Dear Dr Koudelka,

Re: "Unsupervised Electric Signal Separation for Linking Behavior and Electrocommunication in Gnathonemus petersii"

We're delighted to let you know your manuscript has now been accepted for publication in Scientific Reports.

Editor comments

Based on the reports received on subsequent revision with my own assessment, I am pleased to inform you that the manuscript is now being recommended for publication in the journal.

Licence to Publish and Article Processing Charge

As the corresponding author of an accepted manuscript, your next steps will be to complete an Open Access Licence to publish on behalf of all authors, confirm your institutional affiliation, and arrange payment of your article-processing charge (APC). You will shortly receive an email with more information.

Checking the proofs

Once we've prepared your paper for publication, you will receive a proof. At this stage, please check that the author list and affiliations are correct. For the main text, only errors that have been introduced during the production process, or those that directly compromise the scientific integrity of the paper, may be corrected.

Please make sure that only one author communicates with us and that only one set of corrections is returned. As the corresponding author, you are responsible for the accuracy of all content, including spelling of names and current affiliations.

To ensure prompt publication, your proofs should be returned within two working days.

Please note that your article cannot proceed to publication if the publishing agreements and proofing process have not been completed. In order to avoid any delays, please ensure that you have emails from Springer Nature (@springernature.com) whitelisted in your mail system.

Publication is typically within one to two weeks after the proofing process and the publishing agreements have been completed. Please note there will be no further correspondence about your publication date. When your article is published, you will receive a notification email. If you are planning a press release, contact scirep.production@springernature.com before submitting the proofs to arrange a specific publication date.

Publication policies

Acceptance of your manuscript is conditional on all authors agreeing to our publication policies at: <https://www.nature.com/srep/journal-policies/editorial-policies>.

Your article will be open for online commenting on the Scientific Reports website. Please use the report facility if you see any inappropriate comments, and of course, you can contribute to discussions yourself. If you wish to track comments on your article, please register by visiting the 'Comments' section in the full text (HTML) version of your paper.

A form to order reprints of your article is available at <https://www.nature.com/reprints/author-reprints.html>. To obtain the special author reprint rate, orders must be made within a month of the publication date. After that, reprints are charged at the normal (commercial) rate.

Once again, thank you for choosing Scientific Reports, and we look forward to publishing your article.

Kind regards,

Amitkumar V. Jha
