Product name: Dolphin Imaging – Annual support contract renewal

Offer type: Annual subscription – renewal of Dolphin Imaging support and license

Software description:

Dolphin Imaging is a professional software designed for orthodontists. It is used for orthodontic diagnosis, treatment planning, and clinical education. The software enables the digital and structured analysis of orthodontic images and patient data. This license and the related support contract are used exclusively for educational purposes in the field of orthodontics, including teaching, training, and academic clinical activities.

This document is issued as an attachment to the price quotation for administrative and contractual purposes.
