Nabídka

Dle vašeho zadání jsme pro Vás připravili nabídku, která propojuje špičkové bezpečnostní technologie s výkonnými a spolehlivými infrastrukturními prvky. Cílem této nabídky je poskytnout Vám robustní, škálovatelný a bezpečný základ pro každodenní provoz Vaší organizace. Součástí řešení jsou moderní nástroje kybernetické bezpečnosti – od pokročilých firewallů, přes systém pro centrální logování a detekci hrozeb, až po pravidelné testování zranitelností. Tyto technologie pomáhají včas odhalit a eliminovat potenciální rizika dříve, než mohou ovlivnit chod Vaší organizace.

Níže v nabídce jsou uvedeny konkrétní technologie, které nabízíme s ohledem na požadované technické parametry dle požadavků Zadavatele včetně požadovaného rozsahu prací.
