použitý materiál

Proflex® Hardcourt

Proflex® Hardcourt is an economic surface favoured by many players.

The **Proflex® Hardcourt** system delivers on aesthetics, pace, comfort and play characteristics.

The **Proflex® Hardcourt** system has excellent durability due to the hardwearing **Proflex® Acrylic** coatings.

Proflex® Hardcourt has been the chosen surface for many professional events including ATP 250-500, Davis Cup, Fed Cup, WTA and Billie Jean King Cup. **Proflex® Hardcourt** has featured as the surface for professional wheelchair tournaments worldwide.

Although **Proflex® Hardcourt** is primarily a tennis surface it is also an excellent choice for multiuse games areas.

ITF Pace Classification

Proflex® Hardcourt is classified by the ITF in Pace Classification 2 (Medium-Slow). However, by varying the formulation of the components used in **Proflex® Hardcourt** it is possible to produce surfaces with ITF Pace Classifications of 1(Slow) through to 5(Fast).

Proflex® Hardcourt is suitable for use in conventional and wheelchair tennis playing.

The Environment

The materials used in these surfaces are environmentally friendly, using recycled rubber for the cushioning mat, together with solvent free adhesives and water-based polymer coatings.

Maintenance

Please refer to the product's current maintenance guide and instructions.

Colour Range

The standard range of colours comprises those shown here.

Please note, actual colours may differ considerably from those illustrated. Any other choice of colour can be formulated on request.
