Dear Jörg,

Hope this e-mail finds you well.

We are in charge of the transport of the Havekost works from Dresden to Prague (Galerie Rudolfinum).

We are planning to come this Thursday with the arrival to Dresden around noon.

Would you please confirm if this the address of loading:

Gebr. Lehmann

Görlitzer Str. 16, 01099 Dresden

Additionally, we will bring soft packing material for works which are not crated. I was wondering if we could bring silk paper as an alternative to tyvek?

Looking forward to your reply.

Best regards,

Veronika

Subject: Loans / and Shipping

Dear David,

hope you are fine. From our side everything seems well and we are looking forward to the pick up from Dresden.

We have some small framed prints by Havekost for the Sponsor (Ostsächsische Sparkasse), which we want to give to your transport too. It would be no more than a larger moving box and the Sparkasse will pick it up at Rudolfinum personally.

We have had organized the shipping of the private loans from Düsseldorf, Hamburg and Berlin and the loans from Hussenot to Dresden. So your shipper will have them all together here in Dresden.

Please let your shipper know, that he should have enough packing material (Bubble foil, Cardboard and Tyvek). Thank you.

If you have any question, please let me know.

Best, Jörg
