Attachment No. 4 Logistic data report

SITE NAME : UJEP
UPDATE DAILY TILL 9:00 UTC +1, CENTRAL EUROPE FOR PREVIOUS DAY
No change of past inputs.
Data are reported only for previous day, not cumulative!
No empty cells allowed, if "zero", please type in 0.

explanation	DYNAMIC OBJECTS	Date	7/1	7/2	7/3	7/4	7/5	
-> If you do not convert, you have 0	How many videos do you have before or	# of	0	0	0	0	0	0
-> How many videos you have ready for ANNOTATION? -> Data on HDD waiting for copying to NAS into FOR_DISTRIBUTION (incl. compressed and decompressed converted data from the delivery on previous day), -> Videos in the folder FOR_DISTRIBUTION on NAS, -> Untouched videos already distributed to annotators	How many videos do you have after conversion for annotation on site?	# of videos/previous day						
-> If you do not convert, you have 0	How many videos did you scrap in the	# of						
-> Videos postponed and later hopefully possible to annotate (Too complex videos or data with lower priority or pending customer clarification)	How many videos did you postpone?	# of videos/previous day						
-> Recycled videos after change of rules, previously postponed complex traces, data reopened after receiving of customer clarification (If some video changes status from not annotatable to annotatable, means previously scrapped or postponed, these videos will be given to stock as "recycled", but no need to change previously reported rows 10 and 13)	How many videos did you "recycle"?	# of videos/previous day						
-> How many videos you have ready for VALIDATION? (videos already distributed to validators = annotatable + not annotatable + postponed)	How many videos do you have after annotation for validation on site?	# of videos/previous day						
-> All not annotatable videos	How many videos did you scrap as not	# of						
-> BOTH ANNOTATED AND VALIDATED (completed videos are only videos after annotation and validation, scrapped videos cannot be counted into number of completed videos) ->Data ready for delivery	How many videos do you have ready for delivery? (annotated AND validated)	# of videos/previous day						
-> converted, unconverted, compressed, decompressed	How many new videos did you receive for annotation?	# of videos/previous day
