System requirements and conditions of the distinct software editions, licence technologies, and licence types are defined in the document "**PowerFactory Software Editions and Licensing**" as available on our download area: <https://www.digsilent.de/licence-types>

## 2 Services rendered by DIGSILENT

2.1 On the basis of the "DIGSILENT Licence Contract", DIGSILENT will supply the PowerFactory Software as softkey (**PC bound licence, not working for virtual machines**) plus online manual and online installation package.

USB keys and installation DVDs are available optionally. Related costs can be found under point 3.2.

2.2 Optional training and instruction of **VSB - Technical University of Ostrava** staff, in order to familiarize them in detail with the software functions, documentation and applications.

- 2.3 Maintenance of the software during its use, as described in the "Licence Agreement" free of charge for 12 months. This maintenance includes support through hot-line service per customer portal and telephone. Access to updates and software extensions, as well as information about technical references, tutorials and FAQs, etc.
- 2.4 The period of maintenance can be extended after expiry of the guarantee-period if the customer so desires. For this purpose, a software maintenance contract has to be agreed upon.
