Subject: Offer for the change of your sky imager Sky InSight™'s camera

Reference number: CO-2025-171

Please find below the offer for the change of your Sky InSight™'s thermal infrared camera.

I hope that this offer meets your expectations, and look forward to working with you.

Yours sincerely,

[REDACTED]

1 Your needs

Following your email discussions with Jonathan Hié the last few weeks, we suggest to have the Sky InSight™'s thermal infrared camera changed. This new camera will have a guarantee of 3 months.

A re-calibration process of approximately 3 weeks will be done on our test bench in Toulouse. It includes a verification of the instrument's proper refurbishment, and a correlation step with reference instruments including a pyranometer and another Sky InSight™ to verify that the data gathered are consistent. This process usually costs EUR 2 500 excluding taxes, but we would like to provide this graciously to GLOBAL CHANGE RESEARCH INSTITUTE CAS in order to show you our commitment to your project.

2 Price offer

Reference	Details	Price in EUR excl. taxes	Discount	Total price in EUR excl. taxes
Thermal IR camera	Replacement of the camera with a second-hand one	5,755.00	-	5,755.00
Calibration	As described in §1	2,500.00	100%	0.00
Total				5,755.00

3 Terms and conditions

3.1 Invoicing terms

A 100% deposit is invoiced at order.

Our payment conditions are net 30 days from the date of invoice.

3.2 Delivery terms

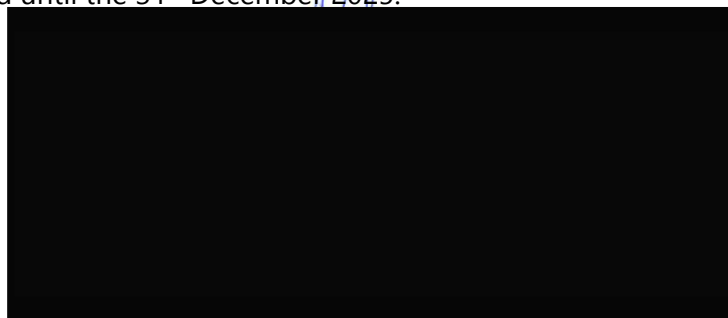

GLOBAL CHANGE RESEARCH INSTITUTE CAS will need to organise the DAP (FR-Toulouse) shipment to have the instrument shipped to our Toulouse office.

The upgraded imager will be ready for transport once the refurbishment and calibration processes are over, approximately 4 weeks (with a minimum of 2 weeks of "good" weather) after the instrument is received on site. Reuniwatt will notify GLOBAL CHANGE RESEARCH INSTITUTE CAS as soon as it is the case so they can organise the EXW (Toulouse, France) transportation.

3.3 Validity period of the offer

The tariffs aforementioned are valid until the 31st December 2025.

Kind regards,

Founder and CEO of Reuniwatt SAS
