Swift code: POLUPLPR

signed as "partner school "and represented by , director of the school

came to an agreement that

1. The grant beneficiary – the coordinator is responsible for the project's financial management and its charging to the Visegrad Fund. Thus, the partner school agrees to provide all the documents that the coordinator requests and needs for the project's financial management.
2. The grant beneficiary – the coordinator is responsible for the registration, report, and the evaluation of all the project data within the Visegrad Fund system, i.e., in particular for the register of mobilities and participants, the record of all the meetings, the register of financial data and processing of ongoing and final reports. For this reason, the partner school agrees to provide the coordinator the full assistance by the ongoing reports and final charging of the project.
3. **The partner school receives from the coordinator part of the grant of 4500 euros in installments listed in the following table.** The payments will be sent to the account stated in this agreement. The partner company undertakes that this grant will be used according to the rules of Visegrad Fund and that accounting documents will document all the expenses. The partner school will specify the budget for materials and expenses needed for the project work itself within the categories. The copies of all the accounting documents concerning the grant's use must be sent to the coordinator within two weeks from the request continuously throughout the project.

Payments schedule		
Total	1st payment	Additional payment
4500	3500	1000

The additional payment will be made based on a report on the project activities already carried out and a summary of the funds' drawdown.

4. Regarding the project objectives and outputs, the partner school agreed to meet the project targets as follows:

- taking part in the 1st project meeting
- organization of the 2nd international meeting as planned in the application
- uploading material from both international meetings to a shared repository
- dissemination of the project in local community
- creation of a project team, including possible alternates
- modification pages of school (upload articles, photos, videos about project)

Furthermore, it looks after the precise development of tasks arisen from transnational project meetings and their hosting.

Is responsible for the dissemination activities in the country of the applicant.
