Hi [REDACTED],

I accept the order.

Have a nice day,

[REDACTED]

Hi [REDACTED],

I would like to ask you to officially accept the order. It is enough if you just answer to this email that you accept it or write it physically on the paper, scan it and send it back to me, however you want. In english/czech.

We need your official acceptance to process the order.

Thank you

Best

Hi [REDACTED]

I am writing to share my estimated budget for the 10-year ESA BIC show on May 4.

Concept: 5000 Kč

Data processing: 8000 Kč to 10,000 Kč

Visual system development: 12,000 Kč to 15,000 Kč

Projection mapping: 10,000 Kč to 15,000 Kč

Kinetic synchronization: 10,000 Kč to 15,000 Kč

Testing and iteration: 5000 Kč to 10,000 Kč

On-site setup: 5000 Kč to 7000 Kč

Estimated total: 65,000 Kč

My details:

[REDACTED]
ICO: 09804811

Čechova 225/10

170 00 Praha - Bubeneč

I would also like to follow up regarding the input data for the projection.

Jann shared your excel file with me, but I wanted to mention that more detailed and time-based data with multiple indicators would be ideal for creating an engaging animation showcasing ESA's development over the past 10 years.

For example, yearly statistics on the number of startups incubated, their sectors, and other characteristics could work well. Another option would be timeline-based data related to the development of individual startups and/or major ESA BIC milestones.

I am attaching screenshots with a possible structure for the data.

Do you have any statistics or datasets like this available?

Best,
