A technical drawing of a land parcel, possibly a survey map or a site plan. The drawing shows a large, irregularly shaped area with several internal lines representing boundaries or features. On the left side, there is a section with a grid of horizontal lines, suggesting a field or a specific type of terrain. The central part of the drawing is mostly blank, with a large red number '15' prominently displayed. The number is oriented vertically, with the '1' on the left and the '5' on the right. The overall appearance is that of a professional technical drawing, likely used in land management or engineering.
