Subject: Re: ELI Beamlines subscription for 2016

Dear Ales,

We understand your situation. Symeon will cancel the previous invoice and issue another with the correct data and amount of 2500 Euro.

Do you think you can attend or send someone to attend the workshop of September on funding opportunities organised by ESS?

I look forward to seeing you in December.

Best regards,

Jean-Marie

Jean-Marie Le Goff, PhD,DPhil

CERN

1211 Geneva 23

>

> 1. the due date on the invoice has to be 1 Jan 2016 and later. On the original invoice, there was 2015.

> 2. the amount on the invoice was 5000 EUR. Actually, due to current financial situation of ELI Beamlines and recent severe budget cuts, it is very difficult to pay this amount. Since ELI ALPS (Hungary) paid 2500 EUR, I find appropriate to pay the same in case of ELI Beamlines - please let me know if it is acceptable for you.

>

> I will participate at a 2-month-stage at TT office at the Leibnitz institute in Berlin in Sep-Oct 2016. Therefore I cannot attend the September steering committee session at CERN. My intention was to discuss this issue with yourself in person in September, however we can resolve it by email or phone, if necessary. Anyway, I am planning to come in December for the annual meeting.
