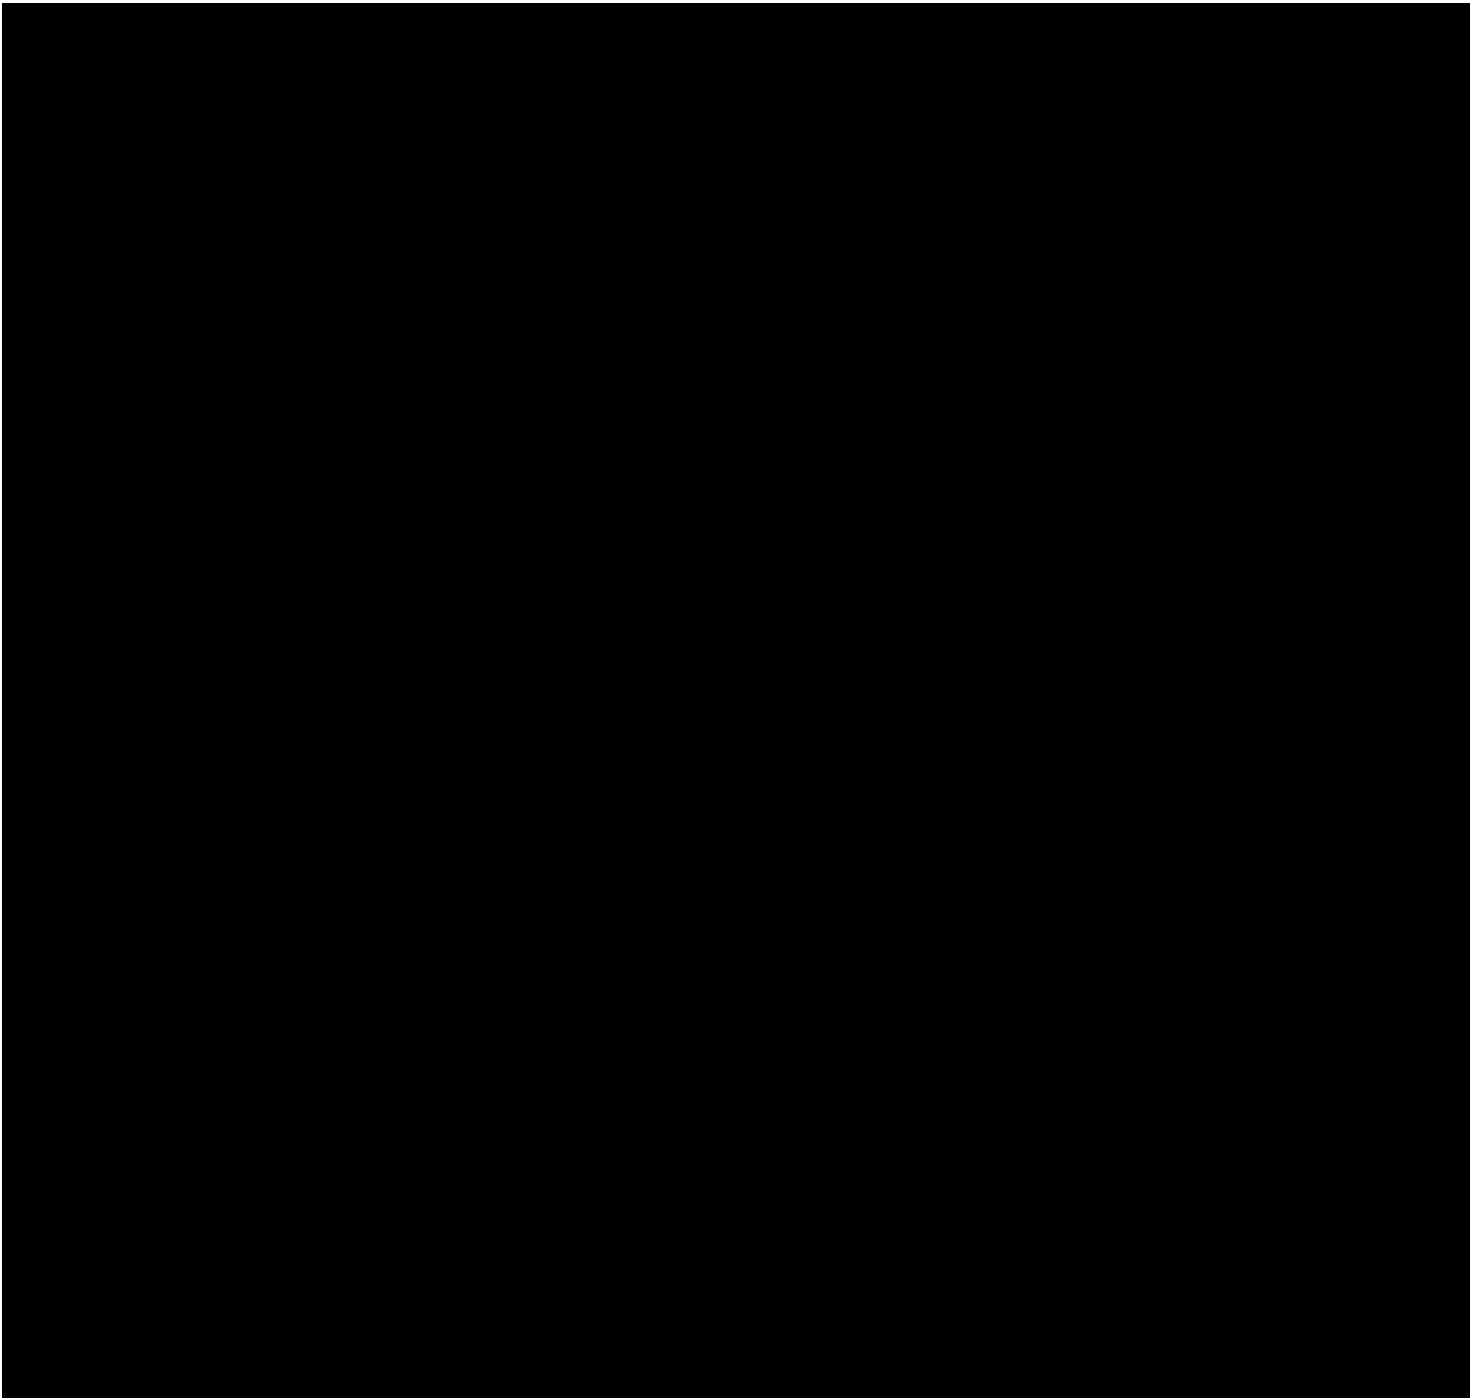

[Illegible text block containing multiple lines of text, possibly a list or a paragraph.]

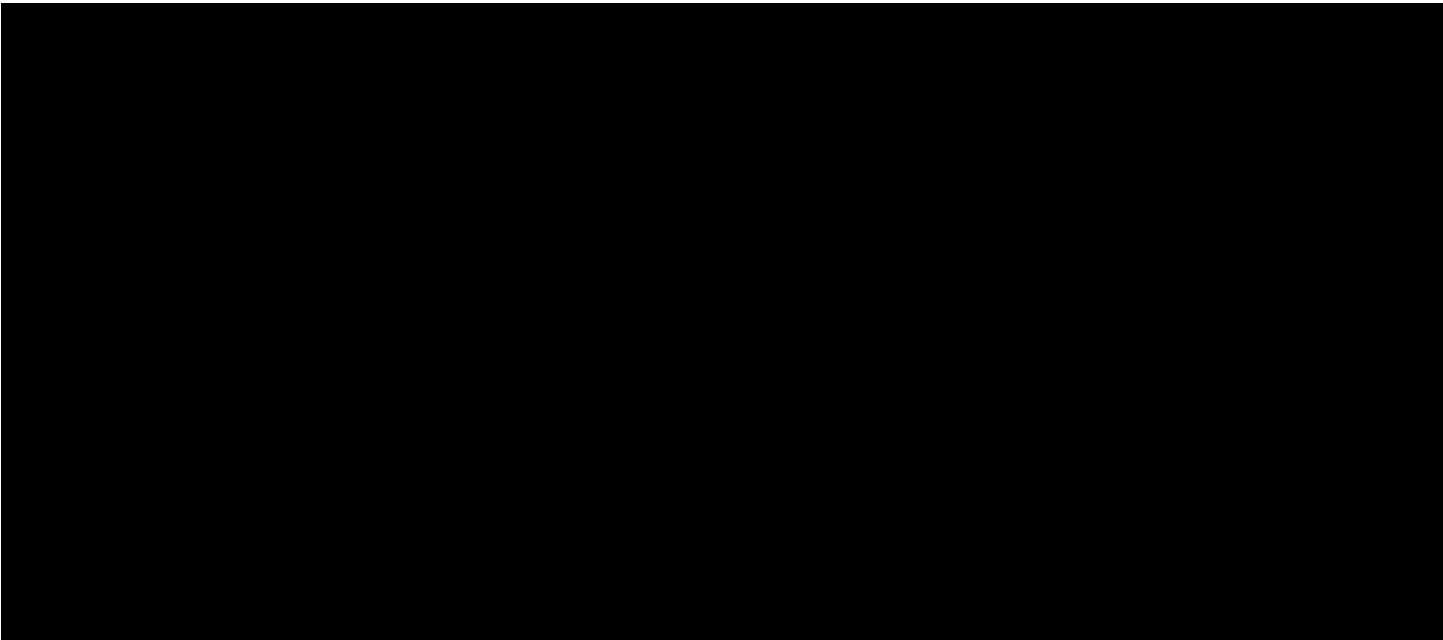

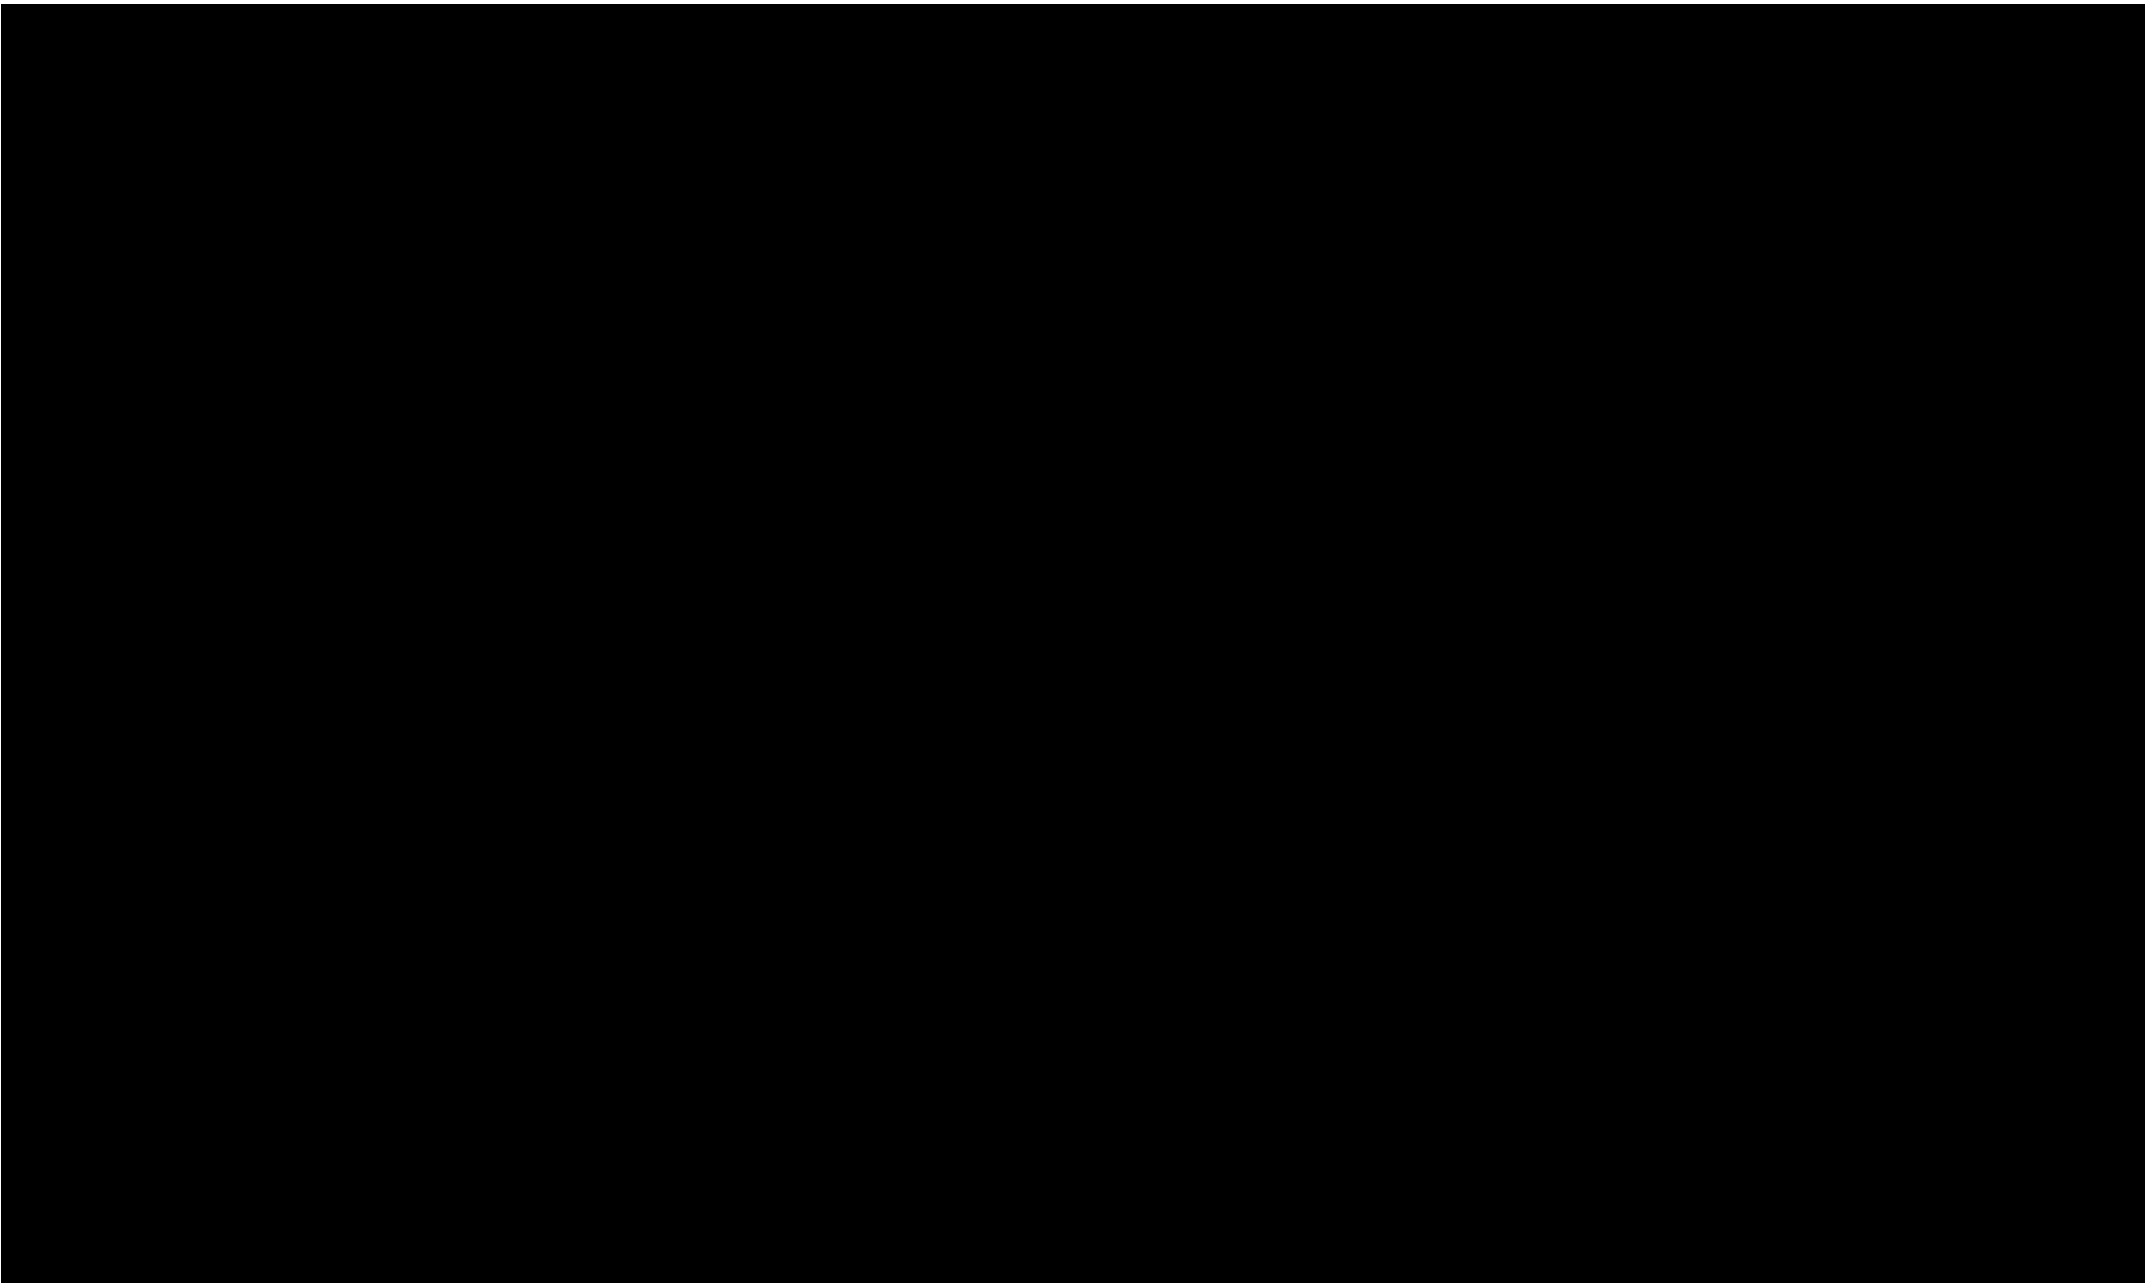

Seznam

549001 / UFTSK 7.10 FL40 300X220X120 GG / UF - krabice pro zkušební svorky (se svorkou)

#1 549001 / UFTSK 7.10 FL40 300X220X120 GG / UF - krabice pro zkušební svorky (se svorkou)

Krabice se zkušební svorkou pro montáž na úrovni podlahy, pro odpojení svodu od uzemnění při měření. Litinové provedení s vestavěnou, dobře přístupnou zkušební svorkou.

6

253229 / DLH ZS 20 23 V2A 4.7KG BES180 GP300 K / Podpěra vedení se základnou a betonem pro vodič HVI 20-23mm -SET-

#2 253229 / DLH ZS 20 23 V2A 4.7KG BES180 GP300 K / Podpěra vedení se základnou a betonem pro vodič HVI 20-23mm -SET-

Střešní držák vedení s nerezovou příchýtkou se dvěma otvory k instalaci vodiče vodič HVI na ploché střechy. Provedení s betonovým základem a podložkou, pro vedení 20–23 mm (pevné uchycení vedení).

107490 / VBS KB D50 RA680 V2A / Čtyřramenný stativ sklopný

#4 107490 / VBS KB D50 RA680 V2A / Čtyřramenný stativ sklopný

Čtyřramenný stojan (rozkládací verze) pro podpůrné trubky D 50 mm se stranovým vývodem nebo s redukcí pro jímací tyče D 40 mm. S dvojitou příložkou pro připojení dvou drátů prům. 8 - 10 mm, sestavení s betonovými podstavci (hmotnost 17 kg) a přizpůsobením sklonu střechy do max. 10° pomocí sady upevňovacích tyčí pro betonové podstavce.

6

275252 / LH ZS 20 23 B5.5X10 V2A / Podpěra vedení pro vodiče HVI/CUI D20-23mm s oválným otvor.10x5,5mm nerez

#5 275252 / LH ZS 20 23 B5.5X10 V2A / Podpěra vedení pro vodiče HVI/CUI D20-23mm s oválným otvor.10x5,5mm nerez

Držák vedení pro vodiče HVI/CUI, s příložkou se dvěma šrouby, nerezové provedení, například pro montáž na stěnu.

132

102012 / BES 17KG KT16 D337 / Betonový podstavec B55 17kg D337mm

#6 102012 / BES 17KG KT16 D337 / Betonový podstavec B55 17kg D337mm

102019 / KEIL BES NIRO / Klínek 60x24x1,5mm, nerez, pro betonový podstavec

#7 102019 / KEIL BES NIRO / Klínek 60x24x1,5mm, nerez, pro betonový podstavec

Klínek pro upevnění jímací tyče do betonového podstavce.

480598 / HWS 300X210 AGBS HVI DE EN K / Výstražná tabulka ACHTUNG! Blitzschutz HVI (pouze NJ)

#8 480598 / HWS 300X210 AGBS HVI DE EN K / Výstražná tabulka ACHTUNG! Blitzschutz HVI (pouze NJ)

Výstražný štítek "ACHTUNG! Getrennter Blitzschutz mit HVI Leitung" (POZOR! Izolovaný hromosvod s vodičem HVI). Umělohmotné provedení odolné vůči povětrnostním vlivům.

819132 / HVI LO 75 23 L... GR M / Vodič HVI long, D23mm, šedý

#9 819132 / HVI LO 75 23 L... GR M / Vodič HVI long, D23mm, šedý

Vodič HVI long (vodič s vysokonapěťovou izolací), pro dodržení dostatečné vzdálenosti vůči vodivým částem podle ČSN EN 62305-3, pro zabránění nebezpečným přeskokům mezi částmi vnějšího systému ochrany před bleskem a vnitřními vodivými částmi (elektrická zařízení, potrubní vedení apod.) Pro zabránění vzniku plazivého výboje je vodič HVI opatřen speciálním pláštěm, který umožňuje řídit vůči vztažnému potenciálu vysoká impulzní napětí, způsobená bleskem. Provedení pro montáž na stavbě (v požadované délce na základě objednání 6 - 60 m, šedý). Ekvivalent dostatečné vzdálenosti s ≤ 75 cm (pro vzduch) nebo s ≤ 150 cm (pro pevný materiál).

819294 / BFS D61 4X20 / Sada pro připojení vodičů HVI

#10 819294 / BFS D61 4X20 / Sada pro připojení vodičů HVI

Upevňovací sada pro připojení vodičů HVI long k podpurným trubkám pro vodiče HVI long, složená z připojovací destičky (čtyřnásobné s dvojicí pojistných matic) a upevňovacího kroužku se čtyřmi držáky vedení (D 20 mm), opatřenými prořezem pro zajištění oblasti koncovky (součástí sady jsou 2 stahovací pásy).

6

410229 / PAE 20 23 AB11 V2A / PA svorka nerez

#11 410229 / PAE 20 23 AB11 V2A / PA svorka nerez

PA svorka k řízení elektrického pole na plášti vodiče HVI long v oblasti koncovky. Speciální drážkování zajišťuje dokonalý kontakt s polovodivým pláštěm. Nerezové provedení s otvorem D 11 mm např. svorku KS.

6

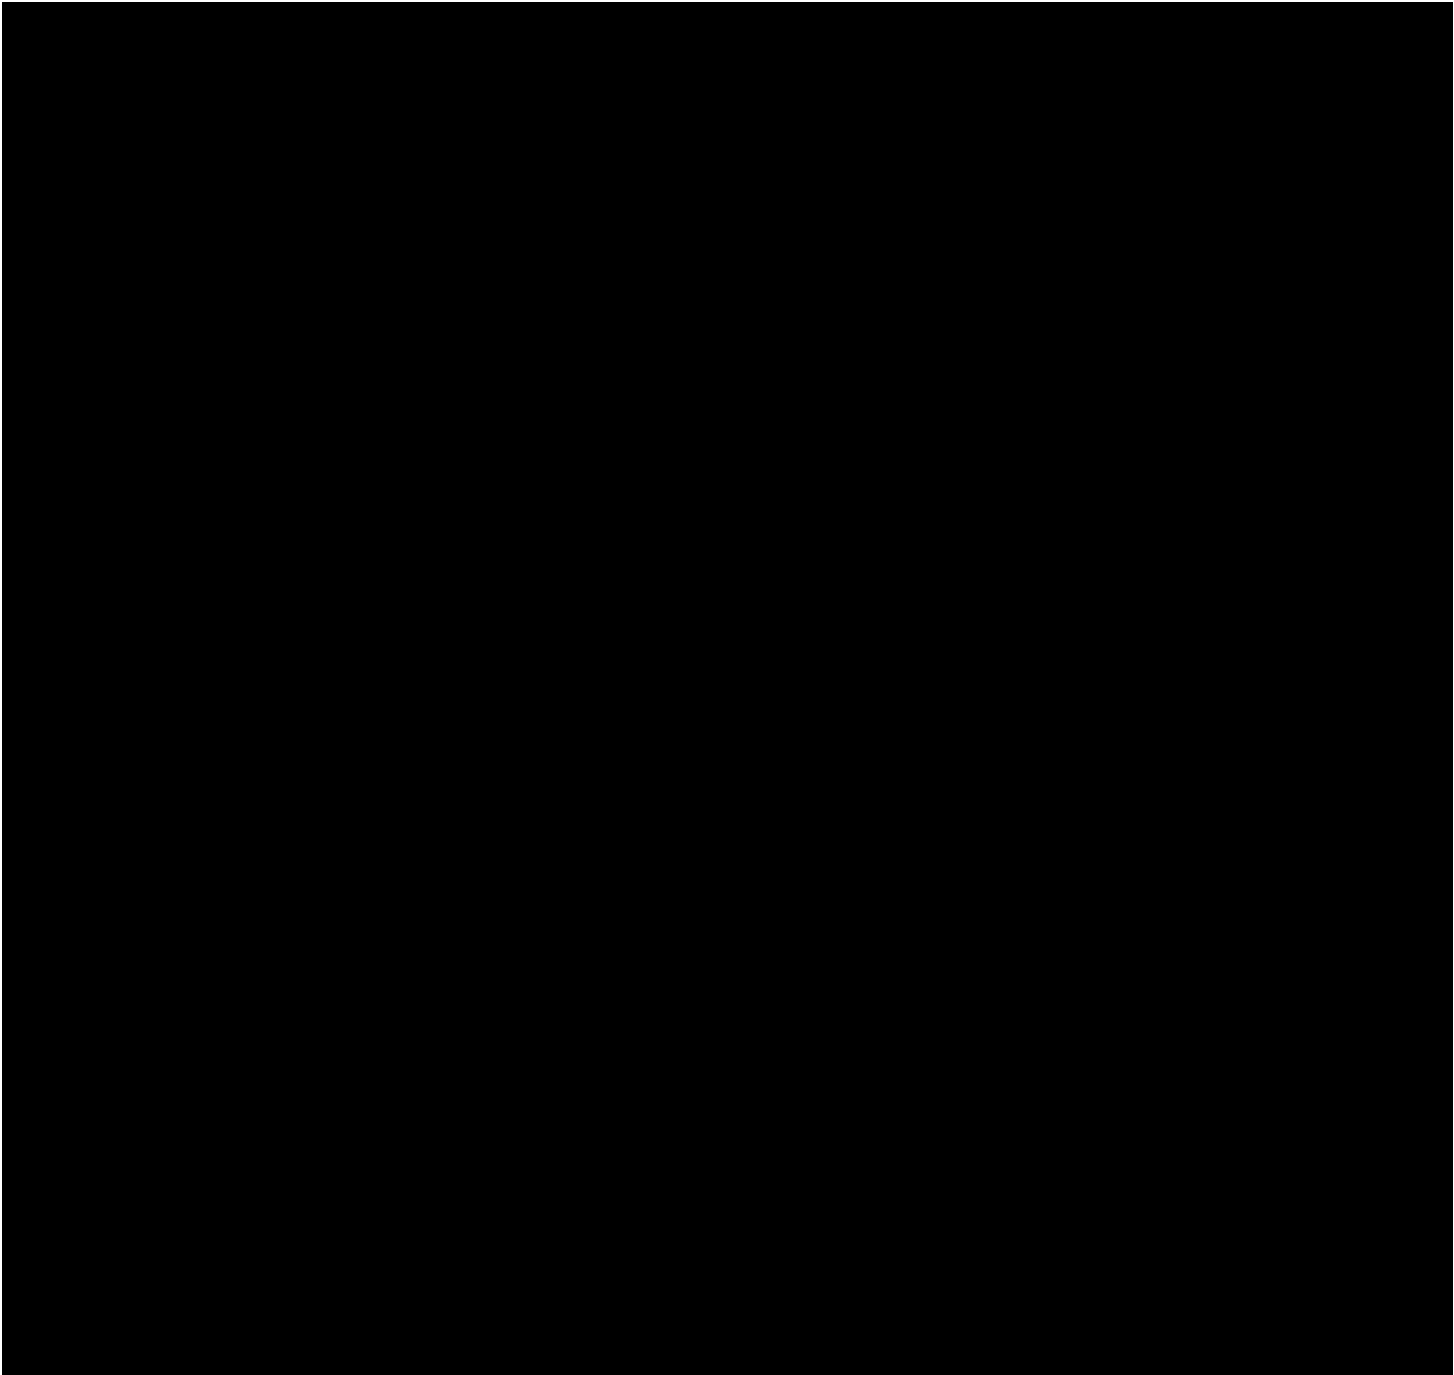

105337 / SR D50 3200 FS2500 IP SA HVI GFK V2A /

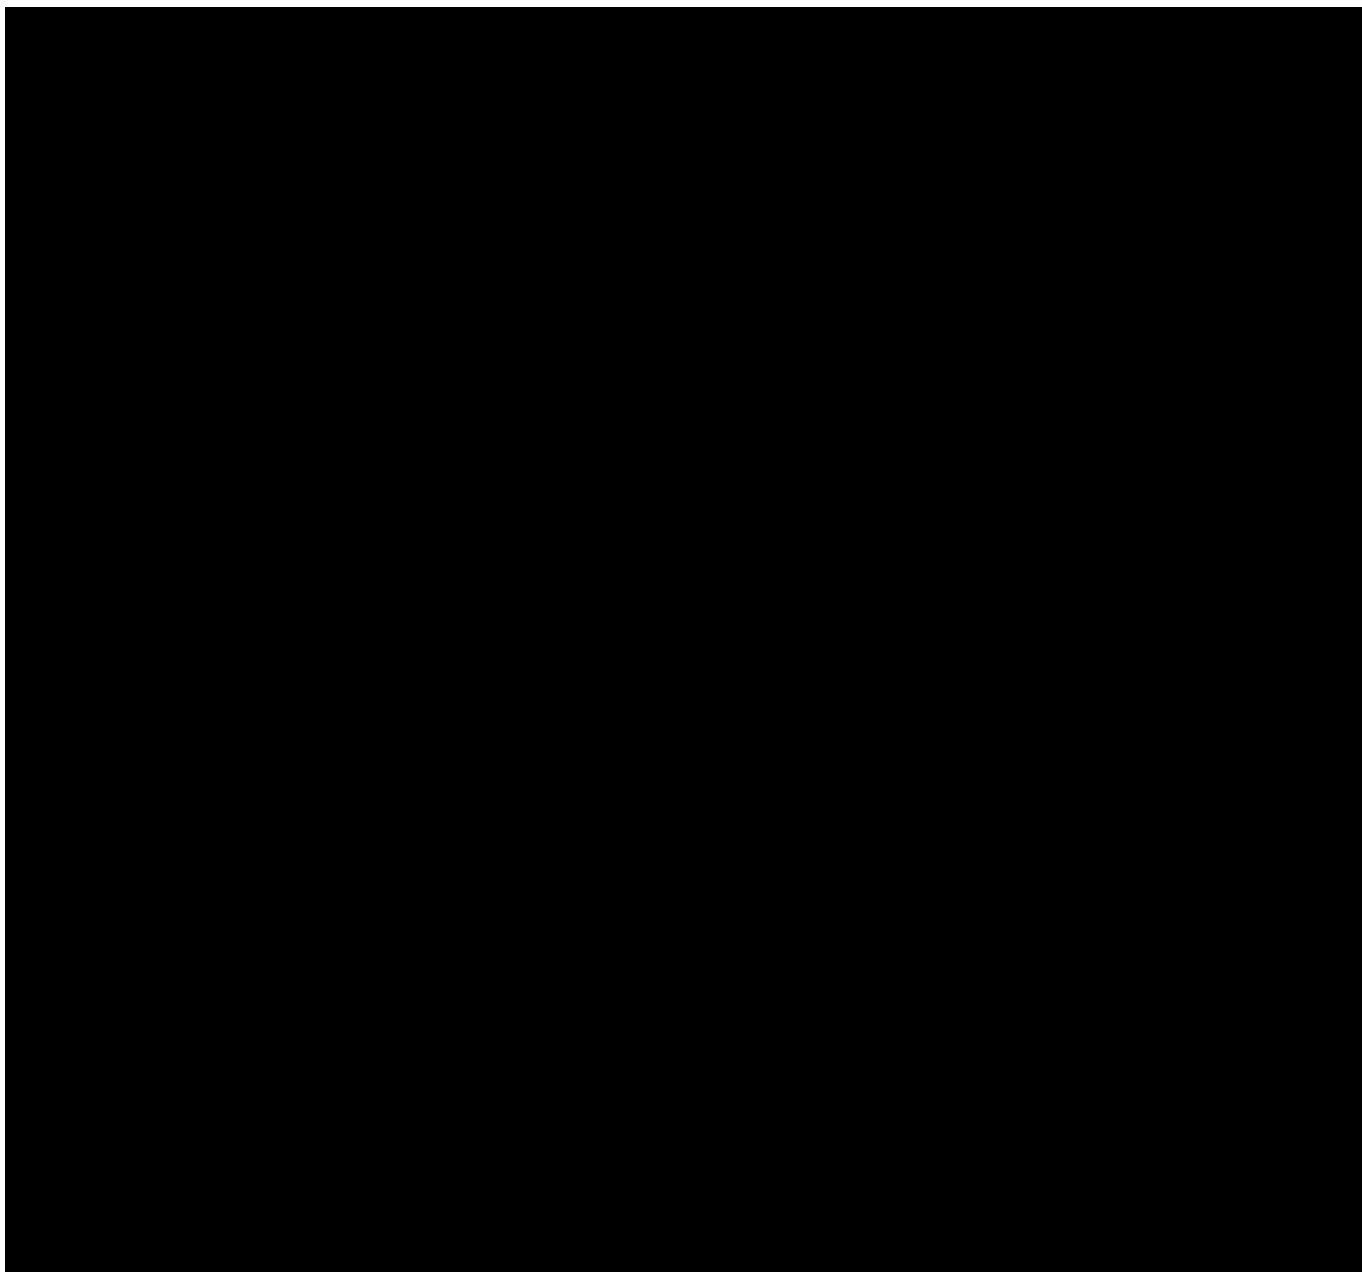

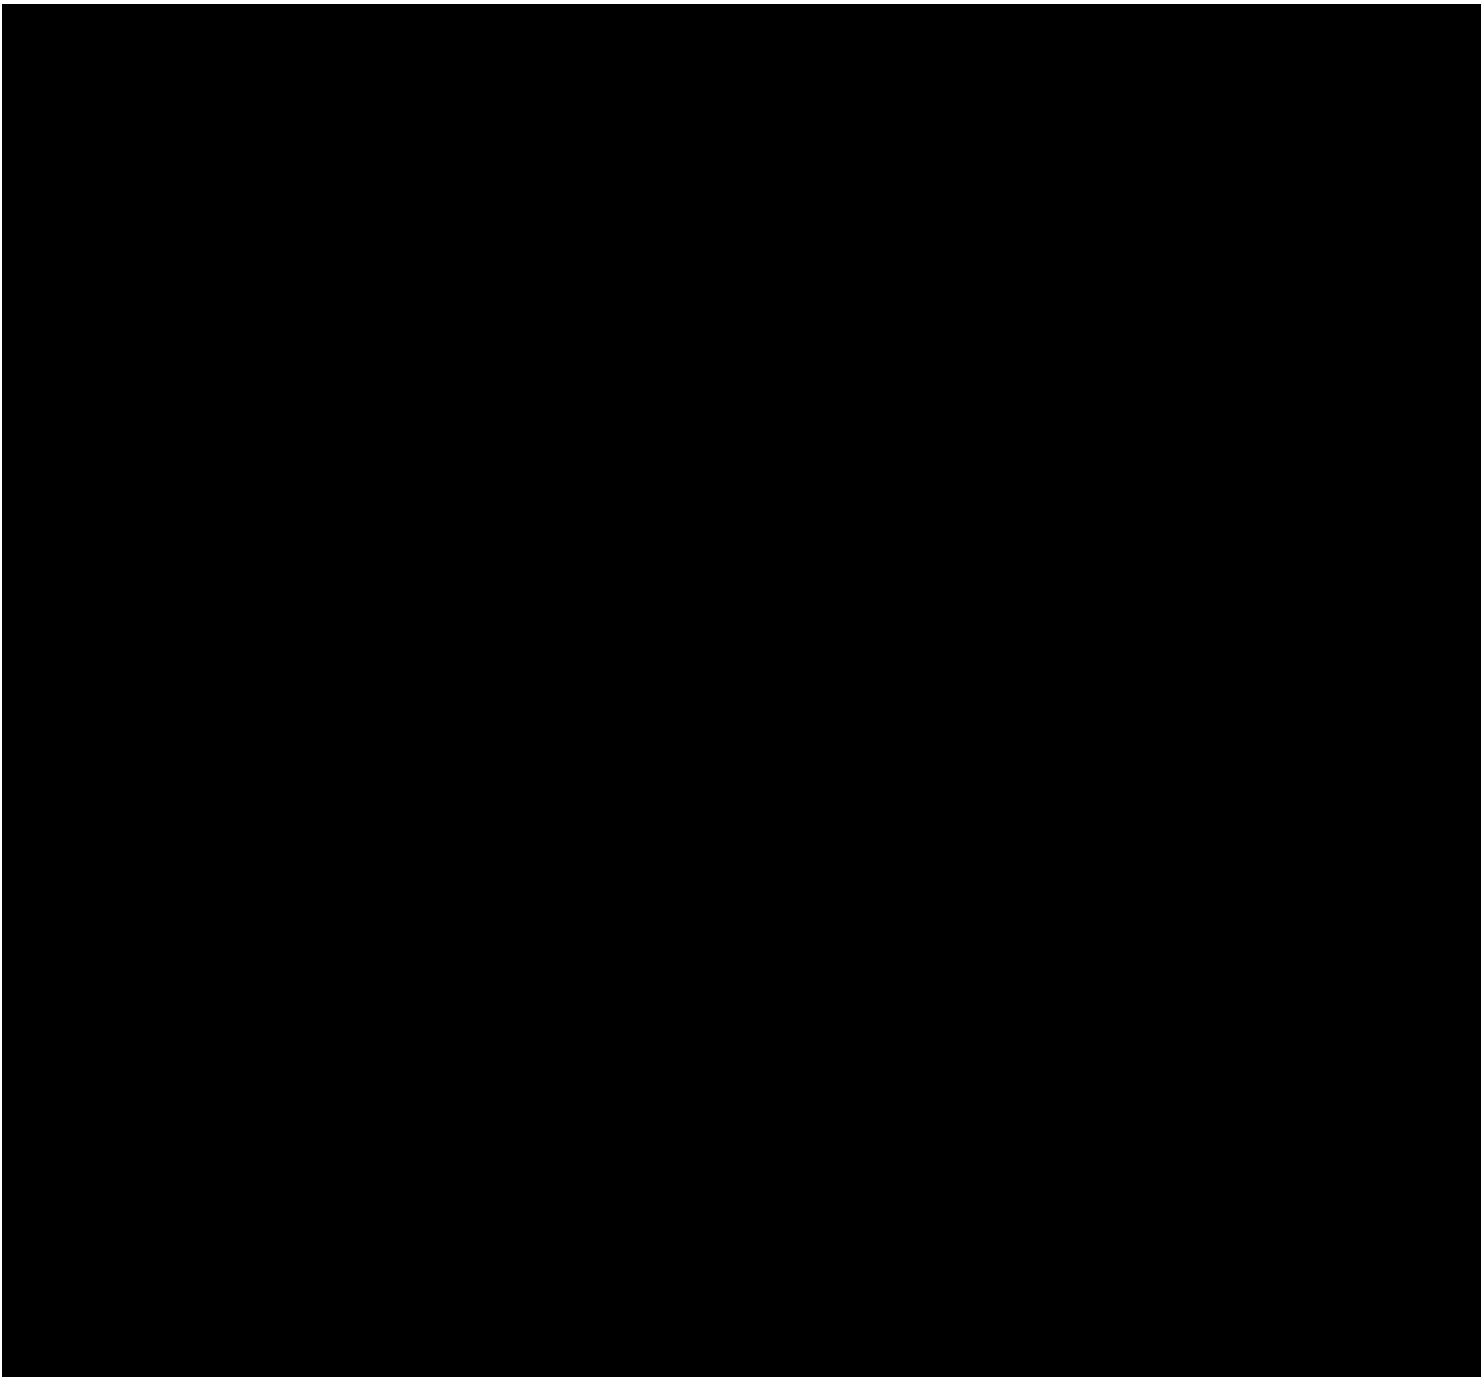

#12 105337 / SR D50 3200 FS2500 IP SA HVI GFK V2A /

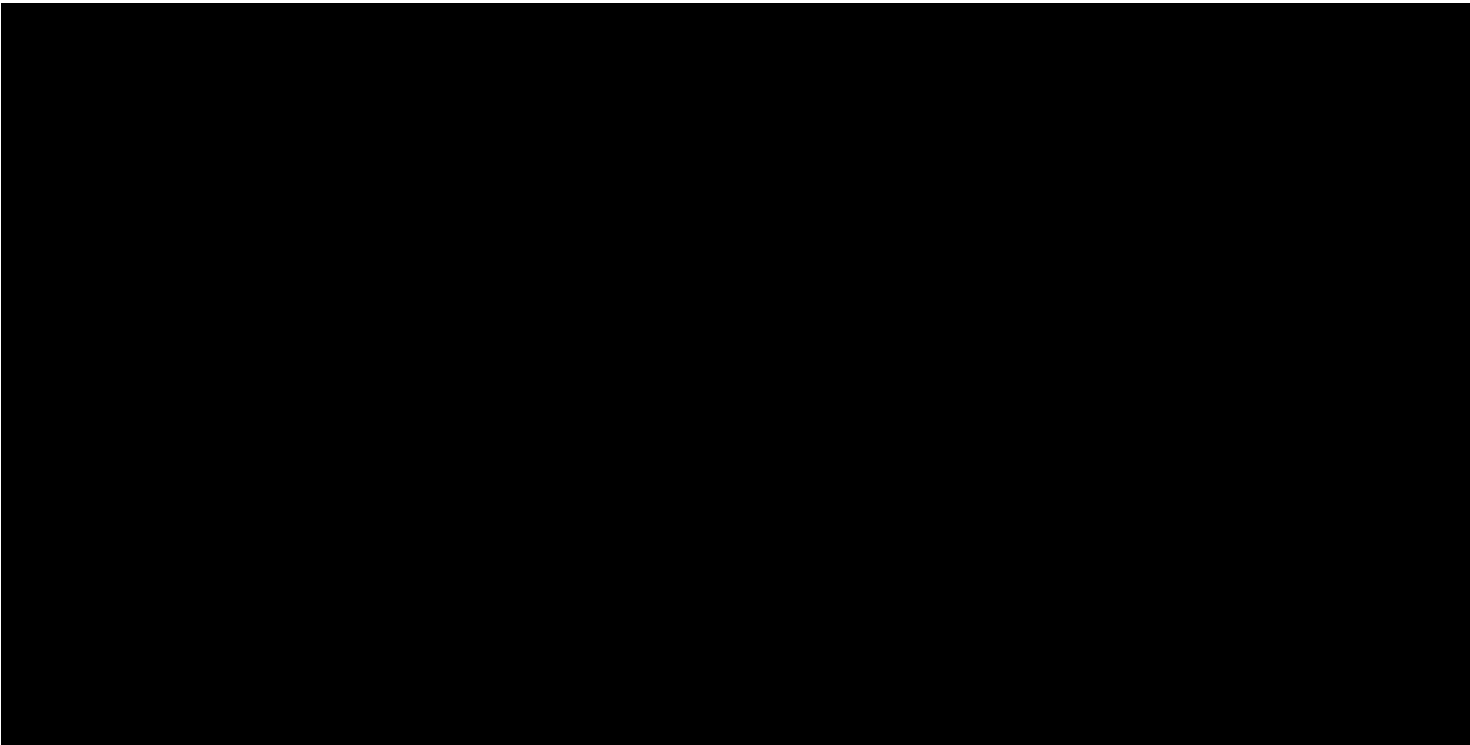

Podpurná trubka GFK/nerez se stranovým vývodem pro stojany, vnitřním připojením a pružinovou PA svorkou, pro vodiče HVI long, s krátkou jímací tyčí, pro instalaci oddálených (izolovaných) jímacích soustav. Systém pro dodržení dostatečné vzdálenosti vůči elektrickým a vodivým částem podle ČSN EN 62305-3. Trubka D 50 mm z umělé hmoty vyztužené skleněnými vlákny (glasfaserverstärkte Kunststoff GFK), s UV odolností, barva světle šedá, koeficient materiálu $k_m = 0,7$. Jednodílné provedení, kombinované s nerezovou jímací tyčí (D 22 / 16 / 10 mm, délka 2500 mm).

The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The second part of the paper describes the methodology used in the study, including the data collection and analysis techniques. The third part of the paper presents the results of the study, and the fourth part discusses the conclusions and implications of the findings.

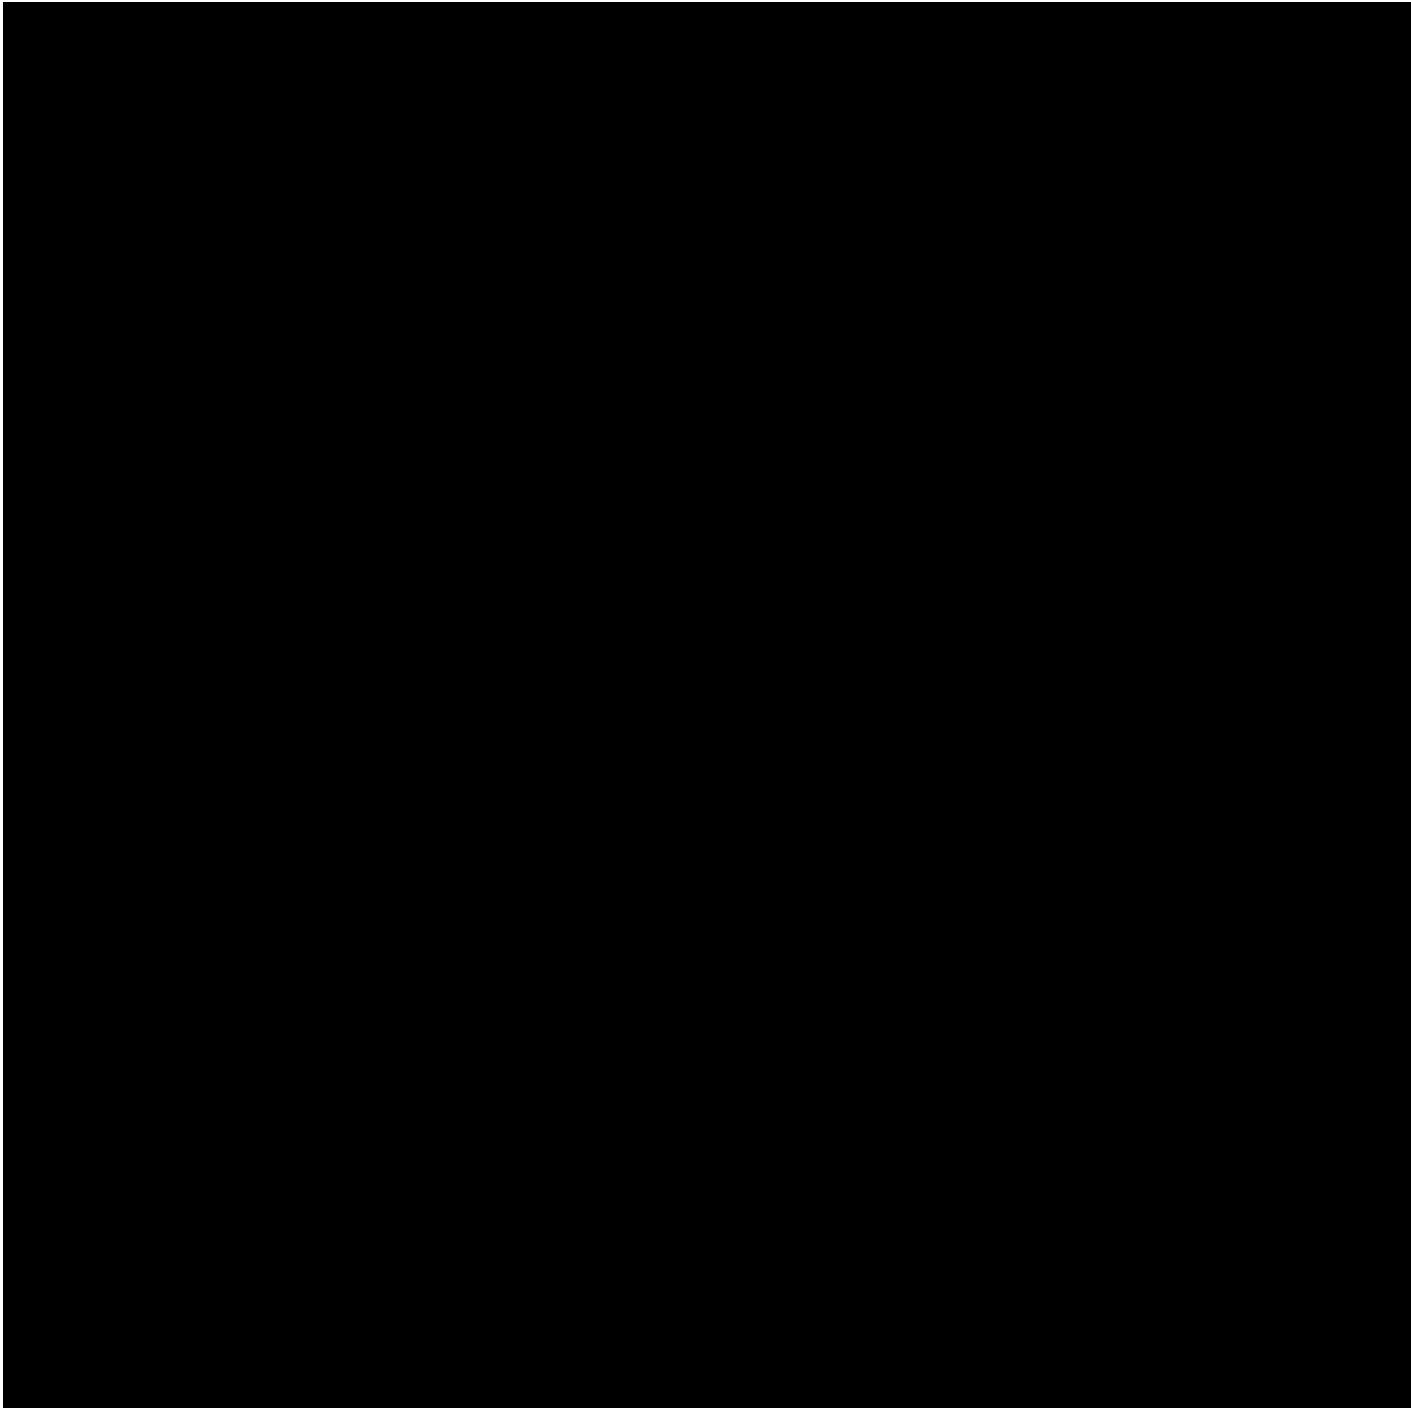

The study was conducted using a quantitative research design. Data was collected from a sample of 100 participants using a survey questionnaire. The data was then analyzed using statistical software to determine the relationships between the variables of interest.

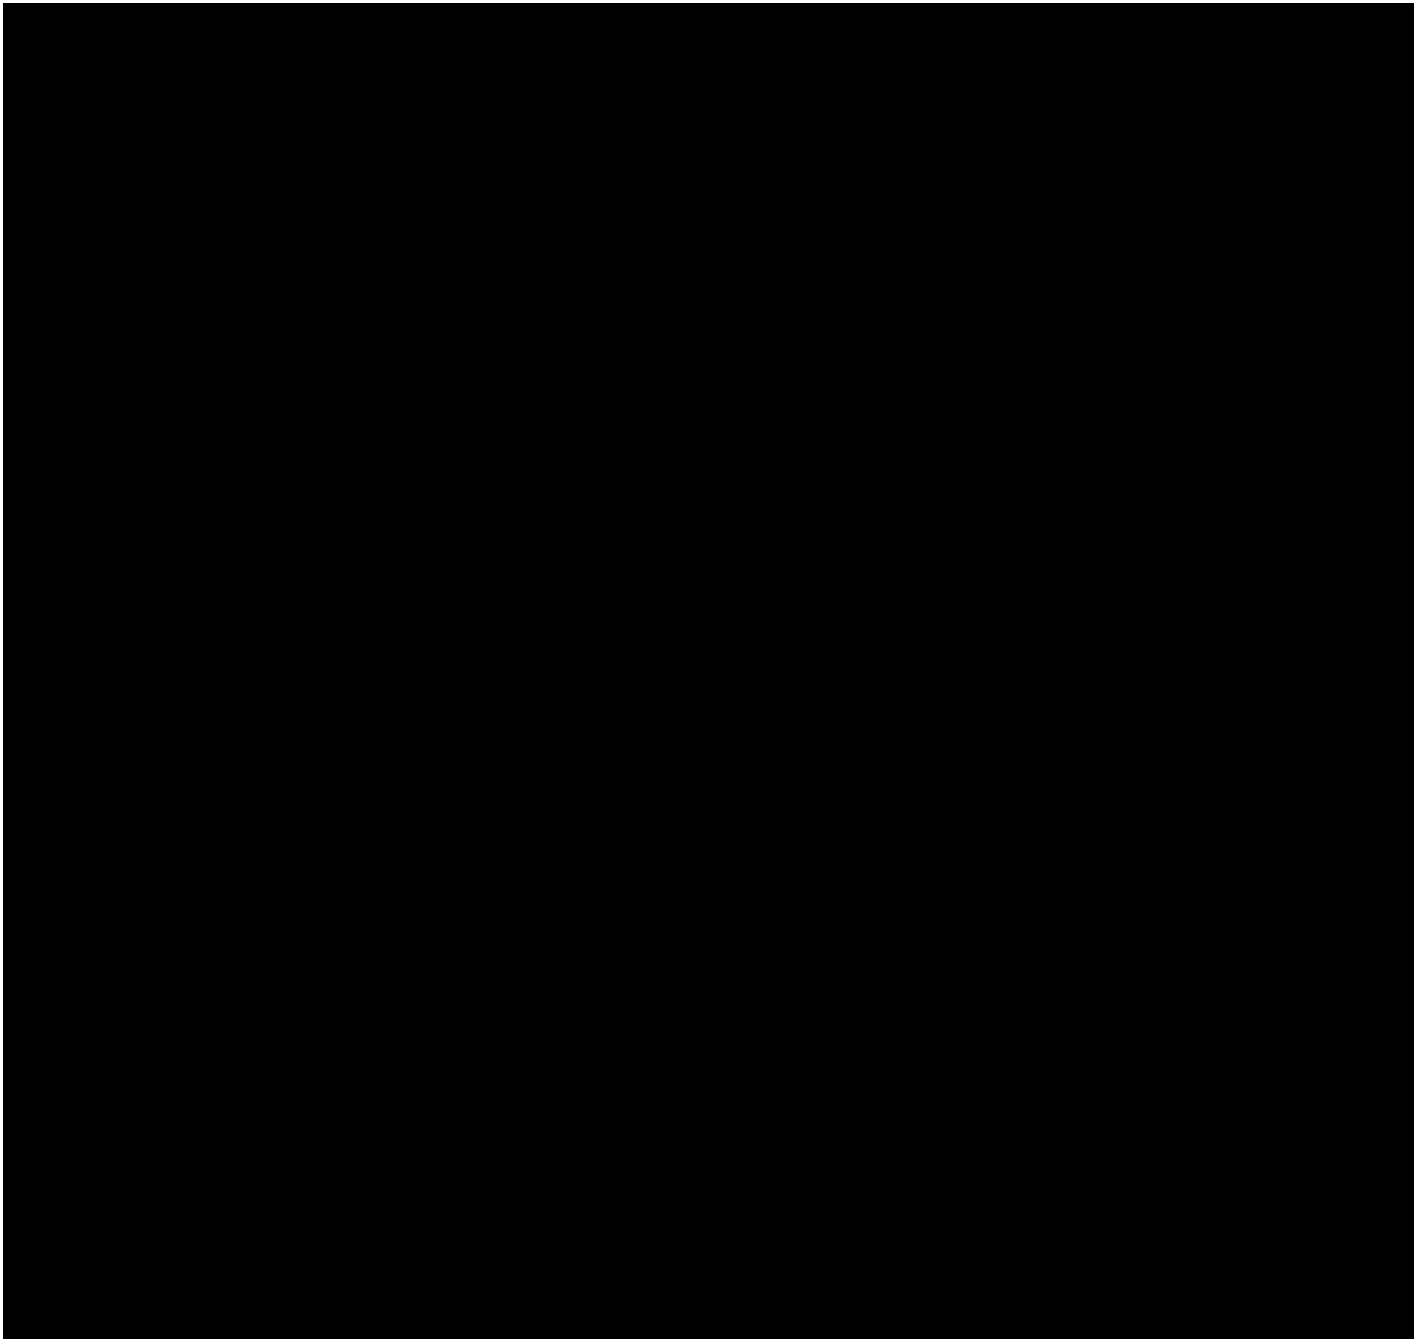

The results of the study indicate that there is a significant positive relationship between the variables of interest. This finding is consistent with the hypotheses of the study and contributes to the understanding of the phenomenon being investigated.

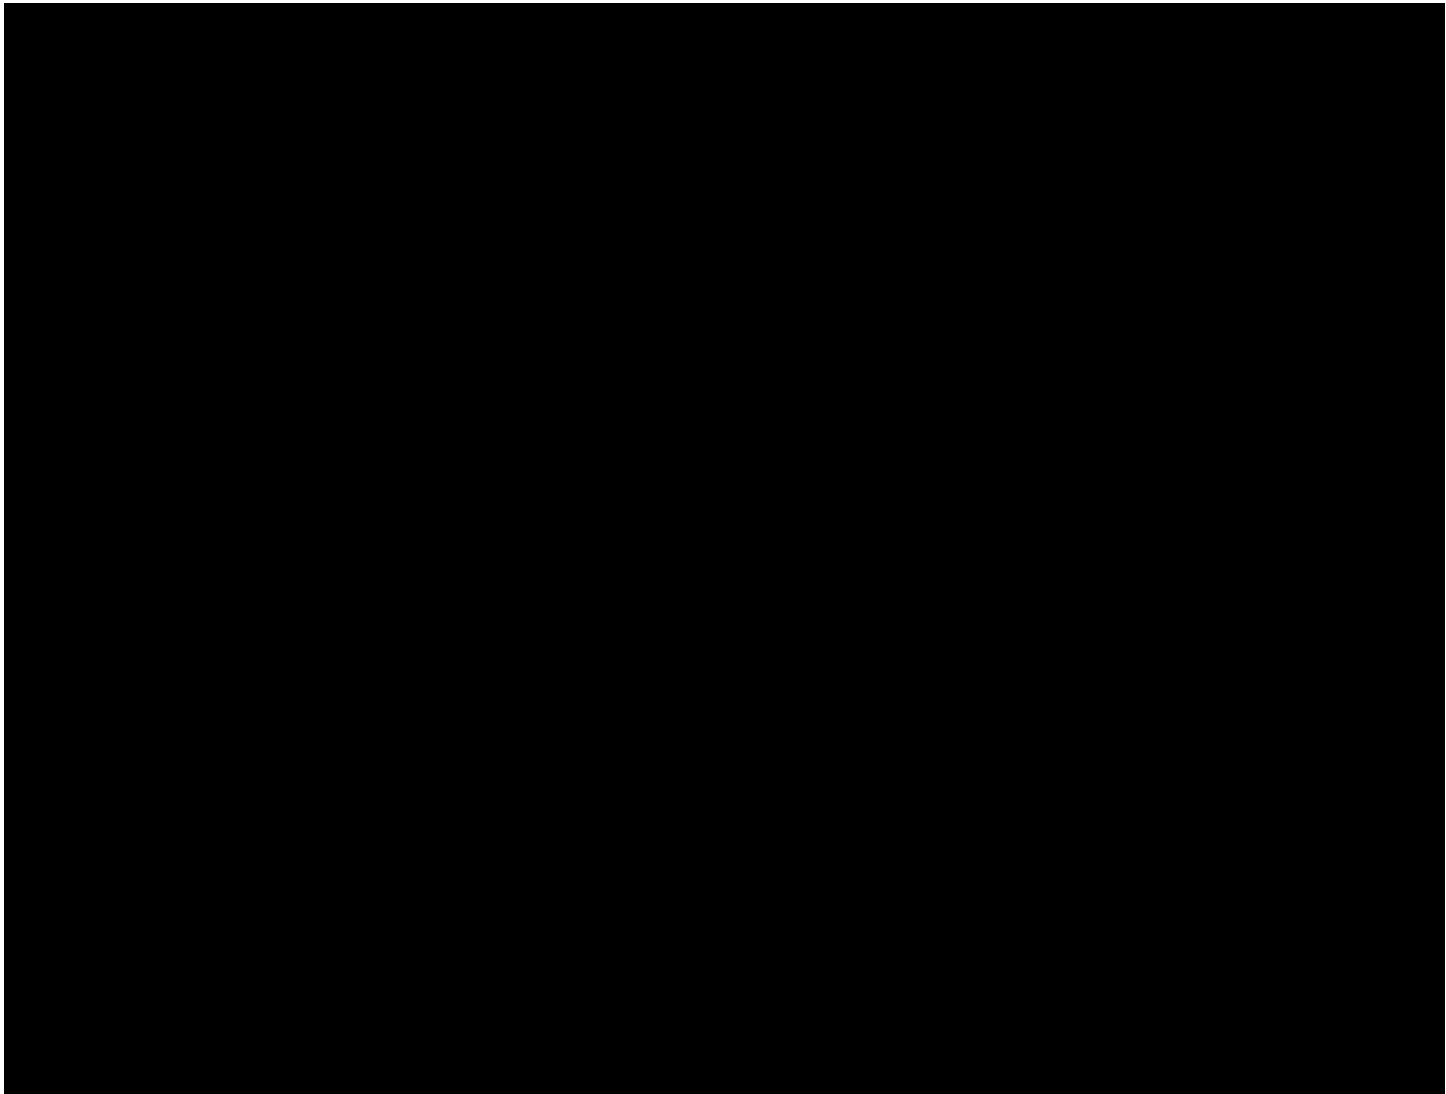

The implications of the findings suggest that there are practical applications for the research. These implications can be used to inform policy and practice in the field of study.

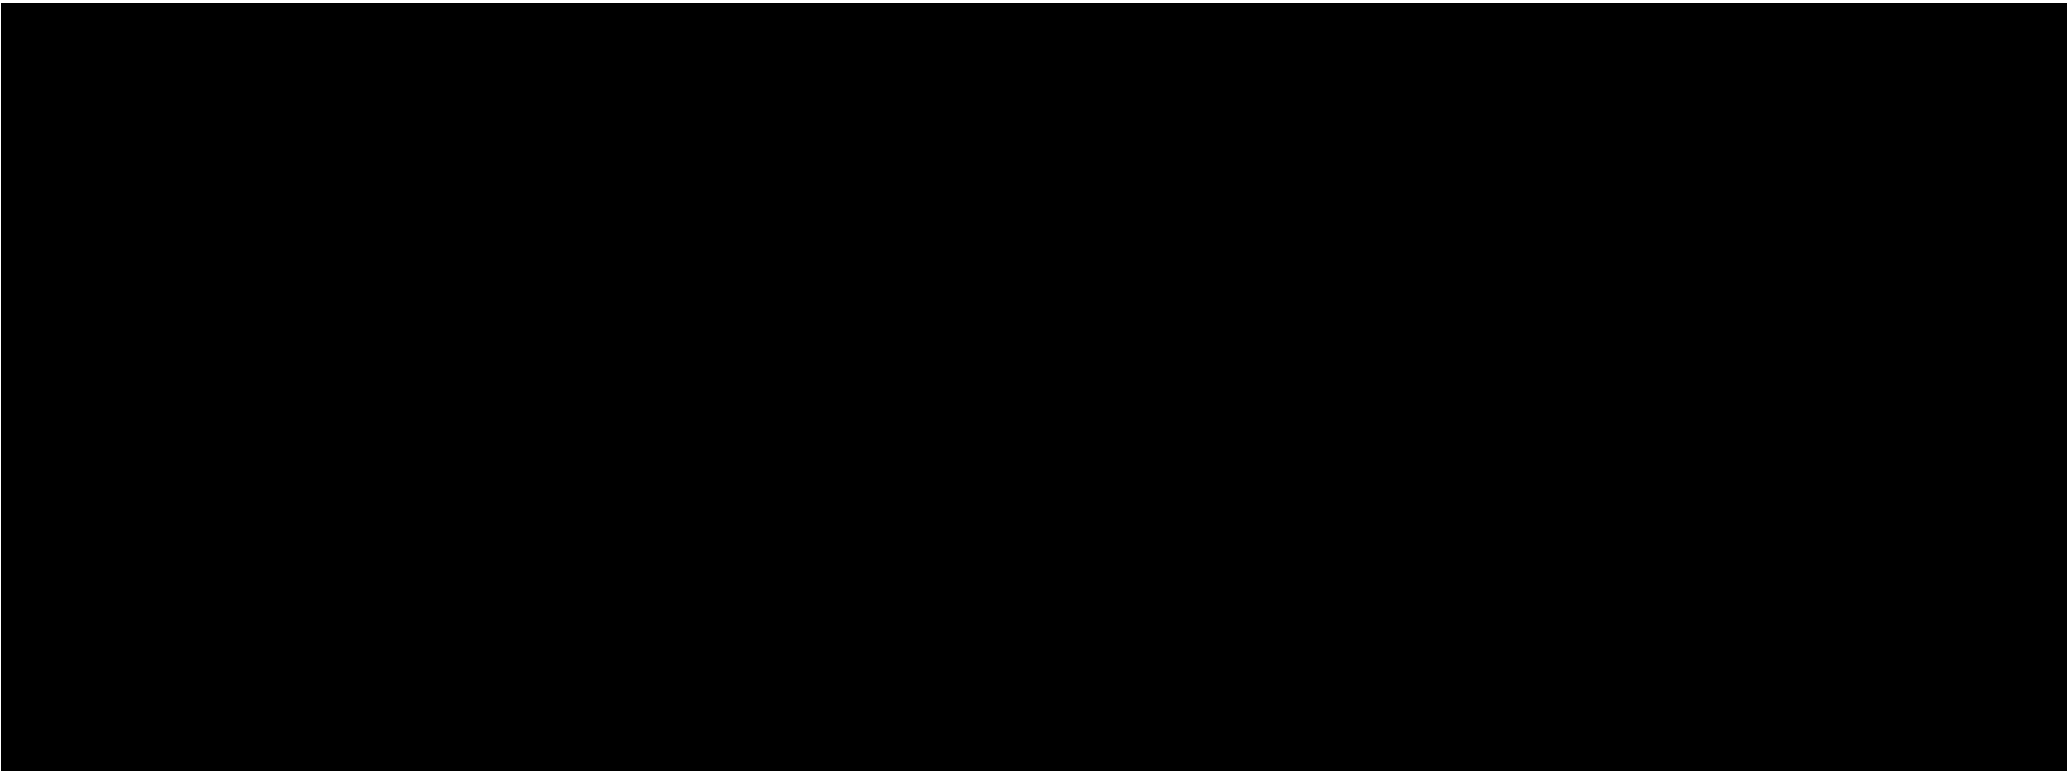

In conclusion, the study has provided valuable insights into the relationship between the variables of interest. Further research is needed to explore the topic in more depth and to validate the findings of this study.
