

ELSEVIER

## Rights and Access

Impact of groundwater solutes on the fate and reactivity of nanoscale iron nitride particles

Based on information you have provided, your publishing options are shown below

### Open access

☒ Publish as an open access article

Make my final published article immediately available to everyone.  
I need to pay an APC (Article Publishing Charge). I and others can share and reuse my article in the ways described by the user license I select.

#### Article Publishing Charge (APC)

List Price (excluding taxes)

EUR 2,960.00

### Subscription

☐ Publish as a subscription article

Make my final published article immediately available to journal subscribers, and to other groups as part of [Elsevier's programs](#).

I understand I can immediately share my article within my institution and privately with collaborators, and share my accepted manuscript
