Limited use

6. The use of the Library is subject to the Client's acceptance of the terms and conditions of this Quotation. If Client does not accept these terms, then the Client shall not issue a purchase order for the supply of this Library.
7. The purchase of the Library conveys to Client a non-transferable right to use the purchased quantity of the Library compounds for its **Own Research Use** ("ORU") only. In this Agreement, ORU means any Client research activity performed to obtain novel chemical matter derived from the use of Enamine Library compounds provided under this Agreement.
8. As a material condition of Enamine providing the Library to Client, Client shall not, directly or indirectly, use the Library for any purposes other than ORU and only then in accordance with the terms of this Quotation. Enamine acknowledges and agrees that the Client will use the Library for the purposes of generating or creating compounds intended for commercialization, and hereby is authorized to utilize the Library for the purposes of generating a compound for sale and shall not be restricted from commercializing a product using the Library.
9. Client shall not (i) transfer for selling, or otherwise distribute the Library or any portion thereof to any third party, whether alone or in combination with other materials, except for such transfers as required for ORU; (ii) sell the Library or any portion thereof to any third party, whether alone or in combination with other materials; (iii) modify the Library for resale; (iv) use the Library to offer commercial services to third parties, without prior written approval from Enamine and subject to a separate royalty-bearing license agreement.
10. In case the Client requests the Library to be delivered to contract research organization (CRO), the Library shall remain under full control of the Client during its whole lifetime at CRO and shall exclusively be used for Client's ORU purposes only.

Disclaimer

11. The Library is intended for research and development laboratory use only, and, unless otherwise stated in this Quotation, is not to be used for any other purposes, including but not limited to in vitro diagnostic purposes, the uses in foods, drugs, or medical devices. Client acknowledges that Enamine has not tested Library for safety and efficacy in foods, drugs, or medical devices. Client expressly represents and warrants to Enamine that Client will properly test and use Library and/or materials generated from Library. Library should be handled only by competent, suitably trained persons, familiar with laboratory procedures and potential chemical hazards. Library is supplied under the condition that the Client alone accepts total responsibility for its uses and any misuses, and for the safe disposal of Library. Client has the responsibility to verify the hazards and to conduct any further
