Rue

ZUZANA HRONOVA,
GENERAL ADMINISTRATION EXECUTIVE
SINO-CZECH AVIATION ASSOCIATION

Request for assistance

We hereby express our appreciation to the Government of Czech Republic for implementing the General Aviation Assistance to Mongolia project in relation to Aid for Trade Programme.

"Action Plan of Government of Mongolia for 2016-2020" includes activities aimed at developing general aviation taking into account the current domestic aviation industry, economic situation and the potentials of the general aviation to contribute to transportation needs for the country's vast territory with sparse population.

In order to meet these goals, we are working to get the General Aviation Development Programme approved by the Government of Mongolia and sent you the unofficial translation of the revised version of the programme by e-mail.

However, due to legal requirements to complete internal procedures for approval of the document the implementation of the General Aviation Assistance for Mongolia project has been delayed.

Therefore, considering the importance of this project we kindly request your support in launching the implementation of the project as soon as possible regardless of the approval of General Aviation Development Programme by the Government of Mongolia.

Yours sincerely,

S.Munkhnasan
Head
Air Transport Policy
Implementation and Coordination
Division
