		any GPA party, except Canada.	

Note that if a given country does not figure on the above list, bidders from that country are neither entitled to participate, nor prohibited from participating, in this procurement.

It is for the contracting entity to assess whether economic operators of those countries should be admitted to the procedure and, if it decides to admit them, whether provision should be made for an adjustment of the result arising from a comparison between the tenders submitted by those operators and those submitted by other operators. It is open to the contracting entity to set out, in the procurement documents, arrangements for treatment intended to reflect the objective difference between the legal situation of those operators, on the one hand, and that of economic operators of the European Union and of third countries which have concluded such an agreement with the European Union, on the other hand.
